Ambition will fuel him. Competition will drive him. But power has its price. It is the morning of the reaping that will kick off the tenth annual Hunger Games. In the Capitol, eighteen-year-old Coriolanus Snow is preparing for his one shot at glory as a mentor in the Games. The once-mighty house of Snow has fallen on hard times, its fate hanging on the slender chance that Coriolanus will be able to outcharm, outwit, and outmaneuver his fellow students to mentor the winning tribute. The odds are against him. He's been given the humiliating assignment of mentoring the female tribute from District 12, the lowest of the low. Their fates are now completely intertwined - every choice Coriolanus makes could lead to favor or failure, triumph or ruin. Inside the arena, it will be a fight to the death. Outside the arena, Coriolanus starts to feel for his doomed tribute . . . and must weigh his need to follow the rules against his desire to survive no matter what it takes.

From the lifelong devotion of the American crow to the dalliances of the eastern bluebird, from the bald eagle's dazzling aerial display to the male ruby-throated hummingbird's reputation as a "deadbeat dad" — courtship, mating, and parenting differ dramatically among birds. Ornithologist and author Laura Erickson takes readers on a romance-fueled romp through the love lives of 35 species, exploring the diversity of avian approaches to pairing up. Each species spotlight pairs Erickson's remarkable depth of scientific knowledge with her talent for drawing humorous and insightful parallels between human and bird. The result is a riveting read for bird-watchers and nature lovers alike. This publication conforms to the EPUB Accessibility specification at WCAG 2.0 Level AA.

This is the first book created primarily for the field identification of parrots, one of the most familiar and colorful groups of birds. From the mighty macaws to the diminutive pygmy parrots, the 350 species of parrots include cockatoos, parakeets, lovebirds, and Budgerigar. Most are brightly colored or even gaudy, but a few are drab, and some are nocturnal and flightless. Parrots, found throughout most of the warmer regions of the world, occur in greatest numbers in Australasian and South America. This book includes 88 superb color illustrations of every species and most identifiable subspecies of parrot, as well as range maps of their locations. It offers many firsthand insights into the ecology of each species, vocalizations, life cycle characteristics, and geographical variation. It also provides up-to-date information on the conservation status of those species of parrots that are threatened or endangered.

Lovebirds are found in a variety of vivid colors in their native tropical habitats. Though they are often kept as pairs, lovebirds also thrive when kept alone. Heavily illustrated with vivid color photos and instructive line art, Barron's Complete Pet Owner's Manuals show and inform pet owners regarding proper care of dogs, cats, birds, fish, reptiles, amphibians, small caged animals—virtually every creature that is kept as a pet. The books give advice on purchasing and otherwise acquiring a pet, feeding it nutritiously, keeping it in good health, and where applicable, grooming and training it. Each book in this large series is individually written by a specialist, and though the information is authoritative, the text is clear and straightforward, easy for every pet owner to understand.

A joyful and indispensable guide filled with astonishing, important, and little-known information about the vagina that will equip a new generation to make informed choices about their sexual health and happiness. The Wonder Down Under is a comprehensive guide to a miraculous and complex part of the body that too few of us (regardless of gender) are all that familiar with--the vagina. With wisdom, humor, and scientific aplomb, medical student Ellen Støkken Dahl and Dr. Nina Brochmann take readers on a fascinating journey of female sexual organs and sexual health--from the clitoris to contraception to cervical cancer. More than a user's manual, this book is the funny, frank tribute to the vagina that we have been waiting for. The Wonder Down Under is filled with astonishing, essential, and little-known information--relayed with both medical expertise and genuine empathy. Did you know, for instance, that female and male sex organs are merely variations on the same basic structure? Or that there's no such thing as a virginity test--because examining the hymen cannot meaningfully indicate whether or not someone's had sex? Brochmann and Dahl have written a tour-de-force about the biology, anatomy, and reality of the female body, examining the many ways in which widespread misinformation and silence about the vagina have been harmful to women over time. The Wonder Down Under makes crucial contributions to the

discussion: the book was an instant bestseller that sold out in its native Norway in just three days. Since then it has been acquired by publishers in more than two dozen countries around the world. The Wonder Down Under is a joyful and indispensable book that will educate readers of all kinds and equip a new generation to make informed choices about their sexual well-being.
