SAMIR JAMARI

The Herald Routledge
The northwestern regions of Pakistan and southeastern regions of Afghanistan were once the heart of a highly developed civilization whose cultural impact was felt from China to Persia. A major center of Buddhism, its cultural attainments were highlights of ancient civilization. The author's research, accompanied by some 60 illustrations, offers Americans an entirely new understanding of the desolate region shown on the nightly news. The Persian, Greek and Central Asian invasions of Gandhara, rather than causing wide scale destruction in the region, promoted the development of a multi-cultural, multi-ethnic society. After a gestation period of about half a millennium, this region blossomed into a unique civilization in the opening years of the Common Era. Detailed archaeological excavations were started at sites in northern Pakistan and Afghanistan in the late-19th century. Through these

excavations, eminent archaeologists such as Aurel Stein, Alexander Cunningham, John Marshall, J. Barthoux and Professor A.H. Dani recovered hundreds of thousands of beautiful stone sculptures belonging to the Gandhara Civilization. In the last century or so, much has been written about the artistic quality of these beautiful stone sculptures. But hardly anything has been written about the Civilization itself that gave birth to these extraordinary pieces of art. In this book an effort has been made to present Gandhara in its wider perspective, highlighting the different features of a unique civilization in which many different races contributed and many cultures merged to bring about a major sociological change and establish a distinct cultural identity in this region of the South Asian sub-continent. This book is based on the author's analysis of archaeologists' reports, information gathered through extended visits to numerous archaeological sites associated with the lost Gandhara Civilization including those in the Taxila, Peshawar, Charsadda, Mardan and

Swat regions in Pakistan, and study in museums. His research reveals a great deal of continuity in the field of socio-cultural development of the region, which is referred to in this book as Greater Gandhara, from the time it became a part of the Achaemenid Empire in the 6th century BCE till the end of Kidara Kushan's rule in the 5th century CE. Further, it reveals that after the Achaemenids had established the physical and administrative infrastructure in Greater Gandhara, the continuity in socio-cultural development in the region was maintained mainly by the growing Buddhist population. This book illustrates the spirit of independence and features in the character of the ancient people of the Gandhara region which facilitated the sustained progress towards the emergence of the Gandhara Civilization. Following the invasion of Alexander the Great, his successors had no difficulty in colonizing Bactria (Northern Afghanistan) and Sogdia (Uzbekistan), but they could not do the same in Gandhara. Similarly the Scythians, Parthians and the Kushans ruled over

the Central Asian region as colonizers, but not so in Gandhara. Here they ruled not over the people, but with the people. Their administration was highly de-centralized, with the locals playing a major role in the regional administration and having a major say in the social and cultural affairs of the entire population. Finally, the book highlights the interactive environment which prevailed in Gandhara throughout the transient and mature phases of the Gandhara Civilization: Alexander's companions hobnobbing with the naked fakirs of Taxila; Menander, the great Indus-Greek ruler, finding time to engage in prolonged question-and-answer sessions with Buddhist scholars at the monastery near Sagala (Sialkot); and the greatest of the Kushan conquerors, Kanishka, finding pleasure in the company of local intellectuals and artists such as Asvaghosha and Vasumitra, and presiding over the official launch of Mahayana Buddhism.

THE INDIAN LISTENER
Routledge
The Indian Listener (fortnightly programme journal of AIR in English) published by The Indian State Broadcasting Service, Bombay, started

on 22 December, 1935 and was the successor to the Indian Radio Times in English, which was published beginning in July 16 of 1927. From 22 August, 1937 onwards, it was published by All India Radio, New Delhi. In 1950, it was turned into a weekly journal. Later, The Indian Listener became "Akashvani" in January 5, 1958. It was made a fortnightly again on July 1, 1983. It used to serve the listener as a Bradshaw of broadcasting, and give the listener the useful information in an interesting manner about programmes, who writes them, take part in them and produce them along with photographs of performing artists. It also contains the information of major changes in the policy and service of the organisation.

Woodhead Publishing
The textile industry is focused in its search for alternative green fibres with the aim of providing high-quality products which are fully recyclable and biodegradable. Natural textile materials from renewable sources play an increasingly important role in the industry due to their unique properties and functionality over synthetic fibres, as well as their sustainability. Antimicrobial Textiles from Natural Resources is an in-depth guide to the latest methods and applications of natural antimicrobial materials. A broad range of

applications are addressed, from common to specialized applications, including many in the biomedical sector. This world-class collection of contributors write from a range of disciplinary backgrounds, providing important insights from textile science and technology, materials science, chemical engineering, and biomedical engineering. Advice and proposed solutions are presented in a rigorous and practical way, drawing on results and case studies obtained from academic and industrial laboratories worldwide. Examines how natural fibres can be used in the place of less renewable or sustainable choices, thus helping designers improve the sustainability of their products Provides unique coverage of the biofunctionality of biopolymers in textiles Explains how antimicrobial properties can reduce odour, extend the life of textiles, and provide numerous medical benefits

3CIV25384, Appellant's Opening Algora Publishing
Suicide bombing has become a weapon of choice among terrorist groups because of its lethality and ability to cause mayhem and fear. But who carries out these acts, and what motivates them? By undertaking analysis of the information in the most comprehensive suicide terrorism database in the world, *Life as a Weapon* seeks to question and in turn undermine the common perception that the psychopathology of suicide bombers and their religious beliefs are the principal causes. Instead, the book presents a cocktail of motivations that drive suicide bombers, and explains how their actions achieve multiple purposes – community approval, political success, liberation of the homeland, personal redemption or honour, refusal to accept subjugation, revenge, anxiety, defiance. Since the configuration of these driving factors is also specifically related to the circumstances of political conflict in each different country, it is only through gaining understanding

and knowledge of these conditions that appropriate policies and responses can be developed that will protect the public and counter the scourge of suicide bombings. *Life as a Weapon* is a pivotal text in the discussion surrounding suicide bombings, and as such it is of relevance to undergraduate students, postgraduates, and researchers working in areas such as Security Studies, Middle Eastern Studies, Terrorism, Criminology and Political Science.

Judges and Generals in Pakistan Volume III

Benazir Bhutto, b.1953, former prime minister of Pakistan.

Politics and Class

Activism 1947-1972 All India Radio (AIR), New Delhi

This book presents original, peer-reviewed research papers from the 4th Purple Mountain Forum –International Forum on Smart Grid Protection and Control (PMF2019-SGPC), held in Nanjing, China on August 17-18, 2019. Addressing the latest research hotspots in the power industry, such as renewable energy

integration, flexible interconnection of large scale power grids, integrated energy system, and cyber physical power systems, the papers share the latest research findings and practical application examples of the new theories, methodologies and algorithms in these areas. As such book a valuable reference for researchers, engineers, and university students.

California. Court of Appeal (1st Appellate District).

Records and Briefs Royal Publishing Company

This book discusses a number of important topical technical and non-technical issues related to the global energy, environment and socio-economic developments for professionals and students directly and indirectly involved in the relevant fields. It shows how renewable energy offers solutions to mitigate energy demand and helps achieve a clean environment, and also addresses the lack of a clear vision in the development of technology and a policy to reach the mandatory global renewable energy targets to reduce greenhouse gas emissions and stimulate socio-economic development.

The book is structured in such a way that it provides a consistent compilation of fundamental theories, a compendium of current research and development activities as well as new directions to overcome critical limitations; future technologies for power grids and their control, stability and reliability are also presented.

Appearances of Leading Chinese Officials During ...
Grosvenor House Publishing

This book brings together a collection of essays about the untenable political status quo in Bangladesh under Sheikh Hasina. Since democratization in the 1990s, Bangladeshi political life has been characterized by fierce battles over the role of religion in society, corruption, and the obstacles to constructing a society with freedom of expression and rule of law, independent from the influence of powerful neighboring countries. Academic freedom and other human rights issues have hindered the study of Bangladesh heretofore, and corruption, police abuses, and election rigging are common as well as widely

documented. In this passionate, sometimes personal exploration of the issues of social justice, rule of law, and the democratic process in Bangladesh, the book offers a valuable case study of how an Asian developmental state is otherwise regressing backwards morally, socially, and politically. The Bangladeshi struggle for sovereignty, prosperity and democracy documented in this book will be of interest to political scientists, scholars of South Asia, and those of Islam.

Appearances and Activities of Leading Personalities of the People's Republic of China Springer

Pakistan today stands at a critical juncture in its short history of existence. While much has been written about Pakistan, little is known about Communism or left-leaning politics in the country post-Partition which played a key role in shaping Pakistani politics today. Kamran Asdar Ali here presents the first extensive look at Pakistan's communist and working class movement. The author critically engages with the history of Pakistan's early years while paying special

attention to the rise and fall of the Communist Party of Pakistan (CPP), from Partition in 1947 to the aftermath of Bangladeshi independence in 1971. Since its formation in 1947 as a homeland for South Asian Muslims, Pakistan has been a configuration of shifting alliances and competing political and social ideologies. Pakistan has experienced three military takeovers and is plagued with geopolitical conflict - from Kashmir to Baluchistan, Waziristan - and while these aspects of Pakistan make headlines, in order to understand the complexities of these events, it is vital to understand the state's relationship throughout history with its divergent political and ethnic voices. One dominant feature of the state, along with its emphasis on the Islamic nature of its polity, has been the non-resolution of its ethnic problem - while the history of Pakistan is often viewed through the lense of unified Muslim nationalism, the author here also explores the history of Pakistan's often tense relationship with its various ethnic groups - Baluch, Pathan, Sindhis, Punjabis and Bengalis.

Shedding light on a vital and little-researched aspect of Pakistani history, this book shows that military coups, Islamic radicalization and terrorist activities do not constitute the sum total of Pakistan's history; that it, too, has had a history that included the activities of communist intellectuals and activists. Blind Justice The All Pakistan Legal Decisions Containing cases decided by the Privy Council, federal, provincial, shariat courts, and high courts of various Pakistani jurisdictions. Archaeology and Museums in Pakistan by Saifur Rahman Dar Judges and Generals in Pakistan Volume III This book provides an academic view of political developments in Bangladesh with reference to authoritarianism and military intervention, and brings insights from unique personal experience of governance. It addresses Bangladesh's democratic development, governance, and political conditions prior to the Caretaker Government (CTG) takeover in 2006, as well the background of the 2007 military intervention. Political

science and International Relations students, especially at postgraduate level, as well as sociology researchers and those involved in politics as agents of change, will find previously unrecorded facts revealing the causes of military intervention in Bangladesh during 2007, when the UN peacekeeping force added new facets, different from earlier examples of military intervention. The author has had unique access to confidential documents and reviews the laws and constitution of Bangladesh, ordinances, orders, reports, newspaper articles and columns, research articles and television talk-shows. As such, the book recounts the 2007-08 activities of the military-backed government and the efforts of foreign powers, including the ambiguous role of the US both for and against military intervention, and compares the evidence with analyses of related literature, the opinion of experts and the author's own experience of governance. **Front Lines** AuthorHouse In 1996, Bangladesh celebrated its 25th anniversary. When the country became

independent from Pakistan in 1971, it proclaimed itself a parliamentary democracy with four goals—democracy, secularism, socialism, and nationalism. This comprehensive introduction to Bangladesh's history, polity, economy, and society reassesses its successes and failures in reaching these goals after a quarter century of nationhood. Craig Baxter traces the development of national identity in the region, first as part of India and then of Pakistan, and the slow evolution toward statehood. He also explores the formative periods of Hindu, Buddhist, Muslim, and British government that preceded Pakistani rule and subsequent independence. Anyone wishing to understand this poor, populous, but ambitious young nation will find this book an invaluable reference.

The Ancient Buddhist Civilization of the Swat, Peshawar, Kabul and Indus Valleys

Springer Nature

The Land of Seasons and

Songs is a flower basket of humor, acquainting with cultures and traditions and presenting logical discourses. It is recollection of the yesteryears with observations. It is a book of criticisms, punches, and reformative doses. The book reviews the present-day ills of the society and describes the culture de-grand of the subcontinent of India. It describes of its kings, feudalism, and genius of the peoples, and it sheds light on the world divisive politics as and when it deviates from the path of peace. It draws attention to the excellences of poetry that is a naturally flourishing trait in the subcontinent of India. The book presents the picture of India under the British rule and remembers of British with affection. The book is written in vivid English, and the profession of the book is eulogy of the pious and pleasing the soul of the reader. The central character of the book is Bachchu Yarwah Aekkewan—the horse and cart driver. With his peculiarities of commands, he generates to control his horse on the road, and his life as he leads in his village gives an insight into the Indian-

ology—the Indian colloquialism of the region he lives in. The thoughts picked for the book are from the observations as factual as the fall of snow: Snow It is snowing outside Grass and ground are white Birds have only branches to peg on Or fly across to unknown bites This is nature; it has made everything quiet The men don't walk; dogs not out to stride Unless you are secure in shelter will die End of world but will not come; time will continue to ride Sayed Athar Husain

Economic Review Springer
'Judges & Generals in Pakistan - Volume I' by Inam R Sehri is a collection of mostly his published articles; explaining diverse scenarios. This book evaluates certain conflicting news, editorials, opinions and criticisms on historical issues. No misleading intelligence story, no distracting investigative report, no concocted interview and no feed from the 'concerned ones' yet everything seems innovative; no fiction in this book but simple narration of facts. 'It is the collection of tragedies and misgivings which are deliberately buried in suspicions and darkness

since decades. I've simply dig them out, collated and placed together for those who want to keep a track of their past;' Sehri holds.

The Land of Seasons & Songs Bloomsbury Publishing

This volume, edited by James M. Boughton and K. Sarwar Lateef, contains the proceedings of a conference held in Madrid, Spain, in 1994, by the IMF and the World Bank to commemorate the fiftieth anniversary of the Bretton Woods conference of July 1944 that created the two institutions. The conference provided a forum for reflection and for reassessing the roles of the institutions as they approach the twenty-first century.

From A Nation To A State Grosvenor House Publishing

Brief history of the political condition of Pakistan during last 25 years.

Newsline Springer Nature

This book provides a thorough understanding of the basic principles, synthesis, analysis, and control of virtual inertia systems. It uses the latest technical tools to mitigate power system stability and control problems under the presence of

high distributed generators (DGs) and renewable energy sources (RESs) penetration. This book uses a simple virtual inertia control structure based on the frequency response model, complemented with various control methods and algorithms to achieve an adaptive virtual inertia control respect to the frequency stability and control issues. The chapters capture the important aspects in virtual inertia synthesis and control with the objective of solving the stability and control problems regarding the changes of system inertia caused by the integration of DGs/RESs. Different topics on the synthesis and application of virtual inertia are thoroughly covered with the description and analysis of numerous conventional and modern control methods for enhancing the full spectrum of power system stability and control. Filled with illustrative examples, this book gives the necessary fundamentals and insight into practical aspects. This book stimulates further research and offers practical solutions to real-world power system stability and control problems with

respect to the system inertia variation triggered by the integration of RESs/DGs. It will be of use to engineers, academic researchers, and university students interested in power systems dynamics, analysis, stability and control.

Bangladesh

Collection of information, statements and interviews of witnesses to the flight which was hijacked and not allowed to land in Karachi with President Pervaiz Musharraf on board before the coup on October 12, 1999.

Virtual Inertia Synthesis and Control

This book is the third volume of 'Judges & Generals in Pakistan' by Inam R Sehri which mainly covers period from 2008-10 of contemporary history of that country. The book is a record of critical evaluation on Pakistan's day to day deliberations from its army and superior judiciary in comparison with mega-corruption scandals of Pakistan's political elite. No misleading intelligence story, no distracting investigative report and no concocted interview; everything is trustworthy - supported by exact references of source. No

fiction in this book but
simple narration of facts.
Author's previous two

volumes on the subject
have already been placed

as reference books and its
excerpts are quoted in
higher courts in Pakistan.
