The easiest way to learn astrology is to start with yourself. Your astrological birth chart is a powerful tool for gaining a deeper understanding of your unique gifts, talents, challenges, and life's purpose. As you begin to decipher the wealth of information in your own birth chart, you'll experience astrology in a

personally meaningful way-which makes it easier to understand and remember. Once you learn the basics of astrology, you'll be able to read the birth charts of yourself and others. This friendly guidebook is the most complete introduction to astrology available. Popular astrologer Kris Brandt Riske presents the essentials of astrology in a clear, step-by-step way, paying special attention to three areas of popular interest: relationships, career, and money. She explains the meaning of the

planets, zodiac signs, houses, and aspects, and how to interpret their significance in your chart. Over 30 illustrations, including the birth charts of several famous people—Al Gore, Oprah Winfrey, Brad Pitt, and Tiger Woods, to name just a few—add a helpful visual dimension to your learning experience. Practical and positive, Llewellyn's Complete Book of Astrology offers techniques for using astrology to identify the qualities you seek in an ideal mate, realize your career and financial potential, calculate your luck, and discover your inner strength.

Llewellyn's Complete Book of Astrology

Llewellyn Worldwide Limited Teachings & Techniques from the Foremost Astrologer of our Era. Noel Tyl is one of the foremost astrologers in the world. His thirty-three textbooks have led the teaching of astrologers for two generations. Now, his MasterWork Series on DVD sets a new standard for dynamic presentation to light your learning and launch your career.

Synastry Llewellyn Worldwide Limited

Once you understand the astrological chart, it's time to bring order and clarity to your consultations with clients.

Renowned astrologer Noel Tyl explores astrological interpretation as an art form. Emphasizing the horoscope as a reflection of an individual, he demonstrates how to transform astrological data into a vivid personality

portrait. Tyl's thoughtful discussion includes peregrine planets, the lunar nodal axis, midpoints, aspects, and how they relate to the evolving life reality of an individual. Tyl also provides a cohesive, effective format for meeting with clients. Actual case studies of the author's consultations-including dialogue and natal chart-highlight sharp astrological interpretation and the nuances of this delicate person-to-person interaction.

The Astrological Imagination Llewellyn Worldwide Limited

For many astrologers, the thought of doing a rectification can be terrifying. Rectification is the art and science of determining a nativity when the birth date, time, and/or location are unknown. Why can this be terrifying? Because

astrologers will make determinations and give advice based on that discovered horoscope. If you perform a rectification--a must for people who don't have all of their birth information--and don't have the right version of the rectified chart, the information you provide your client may be decidedly wrong. Give a client inaccurate advice because your rectification was incorrect and the decisions and choices your client makes could be...well, let's not go there. Instead, just consider what could happen and you'll see why some astrologers won't touch rectification, even though it's a vital skill. Leave it to Noel Tyl to boldly go where other astrologers fear to tread! In *Rectification*, the sixth volume of his Masterwork Series of DVDs, Tyl reveals the skills that will help you get

over any fears you might have of the rectification process. As is typical in Tyl's technique, the method goes beyond merely looking at numbers. Here he shows you how to use your logic, your wits, and your perceptions to make valid rectified charts, resulting in accurate astrological interpretations and predictions. If you've been afraid of doing rectifications, or simply haven't done them before, this DVD will bring you the insights that will allow you to take your astrological skills to a higher level. This DVD is a must for anyone who is a professional astrologer, who wants to become a professional, or simply wants to advance their astrological knowledge and skill.

Tensions in Life Development Llewellyn Publications

Many use astrology only for personality assessment and counseling. But astrology can be used to make accurate predictions. This book discusses this practice -- known as Horary astrology -- as well as electional astrology, which helps you to make the best decisions. [Astrology Looks at History](#) Visible Ink Press

The Art of Chart Interpretation

Llewellyn Worldwide

Examines the traditional wisdom of astrology in the light of Jungian

psychology, revealing the horoscope as a picture of our psychic structure and a key to self-knowledge and personal growth. Beginning with an analysis of Jung's terminology, including archetypes, the collective unconscious, and the theory of synchronicity, the author explores the striking correspondence between Jung's theory of psychological types and the traditional astrological elements.

Astrology Of America Llewellyn

Many books today simply widen the field of astrology by promoting newly created techniques or championing older historical methods for investigating every possible nook and cranny of a horoscope. In contrast, this award winning writer points the reader in a new

direction toward deepening the way that we approach and think about astrology in these post modern times. Drawing upon the archetypal perspectives of Mircea Eliade, James Hillman, and Thomas Moore, the author presents a truly psychological astrology, an astrology of soul that can plumb the depths of our being, sounding out our centers in a manner that enriches our struggle to fully engage what it means to be human.

Buddhist astrology bridges familiar astrological thinking with the ideas of karma, interdependence, and

impermanence. Within its tenets every psychological state is brought to light; it can be considered spirit-medicine for modern astrology. Glossary.

The Creative Astrologer Llewellyn Worldwide

There are thousands of highly practical and often entertaining astrology books freely available to consumers who have become familiar with the basic parameters of astrology. The authors of these books, and most other astrologers, analyze only the "ten planets"--the sun and the nine planets of our solar system. Author William Noah asserts that this simple method is insufficient because the energy of mankind is not solely captured in the planets. Noah's all-inclusive work serves as a tutorial and reference for the world of asteroids and

planets. Of the thousands of asteroids in the universe, Noah has selected twenty key asteroids that are the most relevant to the events, experiences, encounters, and future possibilities of the astrology-interested public. Noah's comprehensive work includes: Charts with meaning and symbolism of zodiac signs and houses
Lists of planetary symbolism and meaning
Alignment of chart interpretation with the complementary astro-mythic energy characterization of triangular Grand Trine formations depicting the meaning and permanent effect for life momentum
Natal charts for every president of the United States
Natal charts for popular American celebrities
The "Astrology of America" goes beyond analysis of the planets to prepare horoscopes by introducing

preselected asteroids into the astrological mix. Noah believes his use of these asteroids, along with planetary placement, builds a framework that identifies the surest way to reach success and meaning in life.

Planets in Therapy Nicolas-Hays, Inc. The most instructive book ever written on the art of astrological prediction. Focuses on the extremely accurate and sophisticated method of solar arcs. Communicating the Horoscope iUniverse Counseling astrologers can now take advantage of one of the newest and most exciting paradigms in modern psychology: the efficacy of single session therapeutic success. This groundbreaking work is written by Noel Tyl, one of the world's most respected astrologers, adding to his list of twenty-three texts that have informed two

generations of astrologers. Over 700 creative connections are offered in this text to guide astrologers through planetary and aspect symbolisms into a deep analysis of the human condition. As part of modern astrological practice and in the context of actual client-session transcripts—the first ever presented in the literature—Tyl presents numerous clearly developed techniques, including:

- Preparation for consultation
- Techniques for questioning
- Methods for inviting disclosure
- Presentation skills
- Effective ways to explore therapeutic connections

Along with analysis, remediation, and healing, Tyl discusses the difficult topic of the practicality of behavioral predictions, how to frame them within client realities, and how to invite involvement from the

client. Astrology is presented here in its most creative and constructive context, in which therapeutic holistic consultation is far more important than the abject description of varied chart factors.

Analysis and Prediction iUniverse

We like to think we are sensible beings who base our actions on conscious decisions. The fact is, all of us are subject to the occasional irrational impulse, the "wild hair" that surprises us and those around us. Usually, this is not a big problem -- in fact, it can act as a safety valve for our creative abilities and a check against unnecessary self-restriction. But it's not so healthy when we find ourselves driven by compulsions and obsessions that seem to take over our lives and consume our attention and energy. How can we discover the origins

of these forces? Can we turn them into something constructive? Astrology provides a key to these questions in the quindecile. This newly researched 165-degree aspect of hidden driving forces is thoroughly explored in these pages by an experienced astrologer and mental health professional. Numerous chart examples support the analysis of the quindecile in natal, transit, progressed, and synastry horoscopes. A full set of delineations and interpretations lets you quickly add this illuminating factor to your understanding of any chart. In these pages, you will explore: * The psychological dynamics of obsession-compulsion * Planetary dynamics by sign, element, and triplicity * The quindecile in natsals, progressions, transits, and synastry * A full reference

section of interpretations and delineations * Numerous chart examples of well-known people You will find that The Quindecile not only points out the nature of inner compulsions, but also suggests ways to transform them into constructive, creative activities and projects. Astrology, being about time, is often used to provide information on when to perform certain tasks. As a result, astrologers are often asked for the best times to do such things as move to a new home, change jobs, start schooling, get married, etc. In this fourth volume of Noel Tyl's Masterwork Series of DVDs,

you'll learn how to determine the best times for such actions based on the techniques of Solar Arcs and Transits. As with all of the DVDs in this series, Tyl goes far beyond mere mechanical explanations of a chart. You'll discover how to understand the causes of events, helping clients discover why they are pulled to do one thing or another. The focus is on the individual with the chart giving assistance in making the right timing choices. This DVD is a must for any astrologer who wants to give practical advice.

Astrology isn't just a science, it's a human science. The purpose for astrology isn't to simply collect numbers and determine their meanings, it's to use that information to give guidance in life. You can learn the science of chart interpretation through books, DVDs, and practice. Learning how to give a consultation with a client, however, is a skill that can turn a so-so astrologer into a great astrologer. This skill is what you'll learn on Guides for Consultation, the fifth volume of Noel Tyl's Masterwork Series of DVDs. The key to giving a good astrological consultation goes beyond knowing what a chart means. Rather, as

Tyl says, it's about "understanding and appreciating and applauding and supporting the human being." This DVD shows you exactly how to do that, bringing the focus of your consultation back to the individual rather than the chart. One of the important aspects of astrological consultation is developing ways to inform clients of important information without having the client reject what you're telling him or her due to fears or being overwhelmed. That is one of the skills you'll learn in this private lesson from the master of astrology. When you master this skill you'll be able to give readings that clients will describe as having inestimable value. You'll help them learn to change their minds when necessary and at the appropriate time.
