Reading German is a structured reading
 course designed to take a wide variety of
 users to an independent reading of
 authentic German texts. It is ideally suited
 for courses in colleges and universities, for
 students or specialists in any discipline,
 and for independent learners. Drawing on
 recent research into reading in a foreign
 language, the course chapters focus on
 the recognition and decoding of
 progressively complex written structures,
 before rehearsing a variety of strategies
 (such as skimming and scanning) for
 negotiating longer and more complex
 texts. The book has four sections: a 16-
 chapter reading course an extensive
 reference section containing a specially-
 designed grammar of written German a
 further exercises section, for further work
 on recognizing structures a text corpus
 containing 23 texts of various types, with
 facing English translations. Grammatical
 points explained in the reference section
 are frequently illustrated using examples
 located in the text corpus. The only other
 resource the user will need is a bilingual
 dictionary. Advice on how to use a
 dictionary is contained in the reference
 section.

The challenge that English-language
 speakers face if they want to speak
 German well, is to accurately map German
 nouns to one of three grammatical
 genders: masculine, feminine or neuter.
 Native German speakers acquire their
 knowledge of the grammatical gender of
 German nouns from early on. They are not
 given formal instruction at school about
 matching nouns to their correct gender,
 and the topic is not covered in standard

German grammar books. For the same
 reason, native speakers who give German
 language lessons to foreigners do not
 teach their students how to match nouns
 to their gender: One cannot teach what
 one has not been taught. This book fills
 that gap in that it explains, in plain
 English, the principles that map German
 nouns to a specific gender. This allows
 foreign students of German to unlock the
 gender of entire categories of nouns,
 thereby enabling students to speak
 German more confidently.
