The process industry has developed integrated process safety management programs to reduce or eliminate incidents and major consequences, such as injury, loss of life, property damage, environmental harm, and business interruption. Good documentation practices are a crucial part of retaining past knowledge and experience, and avoiding relearning old lessons. Following an introduction, which offers examples of how proper documentation might have prevented major explosions and serious incidents, the 21 sections in this book clearly present aims, goals, and methodology in all areas of documentation. The text contains examples of dozens of needed forms, lists of relevant industry organizations, sources for software, references, OSHA regulations, sample plans, and more.

The shipping industry has been growing in leaps and bounds over the past few decades. The answer to reduced manning, together with demanding operating schedules, has more often than not been automation. Hence the need of the hour for a seafarer is adequate knowledge of UMS environments and their supporting systems onboard ships. With almost 30 years of first-hand experience by each of us in this mammoth industry, we have seen the evolution from control elements and systems of the post 2nd world-war era to the most sophisticated components and networks available today. It has indeed been a wonderful journey through time! These experiences have been our guiding light; they have prompted us to share our acquired knowledge with our counterparts and students of the maritime industry.

The handwritten journal of a serial killer in Harford County, Maryland in 2004. A twisted journey through a tormented mind, as he writes about his daily activities. But the most horrifying thought is how ordinary he is. He could have been your neighbor or your coworker, somebody you stood next to in line at the store, and as much as you will hate and despise the monster he is, if you're like me, you'll almost feel sorry as you get a slight glimpse into how he got that way. Like feeling sorry for a rabid dog. The most hair raising, disturbing, captivating, horrifying and intriguing 120 pages you will ever read.
