The Adobe After Effects software package  
 was developed by Adobe to be an  
 application to handle visual effects and  
 motion graphics. It is mostly used in the  
 post production process in television  
 production and film making. It can be used  
 for other things such as tracking, keying,  
 animation and compositing. With these  
 features, it can also stand as a basic non-  
 linear editor, media transcoder and an  
 audio editor. The After Effects software  
 was created by the Company of Science  
 and Art located in Providence, Rhode  
 Island. It followed many company  
 acquisition until the package was acquired  
 by Adobe in 1994 with Adobe releasing its  
 version 3.0 in the same year. This  
 software package is used to create great  
 animations and designs especially when  
 combined with other software from the  
 Creative Cloud. This also promotes  
 collaboration between teams without any  
 distortion or major disruptions.
