Native American psychologist Ben Pecos has returned to the New Mexico pueblo of his birth as an intern with the Indian Health Service. Still struggling with the demons of his past, he is plunged into the nightmare rampage of a mysterious illness that is killing the residents of the pueblo, including his own grandmother. One of the victims, the powerful tribal governor, had made powerful enemies, and Ben suspects his murder was premeditated—but that doesn't explain the insidious killer now stalking the innocent. Undaunted, Ben digs deep into the motives of power and greed to root out a killer whose deadly agenda is spiraling out of control. Newly edited e-book edition Praise for *The Pumpkin Seed Massacre*: "... a gripping novel." –Tony Hillerman "This is a wonderful book with loveable heroes." –Library Journal "... Ben Pecos—raised far from New Mexico's Tewa Pueblo—could become as lasting a fictional presence as Joe Leaphorn and Jim Chee." –Chicago Tribune "Solid characters, fascinating atmosphere, and authentic setting—*The Pumpkin Seed Massacre* is a book you will enjoy. Ben Pecos is a star in the detective firmament. I predict a big future for Susan Slater." –Barbara D'Amato "Slater's first novel holds the reader's interest with its brisk pace, well-rendered New Mexico landscape and challenging plot ... [T]his promising first novel heralds a series to watch." –Booklist In its revised and updated fourth edition, this exhaustive encyclopedia provides a record of casualties of war from the last five centuries through 2015, with new statistical and analytical information. Figures include casualties from global terrorism, the wars in Iraq and Afghanistan, and the fight against the Islamic State. New entries cover an additional 20 armed conflicts between 1492 and 2007 not included in previous editions. Arranged roughly by century and subdivided by world region, chronological entries include the name and dates of the conflict, precursor events, strategies and details, the outcome and its aftermath. This publication is a collection of 40 oral testimonies about Beyers Naud, but also about the apartheid era in general and about the role that Christianity played in that period. In addition to an abundance of insights on Beyers Naud, by those who knew him best, it offers perspectives on the movements and entities that Naud, associated himself with; for example, the Christian Institute, the South African Council of Churches and the people involved in both. Stories unfold of faith and suffering, as well as betrayal, all against the background of an overtly racist apartheid state and by implication against a capitalist system with class divisions that degraded human beings and denied their human dignity. Commemorating the 200th anniversary of the abolition of the Slave Trade Act, this collection of eleven stories follows the lives of slaves of every kind around the world. Join African Queen Jinga as she unites the tribes of Ndongo against the invading Portuguese. Watch John Blanke as he becomes the first black trumpeter to play for the King Henry VIII. Meet Harriet Tubman as she helps escaped slaves flee along the Underground Railroad to freedom. Moving, exciting and often funny, these true stories span centuries and the globe, feature famous historical figures such as William Wilberforce and Catherine of Aragon and remind us all of the true horrors of slavery in all its forms. A scrupulously researched investigation of the mysterious massacre of Hopi Indians at Awat'ovi, and the event's echo through American history. The Hopi community of Awat'ovi existed peacefully on Arizona's Antelope Mesa for generations until one bleak morning in the fall of 1700—raiders from nearby Hopi villages descended on Awat'ovi, slaughtering their neighboring men, women, and children. While little of the pueblo itself remains, five centuries of history lie beneath the low rises of sandstone masonry, and theories about the events of that night are as persistent as the desert winds. The easternmost town on Antelope Mesa, Awat'ovi was renowned for its martial strength, and had been the gateway to the entire Hopi landscape for centuries. Why did kinsmen target it for destruction? Drawing on oral traditions, archival accounts, and extensive archaeological research, James Brooks unravels the story and its significance. *Mesa of Sorrows* follows the pattern of an archaeological expedition, uncovering layer after layer of evidence and theories. Brooks questions their reliability and shows how interpretations were shaped by academic, religious and tribal politics. Piecing together three centuries of investigation, he offers insight into why some were spared—women, mostly, and taken captive—and others sacrificed. He weighs theories that the attack was in retribution for Awat'ovi having welcomed Franciscan missionaries or for the residents' practice of sorcery, and argues that a perfect storm of internal and external crises revitalized an ancient cycle of ritual bloodshed and purification. A haunting account of a shocking massacre, *Mesa of Sorrows* is a probing exploration of how societies confront painful histories, and why communal violence still plagues us today. Doro is an entity who changes bodies like clothes, killing his hosts by reflex—or design. He fears no one—until he meets Anyanwu. Anyanwu has also died many times. She can absorb bullets and make medicine with a kiss, give birth to tribes, nurture and heal, and savage anyone who threatens those she loves. She fears no one—until she meets Doro. From African jungles to the colonies of America, Doro and Anyanwu weave together a pattern of destiny that not even immortals can imagine. Copyright © Libri GmbH. All rights reserved. It's the dawn of the 22nd century, and the world has fallen apart. Decades of war and resource depletion have toppled governments. The ecosystem has collapsed. A new dust bowl sweeps the American West. The United States has become a nation of migrants -starving masses of nomads who seek out a living in desert wastelands and encampments outside government seed-distribution warehouses. In this new world, there is a new power. Satori is more than just a corporation, she is an intelligent, living city that grew out of the ruins of Denver. Satori bioengineers both the climate-resistant seed that feeds a hungry nation, and her own post-human genetic Designers, Advocates, and Laborers. What remains of the United States government now exists solely to distribute Satori seed; a defeated American military doles out bar-coded, single-use Satori seed to the nation's starving citizens. When one of Satori's Designers goes rogue, Agent Sienna Doss-Ex-Army Ranger turned glorified bodyguard-is tasked by the government to bring her in: The government wants to use the Designer to break Satori's stranglehold on seed production and reassert themselves as the center of power. Sienna Doss's search for the Designer intersects with Brood and his younger brother Pollo -orphans scrapping by on the fringes of the wastelands. Pollo is abducted, because he is believed to suffer from Tet, a newly emergent disease, the victims of which are harvested by Satori. As events spin out of control, Brood and Sienna Doss find themselves at the heart of Satori, where an explosive climax promises to reshape the future of the world. "SEEDS OF ANARCHY is a novel about loss and fighting for change and redemption, set in the modern political battlefield of gun control, extremism and advocacy. SEEDS OF ANARCHY explores the darkness of personal tragedy, the grim struggle of political activism in the face of insurmountable odds, and the personal dangers of engaging with dark institutions in the war over American values. A husband and father, Chris Knight, becomes a "surviving victim." He has, like so many others, lost his love ones, his wife and five year old son, in a random massacre by gun violence. For months he has agonized and grieved alone, struggling with inconceivable pain and sorrow. Unable any longer to witness Chris's depression and despair, his law partner finally intervenes and forces him to take a leave of absence. The change of scenery and physical activity help . . . but a dream, at first bringing joy, then the pain of renewed loss, finally breaks his mental prison of helplessness and uncertainty. Chris returns to his work as an attorney and his life now centers on seeking answers to why no state legislatures or Congress have been able or willing to act effectively to control the presence of guns in America. He also recognizes that the courts have also failed. They have shirked their impartiality, common sense and rationality by interpreting the Second Amendment's right to bear arms by twisting the plain language of that Amendment and ignoring the time and circumstances that existed when adopted by the Founding Fathers. Despite his new motivations, Chris continues to struggle with the pain of his personal loss. Once again, his law partner steps in and convinces him he should seek counseling. At first Chris refuses. Then, reluctantly, he finally agrees. His partner recommends Doctor Kelly Young, a friend with impressive credentials who specializes in dealing with surviving victims of gun violence and their families. The sessions with Doctor Young prove effective, more rapidly than she or Chris anticipated. As a result, Chris sets about to develop his own plans to challenge the gun-government complex that has placed gun ownership above almost all other rights of American society. As he begins his quest, his emotions, long frozen, begin to thaw. His relationship with his therapist changes as he embarks on a mission to lay siege to the fortresses of the gun culture and their minions. When powerful elements in the gun lobby learn of his plans, things quickly get deadly. Beyond the battles of Chris's personal war, a larger storm is brewing fed by the unlimited "right to bear arms" manifesto. While the carnage continues, Chris realizes that modern interpretation of the "right to bear arms" is sowing the seeds of anarchy in America. Chris believes that his efforts to limit the "right to bear arms" to that which was intended by the Founding Fathers may prove necessary to preserve a government of laws and not men. Will his plan succeed? Will his plan survive the gun lords and their toadies? Will he survive?"--from the back cover of the book. She argues that these rural places, geographically and culturally distant from the lives of most people in the industrialized West, are relevant to urgent political and environmental problems facing the developed world. The Book of Revelation (chapter 12) narrates a phenomenon that most readers will find incredible. Given a view of a period of time in Heaven, Apostle John saw and reported: "Then war broke out in Heaven; Michael and his angels went forth to battle with the dragon, and the dragon and his angels fought." He actually saw Archangel Michael and His army of Angels in all out war against a dragon; and the Dragon and his Angels fought back. However, the Dragon and his Angels did not prevail: they were defeated and violently cast out of and down from Heaven: "And the huge dragon was cast down and out that ancient serpent, who is called the Devil and Satan, he who is the seducer (deceiver) of all Humanity the World over; he was forced out and down to the Earth, and his angels were flung out along with him." Further, the Warriors who vanquished this huge dragon called the Devil and Satan: "And they have overcome (conquered) him by means of the blood of the Lamb and by the utterance of their testimony, for they did not love and cling to life even when faced with death [holding their lives cheap till they had to die for their witnessing]." This was a War in which the armaments were the blood of the Lamb and by the utterance of their testimony This was a War of Words! This War would continue on Earth. After the Fall of Man, the War on Earth between the Two Seeds would be a War of the Spirit Beings; fought through Human Beings, and other living things, to the detriment of those who make the wrong choices during the battles to Save the World of Man! How did it begin and how will it end? This is one question every Believer is, literally, dying to know. So did Prophet Daniel (12v8): "And I heard, but I did not understand. Then I said: O my lord, what shall be the issue and final end of these things? The issue and final end of these things become evident as we trawl through Holy Scriptures and the histories of Man, as has been attempted in the 800 pages of this book. A major new biography of Graham Greene with extensive new material; exclusive, never-before-seen photographs of Greene on his travels; and full family cooperation An essential read for fans of literary biography, this book finally and fully illuminates a pivotal episode in Graham Greene's life and career in the kind of detail that will sate any fans of his work, but which also provides a fascinating glimpse into a writer's life. In 1965, Greene joined journalist Bernard Diederich in the Dominican Republic to embark on a tour of its border with Haiti, then ruled by "Papa Doc" Duvalier. They were accompanied by activist priest Jean-Claude Bajoux. Diederich had known Greene since the mid-1950s and had lived in Haiti for 14 years. He was a seasoned correspondent for the British and North American press and had reported many stories from the region, including Castro's triumph in

Cuba and the death of the Dominican dictator, Trujillo. In 1963, he had been thrown out of Haiti and when Greene arrived was working from the Dominican Republic. The famous novelist was 61 and depressed, having struggled to finish *A Burnt-Out Case*, and was being plagued by religious doubt; Bajeux, meanwhile, had been informed that his family had been "disappeared" by Duvalier's henchmen. As this trio traveled along the border they met a number of rebels and other characters later fictionalized in Greene's most politically charged novel, *The Comedians*, published the following year. This book tells the story of how a series of extraordinary and often hair-raising journeys gave one of the greatest novelists of the 20th century new inspiration in his writing. J.P. Dunn wrote *Massacres of the Mountains* in an attempt to separate historical fact from sensational fiction and to verify the problems that plagued the Indian tribes in this country for years. He doesn't assign blame, but lets it fall where it belongs by meticulous research and the accurate, unbiased depiction of the true causes and subsequent results of some of the most famous Indian conflicts. This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are "Albion's Seed," no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations. Victor Faust's new Order is growing. Business is good as there is no rest for the wicked in an underground world of hardcore criminals and contract killing. Relationships among the operatives have changed little over the past year--but things are about to change now, and all six high-ranking members of the new Order will be blindsided by an unlikely enemy. Loved ones whose only ties to Victor's organization are their relationships with its members, are abducted. The price to get them back safely--the six must confess their deepest, darkest secret to this mysterious young woman named Nora, who is as deadly as she is beautiful, and who seems to know more about each of them than they know about each other. And although no one has any clue about who Nora really is, it becomes clear that she also isn't who she appears to be. So much more is at stake than secrets and the lives of innocent loved ones; with each member that Nora forces to confess, the truth about their dark pasts and their present objectives will cast suspicion, pit some against each other, and may tear others apart. Before the game is over everyone will know who this woman is and why she is here, but the damage she will leave in her wake could be the beginning of the new Order's destruction. Whose dark secret will be the darkest of all? And can Victor's Order survive any of them? This novel describes the lives of Chinese peasants in a village outside Nanjing, China just prior to and during the 1937 Japanese invasion. Some characters seek protection in the city while others become collaborators. This story focuses on the characters' reactions to the events in Nanking. The Nanking Massacre (commonly called the Rape of Nanking) involved months of horrific violence by the Imperial Japanese Army as they conquered the city. The author opines that Japanese troops passing through China feel no responsibility for their conduct as they won't be present to be confronted after the violence is over. The major portion of the book consists of detailed accounts of agricultural species, vegetation, amphibians, reptiles, mammals, birds, and insects. "This is an extraordinary, virtually unique work. . . . The tremendous amount of original, previously unpublished, firsthand information is remarkable."—Peter H. Raven, Director, Missouri Botanical Garden "An essential resource for anyone interested in tropical biology. . . . It can be used both as an encyclopedia—a source of facts on specific organisms—and as a source of ideas and generalizations about tropical ecology."—Alan P. Smith, *Ecology* An American scientist conducts experiments fusing plant DNA with human memory cells. He tries to sell the Chinese a bogus formula and is kidnapped. Mutant man-fl owers terrorize his family. Chinese operatives break in to find the real formula. The plants attack, trying to save the notes on the experiment. A fire breaks out during the skirmish, and only the chosen flower survives to fuse with its creator. Explores how a pivotal event in U.S. history—the killing of nearly 300 Shoshoni men, women, and children in 1863—has been contested, forgotten, and remembered. My reason for writing this book is to share my experiences with the hope that someone reading it will appreciate the fact that one can change for the better. Our young men and women are facing insurmountable odds of surviving in our communities. I read a report from the Centers for Disease Control, which states the US saw the highest rate of gun-related deaths in more than twenty-five years. Firearm murders increased most among youth and young adults--40 percent for those ten to twenty-four. The increases were also highest for people of color. Rates of homicide involving Black males ages ten to twenty-four years were already twenty-one times as high as white males of the same age. Crime as a whole is on the increase. Long-standing systemic inequities and structural racism limit economic and education opportunities. They contribute to unfair and avoidable health disparities among some racial and ethnic groups. So I'm sending out the SOS (Save Our Seeds). A husband and father, Chris Knight, becomes a "surviving victim." He has, like so many others, lost his loved ones, his wife and five-year-old son, in a random massacre by gun violence. For months, he has agonized and grieved. Unable any longer to witness Knight's depression and despair, his law partner finally intervenes and forces him to take a leave of absence. The change of scenery and physical activity help. But a dream, at first bringing joy, then the pain of renewed loss, breaks the mental prison of helplessness and uncertainty. Chris returns driven to seek answers for why no state legislatures or Congress have been able or willing to act effectively to control the presence of guns in America. As a result, Chris sets about to develop his own plans to challenge the gun-government complex that has placed gun ownership above all other rights of society. When elements in the gun lobby learn of his plans, things quickly get deadly. This novel became a play and a movie. It is the story of Rhoda Penmark, eight years old, and her mother (Christine). The young girl on the surface seems to be a perfect child, but is an evil and emotionless murderess. This book is credited with starting the genre books and films about evil or psychopathic children.
