CANTRELL MICHAELA

La France Contemporaine. William F. Edmiston, Annie Dumnil A&C Black

New York Times–Bestseller: An “engrossing” history of economics, from an author with “excellent storytelling skills” and an Eisner Award-winning artist (Boing Boing). Stimulus plans: good or bad? Free markets: How free are they? Jobs: Can we

afford them? Capitalism, socialism, and communism: What’s the difference? Corporations: Are they people? For those who want to better understand what Wall Street and Washington know (or say they know), this graphic history, with clear, witty writing and quirky, entertaining art, transforms “the dismal science” of economics into a fun, fact-filled story about human nature and our attempts to make the most of what we’ve got. “Quite accessible . . . Goodwin brilliantly contextualizes economic theories with historical narrative, while Burr’s simple but elegant illustration employs classical techniques like caricaturing politicians and symbolizing big businesses (as a gleeful factory)

to help the reader visualize difficult concepts.” —Publishers Weekly (starred review) “You could read ten books on the subject and not glean as much education.” —David Bach, #1 New York Times–bestselling author of *The Automatic Millionaire* “I just cannot stress enough how amazing this book is!”—Wired

In Louisiana, every bite of food and each turn of phrase is an expression of cultural literacy. Correctly pronouncing "Tchoupitoulas" or "Atchafalaya," knowing the difference between the first Governor Long and the second one, being able to spot the artwork of Caroline Durieux, and honoring the distinction between a Creole and a Cajun roux serve not just as markers of familiarity; they represent acts of preservation. The Louisiana Field Guide: Understanding Life in the Pelican State expands on this everyday communion of history, delving into the cultural patchwork that makes the Gumbo State both thoroughly American and absolutely singular. An authoritative lineup of contributors reintroduces Louisiana through the lenses of environment, geography, history, politics, religion, culture, language, sports, literature, film, music, architecture, food, and art. Whether describing the archi-tectural details of the Ursuline Convent in the French Quarter or sharing the family history of Bourgeois' Meat Market just outside of Thibodaux, the essays in The Louisiana Field Guide present a fresh and expansive look at

the enchanting and perplexing Pelican State. At once an accessible primer and a rich omnibus, this volume explores the well-known destinations and far-flung corners of Louisiana, from Cameron Parish to Congo Square, offering an enlightening companion guide for visitors and a trust-worthy reference for residents.

The papers in this volume, presented at the Royal Institute of Cultural Heritage (KIK-IRPA) in Brussels in November 2012, cover a wide range of works of art, periods, sources and approaches, from Dioscorides to contemporary artists' installations. The theme of the conference is reflected in studies such as Tingely's explosive Homage to New York, the evolutions and transformations of harpsichords in France in the seventeenth and eighteenth centuries, the art of wax anatomical models in Spain, or neo-gothic polychromies. The confrontation of source research with experimental reconstruction and analysis are illustrated in the study of anthocyanin colorants in Medieval European illuminators workshop or of tempera paint around 1900. Research on artist's materials, such as vermilion, zinc white or turpentine, refers to patents, inventories, diaries and chronicles. The interpretation and transmission of sources is central to several papers. Innovative databases on Art Technological Sources are also presented.

Written entirely in French, this text provides the intermediate or advanced French undergraduate with a solid foundation in French syntax, and the tools and practice to improve linguistic competence. GRAMMAIRE FRANCAISE teaches grammar, orthography, and vocabulary, simultaneously providing a solid foundation that is essential to a good understanding of French language. Grammatical explanations are simple and concise, which avoids switching from English to French, and provides additional exposure to French. This text can be used for a systematic study of the French language, or as an occasional reference. All of the grammar structures of French and many lexical aspects are covered, providing a complete and systematic review of the language."

Over the course of its three-hundred-year history, the Catholic Church in Louisiana witnessed a prolonged shift from French to English, with some south Louisiana churches continuing to prepare marriage, baptism, and burial records in French as late as the mid-twentieth century. *Speaking French in Louisiana, 1720-1955* navigates a complex and lengthy process, presenting a nuanced picture of language change within the Church and situating its practices within the state's sociolinguistic evolution. Mining three centuries of evidence from the Archdiocese of New Orleans archives, the authors discover proof of an extraordinary one-hundred-year rise and fall of bilingualism in Louisiana. The multiethnic laity, clergy, and religious in the nineteenth century necessitated the use of multiple languages in church functions, and bilingualism remained an ordinary aspect of church life through the antebellum period. After the Civil War, however, the authors show a steady crossover from French to English in the Church, influenced in large part by an active Irish population. It wasn't until decades later, around 1910, that the Church began to embrace English monolingualism and French faded from use. The authors' extensive research and analysis draws on quantitative and qualitative data, geographical models, methods

of ethnography, and cultural studies. They evaluated 4,000 letters, written mostly in French, from 1720 to 1859; sacramental registers from more than 250 churches; parish reports; diocesan council minutes; and unpublished material from French archives. Their findings illuminate how the Church's hierarchical structure of authority, its social constraints, and the attitudes of its local priests and laity affected language maintenance and change, particularly during the major political and social developments of the nineteenth and early twentieth centuries. Speaking French in Louisiana, 1720-1955 goes beyond the "triumph of English" or "tragedy of Cajun French" stereotypes to show how south Louisiana negotiated language use and how Christianization was a powerful linguistic and cultural assimilator.

The Beginning Translator's Workbook University of Alabama Press

This workbook combines methodology and practice for beginning translators with a solid proficiency in French. It assumes a linguistic approach to the problems of translation and addresses common pitfalls, including the delineation of "translation units", word polysemy, false cognates, and structural and cultural obstacles to literal translation. The first part of the book focuses on specific strategies used by professionals to counter these problems, including transposition, modulation, equivalence, and adaptation. The second part of the book provides a global application of the techniques taught in the opening sections,

guiding the student through step-by-step translations of literary and non-literary excerpts. The revised edition clarifies some of the finer points of the translation techniques introduced in the first edition, provides extra practice exercises, and offers information on a website that can be used in class.

New Perspectives on Language Variety in the South LSU Press

Language Diversity in the Sinophone World offers interdisciplinary insights into social, cultural, and linguistic aspects of multilingualism in the Sinophone world, highlighting language diversity and opening up the burgeoning field of Sinophone studies to new perspectives from sociolinguistics. The book begins by charting historical trajectories in Sinophone multilingualism, beginning with late imperial China through to the emergence of English in the mid-19th century. The volume uses

this foundation as a jumping off point from which to provide an in-depth comparison of modern language planning and policies throughout the Sinophone world, with the final section examining multilingual practices not readily captured by planning frameworks and the ideologies, identities, repertoires, and competences intertwined within these different multilingual configurations. Taken together, the collection makes a unique sociolinguistic-focused intervention into emerging research in

Sinophone studies and will be of interest to students and scholars within the discipline.
