The Routledge Companion to the Study of Local Musicking provides a reference to how, cross-culturally, musicking constructs locality and how locality is constructed by the musicking that takes place within it, that is, how people engage with ideas of community and place through music. The term "musicking" has gained currency in music studies, and refers to the diverse ways in which people engage with music, regardless of the nature of this engagement. By linking musicking to the local, this book highlights the ways in which musical practices and discourses interact with people's everyday experiences and understandings of their immediate environment, their connections and commitment to that locality, and the people who exist within it. It explores what makes local musicking "local." By viewing musicking from the perspective of where it takes place, the contributions in this collection engage with debates on the processes of musicking, identity construction, community-building and network formation, competitions and rivalries, place and space making, and local-global dynamics.

Contemporary worship music shapes the way evangelical Christians understand worship itself.

Author Monique M. Ingalls argues that participatory worship music performances have brought into being new religious social constellations, or "modes of congregating". Through exploration of five of these modes--concert, conference, church, public, and networked congregations--Singing the Congregation reinvigorates the analytic categories of "congregation" and "congregational music." Drawing from theoretical models in ethnomusicology and congregational studies, Singing the Congregation reconceives the congregation as a fluid, contingent social constellation that is actively performed into being through communal practice--in this case, the musically-structured participatory activity known as "worship." "Congregational music-making" is thereby recast as a practice capable

of weaving together a religious community both inside and outside local institutional churches.

Congregational music-making is not only a means of expressing local concerns and constituting the local religious community; it is also a powerful way to identify with far-flung individuals, institutions, and networks that comprise this global religious community. The interactions among the congregations reveal widespread conflicts over religious authority, carrying far-ranging implications for how evangelicals position themselves relative to other groups in North America and beyond.

Father Udoekpo's work offers a thorough review of the theology of worship in the work of Amos of Tekoa, one of Israel's foundational prophets. It critically examines Amos 5 in its socio-historical and literary context and theologically reevaluates the application of Amos's message of ethical worship, judgment, and hope to two contemporary cultures: Nigeria and the United States of America. While intentionally down to earth and engaging in society and religion, this work discusses in a thoughtful and detailed exegetical manner the various sub-units of lamentation (vv. 1-3), the motifs of the remnant, the exhortation to the seek the Lord, justice and righteousness (vv. 4-6; 14-15, 24), judgment, and the notion of the Day of the Lord (vv. 18-20) as they relate to the theology of worship (vv. 21-27) in Amos 5. The author pastorally draws the reader's attention to Amos' view that worship must not be restricted to hypocritical offerings, empty rituals, and songs at sanctuaries, but needs to incorporate ethics of justice, peace, and righteousness practiced in marketplaces and plazas.

Pastor and Grammy-winning musician Smokie Norful inspires readers to go to God and experience more fulfillment, delight, power, and success than they ever dreamed. According to Smokie Norful, sometimes our lives feel like a pot of rice in his grandmother's kitchen: hissing, boiling over, about to explode and create panic. The only way to avoid an explosion is to take the lid off--that is, to stop being trapped inside ourselves and instead look to God and his grace to make us all he intends us to be. Taking the lid off, Norful argues, entails four actions: look inward, experiencing the cleansing of forgiveness and the power of the Holy Spirit; look outward, seeking for others to experience the joy of living for God and have the best God has to offer; look upward and marvel at God's love and strength to accomplish his purposes; and move onward, devising a strategy to accomplish all God has put in our hearts to do. When we take these four steps, the pressure goes down, we gain peace and perception, and things work out much better in the end. When we finally take the lid off, we can become the people God has created us to be and do what we were intended to do. We get in touch with the unlimited power of his Spirit, we're directed by the challenge of his purposes, and we experience the joy of seeing him use us to change lives. All of us need help in taking the lid off in order to trust God, take action, and reach our full potential.

The rise of African Pentecostal and Charismatic churches in the West has become a growing phenomenon and a starring feature in many social, religious, and political conversations. Most of these discussions are generally centered on the first-generation churches and their missionary attempt to evangelize the West. In this book, Caleb Nyanni offers a fresh insight into the African diaspora church from the perspective of the growing second-generation members and their

contributions to the life of the church. He explores the changing nature of the African diaspora Pentecostalism by paying close attention to the Church of Pentecost in the United Kingdom, which serves as a case study. The book explores the frustrations, challenges, opportunities, and culture of the second generation and examines what they bring to Pentecostalism in general.

Throughout Africa, oral literature is flourishing, though it is perceived by some as anachronistic to the modern world. This work refutes this idea in its entirety by presenting 22 chapters, which firmly place the study of oral literature within contemporary African existence. The study analyzes how oral literature relates to media, music, technology, text, gender, religion, power, politics and globalization.

INSTANT NEW YORK TIMES BESTSELLER From the New York Times bestselling author of *I'm Judging You*, a hilarious and transformational book about how to tackle fear--that everlasting hater--and audaciously step into lives, careers, and legacies that go beyond even our wildest dreams Luvvie Ajayi Jones is known for her trademark wit, warmth, and perpetual truth-telling. But even she's been challenged by the enemy of progress known as fear. She was once afraid to call herself a writer, and nearly skipped out on doing a TED talk that changed her life because of imposter syndrome. As she shares in *Professional Troublemaker*, she's not alone. We're all afraid. We're afraid of asking for what we want because we're afraid of hearing "no." We're afraid of being different, of being too much or not enough. We're afraid of leaving behind the known for the unknown. But in order to do the things that will truly, meaningfully change our lives, we have to become professional troublemakers: people who are committed to not letting fear talk them out of the things they need to do or say to live free. With humor and honesty, and guided by the influence of her professional troublemaking Nigerian grandmother, Funmilayo Faloyin, Luvvie walks us through what we must get right within ourselves before we can do the things that scare us; how to use our voice for a greater good; and how to put movement to the voice we've been silencing--because truth-telling is a muscle. The point is not to be fearless, but to know we are afraid and charge forward regardless. It is to recognize that the things we must do are more significant than our fears. This book is about how to live boldly in spite of all the reasons we have to cower. Let's go!

This book explores the way in which singing can foster experiences of belonging through ritual performance. Based on more than two decades of ethnographic, pedagogical and musical research, it is set against the backdrop of "the new Ireland" of the late 20th and early 21st centuries. Charting Ireland's growing multiculturalism, changing patterns of migration, the diminished influence of Catholicism, and synergies between indigenous and global forms of cultural expression, it explores rights and rites of belonging in contemporary Ireland. Helen Phelan examines a range of religious, educational, civic and community-based rituals including religious rituals of new migrant communities in "borrowed" rituals spaces; baptismal rituals in the context of the Irish citizenship referendum; rituals that mythologize the core values of an educational institution; a ritual laboratory for students of singing; and community-based festivals and performances. Her investigation peels back the physiological, emotional and cultural layers of singing to illuminate how it functions as a potential agent of belonging. Each chapter engages theoretically with one of five core characteristic of singing (resonance, somatics, performance, temporality, and tacitness) in the context of particular performed rituals. Phelan offers a persuasive proposal for ritually-framed singing as a valuable and potent tool in the creation of inclusive, creative and integrated communities of belonging.

Nearly a half century after her death in 1972, Mahalia Jackson remains the most esteemed figure in black gospel music history. Born in the backstreets of New Orleans in 1911, Jackson during the Great Depression joined the Great Migration to Chicago, where she became an highly regarded church singer and, by the mid-fifties, a coveted recording artist for Apollo and Columbia Records, lauded as the "World's Greatest Gospel Singer." This "Louisiana Cinderella" narrative of Jackson's career during the decade following World War II carried important meanings for African Americans, though it remains a story half told. Jackson was gospel's first multi-mediated artist, with a nationally broadcast radio program, a Chicago-based television show, and early recordings that introduced straight-out-

of-the-church black gospel to American and European audiences while also tapping the vogue for religious pop in the early Cold War. In some ways, Jackson's successes made her an exceptional case, though she is perhaps best understood as part of broader developments in the black gospel field. Built upon foundations laid by pioneering Chicago organizers in the 1930s, black gospel singing, with Jackson as its most visible representative, began to circulate in novel ways as a form of popular culture in the 1940s and 1950s, its practitioners accruing prestige not only through devout integrity but also from their charismatic artistry, public recognition, and pop-cultural cachet. These years also saw shifting strategies in the black freedom struggle that gave new cultural-political significance to African American vernacular culture. The first book on Jackson in 25 years, *Mahalia Jackson and the Black Gospel Field* draws on a trove of previously unexamined archival sources that illuminate Jackson's childhood in New Orleans and her negotiation of parallel careers as a singing Baptist evangelist and a mass media entertainer, documenting the unfolding material and symbolic influence of Jackson and black gospel music in postwar American society.

Nigeria has become the area of one of the most remarkable religious movements of recent times, reflecting the shift in the global center of Christianity from the North to the South. This book tells the story of one sector of this movement from its roots in the Nigerian civil war to the turn of the new millennium. It describes a revival that occurred among the Igbo people of Eastern Nigeria, and the new Pentecostal churches it generated, and documents the changes that have occurred as the movement has responded to global flows and local demands. As such, it explores the nature of revivalist and Pentecostal experience, but does so against the backdrop of local socio-political and economic developments, such as decolonization and civil war, as well broader processes, such as modernization and globalization.

The historiography of African religions and religions in Africa presents a remarkable shift from the study of 'Africa as Object' to 'Africa as Subject', thus translating the subject from obscurity into the global community of the academic study of religion. This book presents a unique multidisciplinary exploration of African Traditions in the Study of Religion, Diaspora, and Gendered Societies. The book is structured under two main sections. The first provides insights into the interface between Religion and Society. The second features African Diaspora together with Youth and Gender which have not yet featured prominently in studies on religion in Africa. Contributors drawn from diverse African and global contexts situate current scholarly traditions of the study of African religions within the purview of academic encounter and exchanges with non-African scholars and non-African contexts. African scholars enrich the study of religions from their respective academic and methodological orientations. Jacob Kehinde Olupona stands out as a pioneer in the socio-scientific interpretation of African indigenous religion and religions in Africa and the new African Diaspora. This book honours his immense contribution to an emerging field of study and research.
