To give a more meaningful image, your car's maintenance log corresponds to its health log. It concentrates all the information specific to the car, its use and its specificities, as well as the elements testifying to its follow-up. As a result, the logbook is specific to each vehicle. It includes the details of the recommended revisions and the schedule to be respected. It indicates the periodicity and the recommended mileage to carry out the servicing on your car. In general, it is also an excellent ally in the event of a purchase or sale. A maintenance log must be kept up to date and is a very big advantage. In the event of resale, it allows the owner to prove his good faith and thus indicate the regular maintenance of his vehicle. This booklet is very well designed and will allow you to have a written record of the maintenance carried out on your vehicle. therefore this one is made for you !!!! you can consult our amazon page by clicking on our profile "young garage" you will find all of our creations there

 In this work, two senior naval historians analyze the discussions held in leading Soviet political, military, and naval circles concerning naval strategy

and the decisions taken for warship-building programmes. They describe the reconstitution of the fleet under difficult conditions from the end of the Civil War up to the mid-1920s, leading to a change from classical naval strategy to a Jeune école model in the first two Five-Year Plans, including efforts to obtain foreign assistance in the design of warships and submarines. Their aim is to explain the reasons for the sudden change in 1935 to begin building a big ocean-going fleet. After a period of co-operation with Germany from 1939-41, the plans came to a halt when Hitler attacked the Soviet Union in 1941. Finally, this work covers the reopening of the naval planning processes in 1944 and 1945 and the discussions of the naval leadership with Stalin, the party and government officials about the direction of the new building programmes as the Cold War began.

Federal Food Irradiation Development and Control Act of 1985 Psychology Press

What impoverished young knight would duck a chance to win fame along with beautiful lady bringing rich lands with her hand in marriage? Prince George, that's who. Stung by previous failures, he'd rather stay home in comfort, but finds himself struggling through forests, crossing deserts, and sailing seas to capture the Unicorn, find a fabled flower, and discover an "Unsung Song." Accompanied by a headsman, a Seeker, and a wild boy, Prince George battles beasts, Northmen, and bandit armies, not to mention witches, Gypsies, and a diabolical dragon-rider. Will the Prince win Dorinda of Darr? And what of his childhood playmate, Princess Julianna? Does she have plans for him too? Possibly. More of the Prince's tale is continued in *The Black Unicorn*.

Dictionary of Wars, highly praised in its first edition (1986), has now been published in a completely revised, updated, and expanded 2nd Edition. The Dictionary provides summaries of all notable wars from earliest recorded history to the present day. It affords the general reader and student with quick, useful, and accurate information - the who, where, when, what, why and how on the more than 1,800 recorded wars in human history from 2000 BC to the present. Completely updated, the Second Edition includes an additional 70 entries - on such major events as the Gulf War, the invasions of Panama and Haiti, and the Bosnian crisis.

This book focuses on lived ancient religious communication in Roman Dacia. Testing for the first time the 'Lived Ancient Religion' approach in terms of a peripheral province from the Danubian area, this work looks at the role of 'sacralised' spaces, known commonly as sanctuaries in the religious communication of the province.

This book brings together a total of six papers in an interdisciplinary way at the border of natural disasters and cultural heritage. There is a need for studying and documenting cultural heritage in Arctic landscapes, as these are the most affected by climate change. Remote sensing represents a powerful tool in the monitoring, management and safeguarding of cultural heritage. Sites included in the UNESCO World Heritage List should receive more attention from both geoscientists and social scientists. Urbanization has a short- and long-lasting effect on the conservation of cultural heritage.
