In 1968, Winthrop D.

Jordan set out in encyclopedic detail the evolution of white

Englishmen's and Anglo-Americans' perceptions of blacks, perceptions of difference used to justify race-based slavery, and liberty and justice for whites only. This second edition, with new forewords by historians Christopher Leslie Brown and Peter H. Wood, reminds us that Jordan's text is still the definitive work on the history of race in America in the colonial era. Every book published to this day on slavery and racism builds upon his work; all are judged in comparison to it; none has surpassed it.

Routledge

Basil Davidson's famous book -- now updated in a welcome Third Edition -- reviews the social and political history of Africa in the twentieth century. It takes the reader from the colonial era through the liberation movements to independence and beyond. It faces squarely the disappointments and breakdowns that have dulled the early successes of the post-colonial era; yet, for all the sorrows and uncertainties of Africa today, Basil Davidson shows how much has been achieved since decolonization, and the mood of his new final chapter is hopeful and buoyant.

The classic history of Africa from the green Sahara and the Iron Age through the 20th century. Basil Davidson's *Africa in History* was a landmark in the restoration of African history. For centuries the myth had prevailed that Africa had no history prior to direct contact with European "civilization". This new edition of Basil Davidson's book not only eradicated these myths, but takes account of much of the most recent scholarship about native African civilizations.

 This book re-presents the poetry of Rudyard Kipling in the form of bold slogans, the better for us to reappraise the meaning and import of his words and his art. Each line or phrase is thrust at the reader in a manner that may be inspirational or controversial... it is for the modern consumer of this recontextualization to decide. They are words to provoke: to action. To inspire. To recite. To revile. To reconcile or reconsider the legacy and benefits of colonialism. Compiled and presented by sloganist Dick Robinson, three poems are included, complete and uncut: 'White Man's Burden', 'Fuzzy-Wuzzy' and 'If'.

Diverse and key figures of Pan-Africanism from Africa, the Caribbean, and America are covered by these chapters, including: Edward Blyden, W.E.B. Du Bois, Marcus Garvey, Amy Ashwood Garvey, George Padmore, Kwame Nkrumah, Franz Fanon, Amilcar Cabral, Arthur Lewis, Maya Angelou, C.L.R. James, Ruth First, Ali Mazrui, Wangari Maathai, Thabo Mbeki, Wole Soyinka, Derek Walcott, and Chimamanda Adichie. The Before Columbus Foundation 2018 Winner of the AMERICAN BOOK AWARD Tommy J. Curry's provocative book *The Man-Not* is a justification

for Black Male Studies. He posits that we should conceptualize the Black male as a victim, oppressed by his sex. The Man-Not, therefore, is a corrective of sorts, offering a concept of Black males that could challenge the existing accounts of Black men and boys desiring the power of white men who oppress them that has been proliferated throughout academic research across disciplines. Curry argues that Black men struggle with death and suicide, as well as abuse and rape, and their gendered existence deserves study and theorization. This book offers intellectual, historical, sociological, and psychological evidence that the analysis of patriarchy offered by mainstream feminism (including Black feminism) does not yet fully understand the role that homoeroticism, sexual violence, and vulnerability play in the deaths and lives of Black males. Curry challenges how we think of and perceive the conditions that actually affect all Black males. The Black Man's Burden Lampo  
From the vital voice of Elijah Anderson, *Black in White Space* sheds fresh

light on the dire persistence of racial discrimination in our country. A birder strolling in Central Park. A college student lounging on a university quad. Two men sitting in a coffee shop. Perfectly ordinary actions in ordinary settings—and yet, they sparked jarring and inflammatory responses that involved the police and attracted national media coverage. Why? In essence, Elijah Anderson would argue, because these were Black people existing in white spaces. In *Black in White Space*, Anderson brings his immense knowledge and ethnography to bear in this timely study of the racial barriers that are still firmly entrenched in our society at every class level. He focuses in on symbolic racism, a new form of racism in America caused by the stubbornly powerful stereotype of the ghetto embedded in the white imagination, which subconsciously connects all Black people with crime and poverty regardless of their social or economic position. White people typically avoid Black space, but Black people are required to navigate the “white space” as a condition of their existence. From Philadelphia street-corner

conversations to Anderson's own morning jogs through a Cape Cod vacation town, he probes a wealth of experiences to shed new light on how symbolic racism makes all Black people uniquely vulnerable to implicit bias in police stops and racial discrimination in our country. An unwavering truth teller in our national conversation on race, Anderson has shared intimate and sharp insights into Black life for decades. Vital and eye-opening, *Black in White Space* will be a must-read for anyone hoping to understand the lived realities of Black people and the structural underpinnings of racism in America.

Liberator of North Africa, charismatic conqueror of Islam, in reality he is Homer Crawford, "turncoat" black American sociologist who is determined to lead the Dark Continent into the modern age by whatever means are necessary. Arrayed against him are all the forces of the status quo: the combined military might of the North African states, mercenary hirelings of corrupt oil sheikdoms, Moslem religious fanatics, and the American CIA. Only the people are for El Hassan, and they, only so long as he is victorious.

*My Non-violence* Univ of California Press  
A New York Times Notable Book of 2019 A unique exploration of the life and

work of Rudyard Kipling in Gilded Age America, from a celebrated scholar of American literature At the turn of the twentieth century, Rudyard Kipling towered over not just English literature but the entire literary world. At the height of his fame in 1907, he was awarded the Nobel Prize for Literature, becoming its youngest winner. His influence on major figures—including Freud and William James—was pervasive and profound. But in recent decades Kipling's reputation has suffered a strange eclipse. Though his body of work still looms large, and his monumental poem "If—" is quoted and referenced by politicians, athletes, and ordinary readers alike, his unabashed imperialist views have come under increased scrutiny. In *If*, scholar Christopher Benfey brings this fascinating and complex writer to life and, for the first time, gives full attention to Kipling's intense engagement with the United States—a rarely discussed but critical piece of evidence

in our understanding of this man and his enduring legacy. Benfey traces the writer's deep involvement with America over one crucial decade, from 1889 to 1899, when he lived for four years in Brattleboro, Vermont, and sought deliberately to turn himself into a specifically American writer. It was his most prodigious and creative period, as well as his happiest, during which he wrote *The Jungle Book* and *Captains Courageous*. Had a family dispute not forced his departure, Kipling almost certainly would have stayed. Leaving was the hardest thing he ever had to do, Kipling said. "There are only two places in the world where I want to live," he lamented, "Bombay and Brattleboro. And I can't live in either." In this fresh examination of Kipling, Benfey hangs a provocative "what if" over Kipling's American years and maps the imprint Kipling left on his adopted country as well as the imprint the country left on him. It proves there is relevance and magnificence to be found in Kipling's work.
