Who Will Do the Science of the Future?

National Academies Press
This stylish, highly illustrated, interactive book is perfect for sharing with little children, and introduces nature and science using a friendly lift-the-flap format. Text is kept to a minimum. A brilliant introduction to one of the fundamental themes of biology, perfect for curious young minds. Part of a brand new series, parallel in reading age to the Look Inside books. It is becoming increasingly important for children to learn about science from a very young age, and this series introduces one of the cornerstones of biology in a friendly, simple and accessible manner.

1000 Super Fun, Mind-bending, Totally Awesome Trivia Questions

Rowman & Littlefield

Geography is more than just maps and finding your destination. It is about the

land, the people on that land, the delicate balance of nature, and our very interdependence upon it, despite the miracles of technology and grocery stores. It's about the effects of nature on places and people, as well as how politics, borders, cities, and towns affect our lives. The Handy Geography Answer Book traces the history of geography from Eratosthenes and Alexander von Humboldt to latitude and longitude, and the latest advances in the Global Positioning System (GPS). It provides insights into economic, social, historic, culture, religious, political, and climate geography, plus oceanography, demographics, and more. Completely revised and updated, it tours the world, its natural features, and the ever-changing mark humans make on our planet, answering 1,200 questions from the trivia (longest, hottest, tallest) to how geography has influenced history, religion, architecture, and the location of cities, including Who first had the idea that there is a magnetic North Pole? What is interesting about Google's "Streetview"? How many people are projected to live on the planet in 2050? Which state has the highest annual divorce rate? What are the largest and smallest counties in the U.S.?

Alabama to Wyoming (Black & White) Mark Twain Media

Lucy lives on the twenty-fourth floor. Owen lives in the basement. It's fitting, then, that they meet in the middle -- stuck between two floors of a New York City apartment building, on an elevator rendered useless by a citywide blackout. After they're rescued, Lucy and Owen spend the night wandering the darkened streets and marveling at the rare appearance of stars above Manhattan. But once the power is back, so is reality. Lucy soon moves abroad with her parents, while Owen heads out west with his father. The brief time they spend together leaves a mark. And as their lives take them to Edinburgh and to San

Francisco, to Prague and to Portland, Lucy and Owen stay in touch through postcards, occasional e-mails, and phone calls. But can they -- despite the odds -- find a way to reunite? Smartly observed and wonderfully romantic, Jennifer E. Smith's new novel shows that the center of the world isn't necessarily a place. Sometimes, it can be a person.

Are you looking for a fun and challenging quiz to tackle solo? Or looking to tackle it with friends and family? Or looking for a big bank of questions for a pub quiz/quiz night? Here's what you will discover with this book: 720 multiple choice questions: Choose from 4 possible answers from each question. Unlike other quiz books we have seen out there - possible answers in The Ultimate Geography Quiz book are meant to be challenging and the possible answers are well researched to truly make you think - see below for more details. Challenging questions throughout: Made to really engage the brain cells, even for the die-hard geographers! Child/Family friendly questions: No sensitive topics are asked about within this book. Keep Score: Optional scoring system to measure your quizzing ability! Matte paperback cover for durability and ease of carrying, so your child can tackle questions at home or on the go. Tackle the quiz alone, with your partner, or make it a social event with your friends and family! Quizzes are great on commutes, and long drives - and equally as great as a social fun event for friends and family. You cannot go wrong with a quiz night! This book makes a perfect gift for adults and children with an interest in geography. Recommend age 12+ Question topics within The Ultimate Geography Quiz include, but not limited to: Country and

continent names, size, borders and locations respective to each other. Mountain, mountain heights, mountain range and volcano names and their locations. Ocean, seas, marginal seas, and their locations respective to each other City, building, landmark and capital city names and location. Deserts, forests, jungles, glaciers! Country size, flags, language currency, religion, climate and population. Flag, flag colors, other flag attributes. Physical Geography jargon. World record facts regarding geography. Challenging multiple choice questions: We have seen several quiz books that have a poor selection of multiple choice questions, such as example below... What is the highest mountain in Turkey? A Mt. Whitney B Mt. Everest C Mt. Ararat D Mt. Cook Whilst this question is somewhat tricky in itself, the answers given allow most geographers to eliminate the 3 wrong answers quickly to come up with answer C. Instead of this approach, we have kept the quiz more like shown below to make this strategy of quizzing harder for the challenger... What is the highest mountain in Turkey? A Mt. Elbrus B Mt. Davamond C Mt. Ararat D Mt. Bazarduzu Although it may be easy for some seasoned geographers, this question, by the choices given is harder for the most part, and will hopefully trigger more conversation/thought before answering.
