bookmakers competing for our business by offering us better odds and deals you would think us punters would be having a field day especially since the advent of computerised ratings form and data freely available to us plus the aid of so many so called expert pundits and profitable tipping services who make outstanding profits there to help us punters beat the bookies. Surely us punters cannot lose and have an unassailable advantage when it comes to making

money from this game? the reality of course is the total opposite with bookmakers reporting greater profits than ever and the percentage of losing punters remaining the same, how can this be? The truth is there is simply too much low grade racing taking place on a daily basis drawing punters in. The type of racing that bookmakers love to promote as it throws up regular shock results therefore keeping their turnover and profits high. To art of becoming a successful bettor is being

selective and to try to overlook a lot of this low grade racing and simply put your faith and money on the best most professional people in the game, who the professionals themselves trust to get the job done, a lesson learnt after unsuccessful betting coup highlighted this very fact and having our fingers burnt betting in a low grade handicap race when our horse was ridden by an apprentice jockey myself and fellow betting syndicate partners decided to devise a

strategy to beat the bookies and now only follow the true professionals in this sport. We haven't looked back since, all of the information required to follow our strategy is explained in layman terms in this book and as a punter could be the best investment you will ever make.

Beat the Racetrack

Basic Books

Based on an array of published and hitherto unpublished evidence, the author pinpoints techniques that will aid

the bettor in formulating a successful and consistent betting strategy. The whole is presented in an informative but entertaining way, which should appeal to all those interested in betting as a hobby or as a way of earning a second income. Betting to Win covers: * The various forums that are available to UK residents for betting on the myriad of sports events, financial and specialist markets that are currently available. * Covers the wide variety of fixed-odds markets across

the world, but also spread betting, pari-mutuel and Tote betting, and focuses also on the recent explosion of interest in person-to-person betting exchanges. It also identifies other novel betting mediums. * The latest academic and professional research on the operation and analysis of horseracing, greyhound racing, football betting and numerous other sports betting markets is collated, summarized and made accessible in a non-technical form. * Explores betting opportunities in

less traditional markets.
Horse Racing Echo Point Books & Media
 This collection of articles presents a range of aspects of betting and form analysis. Race analysis, betting strategies and computer modelling are all covered in this thought-provoking text.
Betfair Trading Made Simple: the Ultimate Guide to Getting Started
 Createspace Independent Publishing Platform
 This course of self-study is designed to help you identify the factors you

need to consider when gambling on horse racing and to make better decisions based on the way that the industry works. It covers where to bet for the best deal, the most profitable kinds of bets, types of bets to avoid, the best races to bet on, getting the best price, how to assess the runners and study the form, where to get information and how to assess its reliability, betting systems and how to use them, avoiding errors and checking results and payouts.

There are also chapters on how to plan and budget sensibly.

 Summersdale Publishers LTD - ROW
 "Not only is this a very serious book on a topic of broad interest, but, even better, it is quite readable." Management Accounting
A Low-Risk Horse Racing Betting Strategy World Scientific
 This UK and Irish Handicap horse racing betting system contains 4 simple steps to identify

potential winning horses in a horse race. I wrote this system so that busy punters using the excellent racing post on the internet for free can find profitable horses quickly in handicap horse races. I like this book because I have added some optional extra filters to the horse racing system to improve the quality of selections and to achieve a better strike rate. I have written numerous books on horse racing but this is my favourite and most profitable UK and Irish

horse racing system. Picking Winners Plume A Harvard dropout's memoir of playing the horses—a great read for handicappers or those who enjoyed Ben Mezrich's *Bringing Down the House*. In 1977, before he was known as the creator of "The Beyer Speed Figure," Andrew Beyer set out on a gambling odyssey, determined to prove himself as a horseplayer. He would marshal all his handicapping skills for assaults on four racetracks: Gulfstream

Park, Pimlico, Saratoga, and the Barrington Fair. The then thirty-three-year-old Harvard dropout had the credentials for this undertaking: two years earlier, his book *Picking Winners* had won a claim from bettors and critics alike. But the theory of handicapping and the practice of it are two very different things, and Beyer did all he could to prepare himself for this new challenge. He consulted with other professional horseplayers. He undertook detailed analyses of trainers and

their methods. He refined his speed-handicapping techniques. He developed a revolutionary method for evaluating horses shipped from one track to another. He formulated a bold betting strategy. During the year, he experienced the dizzying thrill of winning more than \$10,000 in an afternoon, and agonizing frustration that drove him to bash a hole in the wall of the Gulfstream Park press box. When it was over, Beyer had amassed a profit of \$50,664. His account of the year offers

a rare, unromanticized look at the world of professional gambling. For horseplayers who have dreamed of beating the races, he proves that the dream is, sometimes, attainable. And he explains, in specific detail, how it can be done. There are no gimmicks in *My \$50,000 Year at the Races*. Instead, there is a proven method of beating the races—and Andrew Beyer’s marvelously entertaining story of how he put it in practice. **The Legacy System** Lulu Press, Inc

Discover the irresistible allure of horse racing and the thrill of winning. This invaluable book shares a proven, easy to learn system that you can use to beat the odds and win big at the racetrack. It helps you determine which horse to pick and what size your wager should be based on tote board data, and it reveals strategies for maximizing your winnings. With clear writing and entertaining real-world examples, authors William Ziemba and Donald Hausch explain the fundamentals

of track racing and show how patterns of public inefficiency in betting pools can lead to you reaping big payoffs. Rather than focusing on the complicated details of thoroughbred handicapping, the groundbreaking "Dr. Z" system offers mathematical models based on stock-market analysis. After their initial scientific analysis of historical data from past races, the authors verified their betting method by testing it with real bets--and it worked. It teaches

you when to bet and what a good bet is, and advises how much to wager based on your betting stake. When properly applied, the method's average profit per dollar wagered is about 10%. Using it, you will be able to minimize risk and increase your winnings. "This book is for people who want to win. The gambling system it presents is one of the few I have ever seen that I think really works. I am convinced enough to bet my own money on it." Edward O. Thorp, from the

book's introduction

Can you beat the bookies
with a system? Ricky
Taylor thinks you can and
puts science and maths to
work and comes up with
some often startlingly

profitable methods. His
systems are not complex
and he keeps things
simple and bases his
methods around
fundamental form factors
that most professional
punters would agree are
the key to picking
winners. Profitable Betting
Systems for Horseracing
contains many novel and
intriguing systems for
both flat and jump racing,
including those based
around a horse's recent
form and class. You will
also discover why it pays
to follow certain trainers
in particular types of race,

and why big profits can be
earned by studying a
horse's pedigree.
Studying the betting
market can be a profitable
source of systems, and
the book also details a
number of methods that
exploit weaknesses in
other punter's reasoning -
must reading for those
who like to back and lay
horses on the exchanges.
And for those of you that
like to bet horses at fancy
prices, there are
examples of the
circumstances to look for
when you can win big by
betting long-shots.

Profitable Betting Systems for Horseracing doesn't just spell out winning methods; it also explains how you can develop your own successful systems. So if you want to start betting profitably on systems then read this book first.

Matched Betting Book 2

Mark Horrocks

Discover the secrets of Lay The Field betting.

Profit on horse racing when horses don't win.

This low risk strategy can be very profitable but only when you know which courses and races to

choose. In this book I share with you my in depth research and let you use my years of real life experience of using this strategy to make a full time living from low risk betting. You will be taken step-by-step through the process of selection and I will jump start your learning curve by giving you the most profitable courses, distances and number of runners. You will learn which factors influence whether or not your Lay The Field bet will win or lose and using my own

records built up over many years you will get access to the most profitable selections saving you from building your own database through trial and error. I share the exact same information I use to make my winning selections every day along with a percentage probability of each selection winning. Other guides on this style of betting give you vague statements on guesses on which are the best races to use. I cut through all the guess work by giving you the benefit of my

actual past bets to identify the real criteria that will make a winning bet more likely and I will give you my up to date statistics for every profitable course in the UK and Ireland so you can find multiple winning selections with little effort every day. This information has never been available before and no other horse racing expert is willing to share this information with the general public. Grab your copy today before I change my mind and keep my profitable information

to myself.
Winning More Houghton Mifflin Harcourt
_____ The bookies always win. But one man has been proving them wrong for four decades. In the summer of 1975 Barney Curley, a fearless and renowned gambler, masterminded one of the most spectacular gambles of all time with a racehorse called Yellow Sam. With a meticulous, entirely legal plan involving dozens of people, perfectly timed phone calls, sealed orders

and months of preparation, Curley and Yellow Sam beat the bookmakers and cost them millions. They said that it could never happen again. But in May 2010, thirty-five years after his first coup, Curley staged the ultimate multi-million-pound-winning sequel. *The Sure Thing* tells the complete story of how he managed to organise the biggest gamble in racing history - and how he then followed up with yet another audacious scheme in January 2014. *More Strategies to Make*

Even Greater Profit and Boost Long-Term Success (betting, Strategy, Profit, Betfair, Win, Money) HHM Thoroughbred horse racing is the most popular form of horse racing the whole world. It is so popular that some people do not know of any other form of horse racing. Thoroughbred horse racing is also known by some people as the port of kings? Usually, a thoroughbred horse owner would hire a trainer to condition the horse for only one type of race. This is because a good trainer

knows that there is a best training regimen for every type of race. The owner may also opt to enter the horse in races that are somewhat similar to what it is in training for.

Most Profitable Horse Racing System

Createspace Independent Pub

A systematic approach to successful race-horse handicapping, for novices and old-timers, presenting advice on reading the race forms, judging tracks and trainers, the horses appearances, speed handicapping, and money

management
Sports Trading on Betfair
Mark Horrocks
The Legacy horse racing system is a selection method devised by full time professional gambler and author Anthony Gibson. The book contains a detailed look at an area of horseracing that must be totally overlooked by the majority of punters otherwise the prices of the winners to date and the level stakes profits made would not be so great. Our source for the selections could be backed blindly and good

profits achieved but adding elements of form and a common sense approach cuts down the number of runners to look at each day as possible bets, once a horse qualifies for selection they can be backed with great confidence either to win the race outright or to be placed. No other method I have ever looked at comes close to making the profits achieved in this book, this is a priceless piece of work and my final publication *Horse Racing Betting Secret System*

Independently Published Horse Race Betting A Systematic Approach to Beating the Bookies Learn how to make money from betting on horse races This is the book the betting industry don't want you to read Last year in the UK the British gambling public lost 12bn. That is over 500 per household. Only 2% of those punters who bet on horse racing ever make a regular profit If you are not one of those clever 2% of people who make money from horse race betting but would like to

be then read this book now. Your bookmaker does not want you to do this because he is quite happy the way things are now, but are you? Is there a magic way to win on the horses? No there is not. There is no magic formula that will turn you overnight into a money-generating machine? Magic is for Harry Potter and his friends. Horse Race Betting- a systematic approach to beating the bookies is not full of fanciful notions or pie in the sky ideas but simply shows how you can

approach horse race betting in a logical and turn it into a profitable past time. Robin "Birdie" Crow gives you the benefit of his years of experience of horse racing and betting to help you become one of the successful 2% It does not get any better than this In this book you will learn the 11 factors to consider when looking for a winner. You will get Birdies views on both commercial and self-created horse race systems, horse racing tipsters and be shown how to use the Internet to

find the important information to help you find winners. and there is much, much more. No false promises or exaggerated claims simply the facts from a man with years of experience who has learnt from his own mistakes before adopting the systematic approach to betting. Mindset, money management, trusting your own judgment and visualization are just a few of the topics that are covered in this book. Becoming a successful punter is so much more

than simply opening the paper at the racing page and trying to pick the winner. That is what the majority of the 98% do but having read this book you will know there is a better and more profitable way to go about it. About The Author Robin "Birdie" Crow no longer goes to very many race meetings, now in semi retirement and living in the North of England he is happy to sit at home watching the racing on TV and passing on his knowledge and experience to others. This is his second book having

published Horse Race Betting- How to make it pay using the bookies money earlier this year. The longer you leave it before buying this book the more money will be going into your bookies pockets: Scroll up and buy now."

Various Forms of Thoroughbred Horse Racing Createspace Independent Publishing Platform

Introduction I must thank you for buying my book and appreciate any comments on the system. I have inserted my email

address at the end of the book. Plus feel free to email me if you have any questions or need any help. This horse racing system took me approximately 12 months to computer model and test primarily around UK handicap horse races. This would have not been possible without my 10 years database of horse form and my I.T. computer skills. Handicap horse racing fascinates me I find it a great puzzle to solve and love form variables like weight, official rating and many

more. This horse racing system has four simple steps that find winners daily and I have outlined tips to get more profit. I like using this system for betting singles and doubles which are lethal and produce massive profits! In the book I have covered a horse race in extensive detail so that you understand the system and how to apply the horse racing system to each race quickly and thus finding winners easily.

[The New and Exotic Winning Way Mark](#)

Horrocks
The Gambler Who
Cracked the Horse-Racing
Code Bill Benter did the
impossible: He wrote an
algorithm that couldn't
lose at the track. Close to
a billion dollars later, he
tells his system. This book
examines the elements
necessary for a practical
and successful
computerized horse race
handicapping and
wagering system. Data
requirements,
handicapping model
development, wagering
strategy, and feasibility
are addressed. A logit-

based technique and a
corresponding heuristic
measure of improvement
are described for
combining a fundamental
handicapping model with
the public's implied
probability estimates. The
author reports significant
positive results in five
years of actual
implementation of such a
system. This result can be
interpreted as evidence of
inefficiency in pari-mutuel
racetrack wagering. This
paper aims to emphasize
those aspects of computer
handicapping which the
author has found most

important in practical
application of such a
system. Also included the
Bill Benter "What Are My
Odds?" Presentation at
ICCM in 2004.

UK Longshot Horse Racing
System Createspace
Independent Publishing
Platform

Introduction The title of
this book is a bold
statement and one cannot
really state this unless
you put your money where
your mouth is! I have
written many books
around UK horse racing
systems and this one I
really enjoyed due to the

simplicity of this horse racing system and how easy it is to apply. The system uses the excellent free racing post website where you can obtain all the form data you need to use this system. Plus you do not have to be a form expert to understand it. I personally think horse racing pundits make heavy weather of horse racing form, i.e. looking at a horse's breeding and many other factors. I think this information just confuses the average punter. I have added a special bonus horse laying

system in this book and I think you will enjoy it! This laying system is so easy to follow you will look back at all the bets you have placed in the past and wonder how did I get it so wrong! Yes it will hurt knowing how much money you lost when you should have not. Moving back onto the horse backing system, picking winners will be very easy for you and even more you will gain confidence and control in your betting. This horse racing system normally picks 2 to 3 horses per day in UK

handicap horse racing markets. You should aim at using Betfair to place your bets due to the better prices and in-play tactic I will show you in this book. Understand the system before placing bets, I hope you enjoy it! Beyer on Speed John Wiley & Sons www.smartersig.com is a monthly online magazine and betting community dedicated to research into profitable sports betting strategies and while mainly based around horse racing other areas of betting are also looked

at. The community is a continuation of the SmartSig group established in 1994 and re-launched in 2007. Within the group are many levels and areas of expertise and whether you are a novice punter, experienced professional bettor or budding

journalist you will find members, articles and tools that will greatly assist in moving your betting forward to a more profitable level. Topics covered within Improve Your Betting range from horse form analysis through to coverage of modern data modelling

and analysis methods such as Neural Networks and Genetic Algorithms as well as methods for using Statistical data in Football Match forecasting. Contributors include Mark Littlewood (Editor), Mark Foley, John F Jackson, Alun Owen, Alan Potts, David Renham and Alex Yuttle.
