The definitive monograph on Swedish modernist architect Sigurd Lewerentz. Sigurd Lewerentz (1885-1975) is one of the most highly revered--as well as one of the most heavily mythologized--protagonists of modern European architecture. Arguably Sweden's most distinguished modernist, he is more influential

for architects around the world today than he was during his lifetime. Countless architecture lovers from around the world visit his buildings. Stockholm's woodland cemetery Skogskyrkogården, his most significant contribution to landscape design, is a UNESCO World Heritage Site. This authoritative new monograph on Sigurd Lewerentz is based on extensive research undertaken at ArkDes, Sweden's national center for architecture and design, where his archive and personal library are kept. It features a wealth of drawings and sketches, designs for furniture and interiors, model photographs, and more from his estate, most of which are published here for the first time, alongside new photographs of his realized buildings. Essays by leading experts explore Lewerentz's life and work, his legacy, and lasting significance from a contemporary perspective. This substantial, beautifully designed book offers the most comprehensive survey to date of Lewerentz's achievements in all fields of his multifaceted work. Award-Winner in the "Children's Picture Book: Softcover Fiction" category of the 2015 International Book Awards

Green Street Park contains colorful pictures and an engaging story that helps children understand important lessons of how to work for justice and peace and to help those in need. This is a story about Philip who loves his neighborhood. However an area of the Green Street Park is in need of improvement. Philip learns about how St Francis of Assisi loved God's world and cared for it. His

teacher, Sr. Mary Clare, challenges Philip to act as St Francis would. As you listen to the story, think about how you would feel and what you might do if you were Philip. Blackline Masters for Green Street Park include lessons for grades K, 1, and 2. Paul Auster's Sunset Park is set in the sprawling flatlands of Florida, where twenty-eight-year-old Miles is photographing the last lingering traces of families who have abandoned their houses due to debt or foreclosure. Miles is haunted by guilt for having inadvertently caused the death of his step-brother, a situation that caused him to flee his father and step-mother in New York seven years ago. What keeps him in Florida is his relationship with a teenage high-school girl, Pilar, but when her family threatens to expose their relationship, Miles decides to protect Pilar by going back to Brooklyn, where he settles in a squat to prepare himself to face the inevitable confrontation with his father - a confrontation he has been avoiding for years. Set against the backdrop of the devastating global recession, and pulsing with the energy of Auster's previous novel Invisible, Sunset Park is as mythic as it is contemporary, as in love with baseball as it is with literature. It is above all, a story about love and forgiveness - not only among men and women, but also between fathers and sons. "Aubrey Van Houten is a 15-year-old misfit who spends his time reading and dreaming about the good old days above. Believing the planet uninhabitable after a global nuclear

war, Aubrey's people live deep underground, begrudgingly working assigned jobs until they can retire at 35 to a virtual reality paradise. Through a series of curious accidents, Aubrey stumbles onto the surface and discovers a real paradise off limits: a pristine planet where humans are hunted and killed by a mysterious Park Service. Now, Aubrey must decide between his only friend, his true love, and his imprisoned people, as he struggles to find the courage to stand up to evil, no matter how pretty its face" -- Amazon.com. "HARROWING THRILLS . . . FAST-PACED AND ENGAGING." --People It is now six years since the secret disaster at Jurassic Park, six years since the extraordinary dream of science and imagination came to a crashing end--the dinosaurs destroyed, the park dismantled, the island indefinitely closed to the public. There are rumors that something has survived. . . . "ACTION-PACKED." --New York Daily News "FAST AND GRIPPING." --The Washington Post Book World "A VERY SCARY READ." --Entertainment Weekly "AN EDGE-OF-THE-SEAT TALE." --St. Petersburg Times Stan Allen is an architect and educator who has won global acclaim, primarily for his work in town planning and his influential 1996 essay "Field Conditions." His new book Situated Objects shows a unique facet of his creative process: a selection of small buildings and projects on rural sites, most of them situated within the landscape of the Hudson Valley, New York. They demonstrate an approach to architecture that

engages in a dialogue with this partly wild and wholly non-urban environment that lies just outside the gates of New York City. The projects are presented in drawings and a rich array of images by celebrated photographer Scott Benedict. They are arranged in three thematic categories: Outbuildings, Material Histories, and New Natures, supplemented by the architect's writings and essays contributed by Helen Thomas and Jesús Vassallo. The first book on Stan Allen's buildings, *Situated Objects* highlights Allen's personal engagement with American material traditions, the conventions of architectural drawing, and the challenge of building with nature. "Citizen Kane does Adventureland." —The Washington Post The outlandish, hilarious, terrifying, and almost impossible-to-believe story of the legendary, dangerous amusement park where millions were entertained and almost as many bruises were sustained, told through the eyes of the founder's son. Often called "Accident Park," "Class Action Park," or "Traction Park," Action Park was an American icon. Entertaining more than a million people a year in the 1980s, the New Jersey-based amusement playland placed no limits on danger or fun, a monument to the anything-goes spirit of the era that left guests in control of their own adventures--sometimes with tragic results. Though it closed its doors in 1996 after nearly twenty years, it has remained a subject of constant fascination ever since, an establishment completely anathema to

our modern culture of rules and safety. Action Park is the first-ever unvarnished look at the history of this DIY Disneyland, as seen through the eyes of Andy Mulvihill, the son of the park's idiosyncratic founder, Gene Mulvihill. From his early days testing precarious rides to working his way up to chief lifeguard of the infamous Wave Pool to later helping run the whole park, Andy's story is equal parts hilarious and moving, chronicling the life and death of a uniquely American attraction, a wet and wild 1980s adolescence, and a son's struggle to understand his father's quixotic quest to become the Walt Disney of New Jersey. Packing in all of the excitement of a day at Action Park, this is destined to be one of the most unforgettable memoirs of the year. A somewhat autobiographical novel about the life of the author, with some things true, other things exaggerated and other things completely fictitious. A trip to the park features many different sensations, including the feel of a smooth rubber ball, cold metal chain links on the swing set, and a grooved rubber on the tire swing. "A son learns more about his father than he ever could have imagined when a mysterious piece of art is unexpectedly restored to him"--Amazon.com. A breakthrough in genetic engineering leads to the development of a technique for recovering and cloning dinosaur DNA, a method that brings about the creation of Jurassic Park, a tourist attraction populated by creatures extinct for eons. Reissue. From its

origins in the Midwest in the early nineteenth century, the technique of light timber framing-also known at the time as "Chicago construction"-quickly came to underwrite the territorial and ideological expansion of the United States. Softwood construction was inherently practical, as its materials were readily available and required little skill to assemble. The result was a built environment that erased typological and class distinctions: no amount of money can buy you a better 2 x 4. This fundamental sameness paradoxically underlies the American culture of individuality, unifying all superficial differences. It has been both a cause and effect of the country's high regard for novelty, in contrast with the stability that is often assumed to be essential to architecture. American Framing is a visual and textual exploration of the social, environmental, and architectural conditions and consequences of this ubiquitous form of construction. For architecture, it offers a story of an American project that is bored with tradition, eager to choose economy over technical skill, and accepting of a relaxed idea of craft in the pursuit of something useful and new-the forming of an architecture that enables architecture. After Hurricane Sandy, Nick Fowler, a writer, stranded alone in a Manhattan apartment without power, begins to contemplate disaster. Months later, at an artist residency in upstate New York, Nick finds his subject in disaster itself

and the communities shaped by it, where crisis animates both hope and denial, unacknowledged pasts and potential futures. As he travels to Los Angeles and London on assignment, Nick discovers that outsiders - their lives and histories disturbed by sex, loss, and bad weather - are often better understood by what they have hidden from the world than what they have revealed. A witty, darkly comic debut novel chronicles the lives and fortunes of a tightly knit--if idiosyncratic--cast of office workers as they confront boredom, paranoia, lunch breaks, and corporate complexities while their New York City based company begins to unravel. Original. 25,000 first printing. "Downton Abbey" meets The Selection in this dystopian tale of love and betrayal Sixteen-year-old Madeline Landry is practically Gentry royalty. Her ancestor developed the nuclear energy that has replaced electricity, and her parents exemplify the glamour of the upper class. As for Madeline, she would much rather read a book than attend yet another debutante ball. But when she learns about the devastating impact the Gentry lifestyle--her lifestyle--is having on those less fortunate, her whole world is turned upside down. As Madeline begins to question everything she has been told, she finds herself increasingly drawn to handsome, beguiling David Dana, who seems to be hiding secrets of his own. Soon, rumors of war and rebellion start to spread, and Madeline finds herself at the center of it all. Ultimately, she

must make a choice between duty—her family and the estate she loves dearly—and desire. Fans of Ally Condie, Kiera Cass, Veronica Roth, and even Jane Austen will be enthralled by this breathtaking read. In this animal adventure from Newbery Medal-winning author Cynthia Rylant, Stumpy Squirrel has just settled into a new nest in a magnificent pin oak in Gooseberry Park. It's the perfect spot for her babies to be born. When they arrive healthy and strong, Stumpy's three good friends—a Labrador retriever, a wise hermit crab, and a bat who eats Chinese food—are thrilled. But after a terrible ice storm destroys the pin oak, Stumpy disappears. It takes a special combination of courage, humor, and tenacity for Stumpy's friends to rescue her babies and bring her home again. Arthur Howard's black-and-white illustrations illuminate the companions' adventures throughout." Photographs depict different kinds of parks, including a playground, an amusement park, a national park, and a baseball park. In the quiet suburb of Harting Farms, the weekly crime blotter usually consists of graffiti or the occasional bout of mailbox baseball. But in the fall of 1993, children begin vanishing and one is found dead. Newspapers call him the Piper because he has come to take the children away. But there are darker names for him, too . . . Vowing to stop the Piper's reign of terror, five boys take up the search. Their teenage pledge turns into a journey of self-discovery . . . and a journey into the

darkness of their own hometown. On the twilit streets of Harting Farms, everyone is a suspect. And any of the boys might be the Piper's next victim. When the Sudanese civil war reaches his village in 1985, 11-year-old Salva becomes separated from his family and must walk with other Dinka tribe members through southern Sudan, Ethiopia and Kenya in search of safe haven. Based on the life of Salva Dut, who, after emigrating to America in 1996, began a project to dig water wells in Sudan. By a Newbery Medal-winning author. Jane Re is a Korean-American orphan and Queens is her home. Jane toils in her Uncle's grocery store, desperate for an escape. When she lands a job as an au pair for the Mazer-Farleys - Brooklyn English professors with an adopted Chinese daughter - Jane is thrilled. Introduced into a whole new life that's worlds apart from the traditional Korean community she knows, she finds herself surrounded by organic food co-ops and 19th-Century novels. An original, contemporary recasting of Jane Eyre, Re Jane is a funny, moving novel about being true to yourself. Snow had fallen in the night, and now the great house, standing at the head of the valley, seemed like a five-hundred-year old ship sailing in a white ocean... For the Cavendish family, Rutherford Park is much more than a place to call home. It is a way of life marked by rigid rules and lavish rewards, governed by unspoken desires... Lady of the house Octavia Cavendish lives like a bird in a gilded cage. With her family's fortune, her

husband, William, has made significant additions to the estate, but he too feels bound—by the obligations of his title as well as his vows. Their son, Harry, is expected to follow in his footsteps, but the boy has dreams of his own, like pursuing the new adventure of aerial flight. Meanwhile, below stairs, a housemaid named Emily holds a secret that could undo the Cavendish name. On Christmas Eve 1913, Octavia catches a glimpse of her husband in an intimate moment with his beautiful and scandalous distant cousin. She then spies the housemaid Emily out in the snow, walking toward the river, about to make her own secret known to the world. As the clouds of war gather on the horizon, an epic tale of longing and betrayal is about to unfold at Rutherford Park... Welcome to Wonderland! When it comes to imagination, June Bailey has more than enough of it to go around! In fact, she's created an entire amusement park called Wonderland with her mom. But one day, June doesn't feel like building anymore...until she stumbles across the real Wonderland, which has somehow come to life! Now June's amusement park needs her help. Can she reignite her imagination and save the park of her dreams? Based on the whimsical, animated film Wonder Park, this junior novel includes an 8-page full-color insert and tells the story of June Bailey and her animal friends as they work together to save her park from forces that threaten to destroy it. monograph on Carlo Mollino as an architect. Demonstrates Mollino's prowess in architectural design. Based on extensive new research and drawing on rich archival material. Lavishly illustrated with previously unpublished images, plans, drawings, and documents. Today, Italian architect and designer Carlo Mollino (1905-73) is known chiefly for his furniture designs. He is famous also for his erotic polaroid photography of the 1960s, which has been subject of many exhibitions and has lost nothing of its great appeal to the fashion world today. Much less attention has so far been given to Mollino's architecture, and a comprehensive critical study of his work in this field has been lacking. Yet his built work, although relatively small, constitutes a seminal contribution to modernism that is uniquely marked by a strong relationship with Surrealism. Based on years of research and drawing on rich archival material as well as on Mollino's own writings, this new book is the overdue tribute to an extraordinary personality in 20th-century architecture. It features an exemplary selection of his key designs, both built and unrealised, lavishly illustrated with images and reproductions of previously unpublished plans, drawings, and documents. Rounded out with scholarly essays by expert authors, this is a long-awaited addition to the library of architecture lovers, professionals, and scholars. Architecture and Micropolitics deconstructs two widespread prejudices: that

architects nowadays are no longer important for the overall construction process, and that design is a linear process with a fully formed architectonic vision from the outset. Farshid Moussavi, a renowned architect and professor at the Harvard Graduate School of Design, shows how the specific character of contemporary architecture involves enriching the pragmatic aspect of creating architecture with random elements and subjective factors, which can change our circumstances and the architecture that surrounds us. Thus, the micropolitics of our everyday lives becomes the basis for our built architecture. Moussavi illustrates this process with the help of four of her buildings from the last decade. They are presented through hundreds of photos, drawings, and sketches, and discussed in an essay, where Moussavi develops her thesis. New photos of the four buildings have been taken by the celebrated British photographer Stephen Gill, whose creative work combines documentary, experimental, and conceptual approaches. Also featuring a preface by French philosopher Jacques Rancière, *Architecture and Micropolitics* is an astonishing book for all those who are interested in the interaction between architecture and society. From the author of the acclaimed and best-selling *The Gates of the Alamo*, a novel of extraordinary power about what it's like, and what it means, to journey into space as one of today's astronauts. At the novel's center: Lucy Kincheloe, an astronaut married to an astronaut,

the loving mother of two young children, with a fierce ambition to excel in the space program. Her husband, Brian, a rigorous man whose dreams of glory have been blighted by two star-crossed missions. Walt Womack, the steady, unflappable leader of the training team that prepares Lucy for her first shuttle flight. Lucy has devoted years of intense and focused effort to win her place on a mission, but as her lifelong dream of flying in space comes true, her familiar world appears to be falling apart around her. Her marriage is deteriorating. Her son's asthma is growing more serious. Her relationship with Walt Womack is becoming dangerously intimate. And when at last she is in space, 240 miles above the earth, and an accident renders the world she left behind appallingly distant—perhaps unreachable—her spirit is tested in gripping and unexpected ways. In *The Gates of the Alamo*, Stephen Harrigan's narrative authority brought a vanished nineteenth-century Texas to vibrant life. In *Challenger Park*, he does the same with the world of space flight, bringing us up close to the lives—the risks, the friendships, the rituals, the training—of the astronauts and the people who work with them. Harrigan has written an exciting—indeed a thrilling—novel about the contrary pulls of home and adventure, reality and dreams, and the unimaginable experience, the joys and terrors and revelations, of space flight itself. In this exceptional book on the London based studio 6a architects, architecture critic

Irenee Scalbert looks at the role of narrative, history, appropriation and craft in the work of Tom Emerson and Stephanie Macdonald. The book traces an architectural approach avoiding style, signature, theory and even concept in favour of metis, an ancient form of intelligence combining 'flair, wisdom, forethought, subtlety of mind, deception, resourcefulness, vigilance, opportunism, varied skills, and experience.' Structured around notions of situation, intervention, making, comedy, bricolage, chance and anthropology, the text is mirrored in a visual essay of archive photographs, artworks, film stills and recent projects by the practice. "Indeed the perfect escape from, well, pretty much everything."—SARAH HENNING, author of *Throw Like a Girl* and the *Sea Witch* duology

Approximately Two Chicago newspapermen grapple with race and the past in this contemporary terrorist thriller by the Pulitzer Prize-winning author of *Freeman*. Disillusioned Chicago columnist Malcolm Toussaint, fueled by yet another report of unarmed Black men killed by police, hacks into his newspaper's server to post an incendiary column that had been rejected by his editors. Toussaint then disappears, and his longtime editor, Bob Carson, is summarily fired

within hours of the column's publication. While a furious Carson tries to find Toussaint—while dealing with the reappearance of a lost love from his days as a '60s activist—Toussaint is abducted by two white supremacists plotting to bomb Barack Obama's planned rally in Grant Park. Toussaint and Carson are forced to reckon with the choices they made as young men, when both their lives were changed profoundly by their work in the civil rights movement . . . Grant Park is a page-turning and provocative look at black and white relations in contemporary America, blending the absurd and the poignant in a powerfully well-crafted narrative that showcases Pitts's gift for telling emotionally wrenching stories. Praise for Grant Park "A taut thriller that weaves together a stark look at America's tortured racial past with a fast-paced tale of terrorist conspiracy and love rekindled." —Neil Steinberg, Chicago Sun Times "A page-turner, but also one that commands deep reflection on history, racism, and personal choices." —Blanca Torres, The Seattle Times "Layered, insightful, and passionate. Pitts's subtly explosive language grips readers with the delicate subject matter and earnestly implores them to understand that "[race] has always meant something and it always will." The scars will remain, but stunningly powerful examinations like Grant Park can be the salve that helps heal open wounds." —Shelf-Awareness, starred review Sharing a family life in the 1930s near the legendary Palisades Amusement Park, a family of dreamers

NATIONAL BESTSELLER • From the New York Times bestselling author of *American Psycho* and *Less Than Zero* comes a chilling tale that combines reality, memoir, and fantasy to create a fascinating portrait of this most controversial writer but also a deeply moving novel about love and loss, parents and children, and ultimately forgiveness. "John Cheever writes *The Shining*." –Stephen King, *Entertainment Weekly* Bret Ellis, the narrator of *Lunar Park*, is the bestselling writer whose first novel *Less Than Zero* catapulted him to international stardom while he was still in college. In the years that followed he found himself adrift in a world of wealth, drugs, and fame, as well as dealing with the unexpected death of his abusive father. After a decade of decadence a chance for salvation arrives; the chance to reconnect with an actress he was once involved with, and their son. But almost immediately his new life is threatened by a freak sequence of events and a bizarre series of murders that all seem to connect to Ellis's past. His attempts to save his new world from his own demons makes *Lunar Park* Ellis's most suspenseful novel. Look for Bret Easton Ellis's new novel, *The Shards*! "Fifty-Nine Parks collaborated with

some of the world's foremost contemporary artists and designers to create original posters that celebrate the unique beauty of the U.S. National Park system. Arlington Park, a modern-day English suburb, is a place devoted to the profitable ordinariness of life. Amidst its leafy avenues and comfortable houses, its residents live out the dubious accomplishments of civilisation: material prosperity, personal

freedom, and moral indifference. For all that, Arlington Park is strikingly conventional. Men work, women look after children, and people generally do what's expected of them. Theirs is a world awash with contentment but empty of belief, and riven with strange anxieties. Set over the course of a single rainy day, the novel moves from one household to another, and through the passing hours conducts a deep examination of its characters' lives: of Juliet, enraged at the victory of men over women in family life; of Amanda, warding off thoughts of death with obsessive housework; of Solly, who confronts her own buried femininity in the person of her Italian lodger; of Maisie, despairing at the inevitability with which beauty is destroyed; and of Christine, whose troubled, hilarious spirit presides over Arlington Park and the way of life it represents. Rachel Cusk's sixth novel is her best yet. Full of compassion and wit, each page laden with truth, she writes about her characters' domestic lives, their private thoughts and fears with an intelligence and insight that will leave readers reeling.

CONTEMPORARY REIMAGINING OF GREAT EXPECTATIONS FOR MIDDLE GRADERS

Life is full of great expectations for Korean American Pippa Park. It seems like everyone, from her family to the other kids at school, has a plan for how her life should look. So when Pippa gets a mysterious basketball scholarship to Lakeview Private, she jumps at the chance to reinvent herself by

following the "Rules of Cool." At Lakeview, Pippa juggles old and new friends, an unrequited crush, and the pressure to perform academically and athletically while keeping her past and her family's laundromat a secret from her elite new classmates. But when Pippa begins to receive a string of hateful, anonymous messages via social media, her carefully built persona is threatened. As things begin to spiral out of control, Pippa discovers the real reason she was admitted to Lakeview and wonders if she can keep her old and new lives separate, or if she should even try. All the greatest ideas to realize, or mysteries to be solved, are seeds born in the human mind. The wish to understand them is the gardener in each of us, but the only true path to their growth and successful harvest, is to start with a fertile soil. Most of us have choices in life, and those who don't are the ones who need our help. Amber was a beautiful soul trapped in a young woman, abused as a child. She was riddled with anxiety, often depressed and she had no idea that life could be anything other than one filled with sadness. Then she met Sami. Only a special person can see the flower that grows from the ashes. Sami was that person, but his love was too much, too late. Or was it? In the littlest park in a tiny corner of Staten Island, New York, realities will collide. Unintended consequences from events will alter lives. One to uncover a secret, another to confess, and the last to save a love. Allegra Goodman has delighted readers

with her critically acclaimed collections *Total Immersion* and *The Family Markowitz*, and her celebrated first novel, *Kaaterskill Falls*, which was a national bestseller and a National Book Award finalist. Abandoned by her folk-dancing partner, Gary, in a Honolulu hotel room, Sharon realizes she could return to Boston—and her estranged family—or listen to that little voice inside herself. The voice that asks: “How come Gary got to pursue his causes, while all I got to pursue was him?” Thus, with an open heart, a soul on fire, and her meager possessions (a guitar, two Indian gauze skirts, a macramé bikini, and her grandfather’s silver watch) Sharon begins her own spiritual quest. Ever the optimist, she is sure at each stage that she has struck it rich “spiritually speaking”—until she comes up empty. Then, in a karmic convergence of events, Sharon starts on the path home to Judaism. Still, even as she embraces her tradition, Sharon’s irrepressible self tugs at her sleeve. Especially when she meets Mikhail, falls truly in love at last, and discovers what even she could not imagine—her destiny. The “gripping, romantic, and dazzlingly original” (*Cosmopolitan*) Arkady Renko book that started it all: the #1 bestseller *Gorky Park*, an espionage classic that begins the series, by Martin Cruz Smith, “the master of the international thriller” (*The New York Times*). It begins with a triple murder in a Moscow amusement center: three corpses found frozen in the snow, faces and fingers missing. Chief homicide

investigator Arkady Renko is brilliant, sensitive, honest, and cynical about everything except his profession. To identify the victims and uncover the truth, he must battle the KGB, FBI, and the New York City police as he pursues a rich, ruthless, and well-connected American fur dealer. Meanwhile, Renko is falling in love with a beautiful, headstrong dissident for whom he may risk everything. "Brilliant...there are enough enigmas within enigmas within enigmas to reel the mind" (The New Yorker) in this wonderfully textured, vivid look behind the Iron Curtain. "Once one gets going, one doesn't want to stop...The action is gritty, the plot complicated, and the overriding quality is intelligence" (The Washington Post). The first in a classic series, Gorky Park "reminds you just how satisfying a smoothly turned thriller can be" (The New York Times Book Review).
