Excavating Stephen King: A Darwinist Hermeneutic Study of the Fiction combines approaches from science and literary theory to examine the canon of Stephen King's fiction work in a single critical study. James Arthur Anderson has devised the concept of Darwinist Hermeneutics as a critical tool to combine evolutionary psychology, neuroscience, biology, and literary Darwinism with other more conventional critical theory, including structuralism, narratology, semiotics, and linguistic analysis. Using this theory, Anderson examines King's works in terms of archetypes and mythology, human universals, affective emotions, and the organization of story to create maximum suspense. This method brings new insights into King's stories and broader implications for storytelling as a whole. *It* Springer

*The Suspense of Horror and the Horror of Suspense* Simon and Schuster

A riveting exploration of the link between women's hormones and mental health--with advice, personal testimony, facts, and research creating a portrait of how hormones contribute to make up the "female animal" Hysterical seeks to explore the connections between hormones and health, particularly in the frequent mood changes and mental health issues women typically chalk up to the influence of hormones. Journalist Eleanor Morgan investigates the relationship between biochemistry, our bodies, and our mental health, including the context for this discussion: the historic culture of silence around women's bodies. As Morgan argues, we've gotten better at talking about mental health, but we still shy away from discussing periods, miscarriage, endometriosis, and menopause. That results in a lack of vital understanding for women, particularly as those processes are inextricably connected to our mental health; by exploring women's bodies in conjunction with our minds, Morgan urges for new thinking about our health. Examining the mythology of female hormones, the ways that culture

shapes our perceptions of women's bodies, and the latest medical research, *Hysterical* skillfully paints a portrait of the modern landscape of women and health--and shows us how to navigate stigma and misinformation.

BRZRKR Vol. 1 Anchor

This book presents a detailed academic study of suspense building in Stephen King's horror novels *The Shining* and *Carrie* and their respective film adaptations. Two film versions of each book are taken into consideration – one released immediately after the novel publication and one that appeared decades later. After providing a general idea of what suspense as a phenomenon

related to fiction is, the study establishes some repeated plot-bound suspense motifs and episodes in the literary works, and traces their development in the films in order to demonstrate the similarities and differences in the techniques of achieving suspense in literature and in cinema. The model detailed here can also be used for individual or comparative suspense analysis of other literary or cinematic works.

*Can't Say it Went to Plan* Hachette UK  
 A fascinating look at the life of the author who created such modern classics as *Carrie*, *IT*, and *The Shining*. One of the most prolific and popular authors in the world today, Stephen King has become part of pop culture history. But who is the man behind those tales of horror, grief, and the supernatural? Where do these ideas come from? And what drives him to keep writing at a breakneck pace after a thirty year career? In this unauthorized biography, Lisa Rogak reveals the troubled background and lifelong fears that inspire one of the twentieth century's most influential authors. King's origins were inauspicious at best. His impoverished childhood in rural Maine and early marriage hardly spelled out the likelihood of a blossoming literary career. But his unflagging work ethic and a ceaseless flow of ideas put him on the path to success. It came in a flash, and the side effects of sudden stardom and seemingly unlimited wealth soon threatened to destroy his work and, worse, his life. But he survived and has since continued to write at a level of originality few authors could ever hope to match. Despite his dark and disturbing work, Stephen King has become revered by critics and his countless fans as an all-American voice more akin to Mark Twain than H. P. Lovecraft. *Haunted Heart* chronicles his story, revealing the character of a man who has created some of the most memorable---and frightening---stories found in literature today. Stephen King on Stephen King: "I'm afraid of everything." "As a kid, I worried about my sanity a lot." "I am always interested in this idea that a lot of fiction writers write for their fathers because their fathers are gone." "Writing is an

addiction for me." "I married her for her body, though she said I married her for her typewriter." "When you get into this business, they don't tell you you'll get cat bones in the mail." "You have to be a little nuts to be a writer." "There's always the urge to see somebody dead that isn't you."

#### Stephen King Goes to the Movies

HarperCollins

Since the 1970s, the name Stephen King has been synonymous with horror. His vast number of books has spawned a similar number of feature films and TV shows, and together they offer a rich opportunity to consider how one writer's work has been adapted over a long period within a single genre and across a variety of media—and what that can tell us about King, about adaptation, and about film and TV horror. Starting from the premise that King has transcended ideas of authorship to become his own literary, cinematic, and televisual brand, *Screening Stephen King* explores the impact and legacy of over forty years of King film and television adaptations. Simon Brown first examines the reasons for King's literary success and then, starting with Brian De Palma's *Carrie*, explores how King's themes and style have been adapted for the big and small screens. He looks at mainstream multiplex horror adaptations from *Cujo* to *Cell*, low-budget DVD horror films such as *The Mangler* and *Children of the Corn* franchises, non-horror films, including *Stand by Me* and *The Shawshank Redemption*, and TV works from *Salem's Lot* to *Under the Dome*. Through this discussion, Brown identifies what a Stephen King film or series is or has been, how these works have influenced film and TV horror, and what these influences reveal about the shifting preoccupations and industrial

contexts of the post-1960s horror genre  
in film and TV.
