## DUNCAN MELENDEZ

*The Big Book of Reincarnation* Macmillan

Through journal entries, sixteen-year-old Miranda describes her family's struggle to survive after a meteor hits the moon, causing worldwide tsunamis, earthquakes, and volcanic eruptions.

European Cases of the Reincarnation Type Hay House

As her son grows up from little boy to adult man, a mother secretly rocks him each night as he sleeps.

*Compelling Evidence from Children Who Remember Past Lives*

Hay House, Inc

NATIONAL BESTSELLER • A New York Times Notable Book • This fiery and provocative novel from the acclaimed Nobel Prize winner weaves a tale about the way the sufferings of childhood can shape, and misshape, the life of the adult. At the center: a young woman who calls herself Bride, whose stunning blue-black skin is only one element of her beauty, her boldness and confidence, her success in life, but which caused her light-skinned mother to deny her even the simplest forms of love. There is Booker, the man Bride loves, and loses to anger. Rain, the mysterious white child with whom she crosses paths. And finally, Bride's mother herself, Sweetness, who takes a lifetime to come to understand that "what you do to children matters. And they might never forget."

**Return to Life** Simon and Schuster

In this book, children from all around the world remember their past lives, and eminent scientists explain how many of these children's stories have been followed up to verify whether their statements have any foundation in fact. Incredibly, when subjected to scientific investigation, children's memories about their past lives can invariably be confirmed in every detail.

Supported by overwhelming scientific evidence, the children's stories in this book suggest that reincarnation is a reality for us all. Whether they are from England, Europe, the USA, Lebanon, South Africa, Israel, India, Brazil, Sri Lanka, or Turkey, children who have lived before offer us insights into our global future, as well as profound messages from our collective past.

*There Once Lived a Mother Who Loved Her Children, Until They Moved Back In* Ozark Mountain Publishing

Considers the theory that a person may live more than once, and recounts the experiences of several persons who have remembered incidents and details from past lives.

*Reincarnation Today* Piatkus Books

Now in tradepaper: The compelling and heartwarming story of a young baseball prodigy who began sharing vivid memories of being famed American baseball player Lou Gehrig. At the tender age of two, baseball prodigy Christian Haupt began sharing vivid memories of being a baseball player in the 1920s and '30s. From riding cross-country on trains, to his fierce rivalry with Babe Ruth, Christian described historical facts about the life of American hero and baseball legend Lou Gehrig that he could not have possibly known at the time. Distraught by her son's uncanny revelations, Christian's mother, Cathy, embarked on a sacred journey of discovery that would shake her beliefs to the core and forever change her views on life and death. In this compelling and heartwarming memoir, Cathy Byrd shares her remarkable experiences, the lessons she learned as she searched to find answers to this great mystery, and a story of healing in the lives of these intertwined souls. *The Boy Who Knew Too Much* will inspire even the greatest skeptics to consider the possibility that love never dies.

*Memories of Heaven* Penguin

Is DEATH the FINAL CHAPTER? In *The Big Book of Reincarnation*, Roy Stemman attempts to answer one of the big questions of existence: Is death the end? Or, is it the merely the end of a chapter in the book of existence? A self-described "skeptical believer," Stemman uses his skills as a professional journalist to perform an in-depth exploration of reincarnation. Using case studies, anecdotes, and physical evidence from the best-documented cases from around the world, Stemman shines a bright light on this subject, inviting readers to decide for themselves on the basis of facts, rather than on the basis of hearsay, speculation, and superstition. Stemman finds fascinating examples of evidence of reincarnation in the nightmares of a Louisiana bayou boy, the past-life recall of a renowned neurosurgeon, the research of a highly respected university professor, and the unique system of governance in the mountains of Tibet, to name just a few. He examines the lives of those affected by reincarnation, such as children who can actually remember their previous lives. Instead of shying away from the

skeptics, Stemman evaluates their leading theories and compares them to the findings that he has accumulated throughout his global research. *The Big Book of Reincarnation* is thorough, well researched, engaging, and the most comprehensive book ever published on this fascinating subject. Readers who love Brian Weiss's *Many Lives, Many Masters* and *Only Love is Real* will appreciate the depth of study that the author brings to this work. Topics that have long been scoffed by skeptics, past lives and reincarnation are enjoying a revival of mainstream interest after prominent medical professionals and scientists have added their personal experiences and research to a growing chorus of proof that the afterlife is no myth for the weak minded. Neurosurgeon Dr. Eben Alexander's book, *Proof of Heaven*, is one such example. The truth is, a deeper exploration of the human psyche and transpersonal psychology offers a frontier for the brightest minds of our day. Other popular books that explore these and related topics include: *The Wheel of Life* by Elisabeth Kübler-Ross *Life After Death - The Burden of Proof* by Deepak Chopra *Life After Life: The Bestselling Original Investigation That Revealed "Near-Death Experiences"* by Raymond Moody And many others Penguin UK

Eddie is a wounded war veteran, an old man who has lived, in his mind, an uninspired life. His job is fixing rides at a seaside amusement park. On his 83rd birthday, a tragic accident kills him, as he tries to save a little girl from a falling cart. He awakes in the afterlife, where he learns that heaven is not a destination. It's a place where your life is explained to you by five people, some of whom you knew, others who may have been strangers. One by one, from childhood to soldier to old age, Eddie's five people revisit their connections to him on earth, illuminating the mysteries of his "meaningless" life, and revealing the haunting secret behind the eternal question: "Why was I here?"

*The Forgetting Time* Basic Books

Okonkwo is the greatest warrior alive, famous throughout West Africa. But when he accidentally kills a clansman, things begin to fall apart. Then Okonkwo returns from exile to find missionaries and colonial governors have arrived in the village. With his world thrown radically off-balance he can only hurtle towards tragedy. Chinua Achebe's stark novel reshaped both African and world literature. This arresting parable of a proud but powerless man witnessing the ruin of his people begins Achebe's landmark trilogy

of works chronicling the fate of one African community, continued in *Arrow of God* and *No Longer at Ease*.

Among the Hidden Macmillan

A riveting firsthand account of one man's mission to investigate and document some of the most astonishing phenomena of our time—children who speak of past life memory and reincarnation. All across the globe, small children spontaneously speak of previous lives, beg to be taken “home,” pine for mothers and husbands and mistresses from another life, and know things that there seems to be no normal way for them to know. From the moment these children can talk, they speak of people and events from the past—not vague stories of centuries ago, but details of specific, identifiable individuals who may have died just months, weeks, or even hours before the birth of the child in question. For thirty-seven years, Dr. Ian Stevenson has traveled the world from Lebanon to suburban Virginia investigating and documenting more than two thousand of these past life memory cases. Now, his essentially unknown work is being brought to the mainstream by Tom Shroder, the first journalist to have the privilege of accompanying Dr. Stevenson in his fieldwork. Shroder follows Stevenson into the lives of children and families touched by this phenomenon, changing from skeptic to believer as he comes face-to-face with concrete evidence he cannot discount in this spellbinding and true story.

*Children's Memories of Previous Lives* University of Virginia Press  
 "We cannot change the cards we are dealt, just how we play the hand."---Randy Pausch A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave--"Really Achieving Your Childhood Dreams"--wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have...and you may find one day that you have less than you think"). It was a summation of everything Randy had come to

believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

A novel McFarland

Has your child lived before? In this fascinating, controversial, and groundbreaking book, Carol Bowman reveals overwhelming evidence of past life memories in children. Not only are such experiences real, they are far more common than most people realize. Bowman's extraordinary investigation was sparked when her young son, Chase, described his own past-life death on a Civil War battlefield--an account so accurate it was authenticated by an expert historian. Even more astonishing, Chase's chronic eczema and phobia of loud noises completely disappeared after he had the memory. Inspired by Chase's dramatic healing, Bowman compiled dozens of cases and wrote this comprehensive study to explain how very young children remember their past lives, spontaneously and naturally. In *Children's Past Lives*, she tells how to distinguish between a true past life memory and a fantasy, offers practical advice to parents on how to respond to a past life memory, and shows how to foster the spiritual and healing benefits of these experiences. Perhaps the most moving, convincing, and best-documented evidence yet for life after death, *Children's Past Lives* will stand alongside the classics of Betty J. Eadie, Raymond Moody, and Brian Weiss in its power to comfort, uplift, and transform our thinking about life after death  
Before Hachette Books

The special anniversary edition of *The Little Engine That Could*™ contains the entire text and original artwork. Young readers, as well as parents and grandparents, will treasure the story of the blue locomotive who exemplifies the power of positive thinking.  
*30 Most Convincing Cases Of Reincarnation* Random House  
 This is the revised edition of Dr. Stevenson's 1987 book, summarizing for general readers almost forty years of experience in the study of children who claim to remember previous lives. For many Westerners the idea of reincarnation seems remote and bizarre; it is the author's intent to correct some common misconceptions. New material relating to birthmarks and birth defects, independent replication studies with a critique of criticisms, and recent developments in genetic study are included. The work gives an overview of the history of the belief

in and evidence for reincarnation. Representative cases of children, research methods used, analyses of the cases and of variations due to different cultures, and the explanatory value of the idea of reincarnation for some unsolved problems in psychology and medicine are reviewed.

*Children Who Have Lived Before* St. Martin's Press

Roy Stemman has had a lifelong interest in reincarnation. As a journalist and director of *Psychic News* and as editor of *Life & Soul* magazine (formerly *Reincarnation International*) he has access to the most exciting cases and the most prominent researchers from around the world. In this inspiring and extraordinary book, he presents numerous incredible cases which are impossible to dismiss. Read about: The young boy born with scars on his head which precisely match the autopsy report of the murdered man he believes he was in a former life; An Italian family whose daughter died but announced in a dream that she would return - and their new baby who was able to sing perfectly the lullaby her dead sister had been taught; Burmese children who remember details of life as Japanese soldiers;; The English woman whose memories of a past life reunited her children from that previous life, who were then able to corroborate her memories; Cases of people who under regression can speak a foreign language fluently; Cases of famous people who believe they have lived before; And much, much more

A Scientific Investigation of Children's Memories of Previous Lives Houghton Mifflin Harcourt

James Leininger was just two years old when he began having disturbing nightmares that would not stop. He screamed out in the night: 'Plane on fire! Little man can't get out!' While nightmares are common among children, what happened next shocked those around him... James began to reveal details of planes and war tragedies that no two-year-old boy could know. His desperate parents were at a loss to help him until he said three things: 'Corsair', 'Natoma' and 'Jack Larsen'. From these tantalising clues, James's parents travelled thousands of miles and spent many long years piecing together these facts to try and find an answer that could end his torment. Finally, despite his mother's fears and his father's staunch Christian beliefs, they found only one possibility to the endless coincidences that surrounded every detail in James's life - that their son was reliving the past life of a World War II fighter pilot. Their touching

story is one that will challenge sceptics and confirm the beliefs of those who already believe in life after death.

*The True Story of the Reincarnation of Shanti Devi* Penguin

In this book children from England and the rest of Europe, the U.S.A, Lebanon, South Africa, Israel, India, Brazil, Sri Lanka and Turkey remember their past lives. Scientists - most notably Professor Ian Stevenson, Director of the Division of Personality Studies at the Health Sciences Center at the University of Virginia - report on how their stories are then followed up to verify that the children's memories are correct. Especially convincing are the cases of children born with missing limbs who are able to describe exactly where and when they lost these limbs in a past life. They also often know precisely who their parents and relatives were and where they lived. When the children's statements are subjected to scientific verification, they are invariably confirmed in every detail. Through these investigations, reincarnation is proved to be more than a belief or a philosophy, having been categorically proven through the statements of children. The scientific evidence, as presented in this book, shows reincarnation to be the truth and all religions and philosophies will have to swiftly encompass these ideas into their existing concepts to maintain

any credibility. We will all be talking and thinking about rebirth as a fact of life. The concept of reincarnation belongs to the future and this is only the beginning. Trutz Hardo is the most well-known expert on reincarnation and regression therapy in Germany. He holds seminars in Europe, Australia and the U.S.A. He has appeared on several television programmes.

*Reincarnation* Vintage

A "vivid and devastating" (The New York Times) portrait of an indomitable girl—from Pulitzer Prize-winning journalist Andrea Elliott "From its first indelible pages to its rich and startling conclusion, *Invisible Child* had me, by turns, stricken, inspired, outraged, illuminated, in tears, and hungering for reimmersion in its Dickensian depths."—Ayad Akhtar, author of *Homeland Elegies*  
**ONE OF THE TEN BEST BOOKS OF THE YEAR:** The New York Times  
 • **ONE OF THE BEST BOOKS OF THE YEAR:** The Atlantic, The New York Times Book Review, Time, NPR, Library Journal  
*Invisible Child*, Pulitzer Prize winner Andrea Elliott follows eight dramatic years in the life of Dasani, a girl whose imagination is as soaring as the skyscrapers near her Brooklyn shelter. In this sweeping narrative, Elliott weaves the story of Dasani's childhood with the history of her ancestors, tracing their passage from slavery to the Great Migration north. As Dasani comes of age, New York City's

homeless crisis has exploded, deepening the chasm between rich and poor. She must guide her siblings through a world riddled by hunger, violence, racism, drug addiction, and the threat of foster care. Out on the street, Dasani becomes a fierce fighter "to protect those who I love." When she finally escapes city life to enroll in a boarding school, she faces an impossible question: What if leaving poverty means abandoning your family, and yourself? A work of luminous and riveting prose, Elliott's *Invisible Child* reads like a page-turning novel. It is an astonishing story about the power of resilience, the importance of family and the cost of inequality—told through the crucible of one remarkable girl. Finalist for the PEN/John Kenneth Galbraith Award

**The Spirit Catches You and You Fall Down** Children Who Have Lived Before Reincarnation today

Cases of responsive xenoglossy thus add to the evidence concerning the survival of human personality after death.

*Love You Forever* Flatiron Books

Child psychiatrist Bruce Perry has treated children faced with unimaginable horror: genocide survivors, witnesses, children raised in closets and cages, and victims of family violence. Here he tells their stories of trauma and transformation.
