Architecture Case Study Analysis Site Analysis Architecture

Presentation Your site analysis presentation should include all the

characteristics of the site, showing the constraints and the

opportunities it provides and how they developed into concepts

and begun to influence your design decisions. It sets the scene for

the whole project, and should be referred back to throughout your

presentation. What to present. Summary Architecture Site Analysis

- Presentation — Archisoup ... Today's video is about creating site

analysis diagrams rendering in photoshop for architects and
