about killers, cult leaders, cannibals, cults, and criminals that capture our imaginations even as they terrify and disturb us? How do we responsibly consume these kinds of stories as entertainment, and more importantly, what can we learn from them? RedHanded rejects the narrative of killers as monsters and that a victim "was in the wrong place at the wrong time," and instead tells the stories we want to hear in a way that challenges perceptions and asks the hard questions about society, gender, poverty, culture, and even our politics. After meeting at a party in London where they both discovered they listened to the same murder podcasts, Hannah Maguire and Suruthi Bala drunkenly promised to one day start their own true crime podcast together and the rest is history. From the hosts of the hit true crime podcast RedHanded (dubbed by Rick & Morty creator Dan Harmon as the "best true crime podcast I've heard, ever"), Hannah Maguire and Suruthi Bala have amassed a cult following of "spooky bitches" amounting to an incredibly strong 63k downloads per episode and 728k backlist downloads every month in the US alone. With candor, humor, interviews with experts, research on real-life cases, and an unflinching dissection of what makes a killer tick, Bala and Maguire take us through the societal, behavioral, and cultural phenomena that make victims -- and their murderers -- our collective responsibility and to find out once and for all: what makes a killer tick?

and comprehensive approach to transferring from the C to F instrument. 430 music examples include folk and national songs (some in two parts), country dance tunes and excerpts from the standard treble repertoire of •Bach, Barsanti, Corelli, Handel, Telemann, etc. An outstanding feature of the book has proved to be Brian Bonsor's brilliantly simple but highly effective practice circles and recognition squares designed to give, in only a few minutes, concentrated practice on the more usual leaps to and from each new note and instant recognition of random notes. Quickly emulating the outstanding success of the descant tutors, these books are very popular even with those who normally use tutors other than the Enjoy the Recorder series.

The inspirational story of George Washington Carver and his childhood secret garden is brought to life in this picture book biography by the author-illustrator team behind Muhammad Ali: A Champion Is Born. When George Washington Carver was just a young child, he had a secret: a garden of his own. Here, he rolled dirt between his fingers to check if plants needed more rain or sun. He protected roots through harsh winters, so plants could be reborn in the spring. He trimmed flowers, spread soil, studied life cycles. And it was in this very place that George's love of nature sprouted into something so much more--his future. Gene Barretta's moving words and Frank Morrison's beautiful paintings tell the inspiring life and history of George Washington Carver, from a baby born into slavery to celebrated botanist, scientist, and inventor. His passion and determination are the seeds to this lasting story about triumph over hardship--a tale that begins in a secret garden.

Henrik Ibsen is known as one of the four great Norwegian writers, and his poem "Terje Vigen" ranks among his notable works. The poem is believed to have been inspired by verbal accounts that Ibsen got during the time he lived in Grimstad in his youth. Verbal accounts about the hardships the people in the area had to suffer during the Napoleonic wars, when British ships sieged Norwegian ports. The blockade lasted from 1807 to 1814, and brought poverty to Norway. A poverty which caused people to start dying from starvation. The dire circumstances even compelled many impoverished Norwegians to row over to Denmark to get food, in order to save themselves and their families from starvation. Many of whom were captured and imprisoned. This forms well-known historical facts. The poem revolves around these historical facts. It tells a tale about how the common and poor Norwegians were impacted by these events. In the poem, Terje Vigen must row to Denmark in order to provide the life-saving food his family needs. But as he is about to arrive home in Norway on his way back, he is captured by a patrolling ship, and taken prisoner in England. Terje Vigen spends five years in prison, and when he gets back to Norway afterwards, he learns what has happened to his family while he was in prison. Later in the poem, Terje Vigen encounters the captain of the ship that took him captive, and Terje gets a chance to take revenge for the losses and grievances the imprisonment imposed on him. Though this poem is based on real life events, there exists no solid proof that a man named Terje Vigen ever existed who did all the things accounted for in the poem. The poem must therefore, even if it is based on knowledge of real-life events, be categorized as a fictional work

of literature. But even if this work of literature remains a fictional one, it nonetheless provides an opportunity to imagine how life was for some of the people impacted by this event in history. And if we further keep in mind that life in Norway, for the majority of the population, throughout centuries has been a life of mere subsistence, we can let ourselves be persuaded that this poem not only provides an artistic rendition of the life and events of the possibly fictitious Terje Vigen and those taking place in the poem in particular, but paints a picture of life as it historically has been for many Norwegians in general.

Fabulous piece of writing. It is really quite astounding that Machen is largely forgotten as a writer. In *The Secret Glory*, I particularly loved Machen's satirical social comments about the class system, Christian hypocrisy and the sadistic puritanism of English Public Schools. This isn't always an easy book to read but it is very rewarding, and after reading, like the best literary works, carves out a place for itself in one's psyche. (M.J. This book tells the classic story of Mary, who after losing her parents comes to live with her uncle in an English great house. When she gets there, she makes two friends: Dickon, a boy who talks with nature, and Colin, a poor boy who despite being a lord lives in isolation because of an illness. This friendship will lead to the discovery of a great secret: a forbidden garden, surrounded by walls and locked with a missing key, whose mystery goes back to a hidden accident. Decided to bring this garden back to life,

Mary will join forces with her friends and walk into a path known today as a beautiful metaphor for the journey of self-awareness and awakening to the world. Written in 1911 by Frances Hodgson Burnett, a great author recognized for her success and independence, this work inspired various plays and movies and remains as vivid as the life brought out of it.

From the author of the international bestseller *The Light Over London* and *The Whispers of War* comes a poignant and unforgettable tale of five women living across three different times whose lives are all connected by one very special place. Present day: Emma Lovett, who has dedicated her career to breathing new life into long-neglected gardens, has just been given the opportunity of a lifetime: to restore the gardens of the famed Highbury House estate, designed in 1907 by her hero Venetia Smith. But as Emma dives deeper into the gardens' past, she begins to uncover secrets that have long lain hidden. 1907: A talented artist with a growing reputation for her ambitious work, Venetia Smith has carved out a niche for herself as a garden designer to industrialists, solicitors, and bankers looking to show off their wealth with sumptuous country houses. When she is

hired to design the gardens of Highbury House, she is determined to make them a triumph, but the gardens—and the people she meets—promise to change her life forever. 1944: When land girl Beth Pedley arrives at a farm on the outskirts of the village of Highbury, all she wants is to find a place she can call home. Cook Stella Adderton, on the other hand, is desperate to leave Highbury House to pursue her own dreams. And widow Diana Symonds, the mistress of the grand house, is anxiously trying to cling to her pre-war life now that her home has been requisitioned and transformed into a convalescent hospital for wounded soldiers. But when war threatens Highbury House's treasured gardens, these three very different women are drawn together by a secret that will last for decades. In this sweeping novel reminiscent of Kate Morton's *The Lake House* and Kristin Harmel's *The Room on Rue Amélie*, Julia Kelly explores the unexpected connections that cross time and the special places that bring people together forever.
