 Chess tactics explained in English: the website www.chesstactics.org in book form. This volume is the first in a two-part set. The two books together contain over a thousand examples organized in unprecedented detail. Every position is accompanied by a commentary describing a train of thought that leads to the solution; these books thus are the ideal learning tool for those who prefer explanations in words to long strings of notation. This first volume

provides an introduction to tactics and explains forks and discovered attacks. (Book II covers pins and skewers, removal of the guard, and mating patterns.) A hardcover version is also available.

 Packed with precise, step-by-step checklists, detailed illustrations, and informative chapter explanations, the Electrical Inspection Manual, 2011 Edition identifies important Code

rules and provides guidance on how-to organize checklists by occupancy type to increase thoroughness and decrease the likelihood of overlooking potential problems. Written by certified electrical inspectors, and endorsed by the National Fire Protection Association (NFPA) and the International Association of Electrical Inspectors (IAEI), this fully illustrated manual explains significant tasks, defines terms, outlines key questions, and provides a

concise overview of the electrical inspection process. Jeffrey Frank Jones This Manual is published to provide U.S. Patent and Trademark Office (USPTO) patent examiners, applicants, attorneys, agents, and representatives of applicants with a reference work on the practices and procedures relative to the prosecution of patent applications and other proceedings before the USPTO. For example, the Manual contains instructions to examiners,

as well as other material in the nature of information and interpretation, and outlines the current procedures which the examiners are required or authorized to follow in appropriate cases in the normal examination of a patent application. The Manual does not have the force of law or the force of the rules in Title 37 of the Code of Federal Regulations. The January 2018 publication of Revision 08.2017 includes the following changes: Substantive

revisions to MPEP Chapters 200, 700, 800, 900, 1000, 1200, 1400, 1500, 1800, 2000, 2100, 2200, 2300, 2500, 2700, and Chapter FPC (Form Paragraph Book), and updates to the Table of Contents, Foreword, Introduction, Subject Matter Index, and all Appendices except Appendix I and Appendix P.
