STEPHANIE KELLEY

McDougal Littell Algebra 1 New

Jersey McDougal
Littell/Houghton Mifflin
Using a progressive but
flexible format, this
book contains a series
of independent
chapters that show
how the principles and

theory of real analysis
can be applied in a
variety of settings—in
subjects ranging from
Fourier series and
polynomial
approximation to
discrete dynamical
systems and nonlinear
optimization. Users will
be prepared for more
intensive work in each
topic through these
applications and their
accompanying
exercises. Chapter

topics under the abstract analysis heading include: the real numbers, series, the topology of \mathbb{R}^n , functions, normed vector spaces, differentiation and integration, and limits of functions.

Applications cover approximation by polynomials, discrete dynamical systems, differential equations, Fourier series and physics, Fourier series and approximation, wavelets, and convexity and optimization. For math enthusiasts with a prior knowledge of both calculus and linear algebra.

Algebra 1 McDougal Littell/Houghton Mifflin "The Holt McDougal Algebra 1 Teacher Edition includes teaching strategies, activities, technology

tips and more to enhance instruction. Each chapter begins with a study guide preview and a section called Reading and Writing Math. Each section of every chapter of the teacher edition includes lab exercises, test prep and a quiz. At the end of each chapter, teachers find extra help from a study guide review, chapter test, college entrance exam practice, test tackler, and standardized test prep."--Publisher's Web site.

The content of Algebra
1 is organized around
families of functions,
with special emphasis
on linear and quadratic
functions.
Algebra 1 Grades 9-12
McDougal Littel
Expressions, equations,
and functions --
Properties of real
numbers -- Solving
linear equations --
Graphing linear
equations and
functions -- Writing
linear equations --
Solving and graphing
linear inequalities --
Systems of equations
and inequalities --
Exponents and
exponential functions --
Polynomials and

factoring -- Quadratic
equations and
functions -- Radicals
and geometry
connections -- Rational
equations and
functions -- Probability
and data analysis.
