H.D. & Bryher: An Untold Love Story of Modernism takes on the daring task of examining the connection between two queer women, one a poet and the other a historical novelist, living from the late 19th century through the 20th century. When they met in 1918, H.D. was a modernist poet, married to a shell-shocked adulterous poet, and pregnant by another man. She fell in love with Bryher, who was entrapped by her wealthy secretive family.

Their bond grew over Greek poetry, geography, ancient history and literature, the telegraph, and telepathy. They felt their love-and their true identities existed invisibly- a giddy, and disturbing element to their relationship; they lived off and on in distant geographies, though in near continual contact. This book exposes why literary history has occluded this love story of the world wars and poetic modernism.

Now, hearing from someone who was there at the birth of the country, who sacrificed to make that happen, helps remind us where the Middle East standoff came from and why it never seems to end." "Published in anticipation of the 2014 Sochi Games, *The Complete Book of the Winter Olympics* has been expanded to include the rules and scoring

for all the upcoming events. The book also looks at the history of each Olympic event from inception to the present day, including discontinued events and the four skating events first featured, before the creation of the Winter Olympics, in the 1908 London Summer Olympics. From speed skating to snowboarding, bobsled to ice hockey, the book gives the medals tables, timings, distances, and scores. But much more than a statistical compendium, the book also offers an abundance of Winter Olympic history, anecdotes, and lore, as authors David Wallechinsky and Jaime Loucky bring alive the most dramatic moments from the Games and celebrating the many extraordinary individuals who have competed."--Publisher's description.

Sports Arbitration: A Coach for Other Players? is not about sports arbitration. The reader may thus ask: Well, what is it about? Arbitration can take inspiration from other human activities, for instance sports. Does it follow that arbitration in general can take inspiration from sports arbitration? Can sports arbitration serve as an example, be it for better or worse? And if so, what are the limits of this? These questions are highly topical in today's world of arbitration. Faced with the increased duration and costs of arbitral proceedings, and with the perception that litigators instead of business people have taken over the process, more and more users are calling for a return to fast, inexpensive forms of dispute resolution that are conducted by persons of the trade. This has resulted in a series of initiatives to introduce trade-specific forms of dispute resolution based on fast-track arbitration proceedings in a wide range of business sectors.

It's 1950, and new colors are being added to the Red Scare. Two U.S. State Department employees, Bob and Norma, have been tasked with identifying sexual deviants within their ranks. There's just one problem: Both Bob and Norma are gay, and have married each other's partners as a carefully constructed cover. Inspired by the true story of the earliest stirrings of the American gay rights movement, madcap classic sitcom-style laughs give way to provocative drama as two "All-American" couples are forced to stare down the closet door.
