Funeral flowers are many things - a tribute to the deceased, a comfort to the bereaved and a source of joy for all at a sad time. The challenge is to design sensitive, personalized creations for the client at a competitive price. This book is

full of ideas and inspiration for the client to select, for the funeral director to use and for florists to follow. This beautiful and practical book sets out many options for the florist so their funeral work can provide a personalized and thoughtful tribute. It starts with a visual feast of designs, organized by season and colour, and then explains in detail how to make key floral tributes, to best serve the client and to build a successful business. It showcases over a hundred full-colour floral tributes, and demonstrates twenty step-by-step examples of how to make key arrangements. It explains how to create original designs, from initial planning and sketching to final ideas. Finally, advice is given on efficient ordering and costing for profitability and reduced wastage, as well as

environmental considerations. Written by a leading florist, it demonstrates tenderness and care in every aspect of a sensitive and emotional final journey, so that funeral flowers can best mark the loss and celebrate the life of a loved one. *Year Book of the Massachusetts Horticultural Society with the Annual Report for ...* The Crowood Press

THE NEW TOPIARY is one of the most exciting books on plant sculpture ever produced. Sure to redefine the term "topiary," it is the first book to fully detail the techniques & materials used in this new field. Topiary is no longer confined to traditionally shaped hedges, but is extended to include quick-growing ivies & perennials. Cubes & cones, monsters, birds & whimsical animals, all dressed in living green, are equally attainable. The

latest American adaptation to topiary - imaginatively stuffing designed frames with sphagnum moss in which ivy & creeping figs actually grow & thrive - is described in detail. Closely guarded secrets from Longwood Gardens (near Philadelphia) are revealed for the first time. Here are the secrets behind Longwood's exotic displays - from tiny animals to cascading chrysanthemums to self-watering life-size elephants. Years of practical development & research have gone into this book. The snags, pitfalls & the disappointments are eliminated by the confident, step-by-step instructions & ideas of an expert who is the foremost authority in this colorful modern approach to decoration with plants. Aided by 235 color illustrations & 385 drawings, the reader will quickly

learn how to train these "living ornaments" into almost any shape imaginable.
