[Il secolo decimoterzo e  
Giovanni da Procida libri  
dodici di Salv. De Renzi](#)  
University of Oklahoma  
Press

This volume analyses how  
effectively criminal law  
operates as a forum for  
resolving ethical conflict  
in the delivery of health  
care.

*Sophocles' Tragic World*  
Fairleigh Dickinson Univ  
Press

The novella was an  
important medieval and  
Renaissance prose  
narrative form that  
developed out of exempla  
and didactic literature and  
contributed to modern  
narrative forms. This is  
the first collection of  
essays dedicated to  
comprehensive  
scholarship on the Italian  
novella. The essays range  
from work on the  
Decameron, the epitome  
of the genre, to studies of  
sixteenth century authors  
who often utilized  
transgressive or sexual  
themes in their novellas.  
*The City as Catalyst* Adda  
Giuseppe Garibaldi, the  
Italian revolutionary  
leader and popular hero,

was among the best-  
known figures of the  
nineteenth century. This  
book seeks to examine his  
life and the making of his  
cult, to assess its impact,  
and understand its  
surprising success. For  
thirty years Garibaldi was  
involved in every  
combative event in Italy.  
His greatest moment  
came in 1860, when he  
defended a revolution in  
Sicily and provoked the  
collapse of the Bourbon  
monarchy, the overthrow  
of papal power in central  
Italy, and the creation of  
the Italian nation state. It  
made him a global icon,  
representing strength,  
bravery, manliness,  
saintliness, and a spirit of  
adventure. Handsome,  
flamboyant, and sexually  
attractive, he was  
worshiped in life and  
became a cult figure after  
his death in 1882. Lucy  
Riall shows that the  
emerging cult of Garibaldi  
was initially conceived by  
revolutionaries intent on  
overthrowing the status  
quo, that it was also the  
result of a collaborative  
effort involving writers,  
artists, actors, and  
publishers, and that it  
became genuinely and  
enduringly popular among  
a broad public. The book  
demonstrates that

Garibaldi played an  
integral part in fashioning  
and promoting himself as  
a new kind of  
"charismatic" political  
hero. It analyzes the way  
the Garibaldi myth has  
been harnessed both to  
legitimize and to  
challenge national  
political structures. And it  
identifies elements of  
Garibaldi's political style  
appropriated by political  
leaders around the world,  
including Mussolini and  
Che Guevara.  
*A Complete System of  
Astronomical Chronology*  
Yale University Press  
This is a general study of  
the development of higher  
education in Europe from  
antiquity until the end of  
the Middle Ages, set  
against a background of  
the social and political  
history of the period. It  
shows how the slender  
traditions of ancient  
learning, kept alive in the  
monastic and cathedral  
schools, was enriched by  
an enormous influx of  
knowledge from the  
Islamic world and how in  
consequence the schools  
developed into  
universities. These early  
institutions are examined  
from a variety of points of  
view, as institutions, as  
places where ideas spread  
and as points of

interaction with local and national authority. Special attention is paid to early intellectual history and to the scientific disciplines and to the everyday life of the students and their teachers. The book is intended as a broad introduction to the subject for students of the history of education, but it will also attract general readers with only a slight knowledge of the subject.

Drawing on

comprehensive analyses

of all of Sophocles' plays, on structuralist anthropology, and on other extensive work on myth and tragedy, Charles Segal examines Sophocles both as a great dramatic poet and as a serious thinker. He shows how Sophoclean tragedy reflects the human condition in its constant and tragic struggle for order and civilized life against the ever-present threat of savagery and chaotic violence, both within society and within the individual. Tragedy and Civilization begins with a study of these themes and then proceeds to detailed discussions of each of the seven plays. For this edition Segal also provides a new preface discussing recent developments in the study of Sophocles.

Much has been written

about the heroic figures of

Sophocles' powerful

dramas. Now Charles Segal focuses our attention not on individual heroes and heroines, but on the world that inspired and motivated their actions--a universe of family, city, nature, and the supernatural. He shows how these ancient masterpieces offer insight into the abiding question of tragedy: how one can make sense of a world that involves so much apparently meaningless violence and suffering. In a series of engagingly written interconnected essays, Segal studies five of Sophocles' seven extant plays: Ajax, Oedipus Tyrannus, Philoctetes, Antigone, and the often neglected Trachinian Women. He examines the language and structure of the plays from several interpretive perspectives, drawing both on traditional philological analysis and on current literary and cultural theory. He pays particular attention to the mythic and ritual backgrounds of the plays, noting Sophocles' reinterpretation of the ancient myths. His delineation of the heroes and their tragedies encompasses their relations with city and family, conflicts between men and women, defiance

of social institutions, and the interaction of society, nature, and the gods. Segal's analysis sheds new light on Sophocles' plays--among the most widely read works of classical literature--and on their implications for Greek views on the gods, moral life, and sexuality.

Table of Contents: Preface  
Introduction  
Drama and Perspective in Ajax  
Myth, Poetry, and Heroic Values in the Trachinian Women  
Time, Oracles, and Marriage in the Trachinian Women  
Philoctetes and the Imperishable Piety  
Lament and Closure in Antigone  
Time and Knowledge in the Tragedy of Oedipus  
Freud, Language, and the Unconscious  
The Gods and the Chorus: Zeus in Oedipus Tyrannus  
Earth in Oedipus Tyrannus

Reviews of this book:  
"Sophocles' Tragic World is...a lucidly written work of great theoretical sophistication and learning, offering many new insights into the fundamental meaning of the plays." DD--Victor Bers, Bryn Mawr Classical Review  
"[Segal] refutes reductionist attempts to derive from a Sophoclean tragedy a unitary moral or message. The dramas, Segal argues, present

insoluble dilemmas that require the audience to engage with the situations the characters face, the choices the characters make, and the consequences of those choices...This book will be of interest to anyone who wants a fuller appreciation of Sophocles' dramatic art." DD--Andrew Szegedy-Maszak, New England Classical Journal  
"Segal's strengths as a critic are sensitivity to detail, breadth of cultural reference, and open-mindedness; these qualities make his writing rich...This is a book which could enhance any reader's understanding of Sophocles." DD--Greece and Rome  
"A fine collection of nine essays...A richly rewarding collection amply illustrated with specific detailed reference to the texts that one always tries to inculcate in one's pupils: for them, this will be invaluable." DD--Jim Neville, JACT Review  
"Sophocles' Tragic World is an organized collection of nine essays (plus introduction) on five plays, Ajax, Trachiniae, Philoctetes, Antigone, and--especially--OT, to which four of the chapters are devoted. The introduction and three of the essays (one on Ant.,

two on OT) are new; the others are revisions of published articles, dating originally from 1976 to 1993. For several decades now, [Segal] has been so articulate about Greek tragedy, and so productive in his articulations, that one has acquired an unusually sharp sense...of the changing shape and direction that his readings have taken over the years." DD--M.S. Silk, Classical Review  
"Charles Segal has written a superb critical study of five of the seven extant plays by Sophocles...Segal's analytical interests go beyond the usual discussion of the nature of heroic greatness of tragic stature. He is principally concerned with the 'tragic world' which Sophocles depicts...Segal writes in a lucid, jargon-free prose that is also dramaturgy of the highest order...Segal's strength as a critic issues directly from a wide-ranging sensitivity to the epic tradition and a nuanced awareness of the dramatic use of temporal shifts and poetic displacements. Segal's terrific, lucid book should also be required reading for anyone interested in the tragic stature of women in Greek tragedy.

His complex thinking on the subject gives justice to the basic intractability of Sophocles's views on the nature of feminine sensibility." DD--Randy Gener, New York Theatre Wire "This work includes five previously published essays and four new essays. Once more, Segal brings his considerable scholarship to bear on the plays of Sophocles, addressing five of the seven extant tragedies."

No enquiry into the making of the modern European state can ignore the part played by law. This comprehensive scholarly volume examines in detail how states availed themselves of juridical techniques in order to mould their institutions, to take control over their

territory, and to exercise power over their subjects. The contributors are leading scholars in the field, who explore the administration of justice and the promulgation of legislation across Europe over a period of several centuries, in order to uncover the role of the law in the birth and development of the European state. The *Origins of the Modern State in Europe* series arises from an important international research programme sponsored by the European Science Foundation. The aim of the series, which comprises seven volumes, is to bring together specialists from different countries, who reinterpret from a comparative European perspective different aspects of the formation of the state over the long period from the beginning of the thirteenth to the end of the eighteenth century. One of the main achievements of the research programme has been to overcome the long-established historiographical tendency to regard states mainly from the viewpoint of their twentieth-century borders.

**A Dictionary of Proper Names and Notable Matters in the Works of Dante** Cambridge

University Press  
This book investigates the history of writing as a cultural practice in a

variety of contexts and periods. It analyses the rituals and practices determining intimate or 'ordinary' writing as well as bureaucratic and religious writing. From the inscribed images of 'pre-literate' societies, to the democratization of writing in the modern era, access to writing technology and its public and private uses are examined. In ten studies, presented by leading historians of scribal culture from seven countries, the book investigates the uses of writing in non-alphabetical as well as alphabetical script, in societies ranging from Native America and ancient Korea to modern Europe. The authors emphasise the material characteristics of writing, and in so doing they pose questions about the definition of writing itself. Drawing on expertise in various disciplines, they give an up-to-date account of the current state of knowledge in a field at the forefront of 'Book History'.

*Storia d'Italia: Dal 476 al 1500. 2. ed. 1974*

Greenwood

Tracing the history of economic sanctions from the blockades of World War I to the policing of colonial empires and the interwar confrontation

with fascism, Nicholas Mulder combines political, economic, legal, and military history to reveal how a coercive wartime tool was adopted as an instrument of peacekeeping by the League of Nations. This timely study casts an overdue light on why sanctions are widely considered a form of war, and why their unintended consequences are so tremendous.

### **The First Universities**

Yale University Press

This book is about the Renaissance revitalization of classical drama. Using a cultural and theatrical approach, it shows how Italian playwrights made ancient tragedy relevant to their audiences. The book challenges the traditional critical approach to the Italian Renaissance tragedy as a mere literary work, and calls attention to the complementary function of the theatrical text, which is 'reconstructed' from the stage directions embedded in the discourse of the characters.

Some of the world's foremost historians of ideas consider Machiavelli's political thought in the larger context of the republican tradition.

Machiavelli and Republicanism Oxford University Press on Demand

The Economy of Medieval Hungary is the first concise, English-language volume about the economic life of medieval Hungary. It is a product of the cooperation of

specialists representing various disciplines of medieval studies, including archaeologists, archaeozoologists, specialists in medieval demography, historical hydrologists, climate and environmental historians, as well as archivists and church historians. The twenty-five chapters of the book focus on structures of medieval economy, different means and ways of human-nature interactions in production, and offer an overview of the different spheres of economic life, with a particular emphasis on taxation, income and commercial activity. Thanks to its interdisciplinary character, this volume is a basic handbook for the history of economy, production and material culture. Contributors are Krisztina Arany, László Bartosiewicz, Zoltán

Batizi, Anna Zsófia Biller, Péter Csippán, László Daróczi-Szabó, Márta Daróczi-Szabó, István Draskóczy, István Feld, László Ferenczi, Erika Gál, Márton Gyöngyössy, István Kenyeres, István Kováts, András Kubinyi, Kyra Lyublyanovics, Árpád Nógrády, Éva Ágnes Nyerges, István Petrovics, Zsolt Pinke, Beatrix F.
