## DURHAM LEWIS

**The Making of a Quagmire** John Wiley & Sons  
 "In the middle of a horrific night, Katherine Stuart barely escapes being murdered by her abusive husband in the kitchen of their suburban Boston home. In the aftermath of utter loss and devastation, Katherine is sought out by Lucy Dudley, an elderly woman living on a family farm in the Northeast Kingdom of Vermont, who reads about Katherine in the news and is drawn to her by a closely guarded history of her own. Katherine, unable to bear the accusing eyes of her family, accepts Lucy's invitation to come to Vermont, setting in motion a deepening relationship between the two women that frames a universal struggle to heal and reclaim what severe trauma takes from people's lives."--Page [2] of jacket.

**Why Social Justice Is Not Biblical Justice: An Urgent Appeal to Fellow Christians in a Time of Social Crisis** Temple University Press  
 "If sociology could teach everyone just one thing, what would it be? 'The Forest and the Trees' is one sociologist's response to the hypothetical-the core insight with the greatest potential to change how people see the world and themselves in relation to it"--Amazon.com.

**The White Possessive** Privilege, Power, and Difference  
 Seeing White: An Introduction to White Privilege and Race, Second Edition is an interdisciplinary, supplemental textbook that challenges undergraduate students to see race as everyone's issue. The book's early chapters establish a solid understanding of privilege and power, leading to a critical exploration of discrimination. The authors also draw upon key theoretical perspectives, such as cultural materialism, critical race theory, and the social construction of race to provide students with the tools to discuss racial privilege. The book's interdisciplinary approach, including perspectives from sociology, psychology, history, and economics provides a holistic and accessible introduction to the challenging issue of race. Throughout the book, compelling, concrete examples and detailed definitions of terminology help students to understand theoretical perspectives and research evidence. Discussion questions at the end of each chapter encourage students to think critically about the theories and evidence, often prompting students to relate the material in the text to their own experiences. New to this Edition New Chapter 4, "White Supremacy and Other Forms of Everyday Racism," provides a history of white supremacy and its links to racism today New research on racial disparities in health equity helps debunk the idea of race as a biological category (Chapter 2) Revised Chapter 6, "Socioeconomic Class and White Privilege," offers new material on the economic privilege of whiteness and

the uneven distribution of American wealth Expanded history and discussion of Immigration laws including Chinese Exclusion Act, Immigration Act of 1924 and 1965 Hart-Celler Act present immigration in a global context and challenge anti-immigration rhetoric New as well as updated stories on exclusion from white spaces and the normativity of white culture engage students in critical reflection

*The First Thing and the Last* Cisco Press  
 Privilege, Power, and Difference is a groundbreaking tool for students and non-students alike to examine systems of privilege and difference in our society. Written in an accessible, conversational style, the 3rd edition links theory with engaging examples in ways that enable readers to see the underlying nature and consequences of privilege and their connection to it. This program has been used across the country, both inside and outside the classroom, to shed light on issues of power and privilege. The Connect course for this offering includes SmartBook, an adaptive reading and study experience which guides students to master, recall, and apply key concepts while providing automatically-graded assessments. McGraw-Hill Connect(R) is a subscription-based learning service accessible online through your personal computer or tablet. Choose this option if your instructor will require Connect to be used in the course. Your subscription to Connect includes the following: SmartBook(R) - an adaptive digital version of the course textbook that personalizes your reading experience based on how well you are learning the content. Access to your instructor's homework assignments, quizzes, syllabus, notes, reminders, and other important files for the course. Progress dashboards that quickly show how you are performing on your assignments and tips for improvement. The option to purchase (for a small fee) a print version of the book. This binder-ready, loose-leaf version includes free shipping. Complete system requirements to use Connect can be found here:

*The Heart of Whiteness* Univ of California Press  
 Ignite your excitement about behavioral neuroscience with Brain & Behavior: An Introduction to Behavioral Neuroscience, Fifth Edition by best-selling author Bob Garrett and new co-author Gerald Hough. Garrett and Hough make the field accessible by inviting readers to explore key theories and scientific discoveries using detailed illustrations and immersive examples as their guide. Spotlights on case studies, current events, and research findings help readers make connections between the material and their own lives. A study guide, revised artwork, new animations, and an accompanying interactive eBook stimulate deep learning and critical thinking.

*Brain & Behavior* Routledge

Over the past half century the issues facing activists have changed, as has our understanding and awareness of spirituality. For activists, spiritual philosophy is rising up the agenda because it offers distinct, tried and tested approaches to deep questions: Where did it all go wrong? What does it mean to be human? What is the place of leadership? What is the nature of power? The book begins by defining spirituality for a modern audience of all faiths and beliefs, and goes on to consider the problems and necessities of true leadership. Drawing on a rich history of spirituality and activism, from The Bhagavad Gita, to the Hebrew prophets, to Carl Jung, it is both guide and inspiration for people involved in activism for social or environmental justice. The text is enriched with tales from the authors' own experiences. It contains case studies of inspirational spiritual activists (including Mama Efaa, Desmond Tutu, Gerrard Winstanley, Sojourner Truth and Julia Butterfly Hill), which demonstrate the transformative power of spiritual principles in action.

*Privilege, Power, and Difference* Pearson Education India  
 "Examines the minute, seemingly inconsequential violations of public civility that often occur in encounters between strangers in contemporary American society. Drawing on a wealth of observations and interviews, Gardner insightfully and sensitively examines the structure and processes of public harassment which women and others regularly encounter. In so doing, she extends the social scientific concern with harassment from workplace to public place encounters, deepening it in the process."—Robert M. Emerson, University of California, Los Angeles "A compelling and important book. Every reader will recognize the humiliations, conflicts, and ambiguous encounters that constitute public harassment. Gardner provides fresh and telling insight into seemingly trivial but enormously consequential daily experiences. She is alert to complex relations between gender and race, sexual orientation, and disability in the construction of public encounters. Her articulation of double-binds and everyday dilemmas has practical payoff for efforts to create a safe and mutually respectful society."—Barrie Thorne, author of Gender Play "A unique study that will be a paradigm for others. . . . Its contributions to the sociology of everyday life and to the understanding of public encounters and harassment are unparalleled."—Douglas Maynard, University of Indiana, Bloomington  
*Passing By* Zed Books Ltd.

The White Possessive explores the links between race, sovereignty, and possession through themes of property: owning property, being property, and becoming propertyless. Focusing on the Australian Aboriginal context, Aileen Moreton-Robinson questions current race theory in the first world and its preoccupation with foregrounding slavery and migration. The nation, she argues, is socially and culturally constructed as a

white possession. Moreton-Robinson reveals how the core values of Australian national identity continue to have their roots in Britishness and colonization, built on the disavowal of Indigenous sovereignty. Whiteness studies literature is central to Moreton-Robinson's reasoning, and she shows how blackness works as a white epistemological tool that bolsters the social production of whiteness—displacing Indigenous sovereignties and rendering them invisible in a civil rights discourse, thereby sidestepping thorny issues of settler colonialism. Throughout this critical examination Moreton-Robinson proposes a bold new agenda for critical Indigenous studies, one that involves deeper analysis of how the prerogatives of white possession function within the role of disciplines.

**Critical Race Theory** McGraw-Hill Humanities, Social Sciences & World Languages

These essays include writings from Cornel West, Michael Omi, Audre Lorde, Gloria Anzaldúa and Michelle Fine. The essays address the multiplicity and scope of oppressions ranging from ableism to racism and other less-well known social aberrations.

**Sustainability Principles and Practice** Wiley-Blackwell

In this new and timely anthology on the experience of privilege in America—as it relates to holding the identity of the dominant gender, class, race, and sexual preference—sociologists Michael Kimmel and Abby Ferber, along with a wide range of contributors, challenge students to think more critically about the myriad inequalities in society and especially to become more aware of how the dynamics that create inequality for some also benefit others. Designed to be used in both introductory sociology and race, gender, and class courses, this exciting volume asks that privilege—and students' own role in it—become more visible. With both well-known and previously published pieces as well as new contributions, *Privilege* uses an “intersectional approach” to explore the ways in which race, class, gender and sexuality interact in the lives of those who are privileged by one or more of these identities. Kimmel and Ferber have brought together leading thinkers and writers on all of these dimensions, to examine both the parallels and the ruptures among these different but connected relationships. Writing both personally and analytically, these essays can bring students inside the experiences, and enable us all to begin to theorize our own lives, as well as to explore the ways in which these systems intersect in people's lives.

**Privilege, Power, and Difference** Psychology Press

*Sustainability Principles and Practice* gives an accessible and comprehensive overview of the interdisciplinary field of sustainability. The focus is on furnishing solutions and equipping students with both conceptual understanding and technical skills. Each chapter explores one aspect of the field, first introducing concepts and presenting issues, then supplying tools for working toward solutions. Elements of sustainability are examined piece by piece, and coverage ranges over ecosystems, social equity, environmental justice, food, energy, product life cycles, cities, and more. Techniques for management and measurement as well as case studies from around the world are provided. The 3rd edition includes greater coverage of resilience and systems thinking, an update on the Anthropocene as a formal geological epoch, the latest research from the IPCC, and a greater focus on diversity and social equity, together with new details such as sustainable consumption, textiles recycling, microplastics, and net-zero concepts. The coverage in this edition has been expanded to include issues, solutions, and new case studies from around the world, including Europe, Asia, and the Global South. Chapters include further reading and discussion questions. The book is supported by a companion website with online links, annotated bibliography, glossary, white papers, and additional case studies, together with projects, research problems, and group activities, all of which focus on real-world problem-solving of sustainability issues. This textbook is designed to be used by undergraduate college and university students in sustainability degree programs and other programs in which sustainability is taught.

**The Gender Knot** Cambridge University Press

“We the People of the United States, in order to form a more perfect union . . .” — The U.S. Constitution  
The U.S. Constitution and Other Writings is a collection of the crucial documents, speeches, and other writings that shaped the United States. In

addition to the Constitution, readers can review the Declaration of Independence, the Articles of Confederation, the Federalist Papers, important presidential speeches, and many others. Both famous and lesser-known, but equally important, Americans are represented, including Benjamin Franklin, Victoria Woodhull, Frederick Douglass, Susan B. Anthony, and even the creators of the rules of baseball. The founders' inspirational and revolutionary ideals are all here, and this is a perfect volume for anyone who finds the history of America to be a fascinating and enlightening journey.

**Privilege, Power and Difference** Xlibris Corporation

This brief supplemental book provides students with an easily applied theoretical model for thinking about systems of privilege and difference. Writing in accessible, conversational prose, Johnson joins theory with engaging examples in ways that enable students to see the nature and consequences of privilege and their connection to it.

**Constraint of Race** University of Chicago Press

Drawing on both her roots in Kentucky and her adventures with Manhattan Coop boards, *Where We Stand* is a successful black woman's reflection—personal, straight forward, and rigorously honest—on how our dilemmas of class and race are intertwined, and how we can find ways to think beyond them.

**The Invention of the White Race** Rowman & Littlefield

For every group that is oppressed, another group is privileged. In *Undoing Privilege*, Bob Pease argues that privilege, as the other side of oppression, has received insufficient attention in both critical theories and in the practices of social change. As a result, dominant groups have been allowed to reinforce their dominance. *Undoing Privilege* explores the main sites of privilege, from Western dominance, class elitism, and white and patriarchal privilege to the less-examined sites of heterosexual and able-bodied privilege. Pease points out that while the vast majority of people may be oppressed on one level, many are also privileged on another. He also demonstrates how members of privileged groups can engage critically with their own dominant position, and explores the potential and limitations of them becoming allies against oppression and their own unearned privilege. This is an essential book for all who are concerned about developing theories and practices for a socially just world.

**Fire in the Ashes** Temple University Press

*Privilege, Power, and Difference* McGraw-Hill Humanities, Social Sciences & World Languages

**Undoing Privilege** Rowman & Littlefield

Studies of racism often focus on its devastating effects on the victims of prejudice. But no discussion of race is complete without exploring the other side—the ways in which some people or groups actually benefit, deliberately or inadvertently, from racial bias. *White Privilege, Second Edition*, the revision to the groundbreaking anthology from Paula Rothenberg, continues her efforts from the first edition. Two new essays contribute to the discussion of the nature and history of white power. The concluding section again challenges readers to explore ideas for using the power and the concept of white privilege to help combat racism in their own lives. Brief, inexpensive, and easily integrated with other texts, this interdisciplinary collection of commonsense, non-rhetorical readings lets educators incorporate discussions of whiteness and white privilege into a variety of disciplines, including sociology, English composition, psychology, social work, women's studies, political science, and American studies.

**The U.S. Constitution and Other Writings** City Lights Books

The communications world is undergoing a seismic shift. The Web is colliding with the old way of doing things, shaking and rolling the marketing landscape as we know it. As the collision subsides and the market forces settle, PR is rising up to a new level of importance. Why exactly is this happening? For one, fragmentation. A new set of communication mediums ranging from blogs to podcasts to satellite radio are fragmenting the media landscape, making it harder to reach customers than ever before. Second, saturation. Advertising, which once reigned supreme in the marketing mix, is failing to have the impact it once had thanks to intense competition for consumer attention and the rising popularity of technologies like TiVo, which make it easy to block out TV ads. Third, reputation. With an

overabundance of products from which to choose, consumers increasingly want to buy from companies they deem socially responsible, and they're using the Internet to learn the details. The new world order has created a new set of challenges, and PR is emerging as the marketing discipline best positioned to respond. Consider this: in a recent study by the USC Annenberg Strategic Public Relations Center, CEOs rated PR as one of the top contributors to organizational success. That's right, PR was right at the top of a list that included other major corporate functions, including human resources, legal, sales, strategic planning, information systems, and security. Just a few years ago, CEOs ranked PR near the bottom of these same corporate functions. PR has come a long way in a short amount of time. Increasingly, companies are backing their commitment to PR with their wallets. PR salaries are on the rise, and companies are adding staff to their ranks. Over the next five years, PR spending is expected to increase 11.8 percent to \$4.26 billion, according to a recent Veronis Suhler Stevenson Communications Industry Forecast. But while companies are starting to see the connection between PR and organizational success, most continue to take a tactical approach to this medium, failing to harness the full power it can provide. If used strategically, PR can dramatically improve almost every facet of a business. It can expand customer base, increase revenue, boost reputation, attract first-rate talent, and enhance the perceived value of a company, to name just a few. The power of PR is astounding. Yet few companies leverage its fullest potential. In the new marketing landscape, companies that fail to treat PR strategically are putting themselves at risk. Unlike most other books on the market that focus on developing press releases and other PR tactics, Strategic Public Relations connects the dots to show you how you can more fully leverage the power of PR to achieve your most important business objectives. The initial pages of the book explain why a strategic approach to PR is critical to your success. Specifically, you'll learn what PR can do and what it can't, and why harnessing your PR program to your broader business strategy is your golden key to success. The book then provides ten guiding principles designed to help you take your PR program to the next level. Each of these principles is designed to be straightforward and simple so they can easily be applied to achieve better results. The lessons offered in this book are based on a tried-and-true approach to PR the authors have developed and perfected over the course of their careers. Over the last two decades, Jennifer Gehrt and Colleen Moffitt have worked on the inside of worldwide PR agencies such as Waggener Edstrom and within the walls of influential corporations such as Microsoft, RealNetworks, AT&T Wireless, and Tegic Communications/AOL. They have worked in the trenches with small and medium-size businesses and major corporations in a variety of industries, helping them to develop thoughtful PR programs that accr

**Where We Stand** Penguin

When Allan Johnson asked his dying father where he wanted his ashes to be placed, his father replied—without hesitation—that it made no difference to him at all. In his poignant, powerful memoir, *Not from Here*, Johnson embarks on an extraordinary, 2,000-mile journey across the Upper Midwest and Northern Plains to find the place where his father's ashes belonged. As a white man with Norwegian and English lineage, Johnson explores both America and the question of belonging to a place whose history holds the continuing legacy of the displacement, dispossession, and genocide of Native peoples. More than a personal narrative, *Not from Here* illuminates the national silence around unresolved questions of accountability, race, and identity politics, and the dilemma of how to take responsibility for “a past we did not create.” Johnson's story—about the past living in the present; of redemption, fate, family, tribe, and nation; of love and grief—raises profound questions about belonging, identity, and place.

Routledge

This issue explores conceptualizations of various forms of privilege and the psychological and behavioral consequences of privilege with an emphasis on policy implications and intersectionality. The contributions focus on theoretical advances and the integration of science and action in order to extend our current understanding of privilege.
