LANG LACI

Top Secret Missions of the U.S. Army's Special Operations Aviation Regiment Knopf Books for Young Readers

The Armies of the Night chronicles the famed October 1967 March on the Pentagon, in which all of the old and new Left—hippies, yuppies, Weathermen, Quakers, Christians, feminists, and intellectuals—came together to protest the Vietnam War. Alongside his contemporaries, Mailer went, witnessed, participated, suffered, and then wrote one of the most stark and intelligent appraisals of the 1960s: its myths, heroes, and demons. Winner of the Pulitzer Prize and the National Book Award and a cornerstone of New Journalism, *The Armies of the Night* is not only a fascinating foray into that mysterious terrain between novel and history, fiction and nonfiction, but also a key chapter in the autobiography of Norman Mailer—who, in this nonfiction novel, becomes his own great character, letting history in all its complexity speak through him.

Phantom Armies of the Night First Avenue Editions™

First published in 1959, *The Longest Day* is one of the bestselling military history books of all time, and the inspiration for the legendary 1962 film. Cornelius Ryan pioneered a new style of military writing based on interviews with more than a thousand battle participants from both sides. This beautifully designed archive edition incorporates 25 original research documents with Ryan's classic text, along with an additional 120 photographs.

Ia Drang—The Battle That Changed the War in Vietnam Government Printing Office

Who was the enigmatic Jean Moulin, a man as skilled in deception as he was in acts of heroism?

The memory of this French Resistance hero, who was betrayed to the Gestapo and tortured by Klaus Barbie, the infamous 'Butcher of Lyon', is revered alongside that of other national icons. But Moulin's story is full of unanswered questions and the truth of his life is far more complicated than the legend. Patrick Marnham, winner of the Marsh Prize for biography, thrillingly tells the epic story of France's greatest war hero, bringing to light the shadowy and often deceitful world of the French

Resistance, and offers a shocking conclusion to one of the great unsolved mysteries of World War II.

Random House

A revelatory, explosive new analysis of the British military today. Over the first two decades of the twenty-first century, Britain has changed enormously. During this time, the British Army fought two campaigns, in Iraq and Afghanistan, at considerable financial and human cost. Yet neither war achieved its objectives. This book questions why, and provides challenging but necessary answers. Composed of assiduous documentary research, field reportage, and hundreds of interviews with many soldiers and officers who served, as well as the politicians who directed them, the allies who accompanied them, and the family members who loved and -- on occasion -- lost them, it is a strikingly rich, nuanced portrait of one of our pivotal national institutions in a time of great stress. Award-winning journalist Simon Akam, who spent a year in the army when he was 18, returned a decade later to see how the institution had changed. His book examines the relevance of the armed forces today -- their social, economic, political, and cultural role. This is as much a book about Britain, and about the politics of failure, as it is about the military.

Logistical Support of the Armies Government Printing Office

The “fascinating” #1 New York Times bestseller that awakened the world to the destruction of American Indians in the nineteenth-century West (The Wall Street Journal). First published in 1970, *Bury My Heart at Wounded Knee* generated shockwaves with its frank and heartbreaking depiction of the systematic annihilation of American Indian tribes across the western frontier. In this nonfiction account, Dee Brown focuses on the betrayals, battles, and massacres suffered by American Indians between 1860 and 1890. He tells of the many tribes and their renowned chiefs—from Geronimo to Red Cloud, Sitting Bull to Crazy Horse—who struggled to combat the destruction of their people and culture. Forcefully written and meticulously researched, *Bury My Heart at Wounded Knee* inspired a generation to take a second look at how the West was won. This ebook features an illustrated biography of Dee Brown including rare photos from the author’s personal collection.

[The War of the Worlds](#) Simon and Schuster

Considered by many the greatest war novel of all time, *All Quiet on the Western Front* is Erich Maria Remarque’s masterpiece of the German experience during World War I. I am young, I am twenty years old; yet I know nothing of life but despair, death, fear, and fatuous superficiality cast over an abyss of sorrow. . . . This is the testament of Paul Bäumer, who enlists with his classmates in the German army during World War I. They become soldiers with youthful enthusiasm. But the world of duty, culture, and progress they had been taught breaks in pieces under the first bombardment in the trenches. Through years of vivid horror, Paul holds fast to a single vow: to fight against the principle of hate that meaninglessly pits young men of the same generation but different uniforms against one another . . . if only he can come out of the war alive. “The world has a great writer in Erich Maria Remarque. He is a craftsman of unquestionably first rank, a man who can bend language to his will. Whether he writes of men or of inanimate nature, his touch is sensitive, firm, and sure.”—The New York Times Book Review

All the Light We Cannot See Random House Trade Paperbacks

Shooting Up: A Short History of Drugs and War examines how intoxicants have been put to the service of states, empires and their armies throughout history. Since the beginning of organized combat, armed forces have prescribed drugs to their members for two general purposes: to enhance performance during combat and to counter the trauma of killing and witnessing violence after it is over. Stimulants (e.g. alcohol, cocaine, and amphetamines) have been used to temporarily create better soldiers by that improving stamina, overcoming sleeplessness, eliminating fatigue, and increasing fighting spirit. Downers (e.g. alcohol, opiates, morphine, heroin, marijuana, barbiturates) have also been useful in dealing with the soldier's greatest enemy - shattered nerves. Kamienski’s focuses on drugs “prescribed” by military authorities, but also documents the widespread unauthorised consumption by soldiers themselves. Combatants have always treated with various drugs and alcohol, mainly for recreational use and as a reward to themselves for enduring the constant tension of preparing for. Although not officially approved, such “self-medication” is often been quietly tolerated by commanders in so far as it did not affect combat effectiveness. This volume spans the history of combat from the use of opium, coca, and mushrooms in pre-modern warfare to the efforts of modern militaries, during the Cold War in particular, to design psychochemical offensive weapons that can be used to incapacitate rather than to kill the enemy. Along the way, Kamienski provides fascinating coverage of on the European adoption of hashish during Napoleon's invasion of Egypt, opium use during the American Civil War, amphetamines in the Third Reich, and the use of narcotics to control child soldiers in the rebel militias of contemporary Africa.

[Why Are We in Vietnam?](#) Calder Publications Limited

An exploration of the many forms of the ancient myth of the Wild Hunt and its influence in pagan and early Christian Europe • Recounts the myriad variations of this legend, from the Cursed Huntsman and King Herla to phantom armies and vast processions of sinners and demons • Explains how this belief was an integral part of the pagan worldview and was thus employed by the church to spread Christian doctrine • Reveals how the secret societies of medieval Europe reenacted these ghostly processions for soul travel and prophecies of impending death Once upon a time a phenomenon existed in medieval Europe that continuously fueled local lore: during the long winter nights a strange and unknown troop could be heard passing outside over the land or through the air. Anyone caught by surprise in the open fields or depths of the woods would see a bizarre procession of demons, giants, hounds, ladies of the night, soldiers, and knights, some covered in blood and others carrying their heads beneath their arms. This was the Wild or Infernal

Hunt, the host of the damned, the phantom army of the night--a theme that still inspires poets, writers, and painters to this day. Millennia older than Christianity, this pagan belief was employed by the church to spread their doctrine, with the shapeshifters' and giants of the pagan nightly processions becoming sinners led by demons seeking out unwary souls to add to their retinues. Myth or legend, it represents a belief that has deep roots in Europe, particularly Celtic and Scandinavian countries. The first scholar to fully examine this myth in each of its myriad forms, Claude Lecouteux strips away the Christian gloss and shows how the Wild Hunt was an integral part of the pagan worldview and the structure of their societies. Additionally, he looks at how secret societies of medieval Europe reenacted these ghostly processions through cult rituals culminating in masquerades and carnival-like cavalcades often associated with astral doubles, visions of the afterlife, belief in multiple souls, and prophecies of impending death. He reveals how the nearly infinite variations of this myth are a still living, evolving tradition that offers us a window into the world in which our ancestors lived.

Acclaimed New York Times journalist and author Chris Hedges offers a critical -- and fascinating -- lesson in the dangerous realities of our age: a stark look at the effects of war on combatants. Utterly lacking in rhetoric or dogma, this manual relies instead on bare fact, frank description, and a spare question-and-answer format. Hedges allows U.S. military documentation of the brutalizing physical and psychological consequences of combat to speak for itself. Hedges poses dozens of questions that young soldiers might ask about combat, and then answers them by quoting from medical and psychological studies. • What are my chances of being wounded or killed if we go to war? • What does it feel like to get shot? • What do artillery shells do to you? • What is the most painful way to get wounded? • Will I be afraid? • What could happen to me in a nuclear attack? • What does it feel like to kill someone? • Can I withstand torture? • What are the long-term consequences of combat stress? • What will happen to my body after I die? This profound and devastating portrayal of the horrors to which we subject our armed forces stands as a ringing indictment of the glorification of war and the concealment of its barbarity.

[The Ghost Army of World War II](#) W. W. Norton & Company

One of the first examples of "new journalism" daringly combines reportage with a novelistic style and garnered Mailer his first Pulitzer Prize and a National Book Award in 1968.

Barbary Shore Penguin

Recreates the military accomplishments and delineates the nationalistic characters of each of the armies of the Normandy invasion

Invisible Armies: An Epic History of Guerrilla Warfare from Ancient Times to the Present HarperCollins

Published at the height of the McCarthy era, Norman Mailer’s audacious novel of socialism is at once an elegy and an indictment, a sinuous moral thriller and an intellectual slugfest. Wounded during World War II, Mike Lovett is an amnesiac, and much of his past is a secret to himself. But when Lovett rents a room in Brooklyn, he finds that his housemates have secrets of their own: One betrays a husband no one ever sees; another may have been a Communist executioner.

Combining Kafkaesque unease with Orwellian paranoia, *Barbary Shore* plays havoc with our certainties and delivers its effects with a force that is pure Mailer. Praise for *Barbary Shore* “A work of remarkable power, of amazing penetration, both into people and the determining forces of American life.”—The Atlantic Monthly “Vibrant with life, abundant with real people . . . [Mailer has] a scintillating skill in observation, a mature sense of meaning.”—The Philadelphia Inquirer “This book is nothing short of amazing.”—Newsweek “*Barbary Shore* [is] about the kind of country—and what you might call the psychic territory—that American war heroes were returning to.”—The Guardian Praise for Norman Mailer “[Norman Mailer] loomed over American letters longer and larger than any other writer of his generation.”—The New York Times “A writer of the greatest and most reckless talent.”—The New Yorker “Mailer is indispensable, an American treasure.”—The Washington Post “A devastatingly alive and original creative mind.”—Life “Mailer is fierce, courageous, and reckless and nearly everything he writes has sections of headlong brilliance.”—The New York Review of Books “The largest mind and imagination [in modern] American literature . . . Unlike just about every American writer since Henry James, Mailer has managed to grow and become richer in wisdom with each new book.”—Chicago Tribune “Mailer is a master of his craft. His language carries you through the story like a leaf on a stream.”—The Cincinnati Post

Night Stalkers are a special operations force of the Army who specialize in piloting helicopters. Kids will read about the helicopters Night Stalkers use to perform their missions, what kind of missions they perform, and what life is like as a Night Stalker.

The Armies of the Night Penguin Classics

In this wild battering ram of a novel, which was originally published to vast controversy in 1965, Norman Mailer creates a character who might be a fictional precursor of the philosopher-killer he would later profile in *The Executioner’s Song*. As Stephen Rojack, a decorated war hero and former congressman who murders his wife in a fashionable New York City high-rise, runs amok through the city in which he was once a privileged citizen, Mailer peels away the layers of our social norms to reveal a world of pure appetite and relentless cruelty. One part Nietzsche, one part de Sade, and one part Charlie Parker, *An American Dream* grabs the reader by the throat and refuses to let go. Praise for *An American Dream* “Perhaps the only serious New York novel since *The Great Gatsby*.”—Joan Didion, *National Review* “A devil’s encyclopedia of our secret visions and desires . . . the expression of a devastatingly alive and original creative mind.”—Life “A work of fierce concentration . . . perfectly, and often brilliantly, realistic [with] a pattern of remarkable imaginative coherence and intensity.”—Harper’s “At once violent, educated, and cool . . . This is our history as Hawthorne might have written it.”—Commentary Praise for Norman Mailer “[Norman Mailer] loomed over American letters longer and larger than any other writer of his generation.”—The New York Times “A writer of the greatest and most reckless talent.”—The New Yorker “Mailer is indispensable, an American treasure.”—The Washington Post “A devastatingly alive and original creative mind.”—Life “Mailer is fierce, courageous, and reckless and nearly everything he writes has sections of headlong brilliance.”—The New York Review of Books “The largest mind and imagination [in modern] American literature . . . Unlike just about every American writer since Henry James, Mailer has managed to grow and become richer in wisdom with each new book.”—Chicago Tribune “Mailer is a master of his craft. His language carries you through the story like a leaf on a stream.”—The Cincinnati Post

[A Novel](#) The Armies of the NightHistory as a Novel: the Novel as HistoryThe Armies of the NightHistory as a Novel, the Novel as History

When it was published in 1932, this revolutionary first fiction redefined the art of the novel with its black humor, its nihilism, and its irreverent, explosive writing style, and made Louis-Ferdinand Celine one of France’s--and literature’s--most important 20th-century writers. The picaresque adventures of Bardamu, the sarcastic and brilliant antihero of *Journey to the End of the Night* move from the battlefields of World War I (complete with buffoonish officers and cowardly soldiers), to French West Africa, the United States, and back to France in a style of prose that’s lyrical, hallucinatory, and hilariously scathing toward nearly everybody and everything. Yet, beneath it all one can detect a gentle core of idealism.

An American Dream Simon and Schuster

When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear—England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of extraterrestrial invasion. H. G. Wells’s military science fiction novel was first published in book form in 1898, and is considered a classic of English literature.

A Short History of Drugs and War Odyssey Editions

“My favorite historical novel . . . a superb re-creation of the Battle of Gettysburg, but its real importance is its insight into what the war was about, and what it meant.”—James M. McPherson In the four most bloody and courageous days of our nation's history, two armies fought for two conflicting dreams. One dreamed of freedom, the other of a way of life. Far more than rifles and bullets were carried into battle. There were memories. There were promises. There was love. And far more than men fell on those Pennsylvania fields. Bright futures, untested innocence, and pristine beauty were also the casualties of war. Michael Shaara's Pulitzer Prize-winning masterpiece is unique, sweeping, unforgettable—the dramatic story of the battleground for America's destiny.

[The Wild Hunt and the Ghostly Processions of the Undead](#) Penguin Books

The final work of fiction from Norman Mailer, a defining voice of the postwar era, is also one of his most ambitious, taking as its subject the evil of Adolf Hitler. The narrator, a mysterious SS man in possession of extraordinary secrets, follows Adolf from birth through adolescence and offers revealing portraits of Hitler's parents and siblings. A crucial reflection on the shadows that eclipsed the twentieth century, Mailer's novel delivers myriad twists and surprises along with characteristically astonishing insights into the struggle between good and evil that exists in us all. Praise for *The Castle in the Forest* "This remarkable novel about the young Adolf Hitler, his family and their shifting circumstances, is Mailer's most perfect apprehension of the absolutely alien. . . .

Mailer doesn't inhabit these historical figures so much as possess them."—The New York Times Book Review "Terrifically creepy . . . an icy and convincing portrait of the dictator as a young sociopath."—Entertainment Weekly "The work of a bold and confident writer who may yet be seen as the preeminent novelist of our time . . . a source of tremendous narrative pleasure . . . Every character . . . lives and breathes."—South Florida Sun-Sentinel "Blackly hilarious, beautifully written . . . [The Castle in the Forest] has vigor, excitement, humor and vastness of spirit."—The New York Observer Praise for Norman Mailer "[Norman Mailer] loomed over American letters longer and larger than any other writer of his generation."—The New York Times "A writer of the

greatest and most reckless talent."—The New Yorker "Mailer is indispensable, an American treasure."—The Washington Post "A devastatingly alive and original creative mind."—Life "Mailer is fierce, courageous, and reckless and nearly everything he writes has sections of headlong brilliance."—The New York Review of Books "The largest mind and imagination [in modern] American literature . . . Unlike just about every American writer since Henry James, Mailer has managed to grow and become richer in wisdom with each new book."—Chicago Tribune "Mailer is a master of his craft. His language carries you through the story like a leaf on a stream."—The Cincinnati Post
