Industrial applications of Metal complexes have gained significant importance especially in the area of Catalysis in the last three decades. Scope for further development of such applications is extensive as several biological processes in living cells involve metal complexes. Coordination Chemistry is a subject uniquely involving application of Quantum Mechanics, Spectroscopy,

Kinetics, Catalysis, Biology and Industrial Chemistry. This book has been written keeping these important aspects of the subject in mind.

Did you ever wake up to one of those days where everything is a problem? You have 10 things to do, but only 30 minutes until your bus leaves. Is there enough time? You have 3 shirts and 2 pairs of pants. Can you make 1 good outfit? Then you start to wonder: Why does everything have to be such a problem? Why do 2 apples always have to be added to 5 oranges? Why do 4 kids always have to divide 12 marbles? Why can't you just keep 10 cookies without someone taking 3 away? Why? Because you're the victim of a Math Curse. That's why. But don't despair. This is one girl's story of how that curse can be broken.

WELCOME TO STORK-PUR, THE PLACE OF NO RETURN One moonlit night, when Shikar, the squirrel, asks his favourite doves, Lovey and Dovey, to tell him a story, they recount their time at Stork-pur, a mysterious bird commune. A place no bird would

ever want to visit. On a secret mission, the doves are taken hostage by a villainous stork whose dark plan is to rule the bird-world. Danger lurks in every corner of the caves the doves are imprisoned in, and they wonder whom they can trust? The talkative green pigeon, the mesmerizing whistling thrush or the magnificent golden eagle? The feather-raising adventure ends finally in a story the doves dub as 'the story of all stories'-one that deeply affects Shikar and alters his notions of himself, his past and his origins. Return to the Rose Garden to read about the enthralling capers of your favourite feathered friends and bird-squirrel, as they swap stories of daring and wonder.

We are pleased to present the series A Textbook of Geography for Classes 6 to 8. This series has been written in strict conformity with the latest curriculum. The new curriculum deals with the development of children's understanding and appreciation of the world through a continuous interaction and exploration of the natural and human environment. It also aims at encouraging children to appreciate the interdependence of individuals, groups and communities and promotes a healthy respect for different types of cultures and ways of life of people around the world. This series endeavours to introduce the practical aspect of the subject, along with the text, through appropriate Diagrams, Pictures, Maps, Mind Maps (graphic organisers) and latest updates in the field of Geography. The series has been specially designed for the young learners to make the learning experience both enjoyable and informative. The nllant features of the booka In this sertas are - 1. Simple, lucid and student friendly language with scientific, logical and practical approach. 2. Precise and to-the-point contents are given to avoid unnecessary details. 3. Maps and diagrams have been kept simple and clear. 4. In most cases there are separate maps for different types of information instead of providing them in one map. 5. Map skills in regional geography play an important role in understanding the subject as well as laying foundation for the future Examinations. For all the continents covered in curriculum, Self Explanatory Colourful Maps

with consolidated information have been given. For the convenience of the students and teachers, Practice Maps have been provided. 6. Colourful Mind Maps at the end of each lesson, give the gist of the lesson at a glance and are ideal for a quick revision. 7. Worksheets under Classwork have been introduced to comprehend the lesson. These are to be solved under the direct supervision of the teacher. 8. Comprehensive Exercise at the end of chapter contains all types of questions to consolidate learning. 9. Teacher's Resource Book containing answers of the exercise given at the back of each lesson is available. 10. As per the latest edition in the Board Examinations for ICSE, MCQ (Multiple Choice Questions) have been incorporated in the present set of books for 6th, 7th and 8th for exercise in the each chapter. The present set of books for classes 6, 7 and 8 is a continuation of my existing series of ICSE Geography for classes 9 and 10. This is a genuine effort to maintain the continuity in the ICSE syllabus from Classes 6 to 10 and prepare the students for the oncoming Board Examinations, right from class 6 onward. I hope to succeed in inculcating the interest and confidence amongst the students by providing the required guidance to achieve their ultimate goals. Any suggestions for improvement of the books are most welcome. -Author

What is the distinctive Zoroastrian experience, and what is the common diasporic experience? The Zoroastrian Diaspora is the outcome of twenty years of research and of archival and fieldwork in eleven countries, involving approximately 250,000 miles of travel. It has also involved a survey questionnaire in eight countries, yielding over 1,840 responses. This is the first

book to attempt a global comparison of Diaspora groups in six continents. Little has been written about Zoroastrian communities as far apart as China, East Africa, Europe, America, and Australia or on Parsis in Mumbai post-Independence. Each chapter is based on unused original sources ranging from nineteenth century archives to contemporary newsletters. The book also includes studies of Zoroastrians on the Internet, audio-visual resources, and the modern development of Parsi novels in English. As well as studying the Zoroastrians for their own inherent importance, this book contextualizes the Zoroastrian migrations within contemporary debates on Diaspora studies. John R. Hinnells examines what it is like to be a religious Asian in Los Angeles or London, Sydney or Hong Kong. Moreover, he explores not only how experience differs from one country to another, but also the differences between cities in the same country, for example, Chicago and Houston. The survey data is used firstly to consider the distinguishing demographic features of the Zoroastrian communities in various countries; and secondly to analyse different patterns of assimilation between different groups: men and women and according to the level and type of education. Comparisons are also drawn between people from rural and urban backgrounds; and between generations in religious beliefs and practices, including the preservation of secular culture.

In Going Solo, the world's favourite storyteller, Roald Dahl, tells of life as a fighter pilot in Africa. 'They did not think for one moment that they would find anything but a burnt-out fuselage and a charred skeleton, and they were astounded when they came upon my still-breathing body lying in the sand nearby.' In 1938

Roald Dahl was fresh out of school and bound for his first job in Africa, hoping to find adventure far from home. However, he got far more excitement than he bargained for when the outbreak of the Second World War led him to join the RAF. His account of his experiences in Africa, crashing a plane in the Western Desert, rescue and recovery from his horrific injuries in Alexandria, flying a Hurricane as Greece fell to the Germans, and many other daring deeds, recreates a world as bizarre and unnerving as any he wrote about in his fiction. 'Very nearly as grotesque as his fiction. The same compulsive blend of wide-eyed innocence and fascination with danger and horror' Evening Standard 'A non-stop demonstration of expert raconteurship' The New York Times Book Review Roald Dahl, the brilliant and worldwide acclaimed author of Charlie and the Chocolate Factory, James and the Giant Peach, Matilda, and many more classics for children, also wrote scores of short stories for adults. These delightfully disturbing tales have often been filmed and were most recently the inspiration for the West End play, Roald Dahl's Twisted Tales by Jeremy Dyson. Roald Dahl's stories continue to make readers shiver today.
