 "There is always a place for well-crafted, entertaining and informative essays and Chicago Flashbulbs fills that niche. Dr. Franklin's great enthusiasm and insights make these varied pieces both entertaining and memorable. His attention to detail in observing the human condition and his wry sense of humor will draw the reader in." - Howard Nearman, MD, MBA, Cascorbi Professor/Department Chair, Case Western university "Chicago Flashbulbs is filled with characters you want to read about: from hardworking teachers to a Princess; faded Hollywood legends, inspired physicians, rock stars and sports heroes. There are gripping accounts of the tragedy of wars, disease and man-made disasters as well as essays on the absurdity and humor of everyday life. The virtuous are celebrated while the pompous are

revealed, as they should be." -Cynthia Kelly Conlon, JD, PhD, Adjunct Faculty, Northwestern university, School of education and Social Policy "These essays are custom-crafted for the news and nostalgia junkie which appeared in the op-ed page of the Chicago Tribune and in other publications. They are colorfully recounted stories of the high-born, the low-born and some who wished they had never been born. Readers will find themselves drawn into the subjects' lives." - Lt. Colonel Jim Nicholson, uS Army reserve (ret.), Former investigative reporter, Philadelphia Daily News, Author of Because No One Else

They call it Stormland: a sprawling, largely abandoned region of the southeastern coast of the USA, where climate change's extreme weather conditions have brought about a "perfect

storm” of perpetual tempests; where hurricane-strength storms return day after day, 365 days a year. The heart of Stormland is Charleston, South Carolina, a flooded ruin where hundreds of people remain for their own peculiar reasons; where thugs prey on the weak, and a strangely benevolent cult tries to keep everyone insanely sane. Here, plutocratic evil takes advantage of Stormland’s lawlessness to cultivate a weirdly puppeted theater of cruelty. Swept into the turbulent vortex of Stormland is an unlikely duo—a former serial killer and a former US Marshal—who must work together to bring light to America’s late twenty-first century heart of darkness. A cyberpunk detective thriller set in a maelstrom of climatic upheaval, classism, and corrupt power, Stormland paradoxically dramatizes the resilience of the human spirit.

The repackaged trade paperback of Cory Doctorow's miraculous novel of family history, Internet connectivity, and magical secrets—now with a new cover! Alan is a middle-aged entrepreneur who moves to a bohemian neighborhood of Toronto. Living next door is a young woman who reveals to him that she has wings—which grow back after each attempt to cut them off. Alan understands. He himself has a secret or two. His father is a mountain, his mother is a washing machine, and among his brothers are sets of Russian nesting dolls. Now two of the three dolls are on his doorstep, starving, because their innermost member has vanished. It appears that Davey, another brother who Alan and his siblings killed years ago, may have returned, bent on revenge. Under the circumstances it seems only reasonable for Alan to join a scheme to blanket Toronto with free wireless Internet, spearheaded by a brilliant technopunk who builds miracles from scavenged parts. But Alan's past won't leave him alone—and Davey isn't the only one gunning for him and his friends. Whipsawing between the preposterous, the amazing, and the deeply felt, *Someone Comes to Town, Someone Leaves Town* is unlike any novel you have ever read.

The Pathfinder Diaries Penguin

Car chase in Colombia. Police extortions in Mexico. Tenacious border caddies in Central America. Terrorism in Guatemala. Century swell in the Caribbean. Twenty-six border crossings on expired Californian tags. These were just some of the events Cory Belyea, a gringo, and his trusty Pathfinder encountered on a quest that carved 22,000 miles out of the Americas on the way down to Tierra Del Fuego, Argentina. For what? The waves, the romance, the adventure? The road trip became a testament of how far a surfer would go to honor a fallen friend chasing down the dream. Would it be enough? In *The Pathfinder Diaries*, Belyea shares a wild, life-altering journey. Writing with candor and from the heart, his words uncover the beauty and injustices of the American continent. In his short stories, his love for the ocean, languages, and the people of Latin America shines bright. Praise for *The Pathfinder Diaries* “Hard to put a masterpiece into such little words. An incredible story about adventure, human connection, and friendship.” —Profesora Serocki “An epic journey of discovery and homage. Cory Belyea captures the unique love

affair that all seafarers, surfers, and free-divers have with the ocean. Belyea searches for the perfect wave to honor his friend Mike, taking the reader on adventures spanning thousands of miles of land and sea throughout Latin America.” —Captain Chris **Squat Every Day** Magical Scrivener Press

What would today’s technology look like with Victorian-era design and materials? That’s the world steampunk envisions: a mad-inventor collection of 21st century-inspired contraptions powered by steam and driven by gears. In this book, futurist Brian David Johnson and cultural historian James Carrott explore steampunk, a cultural movement that’s captivated thousands of artists, designers, makers, hackers, and writers throughout the world. Just like today, the late 19th century was an age of rapid technological change, and writers such as Jules Verne and H.G. Wells commented on their time with fantastic stories that jumpstarted science fiction. Through interviews with experts such as William Gibson, Cory Doctorow, Bruce Sterling, James Gleick, and Margaret Atwood, this book looks into steampunk’s vision of old-world craftsmen making beautiful hand-tooled gadgets, and what it says about our age of disposable technology. Steampunk is everywhere—as gadget prototypes at Maker Faire, novels and comic books, paintings and photography, sculptures, fashion design, and music. Discover how this elaborate view of a history that never existed can help us reimagine our future.

From the New York Times bestselling author of *Little Brother*, Cory Doctorow, comes *Pirate Cinema*, a new tale of a brilliant hacker runaway who finds himself standing up to tyranny. Trent McCauley is sixteen, brilliant, and obsessed with one thing: making movies on his computer by reassembling footage from popular films he downloads from the net. In the dystopian near-future Britain where Trent is growing up, this is more illegal than ever; the punishment for being caught three times is that your entire household's access to the internet is cut off for a year, with no appeal. Trent's too clever for that too happen. Except it does, and it nearly destroys his family. Shamed and shattered, Trent runs away to London, where he slowly learns the ways of staying alive on the streets. This brings him in touch with a demimonde of artists and activists who are trying to fight a new bill that will criminalize even more harmless internet creativity, making felons of millions of British citizens at a stroke. Things look bad. Parliament is in power of a few wealthy media conglomerates. But the powers-that-be haven't entirely reckoned with the power of a gripping movie to change people's minds.... In creation of Cook Books for Borscht & Beyond, Book O'Beans, to be followed by Much Muffins, and finally the Novels I started to write, I got side tracked by the wonderful world outside. It brought to mind a time when my young son and I would make up stories about our surroundings for our amusement to pass idle hours away. In this process we were known to give a humanistic life to all manner of things, from vehicles to animals. Upon witnessing the opening event of Casey rescuing Sidney, I was back in time recalling the joy of the story creation, my imagination would add a phase every time I looked out and saw another happening. I decided this would be fun to share with children and their parents and perhaps open their minds to the wonders readily surrounding them. Life is always fascinating if you give it a chance, not always high tech. It is a privilege to have friends that will help you in your times of concern. So the creation of "Got Your Back!" is about caring and sharing, the best things one can do. The characters are fictitious, the lives are very real. Happy Reading, May your minds run free to creation.
