Earn Extra Cash The  
Side Hustle Path is for  
people who want or  
need to earn some  
extra money outside of  
their day jobs. Maybe  
you need a few extra  
dollars to make ends  
meet. Maybe you want  
to pay off debt. Maybe  
you want to save for a

rainy day, or for your children's education. Maybe you just want to treat yourself to a nice vacation or a new car without feeling guilty about it. Maybe you're looking for a way out of the corporate world, an escape plan. That's the ultimate financial freedom, right? That's how I got started down this entrepreneurial path, and it's been the best choice I ever made. You're willing to work for it, because your future is worth working for. The challenge is time is limited, and you may not know where to start. There are a million and one ways to "make money online" and everyone wants to sell you their "proven system for Internet riches." It's hard to tell what's a scam and what's legit.

### Real-World Examples

This book offers 10 real-world examples of how regular people just like you and me are earning side hustle income outside of traditional employment. Many have even turned these part-time ventures into full-time businesses, throwing off the shackles of their corporate overlords for good. And the cool thing is, there are no special technical skills or prerequisites to get started with any of the ideas presented. Most don't require any big scary upfront investment. Why Side Hustle? Build Skills Build Security Build Income Build Freedom My Story After college, I did what you're supposed to do: I got a job. The problem was almost immediately I

found myself looking for a way out. It wasn't that I hated the work or my coworkers, but it just wasn't what I wanted to do with my life. The thought of spending my next 30 years there was terrifying. So evenings and weekends I turned my attention online. I'd been dabbling with building rudimentary websites, learning online advertising channels, and even running my own small marketing campaigns for other company's products to test the waters. And that's what The Side Hustle Path is about; finding a low-risk way make more money. If you're looking for a get-rich-quick-scheme or the secret to overnight success, you won't find it here. But what you will find are 10 down-

to-earth entrepreneurs who were once sitting in your same position. They felt the same fears and uncertainties, but took action anyway. What are you waiting for? Scroll up and download your copy now!

I know it sounds crazy, and it is crazy but it is, in fact, true. Having multiple passive income streams is the number one key to wealth accumulation! Why? It gives you safety and allows you to earn in a month what other people earn in 6 months or an entire year. Imagine working 8 hours daily, Monday to Friday until you are at the age of 65. It does not sound very

appealing, am I right? What about having not to have to work at all? Just try and imagine how it would feel to be able to wake up whenever you want and to do ANYTHING that you desire. Do not waste your time being a slave. Working constantly and barely having time to do anything else is not living. That is merely existing.  Beat the Market and Grow Your Cash Flow Without Becoming a Full-time Investor Most investment strategies are just too complicated, too risky, or too subjective. Typical investment strategies completely ignore human emotions, and making emotional investment decisions is the most common cause of losses for investors. Risky trading strategies advertised with get-rich-quick hype may create big wins for a lucky few, but most people just end up with big losses and nothing to show for all their hard work

and the emotional rollercoaster they endured. Creating and maintaining real wealth through stock investing requires a long-term investment strategy that properly manages risk and prevents emotional decision-making so that you never suffer major losses. The FALCON Method is completely different than typical stock investing strategies. The reason it beats the market again and again is because it uses an evidence-based stock selection process that anyone can follow. You don't need to get lucky, take big risks, or fly by the seat of your pants in order to retire wealthy from stock investing. Successful investing requires structured decision-making based on a

proven process, and that's exactly how The FALCON Method was created.

Passive income is present, and thousands of people already are making money passively! They aren't ways to turn your time into money directly. Instead, they are methods to plant seeds which means that your money shall grow, when you're sleeping or at the park walking your dog even. In other words, even when you're not out trying to create money actively. It's all about the idea of passive income. As being a farmer who vegetation a crop tends the harvests and fields the

produce, you can plant monetary seeds which will produce income. It takes some ongoing build up front and some maintenance on the way, but in the event that you plant passive income seeds that match your climate you may bring in a nice harvest. Passive income differs from attained portfolio and income in many ways. Passive income is thought as a stream of income gained with little effort generally, and it is known as progressive passive income when there is usually little effort needed from the average person receiving the passive income to be able to grow the blast of income. Making passive income isn't unrealistic. But it isn't easy either. It takes

effort and time to build a business that will later make you money regularly without spending a lot of time in front of your personal computer. If you want to remain

this piece. There is no  
doubt that you are  
here, because of your  
previous actions. Even  
if these actions were  
wrong, now you have  
the opportunity to  
correct them!You see,  
your present financial  
situation is not a prove  
of being lazy, but  
simply a prove of  
misinformation. Mind

you, the good thing is that you are not alone; as we have all been misinformed at one point or the other when it comes to the subject of money. Personally, I have always heard of people who tried to get rich online, but with inadequate results, because there did not use proved and profitable methods . I have decided to write my first two books to help people who want start to make money online following a step-by-step approach: "Make Money Blogging" and "Stock Market for beginners." Trust me , these books are not ordinary!From the titles to the outlines, down to the chapters; everything was carefully placed to take you from where you are (defeat) to the place you ought to be

(success). There is no chance you will read this book and still remain in the same financial situation. Like I said earlier, these are books filled with proven practical steps; neither do they require the reader to have any previous knowledge of these subjects. I take this opportunity to list some of the most significant chapters of each book: from "make money blogging" the chapter 3-practical steps to make money blogging, which shows you step by step exactly all you need to do to start to do to start making money almost immediately, chapter 7-blog marketing-shows you 10 effective ways to market your blog for profit, while chapter 8 shows you 7 best ways to make money from

online advertising. While the chapter 2- learn how to start investing in the stock market, the 7- how do I invest in bonds? and the 8- how to build a business partnership are the most attractive in "Stock Market For Beginners" Another name I love to call this book is "Stock Market Alpha," because it contains all you need to get started with stock market investments. One of the keys to getting rich and creating wealth is to understand the different ways in which income can be generated. It's often said that the lower and middle-class work for money while the rich have money work for them. the key secret to get rich is simply creating Passive

Income .I know creating Passive Income can be very difficult; most importantly, when there is no one to guide you. That is why I am introducing you to this awesome and result oriented book- PASSIVE INCOME. It is a singular guide that will transform your finance and change your cash-flow quadrant to be an investor. With this guide, you can be sure of correcting your past financial errors; as it will practically lead you from being a state of a financial slave to financial freedom. Independently

Published  
The International Bestseller "This book blew my mind. More importantly, it made financial independence seem achievable. I read Financial Freedom three times, cover-to-cover." —Lifehacker  
Money is unlimited.

Time is not. Become financially independent as fast as possible. In 2010, 24-year old Grant Sabatier woke up to find he had \$2.26 in his bank account. Five years later, he had a net worth of over \$1.25 million, and CNBC began calling him "the Millennial Millionaire." By age 30, he had reached financial independence. Along the way he uncovered that most of the accepted wisdom about money, work, and retirement is either incorrect, incomplete, or so old-school it's obsolete. Financial Freedom is a step-by-step path to make more money in less time, so you have more time for the things you love. It challenges the accepted narrative of spending decades

working a traditional 9 to 5 job, pinching pennies, and finally earning the right to retirement at age 65, and instead offers readers an alternative: forget everything you've ever learned about money so that you can actually live the life you want. Sabatier offers surprising, counter-intuitive advice on topics such as how to:

- \* Create profitable side hustles that you can turn into passive income streams or full-time businesses
- \* Save money without giving up what makes you happy
- \* Negotiate more out of your employer than you thought possible
- \* Travel the world for less
- \* Live for free--or better yet, make money on your living situation
- \* Create a

simple, money-making portfolio that only needs minor adjustments \* Think creatively--there are so many ways to make money, but we don't see them. But most importantly, Sabatier highlights that, while one's ability to make money is limitless, one's time is not. There's also a limit to how much you can save, but not to how much money you can make. No one should spend precious years working at a job they dislike or worrying about how to make ends meet. Perhaps the biggest surprise: You need less money to "retire" at age 30 than you do at age 65. Financial Freedom is not merely a laundry list of advice to follow to get rich quick--it's a practical roadmap to

living life on one's own terms, as soon as possible.
