In recent years there has been a remarkable surge in Iranian films expressing contentious issues which would otherwise be very difficult to discuss publicly inside the Islamic Republic of Iran - such as the role of clergy in Iranian society. Nacim Pak-Shiraz here highlights how many Iranian film directors concern themselves with the content of the religious and historical narratives of culture and society, sparking debate about the medium's compatibility or incongruity with religion and spirituality. She explores the various ways that Shi'i discourse emerges on screen, and offers groundbreaking insights into both the role of film in Iranian culture and society, and how it has become a medium for exploring what it means to be Iranian and Muslim after thirty years of Islamic rule. This is invaluable reading students and scholars of Film Studies and contemporary Iranian cinema, but also of the culture and identity of Iran more widely.

 Political upheaval has marked Iran's history throughout the twentieth century. Wars, revolutions, coups and the impact of modernism have shaped Iran's historiography, as they have the country's history. Originally based on oral and written sources, which underpinned traditional genealogical and dynastic history, Iran's historiography was transformed in the early 20th century with the development of a 'new' school of presenting history. Here emphasis shifted from the anecdotal story-telling genre to social, political, economic, cultural and religious history-writing. A new understanding of the nation state and the importance of identity and foreign relations in defining Iran's place in the modern world all served to transform the perspective of Iranian historiography. Touraj Atabaki here brings together a range of rich contributions from international scholars who cover the leading themes of the historiography of 20th-century Iran, including constitutional reform and revolution, literature and architecture, identity, women and gender, nationalism, modernism, Orientalism, Marxism and Islamism.

When Naser al-Din Shah, who ruled Iran from 1848 to 1896, claimed the title Shadow of God on Earth, his authority rested on

premodern conceptions of sacred kingship. By 1941, when Mohammad Reza Shah Pahlavi came to power, his claim to authority as the Shah of Iran was infused with the language of modern nationalism. In short, between roughly 1870 and 1940, Iran's traditional monarchy was forged into a modern nation-state. In *Nationalizing Iran*, Afshin Marashi explores the changes that made possible this transformation of Iran into a social abstraction in which notions of state, society, and culture converged. He follows Naser al-Din Shah on a tour of Europe in 1873 that led to his importing a new public image of monarchy-an image based on the European late imperial model-relying heavily on the use of public ceremonies, rituals, and festivals to promote loyalty to the monarch. Meanwhile, Iranian intellectuals were reimagining ethnic history to reconcile authentic Iranian culture with the demands of modernity. From the reform of public education to the symbolism surrounding grand public ceremonies in honor of long-dead poets, Marashi shows how the state invented and promoted key features of the common culture binding state and society. The ideological thrust of that century would become the source of dramatic contestation in the late twentieth century. Marashi's study of the formative era of Iranian nationalism will be valuable to scholars and students of history, sociology, political science, and anthropology, as well as journalists, policy makers, and other close observers of contemporary Iran.

*The Political Economy of Modern Iran* Harvard Common Press  
 Reza Zia-Ebrahimi revisits the work of Fath'ali Akhundzadeh and Mirza Aqa Khan Kermani, two Qajar-era intellectuals who founded modern Iranian nationalism. In their efforts to make sense of a difficult historical situation, these thinkers advanced an appealing ideology Zia-Ebrahimi calls "dislocative nationalism," in which pre-Islamic Iran is cast as a golden age, Islam is reinterpreted as an alien religion, and Arabs become implacable others. Dislodging Iran from its empirical reality and tying it to Europe and the Aryan race, this ideology remains the most politically potent form of identity in Iran. Akhundzadeh and Kermani's nationalist reading of Iranian history has been drilled into the minds of Iranians since its adoption by the Pahlavi state in the early twentieth century. Spread through mass schooling, historical narratives, and official statements of support, their ideological perspective has come to define Iranian culture and domestic and foreign policy. Zia-Ebrahimi follows the development of dislocative nationalism through a range of cultural and historical materials, and he captures its incorporation of European ideas about Iranian history, the Aryan race, and a primordial nation. His work emphasizes the agency of Iranian intellectuals in translating European ideas for

Iranian audiences, impressing Western conceptions of race onto Iranian identity.

**The Revelation of the End Times!** Penguin

Sixty years ago, the United States and Great Britain spearheaded efforts to create a new world order based on international rules. Today these same two nations are leading the charge to abandon many of the global safeguards they once fought to establish. Crisp, impassioned, and hard-hitting, *Lawless World* is an exposé and an indictment of a catastrophic realignment of the laws that govern international affairs, the book that broke the stories on the "Downing Street memo" and the "White House meeting memo." It is also a vivid and human account of the reckless way America has reneged on its very founding documents—and a call for us to recognize the role we should be playing to reassert the rule of law, and with it a stable, secure world. **BACKCOVER:** "In this expert and judicious study, Philippe Sands portrays a frightening image of 'America unbound,' self-exempted from the delicate fabric of international law on which human survival rests." -Noam Chomsky "A penetrating and detailed account of the extent to which those who claim to be spreading global values have ridden roughshod over them." -The Observer (London) "Lawless World goes to the very heart of the nature of the international order and its future." -The Guardian (London)

Exposing the naive incompetence of the Bush administration and the destructive greed of global corporations, Plesch argues that there can be no military solution to terrorism and demonstrates that world peace is practical within a generation. Using a wealth of historical evidence, economic and political theories by everyone from Adam Smith to Churchill and Roosevelt and an unrivalled command of the facts about military conflict in the twenty-first century, he constructs a powerful case against the warmongers and a compelling blueprint for peace.

When your life is built around a father's wrath, how can you trust in the love of Father God? Mercy Roller knows her name is a lie: there has never been any mercy in her young life. Raised by a

twisted and abusive father who called himself the Pastor, she was abandoned by the church community that should have stood together to protect her from his evil. Her mother, consumed by her own fear and hate, won't stand her ground to save Mercy either. The Pastor has robbed Mercy of innocence and love, a husband and her child. Not a single person seems capable of standing up to the Pastor's unrestrained evil. So Mercy takes matters into her own hands. Her heart was hardened to love long before she took on the role of judge, jury, and executioner of the Pastor. She just didn't realize the retribution she thought would save her, might turn her into the very thing she hated most. Sent away by her angry and grieving mother, Mercy's path is unclear until she meets a young preacher headed to counsel a pregnant couple. Sure that her calling is to protect the family, Mercy is drawn into a different life on the other side of the mountain where she slowly discovers true righteousness has nothing evil about it—and that there might be room for her own stained and shattered soul to find shelter. . . and even love. *Mercy's Rain* is a remarkable historical novel set in 19th century Appalachia that traces the thorny path from bitterness to forgiveness and reveals the victory and strength that comes from simple faith.
