The publication in 1988 of Salman Rushdie's novel *The Satanic Verses* triggered a furor that pitted much of the Islamic world against the West over issues of blasphemy and freedom of expression. The controversy soon took on the aspect of a confrontation of civilizations, provoking powerful emotions on a global level. It involved censorship, protests, riots, a break in diplomatic relations, culminating in the notorious Iranian edict calling for the death of the novelist. In *The Rushdie Affair*, Daniel Pipes explains why the publication of *The Satanic Verses* became a cataclysmic event with far-reaching political and social consequences. Pipes looks at the Rushdie affair in both its political and cultural aspects and shows in considerable detail what the fundamentalists perceived as so offensive in *The Satanic Verses* as against what Rushdie's novel actually said. Pipes explains how the book created a new crisis between Iran and the West at the time--disrupting international diplomacy, billions of dollars in trade, and prospects for the release of Western hostages in Lebanon. Pipes maps out the long-term implications of the crisis. If the Ayatollah so easily intimidated the West, can others do the same? Can millions of fundamentalist Muslims now living in the United States and Europe possibly be assimilated into a culture so alien to them? Insightful and brilliantly written, this volume provides a full understanding of one of the most significant events in recent years. Koenraad Elst's postscript reviews the enduring impact of the Rushdie affair.

Just before dawn one winter's morning, a hijacked jetliner explodes above the English Channel. Through the falling debris,

two figures, Gibreel Farishta, the biggest star in India, and Saladin Chamcha, an expatriate returning from his first visit to Bombay in fifteen years, plummet from the sky, washing up on the snow-covered sands of an English beach, and proceed through a series of metamorphoses, dreams, and revelations.

Logic and Knowledge Edinburgh University Press

Challenging the view of Islamic extremists and critics of Islam, this book explores the very topical issue of Islam's compatibility with democracy. It examines: principles of Islam's political theory and the notion of democracy therein the notion of democracy in medieval and modern Muslim thought Islam and human rights the contribution of Islamic legal ideas to European legal philosophy and law. The book addresses the pressing need for a systematic show of an Islamic politics of human rights and democracy grounded in the Qur'an. The West wonders about Islam and human rights, and its own ability to incorporate Muslim minority communities. Many Muslims also seek to find within Islam support source for democratic governance and human rights.

The Witch-cult in Western Europe Westermarck et la société marocaine Interculturalism at the crossroads

This pioneering book compares Chinese and Western thought to offer a bracing and unpredictable cross-cultural conversation. The work contributes to the emerging field of Sino-Hellenic studies, which links two great and influential cultures that, in fact, had virtually no contact during the ancient period. The patterns of thought and the cultural productions of early China and ancient Greece represent two significantly different responses to the myriad problems that human beings confront. Throughout this volume the comparisons between these cultures evince two critical ideas. First, that thinking is itself an inherently comparative activity. Through making comparisons, the familiar becomes strange, and the strange somewhat more familiar. Second, since we think through comparisons, we should think them all the way through. How valid and productive are the comparisons and contrasts made between particular works and different styles of thought that emerged from two different, although contemporaneous, cultural contexts?

Religious diversity is now a social fact in most countries of the world. While reports of the impact of religious diversity on Europe and North America are reasonably well-known, the ways in which Southeast Asia and Asia Pacific are religiously diverse and the ways this diversity has been managed are not. This book addresses this lack of information about one of the largest and most diverse regions of the world. It describes the religious diversity of 27 nations, as large and complex as Indonesia and as small as Tuvalu, outlining the current issues and the basic policy approaches to religious diversity. Southeast Asia and the Pacific

Islands are portrayed as a living laboratory of various religious blends, with a wide variance of histories and many different approaches to managing religious diversity. While interesting in their own right, a study of these nations provides a wealth of case studies of diversity management – most of them stories of success and inclusion.

Toward a New World Order Routledge

How do we engage with the pressing challenges of xenophobia, radicalism and security in the age of the 'war on terror'? The widely felt sense of insecurity in the West is shared by Muslims both within and outside Western societies. Growing Islamic militancy and resulting increased security measures by Western powers have contributed to a pervasive sense among Muslims of being under attack (both physically and culturally). "Islam and Political Violence" brings together the current debate on the uneasy and potentially mutually destructive relationship between the Muslim world and the West and argues we are on a dangerous trajectory, strengthening dichotomous notions of the divide between the West and the Muslim world.

Secularism, Religion and Multicultural Citizenship Macmillan

Is it possible, in a modern, pluralistic society, to promote common bonds of citizenship while at the same time accommodating and showing respect for ethnocultural diversity? 'Citizenship' and 'diversity' have been two of the major topics of debate in both democratic politics and political theory over the past decade. Much has been written about the importance of citizenship, civic identities, and civic virtues for the functioning of liberal democracies, and the need to accommodate the ethnocultural, linguistic, and religious pluralism that is a fact of life in most modern states. By and large, however, these two topics have been largely discussed in mutual isolation. Much of the writing on the issues of both citizenship and diversity remains rather abstract and general and disconnected from the specific issues of public policy and institutional design. *Citizenship in Diverse Societies* examines the specific points of conflict and convergence between concerns for citizenship and diversity in democratic societies and reassesses and refines existing theories of 'diverse citizenship' by examining these theories in the light of actual practices and policies of pluralistic democracies.

The Essene Odyssey OUP Oxford

This book examines the foundations of multiculturalism in the

context of émigré societies and from a multi-dimensional perspective. The work considers the politics of multiculturalism and focuses on how the discourse of cultural rights and intercultural relations in western societies can and should be accounted for at a philosophical, as well as performative level. Theoretical perspectives on current debates about cultural diversity, religious minorities and minority rights emerge in this volume. The book draws our attention to the polarised nature of contemporary multicultural debates through a well-synthesised series of empirical case studies that are grounded in solid epistemological foundations and contributed by leading experts from around the world. Readers will discover a fresh re-examination of prominent multicultural settings such as Canada and Australia but also an emphasis on less examined case studies among multicultural societies, as with New Zealand and Italy. Authors engage critically and innovatively with the various ethical challenges and policy dilemmas surrounding the management of cultural and religious diversity in our contemporary societies. Comparative perspectives and a focus on core questions related to multiculturalism, not only at the level of practice but also from historical and philosophical perspectives, tie these chapters from different disciplines together. This work will appeal to a multi-disciplinary audience, including scholars of political philosophy, sociology, religious studies and those with an interest in migration, culture and religion in contemporary societies.

We also repeat our thanks to the Olivetti Company and Edizione di Comunità di Milan for permission to include the paper by Dana Scott; it also appeared in *Synthese* 21. DONALD DAVIDSON GILBERT HARMAN EDITORIAL INTRODUCTION The success of linguistics in treating natural languages as formal syntactic systems has aroused the interest of a number of linguists in a parallel or related development of semantics. For the most part quite independently, many philosophers and logicians have recently been applying formal semantic methods to structures increasingly like natural languages. While differences in training, method and vocabulary tend to veil the fact, philosophers and linguists are converging, it seems, on a common set of interrelated problems. Since philosophers and linguists are working on the same, or very similar, problems, it would obviously be instructive to compare notes." --

The Perfect Master, poet & martyr, Husayn Mansur al-Hallaj (died 919), was born near Shiraz and was tortured and executed in Baghdad for declaring: "I am the Truth (Anal Haq)." Much has been written about his famous (and in-famous) statement and his masterpiece *The Tawasin* in which he makes it. Multiculturalism Rethought Springer Science & Business Media A selection of the leading theorists of multiculturalism revisit aspects of Parekh's work both to underline its continuing importance and the ongoing vitality of multiculturalist theory. *The Satanic Verses* Routledge Here is a true story of international intrigue, romances, corruption, graft, and political assassinations, the like of which has never been written before. It is the story of how different groups or atheistic- materialistic men have played in an international chess tournament to decide which group would win ultimate control of the wealth, natural resources, and man- power of the entire world. It is explained how the game has reached the final stage. The International Communists, and the International Capitalists, (both of whom have totalitarian ambitions) have temporarily joined hands to defeat Christian-democracy. The solution is to end the game the International Conspirators have been playing right now before one or another totalitarian-minded group imposes their ideas on the rest of mankind. The story is sensational and shocking, but it is educational because it is the TRUTH. The author offers practical solutions to problems so many people consider insoluble. *The Siren and the Sage* UNSW Press

Are Islam and the West on a collision course? From the Ayatollah Khomeini to Saddam Hussein, the image of Islam as a militant, expansionist, and rabidly anti-American religion has gripped the minds of Western governments and media. But these perceptions, John L. Esposito writes, stem from a long history of mutual distrust, criticism, and condemnation, and are far too simplistic to help us understand one of the most important political issues of our time. In this new edition of *The Islamic Threat: Myth or Reality?*, Esposito places the challenge of Islam in critical perspective. Exploring the vitality of this religion as a global force and the history of its relations with the West, Esposito demonstrates the diversity of the Islamic resurgence--and the mistakes our analysts make in assuming a hostile, monolithic Islam. This third edition has been expanded to include new material on current affairs in Turkey, Afghanistan, Palestine, and Southeast Asia, as well as a discussion of international terrorism. *Political Islam and Human Security* Liverpool University Press Explains the contemporary politics of Australian Jewry. This book situates the politics of Australian Jews through comparisons with general patterns in Australian politics, the politics of other minorities in Australia, and the politics of other Western Jewish communities. It contains an appendix of Jewish Parliamentarians.
