"In 1879, Abram J. Ryan's name was a household name in the South, especially after the publication of his book *Father Ryan's Poems*. Republished a year later with a new title, *Poems, Patriotic, Religious and Miscellaneous*, and under the imprint of a Baltimore publisher with a national distribution network, it would go through forty editions until 1929. The two most important poems were "The Conquered Banner" (1865) and "The Sword of Robert Lee" (1866). These works were committed to memory by three generations of school children in the South until about the middle of the twentieth century. Margaret Mitchell, who knew them by heart, included Ryan as a character in *GWTW* because of her admiration for his work. Ryan was the editor of the *Banner of the South*, an anti-Reconstruction newspaper, in Augusta, Georgia, and popularized the term "Lost Cause". His outspoken views with regard to the policies of the federal government caused him to lose the support of the paper's owner, Bishop Verot of Savannah. When the paper was closed down, he moved to Mobile, Alabama, serving as a parish priest for ten years. He also spent three of these years (1872-1875) as the editor of the Catholic weekly of New Orleans, the *Morning Star* and *Catholic Messenger*. Until now, no one has been able to understand why Ryan left the quiet life of retirement in Mississippi to begin preaching around the country to raise money. Based on the study of the heretofore unknown correspondence between Ryan and two nuns in a

Carmelite convent in New Orleans, Ryan became convinced that he could save his soul by devoting the last years of his life to paying off the mortgage on their convent. Tragically, he worked himself to death in this endeavor. This book is the first to place the Ryan story in its proper place."--Publisher's website.

What is the difference between a gambler and a speculator? Is there a readily identifiable line separating the two? If so, is it possible for us to discourage the former while encouraging the latter? These difficult questions cut across the entirety of American economic history, and the periodic failures by regulators to differentiate between irresponsible gambling and clear-headed investing have often been the proximate causes of catastrophic economic downturns. Most recently, the blurring of speculation and gambling in U.S. real estate markets fueled the 2008 global financial crisis, but it is one in a long line of similar economic disasters going back to the nation's founding. In *Speculation*, author Stuart Banner provides a sweeping and story-rich history of how the murky lines separating investment, speculation, and outright gambling have shaped America from the 1790s to the present.

Regulators and courts always struggled to draw a line between investment and gambling, and it is no easier now than it was two centuries ago. Advocates for risky investments have long argued that risk-taking is what defines America.

Critics counter that unregulated speculation results in bubbles that always draw in the least informed investors-gamblers, essentially. Financial chaos is the result. The debate has been a perennial feature of American history, with the pattern repeating before and

after every financial downturn since the 1790s. The Panic of 1837, the speculative boom of the roaring twenties, and the real estate bubble of the early 2000s are all emblematic of the difficulty in differentiating sober from reckless speculation. Even after the recent financial crisis, the debate continues. Some, chastened by the crash, argue that we need to prohibit certain risky transactions, but others respond by citing the benefits of loosely governed markets and the dangers of over-regulation. These episodes have generated deep ambivalence, yet Americans' faith in investment and - by extension - the stock market has always rebounded quickly after even the most savage downturns. Indeed, the speculator on the make is a central figure in the folklore of American capitalism. Engaging and accessible, *Speculation* synthesizes a suite of themes that sit at the heart of American history - the ability of courts and regulators to protect ordinary Americans from the ravages of capitalism; the periodic fallibility of the American economy; and - not least - the moral conundrum inherent in valuing those who produce goods over those who speculate, and yet enjoying the fruits of speculation. *Banner's* history is not only invaluable for understanding the fault lines beneath the American economy today, but American identity itself.

Of the 16 NBA championships won by the Boston Celtics, the most memorable is that of the 1985-1986 season--the Celtics' last championship to date. Powered by the Hall of Fame skills of the legendary Larry Bird, Robert Parrish, and Kevin McHale, the team was virtually unstoppable. "The Last Banner" offers a fascinating, behind-the-scenes look at this remarkable team.

In *Banner*, the central story in the novel with the same name, the two towering forces in Scott Godfrey's life, his brother Lance and his father Buddy, have collapsed at their foundations in separate road accidents three years apart. Now, a light from the present reveals the story of one man's bittersweet crusade against an infidel who appears no saint. Set against the beautiful backdrop of South Central Kentucky and rural Arkansas, Allan St. James tells the tragic story of one Kentucky clan but also of the redemption available through the bonds of blood.

Does the identification number 60 indicate a toxic substance or a flammable solid, in the molten state at an elevated temperature? Does the identification number 1035 indicate ethane or butane? What is the difference between natural gas transmission pipelines and natural gas distribution pipelines? If you came upon an overturned truck on the highway that was leaking, would you be able to identify if it was hazardous and know

what steps to take? Questions like these and more are answered in the Emergency Response Guidebook. Learn how to identify symbols for and vehicles carrying toxic, flammable, explosive, radioactive, or otherwise harmful substances and how to respond once an incident involving those substances has been identified. Always be prepared in situations that are unfamiliar and dangerous and know how to rectify them. Keeping this guide around at all times will ensure that, if you were to come upon a transportation situation involving hazardous substances or dangerous goods, you will be able to help keep others and yourself out of danger. With color-coded pages for quick and easy reference, this is the official manual used by first responders in the United States and Canada for transportation incidents involving dangerous goods or hazardous materials.

A “bracing and well-argued” study of America’s college debt crisis—“necessary reading for anyone concerned about the fate of American higher education” (Kirkus). College is far too expensive for many people today, and the confusing mix of federal, state, institutional, and private financial aid leaves countless students without the resources they need to pay for it. In *Paying the Price*, education scholar Sara Goldrick-Rab reveals the devastating effect of these shortfalls. Goldrick-Rab examines a study of 3,000 students who used the support of federal aid and Pell Grants to enroll in public colleges and universities in Wisconsin in 2008. Half the students in the study left college without a degree, while less than 20 percent finished within five years. The

cause of their problems, time and again, was lack of money. Unable to afford tuition, books, and living expenses, they worked too many hours at outside jobs, dropped classes, took time off to save money, and even went without adequate food or housing. In many heartbreaking cases, they simply left school—not with a degree, but with crippling debt.

Goldrick-Rab combines that data with devastating stories of six individual students, whose struggles make clear the human and financial costs of our convoluted financial aid policies. In the final section of the book, Goldrick-Rab offers a range of possible solutions, from technical improvements to the financial aid application process, to a bold, public sector-focused “first degree free” program. “Honestly one of the most exciting books I’ve read, because [Goldrick-Rab has] solutions. It’s a manual that I’d recommend to anyone out there, if you’re a parent, if you’re a teacher, if you’re a student.”—Trevor Noah, *The Daily Show*

The Ivy League looks different than it used to. College presidents and deans of

admission have opened their doors—and their coffers—to support a more diverse student body. But is it enough just to admit these students? In this bracing exposé, Anthony Jack shows that many students’ struggles continue long after they’ve settled in their dorms.

Admission, they quickly learn, is not the same as acceptance. This powerfully argued book documents how university policies and campus culture can exacerbate preexisting inequalities and reveals why some students are harder hit than others.

The Blue Banner is a case study of the survival of historic denominationalism grounded in resistance to church union. It traces the origins and near demise of Presbyterianism in Nova Scotia and the development of Saint David’s from its beginnings as a new congregation and the only site of Presbyterian witness in metropolitan Halifax. The authors look at various aspects of congregational life - corporate structure and governance, education, worship and music, volunteerism, mission and outreach, and stewardship of the historic site and building that has been home to Saint David’s since the beginning.

In today's colleges and universities, whether students succeed depends in large part on access to effective services that can support and guide them in pursuit of their educational goals. Policy and practice in the field of student services has been largely based on professional literature from US sources. Donna Hardy Cox and Carney Strange offer the first comprehensive description of professional student services in Canadian colleges and universities from the perspective of the practitioner-scholars who create and lead them. Hardy Cox and Strange begin with an overview of student services dealing with the matriculation of post-secondary students - through enrolment management, financial assistance, and

orientation to the institution and accommodation - and then discuss housing and residence life, student leadership programs, systems of judicial and academic integrity, and student support and adjustment through counseling, health and wellness initiatives, career and employment advice, and a variety of services that can respond to a variety of needs. How these services are integrated professionally on campus, including their organization and leadership as well as their design within differing institutional contexts, and delivery methods, is the focus of the closing chapters, followed by a distillation of principles that underlie effective student services.

The majority of European Yiddish speaking Jews was murdered by Hitler's National Socialists, their cultural realm was destroyed. After the war, the Communist regimes suppressed Jewish culture, but despite emigration of Jewish survivors, small Jewish communities

continued to exist and made efforts to revive their culture in most of the Communist countries. Jewish organizations, clubs, cultural societies and theatres were founded, and a great number of Yiddish books, newspapers and periodicals were printed, despite political pressure, hostility and persecution. The cultural activity which developed "under the red banner" cannot of course be compared to the immense impact the Yiddish culture experienced before the Second World War but it was an important phenomenon in Jewish history which remained uninvestigated for a long time and has not been described in a proper way until today. This volume of seventeen essays is a collection of papers delivered by scholars from the USA, Sweden, Israel, Germany and Poland at the conference on Yiddish Culture in the Communists Countries in the Postwar Era which was organized at the Jagiellonian University Cracow in cooperation with the University of Potsdam in November 2006.
