Finally, a complete guide to improving the accuracy of the venerable Lee Enfield rifle, whether 'as issued' or a completely modified target rifle. Applicable to all Enfields

of the 20th century, from the No1 and No4, to the jungle carbine and including the Ishopore 7.62. With 220 pages and 365 photos this book looks at the tricks and tips devised by the old masters, many of which have been rarely recorded until now.

The Gun Digest Book of Sig-Sauer Gun Digest Books

"With ammo shortages on

retailer's shelves, unprecedented firearms sales across the country, and burgeoning numbers of new shooters, reloading is growing in leaps and bounds. Handbook of Reloading Basics, written by industry experts Robin Sharpless and Rick Sapp, is aimed squarely at the new handloaders and simplifies both the equipment and the process. Inside this

bench-handy reference you'll find: Step-by-step instructions for reloading metallic cartridges and modern shotshells; Press selection--single-stage, turrets and progressives explained; Component breakdown--primers, cases, hulls, powder, wads and bullets; Dozens of illustrative photos and a comprehensive resource listing"--Page 4 of cover. Gun Digest Books "This book is the complete beginner's guide to long range shooting written in simple every-day language so that it's easy

to follow. Included are personal tips and best advice from my years of special operations sniper schooling and experience, and as a sniper instructor. If you are an experienced shooter, this guide will be a resource covering the principles and theory of long range shooting"-- *The Practical Guide to Long Range Hunting Rifles* Gun Digest All Marines share a common warfighting belief: "Every Marine a rifleman." This simple credo reinforces the belief that all Marines are forged

from a common experience, share a common set of values, and are trained as members of an expeditionary force in readiness. As such, there are no "rear area" Marines, and no one is very far from the fighting during expeditionary operations. The Marine rifleman of the next conflict will be as in past conflicts: among the first to confront the enemy and the last to hang his weapon in the rack after the conflict is won. Rifle Marksmanship, a Marine

Corps Reference Publication, provides techniques and procedures for Marine Corps rifle marksmanship. Every Marine is first and foremost a rifleman. Rifle Marksmanship reflects this ethos and the Marine Corps' warfighting philosophy. This publication discusses the individual skills required for effective rifle marksmanship and standardizes the techniques and procedures used throughout the Marine Corps. It constitutes the

doctrinal basis for all entry-level and sustainment-level rifle marksmanship training.
