Shadow of Life Intellect Books

In recent years the borders of Europe have been perceived as being besieged by a staggering refugee and migration crisis. The contributors to *The Borders of "Europe"* see this crisis less as an incursion into Europe by external conflicts than as the result of migrants exercising their freedom of movement. Addressing the new technologies and technical forms European states use to curb, control, and constrain what contributors to the volume call the autonomy of migration, this book shows how the continent's amorphous borders present a premier site for the enactment and disputation of the very idea of Europe. They also outline how from Istanbul to London, Sweden to Mali, and Tunisia to Latvia, migrants are finding ways to subvert visa policies and asylum procedures while negotiating increasingly militarized and surveilled borders. Situating the migration crisis within a global frame and attending to migrant and refugee supporters as well as those who stoke nativist fears, this timely volume demonstrates how the enforcement of Europe's borders is an important

element of the worldwide regulation of human mobility.

Contributors. Ruben Andersson, Nicholas De Genova, Dace Dzenovska, Evelina Gambino, Glenda Garelli, Charles Heller, Clara Lecadet, Souad Osseiran, Lorenzo Pezzani, Fiorenza Picozza, Stephan Scheel, Maurice Stierl, Laia Soto Bermant, Martina Tazzioli

Other vocabulary books list difficult, esoteric words that readers quickly forget or feel self-conscious about using. Here there is a bounty of choice words, between the common and the esoteric, that will flow forth, once learned. Brief Description: English offers perhaps the richest vocabulary of all languages, in part because its words are culled from so many languages. It is a shame that we do not tap this rich source more often in our daily conversation to express ourselves more clearly and precisely. Many a vocabulary book lists esoteric words we quickly forget or feel self-conscious using. However, there is a bounty of choice words between the common and the esoteric that often seem be just on the tip of our tongue. Vocabulary 4000 brings these words

to the fore. All the words you need for success in business, school, and life! Features: \* Word Analysis section\* Idiom and Usage section\* 200 Prefixes, Roots, and Suffixes\* Concise, practical definitions\* Great for the SAT, GRE and other entrance exams.

**Adventures of an Accidental Journalist** Springer Science & Business Media

Gun Meister Online is a recently released Virtual-Reality Combat Simulator. Players assume the role of a Meister; fighting in matches and ranking up into higher divisions. Within the game, weapons take on human shape. These NPC's use a new Dynamic Distributed Personality System recently implemented, and many are excited by how life-like the AI characters are becoming. Charlie has only just begun to play, and he struggles to grow as a Meister. At the same time, he starts to take charge of his real-life outside. Eventually, Charlie finds friendship among a group of erratic misfits along with an arsenal of beautiful weapons. Follow him on an adrenaline filled adventure, one that may decide the fate of Earth. Online experience may vary from person to person. Gun Meister is rated [Adult] and only those eighteen or older are allowed to enter a world of guns, violence, profanity, fast cars, pretty girls, and a hot mess of sexual content. Have we mentioned harems, yet? Every Meister gets one. This version contains uncensored and detailed descriptions of sex. Enjoy.

**Riots I Have Known** Lucasbooks

An absorbing account of the record industry's worst nightmare. In the summer of 1969, *Great White Wonder*, a collection of unreleased Bob Dylan recordings appeared in Los Angeles. It was the first rock bootleg and it spawned an entire industry dedicated to making unofficial recordings available to true fans. *Bootleg!* tells the whole fascinating saga, from its underground infancy through the CD 'protection gap' era, when its legal status threatened the major labels' monopoly, to the explosion of trading via Napster and Gnutella on MP-3 files. Clinton Heylin provides a highly readable account of the busts, the defeats and victories in court; the personalities - many interviewed for the first time for this book. This classic history has now been updated and revised to include today's digital era and the emergence of a whole new bootleg culture.

**The British Navy Book** DDCO Publishing, LLC.

Written by a senior scholar and master mariner, *Sailors and Traders* is the first comprehensive account of the maritime peoples of the Pacific. It focuses on the sailors who led the exploration and settlement of the islands and New Zealand and their seagoing descendants, providing along the way new material and unique observations on traditional and commercial seagoing against the background of major periods in Pacific history. The book begins by detailing the traditions of sailors, a group whose way of life sets them apart. Like all others who live and work at sea, Pacific mariners face the challenges of an often harsh environment, endure separation from their families for months at a time, revere their vessels, and share a singular attitude to risk and death. The period of prehistoric seafaring is discussed using archaeological data, interpretations from interisland exchanges, experimental voyaging, and recent DNA analysis. Sections on the arrival of foreign exploring ships centuries later concentrate on relations between visiting sailors and maritime communities. The more intrusive influx of commercial trading and whaling ships brought new technology, weapons, and differences in the ethics of trade. The successes and failures of Polynesian chiefs who entered trading with European-type ships are recounted as neglected aspects of Pacific history. As foreign-owned commercial ships expanded in the region so did colonialism, which was accompanied by an increase in the number of sailors from metropolitan countries and a decrease in the employment of Pacific islanders on foreign

ships. Eventually small-scale island entrepreneurs expanded interisland shipping, and in 1978 the regional Pacific Forum Line was created by newly independent states. This was welcomed as a symbolic return to indigenous Pacific ocean linkages. The book's final sections detail the life of the modern Pacific seafarer. Most Pacific sailors in the global maritime labor market return home after many months at sea, bringing money, goods, a wider perspective of the world, and sometimes new diseases. Each of these impacts is analyzed, particularly in the case of Kiribati, a major supplier of labor to foreign ships.

**Sailors and Traders** Pan Macmillan

Schoenberg is often viewed as an isolated composer who was ill-at-ease in exile. In this book Kenneth H. Marcus shows that in fact Schoenberg's connections to Hollywood ran deep, and most of the composer's exile compositions had some connection to the cultural and intellectual environment in which he found himself. He was friends with numerous successful film industry figures, including George Gershwin, Oscar Levant, David Raksin and Alfred Newman, and each contributed to the composer's life and work in different ways: helping him to obtain students, making recordings of his music, and arranging commissions. While teaching at both the University of Southern California and the University of California, Los Angeles, Schoenberg was able to bridge two utterly different worlds: the film industry and the academy. Marcus shows that alongside Schoenberg's vital impact upon Southern California Modernism through his pedagogy, compositions and texts, he also taught students who became central to American musical modernism, including John Cage and Lou Harrison.

**A Cultural History of the Disneyland Theme Parks** Hachette UK

This innovative study re-examines the dynamics of race relations in the post--Civil War South from an altogether fresh perspective: field sports. In the late nineteenth and early twentieth centuries, wealthy white men from Southern cities and the industrial North traveled to the hunting and fishing lodges of the old Confederacy -- escaping from the office to socialize among like-minded peers. These sportsmen depended on local black guides who knew the land and fishing holes and could ensure a successful outing. For whites, the ability to hunt and fish freely and employ black laborers became a conspicuous display of their wealth and social standing. But hunting and fishing had been a way of life for all Southerners -- blacks included -- since colonial times. After the war, African Americans used their mastery of these sports to enter into market activities normally denied people of color, thereby becoming more economically independent from their white employers. Whites came to view black participation in hunting and fishing as a serious threat to the South's labor system. Scott E. Giltner shows how African-American freedom developed in this racially tense environment -- how blacks' sense of competence and authority flourished in a Jim Crow setting. Giltner's thorough research using slave narratives, sportsmen's recollections, records of fish and game clubs, and sporting periodicals offers a unique perspective on the African-American struggle for independence from the end of the Civil War to the 1920s. -- Stephen A. West

**Precision and Purpose** Open Book Publishers

The next time the goddess of premonition says, "Hey, Arden, you're gonna die," I should really take her more seriously. She's annoyingly right about things like that. It's just... I didn't want to think about dying. I was busy enough with a pregnant foxkin builder, a slime gal that may or may not be melting, and a goddess that kept bombarding me with snarky telepathic nonsense. Throw in a disappearing city, a deadly gypsy festival, a feisty band of brothel-working elf women -- and Reyna. Oh, Reyna. The white-haired, charcoal-skinned hell maiden begging

for my hands all over her... skills. She needed help sealing the rifts to the underworld before Duul turned the afterlife into his own personal weapon. All this before the god of war marches his ugly ancient ass into Halcyon for a showdown with Nola, my new family, and our growing city of refugees. Who has time to die with all that going on?

Hunting and Fishing in the New South Halcyon Rising: Bastion of Hope  
How to survive when the god of war wants to destroy you and everyone you've ever met? Probably hide, really really well. What did I do? Become head priest of the most beautiful, irritating, quick-thinking, mind-reading, mildly sarcastic goddess I could trip over in the woods, then tell the war god to his face that I was gonna wipe up the pantheon with his ugly mug. Now I'm seeking divine intervention from gods in neighboring cities, fending off a parade of unwanted guests, and racing to build this temple into a wallys, towersy, fortressy, bad-ass city with defenses for days -- before the war god's newest recruits can blow this place to kingdom come. Thankfully, I have the girls to help me. They're the first family I've ever known, and I won't let the war god take them from me as long as I'm still alive. Which, I admit, may not be much longer... Warning!: This book has no gimmicky warnings, just non-stop save-the-world action, tons of cool new skills to unlock, and me working my ass off to keep my growing city full of beautiful women satisfied!  
Halcyon Rising: Breaking Ground  
My skill set brings all the girls to the yard. And by yard, I mean, the temple of a young goddess who's using me to build a fortified city around herself before the god of war can finish slaying every deity in the heavens. He'd better not find us before we're ready. Spoiler: We're far from ready. But hey, I get a cool skill out of it. The goddess allows me to view anyone's strength, vivacity, and other attributes as though they were numbers on a menu, and then use their life experiences to make them stronger. I can unlock their special skills too, and it's all stuff no one else can see. Hence the girls: A beastkin builder, a negotiatrix made of slime, a half-elf gypsy that charms snakes -- and more -- seeking safe refuge and a place to belong. Think our ragtag group can survive a divine onslaught of apocalyptic proportions? I know what I think. Come on in and find out.  
A Song for Summer

Jedi knight Luke Skywalker must prevent a group of rogue knights from defecting to the dark side of the force in order to defeat the Yuuzhan Vong, who have launched an attack on the worlds of the Outer Rim. Original.

*Conservatives and the Legacies of the 1960s* Cambridge University Press

#1 NEW YORK TIMES BESTSELLER • Long before the First Order, before the Empire, before even *The Phantom Menace* . . . Jedi lit the way for the galaxy in *The High Republic* It is a golden age. Intrepid hyperspace scouts expand the reach of the Republic to the furthest stars, worlds flourish under the benevolent leadership of the Senate, and peace reigns, enforced by the wisdom and strength of the renowned order of Force users known as the Jedi. With the Jedi at the height of their power, the free citizens of the galaxy are confident in their ability to weather any storm But the even brightest light can cast a shadow, and some storms defy any preparation. When a shocking catastrophe in hyperspace tears a ship to pieces, the flurry of shrapnel emerging from the disaster threatens an entire system. No sooner does the call for help go out than the Jedi race to the scene. The scope of the emergence, however, is enough to push even Jedi to their limit. As the sky breaks open and destruction rains down upon the peaceful alliance they helped to build, the Jedi must trust in the Force to see them through a day in which a single mistake could cost billions of lives. Even as the Jedi battle valiantly against calamity, something truly deadly grows beyond the

boundary of the Republic. The hyperspace disaster is far more sinister than the Jedi could ever suspect. A threat hides in the darkness, far from the light of the age, and harbors a secret that could strike fear into even a Jedi's heart.

The American public has a fascination with railroad wrecks that goes back a long way. One hundred years ago, staged railroad accidents were popular events. At the Iowa State fair in 1896, 89,000 people paid \$20 each, at current prices, to see two trains, throttles wide open, collide with each other. "Head-on Joe" Connolly made a business out of "cornfield meets" holding seventy-three events in thirty-six years. Picture books of train wrecks do good business presumably because a train wreck can guarantee a spectacular destruction of property without the messy loss of life associated with aircraft accidents. A "train wreck" has also entered the popular vocabulary in a most unusual way. When political manoeuvring leads to failure to pass the federal budget, and a shutdown is likely of government services, this is widely called a "train wreck." In business and team sports, bumbling and lack of coordination leading to a spectacular and public failure to perform is also called "causing a train wreck." A person or organization who is disorganized may be labelled a "train wreck." It is therefore not surprising that the public perception of the safety of railroads centers on images of twisted metal and burning tank cars, and a general feeling that these events occur quite often. After a series of railroad accidents, such as occurred in the winter of 1996 or the summer of 1997, there are inevitable calls that government "should do something."

**Halcyon Rising: Breaking Ground** Rand Corporation

Longlisted for the 2019 Center for Fiction First Novel Prize, Ryan Chapman's "gritty, bracing debut" (*Esquire*) set during a prison riot is "dark, daring, and laugh-out-loud hilarious...one of the smartest—and best—novels of the year" (NPR). A largescale riot rages through Westbrook prison in upstate New York, incited by a poem in the house literary journal. Our unnamed narrator, barricaded inside the computer lab, swears he's blameless—even though, as editor-in-chief, he published the piece in question. As he awaits violent interruption by his many, many enemies, he liveblogs one final Editor's Letter. *Riots I Have Known* is his memoir, confession, and act of literary revenge. His tale spans a childhood in Sri Lanka, navigating the postwar black markets and hotel chains; employment as a Park Avenue doorman, serving the widows of the one percent; life in prison, with the silver lining of his beloved McNairy; and his stewardship of *The Holding Pen*, a "masterpiece of post-penal literature" favored by Brooklynites everywhere. All will be revealed, and everyone will see he's really a good guy, doing it for the right reasons. "Fitfully funny and murderously wry," *Riots I Have Known* is "a frenzied yet wistful monologue from a lover of literature under siege" (Kirkus Reviews).

[A Maritime History of the Pacific Peoples](#) Good Press

In 1683, an Ottoman army that stretched from horizon to horizon set out to seize the "Golden Apple," as Turks referred to Vienna. The ensuing siege pitted battle-hardened Janissaries wielding seventeenth-century grenades against Habsburg armies, widely feared for their savagery. The walls of Vienna bristled with guns as the besieging Ottoman host launched bombs, fired cannons, and showered the populace with arrows during the battle for Christianity's bulwark. Each side was sustained by the hatred of its age-old enemy, certain that victory would be won by the grace of God. The Great Siege of Vienna is the centerpiece for historian Andrew Wheatcroft's richly drawn portrait of the centuries-long rivalry between the Ottoman and Habsburg empires for control of the European continent. A gripping work by a master historian, *The Enemy at the Gate* offers a timely examination of an epic clash of civilizations.

[Black Labor and White Leisure After the Civil War](#) Penguin

The New York Times bestselling exposé of what passes for business as usual in Washington today There was a time, not so very long ago, when perfectly rational people ran the Republican Party. So how did the party of Lincoln become the party of lunatics? That is what this book aims to answer. Fear not, the

Dems come in for their share of tough talk— they are zombies, a party of the living dead. Mike Lofgren came to Washington in the early eighties—those halcyon, post-Nixonian glory days—for what he imagined would be a short stint on Capitol Hill. He has witnessed quite a few low points in his twenty-eight years on the Hill—but none quite so pitiful as the antics of the current crop of legislators whom we appear to have elected. Based on the explosive article Lofgren wrote when he resigned in disgust after the debt ceiling crisis, *The Party Is Over* is a funny and impassioned exposé of everything that is wrong with Washington. Obama and his tired cohorts are no angels but they have nothing on the Republicans, whose wily strategists are bankrupting the country one craven vote at a time. Be prepared for some fireworks.

[King of the Gods](#) Duke University Press

The 1960s were a colorful, tumultuous age that transformed American society. Ever since the decade ended, Americans have debated the changes that it unleashed. While most liberals argue that the era's effects were mainly positive and long overdue, conservatives perceive the 1960s as a disastrous time that has left ruinous legacies for us. *Stuck in the Sixties* analyzes conservatives' views about the 1960s era and its legacies by examining their discourse about such sixties figures and movements as John F. Kennedy, Martin Luther King, Jr., the civil-rights movement, the Warren Court, the Great Society, the Vietnam War, the anti war movement, the New Left, and the counterculture. The book reveals that, for a generation, a focus on attacking and reversing the legacies of the 1960s has been essential to the conservative Republican agenda.
