Campbell-Walsh Urology 12th Edition Review TwoMorrows Publishing

The undertaking of the treatment of an infant born with bladder exstrophy is one of the most weighty responsibilities that can fall upon the shoulders of the reconstructive surgeon. The modern treatment of a child born with bladder exstrophy began in the mid- 1970's with the widespread application of staged reconstruction. This approach has consistently yielded very good results in several series. However, as in all serious congenital birth defects, there is certainly room for advancement. Issues such as the routine use of osteotomy, timing and type of epispadias repair, combining bladder closure with epispadias repair, the approach to the small bladder, and the management of a failed exstrophy still remain. This National Institute of Health/National Kidney Foundation/Johns Hopkins-sponsored seminar was an attempt to bring experts in the field of pediatric orthopedic surgery, pediatric urology, pediatric surgery, adult urology, and basic science together to share their experiences in an attempt to foster new clinical and basic science research

communications between the participants. If these col laborations result, then this first international meeting will have been successful. The editors would like to thank all of the contributors for their timely and complete submissions. John P. Gearhart, M.D. Ranjiv Mathews, M.D. vii CONTENTS 1. The Greatest Story Ever Told Dispute over land and kingdom may lie at the heart of this story of war between cousins—the Pandavas and the Kouravas—but the Mahabharata is about conflicts of dharma. These conflicts are immense and various, singular and commonplace. Throughout the epic, characters face them with no clear indications of what is right and what is wrong;

there are no absolute answers. Thus every possible human emotion features in the Mahabharata, the reason the epic

continues to hold sway over our imagination. In this superb and widely acclaimed translation of the complete Mahabharata, Bibek Debroy takes us on a great journey with incredible ease.
