Michel Foucault examines the archeology of madness in the West from 1500 to 1800 - from the late Middle Ages, when insanity was still considered part of everyday life and fools and lunatics walked the streets freely, to the time when such people began to be considered a threat, asylums were first built, and walls were erected between the "insane" and the rest of humanity.

A History of World Societies + a Pocket Guide to Writing in History, 9th Ed. Farrar, Straus and Giroux

More than any other text, A History of World Societies introduces students to the families, foods,

workplaces, religions, and diversions of peoples of the past through lively, descriptive writing and extensive primary sources that give voice to a wide range of individuals. This hallmark treatment of social history combines with strong political, cultural, and economic coverage and a clear, easy-to-manage organization to provide students with the most vivid account available of what life was like throughout human history. The Eighth Edition welcomes to the author team Merry Wiesner-Hanks and Clare Crowston, experienced world-history teachers and highly regarded scholars who bring additional attention to gender and cultural history. It also expands the text's global perspective by strengthening coverage of non-Western topics and comparisons among world societies. A fresh, colorful look and a completely new map program showcase a narrative that the authors judiciously shortened for even greater power and accessibility. Bedford/St. Martin's is proud to have recently acquired the stellar McKay franchise in World History and Western Civilization. These wonderful books fit well with our publishing philosophy at Bedford/St. Martin's, emphasizing innovation, quality, and a focus on the needs of students and instructors. We hope to contribute to their future success with the care and attention to detail we give every book we publish.

Presents a controversial history of violence which argues that today's world is the most peaceful time in human existence, drawing on psychological insights into intrinsic values that are causing people to condemn violence as an acceptable measure.

The Dawn of Everything Macmillan Higher Education

A dramatically new understanding of human history, challenging our most fundamental assumptions about social evolution—from the development of agriculture and cities to the origins of the state, democracy, and inequality—and revealing new possibilities for human emancipation. For generations, our remote ancestors have been cast as primitive and childlike—either free and equal innocents, or thuggish and warlike. Civilization, we are told, could be achieved only by sacrificing those original freedoms or, alternatively, by taming our baser instincts. David Graeber and David Wengrow show how such theories first emerged in the eighteenth century as a conservative reaction to powerful critiques of European society posed by Indigenous observers and intellectuals. Revisiting this encounter has startling implications for how we make sense of human history today, including the origins of farming, property, cities, democracy, slavery, and civilization itself. Drawing on pathbreaking research in archaeology and anthropology, the authors show how history becomes a far more interesting place once we learn to throw off our conceptual shackles and perceive what's really there. If humans did not spend 95 percent of their evolutionary past in tiny bands of hunter-gatherers, what were they doing all that time? If agriculture, and cities, did not mean a plunge into hierarchy and domination, then what kinds of social and economic organization did they lead to? The

answers are often unexpected, and suggest that the course of human history may be less set in stone, and more full of playful, hopeful possibilities, than we tend to assume. The Dawn of Everything fundamentally transforms our understanding of the human past and offers a path toward imagining new forms of freedom, new ways of organizing society. This is a monumental book of formidable intellectual range, animated by curiosity, moral vision, and a faith in the power of direct action. Includes Black-and-White Illustrations
