The Silver Tsunami is upon us as elder care and crisis management reaches a tipping point with the graying of America. By 2020, 54 million people in the U.S. will be over the age of 65; by 2030, that number will top 80 million. Feeling the squeeze of multi-generational home demands, children of aging parents are struggling to learn innovative eldercare management strategies and often find themselves overwhelmed by the many facets of caregiving. Eldercare 101 is the answer to making order from chaos. As a guide covering all aspects of aging and end-of-life in one place, caregivers will no longer spend endless nights trying to decode the Internet trail--confused, uncertain, and fearful of what they're missing. Whether they are proactively planning

ahead or need to have fast answers, this comprehensive, technology-rich resource presents steppingstones for the Sandwich Generation as they navigate caring for aging parents, grandparents, friends, and other family members. *Eldercare 101* is a well-researched, organized, easy-to-understand guide for families desperately in need of help as they care for their aging loved ones. The book is organized into “6 pillars of aging wellbeing”: legal, financial, living environment, social, medical, and spiritual. Each pillar is explored by an expert and offers best practices and tips for evaluating choices, making decisions, and living well wherever the road might lead.

As Vincent De Marcos watches a barge carry off a supersonic airliner to a museum in November 2003, he can't help but think: The old boat still has a place in the world, but the Concorde apparently does not. For the first time in the history of transportation, distances have become longer, and it feels like a funeral—only they are burying the future instead of a person. No one seems to care, but sixteen years later Vincent still can't help thinking about what the world has lost. To him, we still live in the past, and smartphones and tablets, as amazing as they are, will never change that. He struggles to focus on work at the Rigor Insurance building and looks forward to sometimes flirting with his friend, the beautiful Nuria Guzman. It's only by chance that he sees a presentation about the supposed existence of a forgotten Jewish community composed of elite, scientific thinkers that have been hiding in Antarctica since World War 2. Throwing caution to the wind, he decides to search for the community, even though it means risking his life. If he finds it, he'll be forced to decide

whether or not the scientists can be trusted to help the world live up to its promise in *Future Man*. Inspired by the findings of historical researcher Rainer Daehnhardt who, in 2005, was awarded “Top One Hundred Scientist 2005” by Cambridge, for his historical scientific research, namely his findings on the activities in Antarctica by the German of the 3rd Reich in the 1930/40s and the secret operations, led by allied forces - especially the U.S. - to find them, long after WWII was over. He has published 80 books and over 600 scientific articles.

In *BEYOND THE PALE*, Nigel Swain, a gay Unitarian minister, is found dead in black pigskin, crushed by a garbage truck. His Boston friends: Clarissa, Mirabelle, Naomi, Roger, Penelope, and Bruno are determined to find the culprit. Their efforts are complicated when Neville, Nigel's identical twin, arrives from Africa followed soon by his wife Dahlia, who has fled from a harem on the Persian Gulf. This comic murder mystery includes a papal TV series, a psychotic biography, and a primer on wayward theology. The interlocking plots thicken, congeal, and finally liquefy in a dance club called the Ides. Here persons of uncertain gender mix and match togas to centurions. In a mad and topsyturvy world, *BEYOND THE PALE* gives chaos a reputable name. In *THE POWERS THAT BE*, Simeon and Ann are gifted with clairvoyance and genius IQs. Eager to fall in love with an equal, they meet through a Personals ad and find themselves perfectly matched. But the diabolic Benito Fosco is intent on seducing them in his Sutton Place apartment planted like the Garden of Eden with shrubs, an apple tree, and cascading water. Later, to secure their allegiance, Benito offers Simeon and Ann all the kingdoms of New York. The genesis of this farce is the vulnerability of our latter-day Adam and Eve who are lured into easy submission. Enter Mick Deangelis, angelic hunk and protector, whose hand-to-hand combat with Benito is not unlike the grappling of the sacred with the profane, and the abyss where the warfare is waged.

He typically starts out from a realistic situation, then introduces a twist in the psyche of the main character that launches the rest of the action - for example, in *The Magnanimous Cuckold* a suspected glimmer of lust in Petrus's eye suffices to incite Bruno and to subjugate the other figures in the play to his expression of folly - and the realistic is soon overtaken by the obsessional and finally the absurd.

Two young boys encounter the best and worst of humanity during the Holocaust in this powerful read that USA Today called "as memorable an introduction to the subject as The Diary of Anne Frank." Berlin, 1942: When Bruno returns home from school one day, he discovers that his belongings are being packed in crates. His father has received a promotion and the family must move to a new house far, far away, where there is no one to play with and nothing to do. A tall fence stretches as far as the eye can see and cuts him off from the strange people in the distance. But Bruno longs to be an explorer and decides that there must be more to this desolate new place than meets the eye. While exploring his new environment, he meets another boy whose life and circumstances are very different from his own, and their meeting results in a friendship that has devastating consequences.

The popular press has taken notice of two current trends in housing arrangements: three-generation households, and twenty-somethings staying at home longer. These are not separate trends, but part of a larger nationwide cultural shift to extended families reuniting. Together Again: A Creative Guide for Successful Multigenerational Living is intended to make this cultural shift go smoothly. Topics covered include the financial

and emotional benefits of living together; proximity and privacy; designing and remodeling your home to accommodate adult children or elderly parents; overcoming cultural stigmas about independent living; financial and legal planning; and making co-habitation agreements.

Over the course of his career, legendary director Werner Herzog (b. 1942) has made almost sixty films and given more than eight hundred interviews. This collection features the best of these, focusing on all the major films, from Signs of Life and Aguirre, the Wrath of God to Grizzly Man and Cave of Forgotten Dreams. When did Herzog decide to become a filmmaker? Who are his key influences? Where does he find his peculiar themes and characters? What role does music play in his films? How does he see himself in relation to the German past and in relation to film history? And how did he ever survive the wrath of Klaus Kinski? Herzog answers these and many other questions in twenty-five interviews ranging from the 1960s to the present. Critics and fans recognized Herzog's importance as a young German filmmaker early on, but his films have attained international significance over the decades. Most of the interviews collected in this volume—some of them from Herzog's production archive and previously unpublished—appear in English for the very first time. Together, they offer an unprecedented look at Herzog's work, his career, and his public persona as it has developed and changed over time.

Successful senior living doesn't just happen by itself. Retirement needs a plan and key information to make these rich years happy and healthy ones. This book is intended to help retirees prepare for the aging process and to plan to make good decisions about each of the challenges to age well. Our senior life can be the "golden years," but healthy living comes when we make responsible life choices. This book is intended to be a guide to make that happen in your life. It is filled with positive suggestions and clues to help you decide to live a wellness lifestyle in your retirement years. This book is built on the concept that we all need to be better decision-makers about the quality of our life as we age. It is based on the assumption as well that we do make self-destructive choices, which can harm our health (i.e., obesity). The message of the book is focused on our need to establish a pattern of making responsible life choices. The content of this resource is full of positive suggestions to accomplish that goal. It is a helpful guide for a successful retirement, but it needs to be read by all adults regardless of age so they are better prepared for living a healthy lifestyle in their golden years. The author also suggests that all of us could benefit enormously if we could gather in community throughout our country to discuss how we can make better choices on these important decisions for our future.

This book is the first English translation of the German architect Bruno Taut's early twentieth-century anthology *Die Stadtkrone* (The City Crown). Written under the influence of World War I, Taut developed *The City Crown* to promote a utopian urban concept where people would live in a garden city of 'apolitical socialism' and peaceful collaboration around a single purpose-free crystalline structure. Taut's proposal sought to advance the garden city idea of Ebenezer Howard and rural aesthetic of Camillo Sitte's urban planning schemes by merging them with his own 'city crown' concept. The book also contains contributions by the Expressionist poet Paul Scheerbarth, the writer and politician Erich Baron and the architectural critic Adolf Behne. Although the original German text was republished in 2002, only the title essay of *The City Crown* has previously been translated into English. This English translation of Taut's full anthology, complete with all illustrations and supplementary texts, fills a significant gap in the literature on early modern architecture in Germany and the history of urban design. It includes a translators' preface, introduction and afterword to accompany the original composition of essays, poems, designs and images. These

original texts are accompanied by illustrations of Taut's own designs for a utopian garden city of 300,000 inhabitants and over 40 additional historic and contemporary examples. The new preface to *The City Crown* explains the premise for the English translation of Taut's anthology, its organization and the approaches taken by the translators to maintain the four different voices included in the original work. Matthew Mindrup's introduction critically examines the professional and intellectual developments leading up to and supporting Bruno Taut's proposal to advance the English garden city concept with a centralized communal structure of glass, the city crown. Through the careful examination of original

The Shroud of Turin-claimed to be the burial cloth of Christ-is stolen from a chapel in the Cathedral of Turin in the fall of 2004. The Shroud is perhaps the most famous relic in the Catholic Church, even though some believe it to be a fake. The thieves leave only one obscure clue: the relic will head off a disaster. Beneath the identity and the grand design of the thieves lies an opportunistic plan to tilt the Catholic Church eastward-again. [The Boy in the Striped Pajamas](#) Purdue University Press
