**This book analyzes popular cinematic representations of normative masculinity, exploring the idea that its positioning as the 'ordinary' identity is a source of not only ideological and political strength but also considerable anxiety. Rehling offers lucid accounts of contemporary theoretical debates on masculinity, whiteness, gender, race, and sexuality in popular cinema, and detailed readings of films as diverse as Fight Club, Boys Don't Cry, and The Matrix. In You Tarzan, the editors set out to broaden the enquiry into masculinity, taking popular cinema as their starting point. A number of male film scholars have been invited to turn the spotlight back on themselves; to name the un-named feelings raised by films, stars or genres as well as importing some of the insights of feminist writing on gender to an analysis of the construction and reading of masculinity in films. A revealing look at the making of Martin Scorsese's iconic mob movie and its enduring legacy, featuring interviews with its legendary cast. When Goodfellas first hit the theatres in 1990, a classic was born. Few could anticipate the unparalleled influence it would have on pop culture, one that would inspire future filmmakers and redefine the gangster picture as we know it today. From the rush of grotesque violence in the opening scene to the iconic hilarity of Joe Pesci's endlessly quoted "Funny how?" shtick, it's little wonder the film is widely regarded as a mainstay in contemporary cinema. In the first ever behind-the-scenes story of Goodfellas, film critic Glenn Kenny chronicles the making and afterlife of the film that introduced the real modern gangster. Featuring interviews with the film's major players, including Martin Scorsese and Robert De Niro, Made Men shines a light on the lives and stories wrapped up in the Goodfellas universe, and why its enduring legacy has such a hold on American culture. A Library Journal Best Book of the Year A Sight and Sound Best Film Book of 2020 Few movie genres have highlighted the male body more effectively than the "sword-and-sandal" film, where the rippling torso and the bulging muscle are displayed for all to appreciate. Carrying his phallic sword and dressed in traditional garb calculated to bring attention to his magnificent physique, the sword-and-sandal hero is capable of toppling great nations, rescuing heroines, defeating monsters, and generally saving the day. Each of these essays examines the issues of masculinity and**

utility addressed in the sword-and-sandal genre. The contributors offer insights on a film form which showcases its male protagonists as heroic, violent, fleshy, and, in the end, extremely useful. Over 50,000 sold—the only illustrated companion book to the extraordinary film. Includes excerpts from Stephen Ambrose's books, screenplay extracts, and commentary by Steven Spielberg, Tom Hanks, Matt Damon, Janusz Kaminski and others. 100 illustrations, 130 color plates. The Frau used to direct beautiful films for a fascist government. Now she's trying to make a film that's simply beautiful. The Frau casts herself in the lead role of the Amazon queen Penthesilea, who falls in love with Achilles on the battlefield of the Trojan War. She recruits a man from the Jewish ghetto to play her Achilles. Her own sister, a long-suffering extra, plays all the nameless Amazons killed in the background. With chariot crashes and adoring close-ups, it all has the makings of a glamorous war. But when telegrams start to arrive from the Minister of Propaganda, it becomes impossible for the Frau to ignore the real war outside her sound stage. A darkly comedic look at the role of artists during wartime, *Amazons and Their Men* is inspired by the life and work of Leni Riefenstahl. This lavishly illustrated filmbook boasts more than 360 illustrations, including striking movie stills and unique set designs, concept drawings, costume sketches, and storyboards, appearing exclusively in this edition. Beginning with an introduction by director Brett Ratner, text includes commentary about the production of the movie, along with an original history of the X-Men by Peter Sanderson, the comics historian and author of *X-Men: The Ultimate Guide*, illustrated with archival Marvel comic-book art. In *X-Men: The Last Stand*, a "cure" for mutancy threatens to alter the course of history. For the first time, mutants have a choice: retain their uniqueness, though it isolates and alienates them, or give up their powers and become human. The opposing viewpoints of mutant leaders Charles Xavier (Patrick Stewart), who preaches tolerance, and Magneto (Ian McKellen), who believes in the survival of the fittest, are put to the ultimate test -- triggering the war to end all wars. The old cast returns, including Hugh Jackman as Wolverine and Halle Berry as Storm, along with newcomers Kelsey Grammer as Beast, Vinnie Jones as Juggernaut, and Ben Foster as Angel. #1 NEW YORK TIMES BEST SELLER • From the award-winning, best-selling author of the classic *A Little Life*—a bold, brilliant novel spanning three centuries and three different versions of the American experiment, about lovers, family, loss and the elusive promise of utopia. A BEST BOOK OF THE YEAR: VOGUE • ESQUIRE • NPR • GOODREADS *To Paradise* is a fin de siècle novel of marvelous literary effect, but above all it is a work of emotional genius. The great power of this remarkable novel is driven by Yanagihara's understanding of the aching desire to protect those we love—partners, lovers, children, friends, family, and even our fellow citizens—and the pain that ensues when we cannot. In an alternate version of 1893 America, New York is part of the Free States, where people may live and love whomever they please (or so it seems). The fragile young scion of a distinguished family resists betrothal to a worthy suitor, drawn to a charming music teacher of no means. In a 1993 Manhattan besieged by the AIDS epidemic, a young Hawaiian man lives with his much older, wealthier partner, hiding his troubled childhood and the fate of his father. And in 2093, in a world riven by plagues and governed by totalitarian rule, a powerful scientist's damaged granddaughter tries to navigate life without him—and solve the mystery of her husband's disappearances. These three sections comprise an ingenious symphony, as recurring notes and themes

deepen and enrich one another: A townhouse in Washington Square Park in Greenwich Village; illness, and treatments that come at a terrible cost; wealth and squalor; the weak and the strong; race; the definition of family, and of nationhood; the dangerous righteousness of the powerful, and of revolutionaries; the longing to find a place in an earthly paradise, and the gradual realization that it can't exist. What unites not just the characters, but these Americas, are their reckonings with the qualities that make us human: Fear. Love. Shame. Need. Loneliness. The silent film era was the golden era of film - it showed the medium at its most distilled form, without color or diegetic sound, and focused on the performance of the actors. Take a trip down memory lane with this encyclopedia of noteworthy men from the silent film era, compiled by author James H. Elias. *On Brokeback Mountain* provides accessible, close, and comparative readings of the story and the film, discussing them in relation to the social history of sexual minority men in America. By analyzing the literary and artistic traditions of the homoerotic pastoral, the popular tradition of the Western, and the tradition of the tragic romantic love story, the book explores the American cultural construction of masculinity, friendship, and sexual relationships between men, and the sources and effects of homophobia. The year is 2021. No child has been born for twenty-five years. The human race faces extinction. Under the despotic rule of Xan Lyppiat, the Warden of England, the old are despairing and the young cruel. Theo Faren, a cousin of the Warden, lives a solitary life in this ominous atmosphere. That is, until a chance encounter with a young woman leads him into contact with a group of dissenters. Suddenly his life is changed irrevocably as he faces agonising choices which could affect the future of mankind. NOW A MAJOR MOTION PICTURE Now a major film, starring George Clooney, Ewan McGregor, and Jeff Bridges, this New York Times bestseller is a disturbing and often hilarious look at the U.S. military's long flirtation with the paranormal—and the psy-op soldiers that are still fighting the battle. *Bizarre military history: In 1979, a crack commando unit was established by the most gifted minds within the U.S. Army. Defying all known laws of physics and accepted military practice, they believed that a soldier could adopt the cloak of invisibility, pass cleanly through walls, and—perhaps most chillingly—kill goats just by staring at them. They were the First Earth Battalion, entrusted with defending America from all known adversaries. And they really weren't joking. What's more, they're back—and they're fighting the War on Terror. An uproarious exploration of American military paranoia: With investigations ranging from the mysterious "Goat Lab," to Uri Geller's covert psychic work with the CIA, to the increasingly bizarre role played by a succession of U.S. presidents, this might just be the funniest, most unsettling book you will ever read—if only because it is all true and is still happening today. This book looks at a wide range of fiction and film texts, from the 1950s to the present, in order to analyse the ways in which masculinity has been represented in popular culture in Britain and the United States. It covers numerous genres, including spy fiction, science fiction, the Western and police thrillers. Each chapter focuses on key forms of masculinity found in each genre, such as the 'double agent', the 'rogue cop' and the 'citizen-soldier'. Brian Baker takes a broad, contextual approach, placing a detailed discussion of key texts and issues concerning masculinity in their historical and cultural context. Written in a clear, accessible way, it explores the changing representation of men over the last fifty years. This analysis of nearly 150 movies and television programs considers the*

influence that war films bring to bear on the socialization of young boys in America. This book considers such issues as major male stereotypes—both positive and negative—in film, the influence of sports as an alternate to mortal combat, why men admire war and value winning so highly, and how war films define manly courage. Details the true story of seven monks kidnapped from a Trappist monastery in war-torn Algeria to be used as negotiation tools to free imprisoned terrorists and whose severed heads were found in a tree two months later. A landmark American drama that inspired a classic film and a Broadway revival—featuring an introduction by David Mamet A blistering character study and an examination of the American melting pot and the judicial system that keeps it in check, *Twelve Angry Men* holds at its core a deeply patriotic faith in the U.S. legal system. The play centers on Juror Eight, who is at first the sole holdout in an 11-1 guilty vote. Eight sets his sights not on proving the other jurors wrong but rather on getting them to look at the situation in a clear-eyed way not affected by their personal prejudices or biases. Reginald Rose deliberately and carefully peels away the layers of artifice from the men and allows a fuller picture to form of them—and of America, at its best and worst. After the critically acclaimed teleplay aired in 1954, this landmark American drama went on to become a cinematic masterpiece in 1957 starring Henry Fonda, for which Rose wrote the adaptation. More recently, *Twelve Angry Men* had a successful, and award-winning, run on Broadway. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators. *Last and First Men* is a "future history" science fiction novel, describing the history of humanity from the present onwards across two billion years and eighteen distinct human species, of which our own is the first. Conception of history follows a repetitive cycle with many varied civilizations rising from and descending back into savagery over millions of years, as the later civilizations rise to far greater heights than the first. It is an early example of the fictional supermind; a consciousness composed of many telepathically linked individuals. From the bestselling author of *The Passenger* and the Pulitzer Prize-winning novel *The Road* comes a "profoundly disturbing and gorgeously rendered" novel (*The Washington Post*) that returns to the Texas-Mexico border, setting of the famed *Border Trilogy*. The time is our own, when rustlers have given way to drug-runners and small towns have become free-fire zones. One day, a good old boy named Llewellyn Moss finds a pickup truck surrounded by a bodyguard of dead men. A load of heroin and two million dollars in cash are still in the back. When Moss takes the money, he sets off a chain reaction of catastrophic violence that not even the law—in the person of aging, disillusioned Sheriff Bell—can contain. As Moss tries to evade his pursuers—in particular a mysterious mastermind who flips coins for human lives—McCarthy simultaneously strips down the American crime novel and broadens its concerns to encompass themes as ancient as the Bible and as bloodily contemporary as this morning's headlines. *No Country for Old Men* is a triumph. Look for Cormac McCarthy's latest bestselling novels, *The Passenger* and *Stella Maris*. In virtually every aspect of culture-health, marriage, family, morals, politics, sex, race,

economics-American men of the past two decades have faced changing social conditions and confronted radical questions about themselves. In *Millennial Masculinity: Men in Contemporary American Cinema*, editor Timothy Shary collects fourteen contributions that consider male representation in films made at the turn of the century to explore precisely how those questions have been dealt with in cinema. Contributors move beyond the recent wave of "masculinity in crisis" arguments to provide sophisticated and often surprising insight into accessible films. Chapters are arranged in four sections: "Performing Masculinity" includes a discussion of Adam Sandler and movies such as *Milk*; "Patriarchal Problems" looks at issues of fathers from directors such as Martin Scorsese, Wes Anderson, and David Fincher; "Exceptional Sexualities" examines male love and sex through movies like *Brokeback Mountain* and *Wedding Crashers*; and "Facing Race" explores masculinity through race in film. Sean Penn, Jackie Chan, Brad Pitt, Will Smith, and Philip Seymour Hoffman are some of the actors included in these analyses, while themes considered include police thrillers, psychotic killers, gay tensions, fashion sense, and the burgeoning "bromance" genre. Taken together, the essays in *Millennial Masculinity* shed light on the high stakes of masculine roles in contemporary American cinema. Film and television scholars as well as readers interested in gender and sexuality in film will appreciate this timely collection. Examining the popularity of low-budget cinema, particularly slasher, occult, and rape-revenge films, the author argues that, while such films have been traditionally understood as offering only sadistic pleasure to their mostly male audiences, in actuality they align spectators not with the male tormentor but with the females being tormented--particularly the slasher movie's "final girls"--Who endure fear and degradation before rising to save themselves.--Adapted from publisher description. In 2005, Cormac McCarthy's novel, *No Country for Old Men*, was published to wide acclaim, and in 2007, Ethan and Joel Coen brought their adaptation of McCarthy's novel to the screen. The film earned praise from critics worldwide and was honored with four Academy Awards', including Best Picture, Best Director, and Best Adapted Screenplay. In *No Country for Old Men: From Novel to Film*, scholars offer varied approaches to both the novel and the award-winning film. Beginning with several essays dedicated entirely to the novel and its place within the McCarthy canon, the anthology offers subsequent essays focusing on the film, the adaptation process, and the Coen Brothers more broadly. The book also features an interview with the Coen brothers' long-time cinematographer Roger Deakins. This entertaining and enriching book for readers interested in the Coen Brothers' films and in McCarthy's fiction is an important contribution to both literature and film studies. This work analyzes popular films produced in the years of significant historical change from 1946 to the end of the twentieth century. Although the American middle class expanded significantly with the economic prosperity that followed World War II, postwar films often depict middle-class men as discontented with the mundane nature of work and with declining autonomy in an increasingly corporate-bureaucratic society. Disaffected male characters represent traditional values of independent thought and action as they negotiate life in the "organized system" (corporate life and the consumer culture) increasingly demanding dependence and conformity, which they resist. Such tensions between independence and conformity remain constant and central themes in American culture, and the phenomenon is rooted in silent feature films, early film

shorts, and in nineteenth-century literary texts created as early as the 1850s. The fifties marks the moment when a heterosexual/homosexual dualism came to dominate U.S. culture's thinking about masculinity. The films of this era record how gender and sexuality did not easily come together in a normative manhood common to American men. Instead these films demonstrate the widely held perception of a crises of masculinity. *Masked Men* documents how movies of the fifties represented masculinity as a multiple masquerade. Hollywood's star system positioned the male actor as a professional performer and as a body intended to solicit the erotic interest of male and female viewers alike. Drawing on publicity, poster art, fan magazines, and the popular press as a means of following the links between fifties stars, their films, and the social tensions of the period, Cohan juxtaposes Hollywood's narratives of masculinity against the personae of leading men like Cary Grant, Humphrey Bogart, John Wayne, Charlton Heston, Yul Brynner, William Holden, Montgomery Clift, Marlon Brando, and Rock Hudson. *Masked Men* focuses on the gender and sexual masquerades that organized their performances of masculinity on and off screen. Analyzes the movies directed by John Ford and traces the development of his film techniques and style Haskell remains a controversial figure in both feminist and film circles, accused of "uncritically celebrating heterosexual romance" - a charge to which Haskell cheerfully pleads guilty. A masterpiece of Biblical scope, and the magnum opus of one of America's most enduring authors, in a commemorative hardcover edition In his journal, Nobel Prize winner John Steinbeck called *East of Eden* "the first book," and indeed it has the primordial power and simplicity of myth. Set in the rich farmland of California's Salinas Valley, this sprawling and often brutal novel follows the intertwined destinies of two families—the Trasks and the Hamiltons—whose generations helplessly reenact the fall of Adam and Eve and the poisonous rivalry of Cain and Abel. The masterpiece of Steinbeck's later years, *East of Eden* is a work in which Steinbeck created his most mesmerizing characters and explored his most enduring themes: the mystery of identity, the inexplicability of love, and the murderous consequences of love's absence. Adapted for the 1955 film directed by Elia Kazan introducing James Dean, and read by thousands as the book that brought Oprah's Book Club back, *East of Eden* has remained vitally present in American culture for over half a century. "All hands on deck to witness punishment!" Although whippings of men have been a commonly-depicted punishment in the movies ever since the days of the nickelodeon, no book -- until now -- has attempted to document this vital aspect of screen-sadism. By describing and then discussing the movie's hundred great male-whipping scenes, (ranging from 1932's *Mask of Fu Manchu* to 2004's *Passion of the Christ* and featuring such famous actors as Burt Lancaster, Alan Ladd, Elvis Presley, and John Wayne), *Lash!* tries to fill this void with wit, perception, and authority. The official novelization of the fourth *Men in Black* movie, F. Gary Gray's new movie set within the universe of the previous *Men in Black* films. The official novelization of *Men in Black International*, F. Gary Gray's new movie is set within the universe of the previous *Men in Black* films. With a screenplay by Art Marcum & Matt Holloway, and produced by Steven Spielberg, Walter F. Parkes and Laurie MacDonald, the film stars Tessa Thompson and Chris Hemsworth, Liam Neeson, Kumail Nanjiani, Emma Thompson, and more. From TI 9781789091083 *MM*. The year was 1896, the woman was Alice Guy-Blaché, and the film was *The Cabbage Fairy*. It was less than a minute long. Guy-Blaché, the first female director, made

hundreds of movies during her career. Thousands of women with passion and commitment to storytelling followed in her footsteps. Working in all aspects of the movie industry, they collaborated with others to create memorable images on the screen. This book pays tribute to the spirit, ambition, grit and talent of these filmmakers and artists. With more than 1200 women featured in the book, you will find names that everyone knows and loves—the movie legends. But you will also discover hundreds and hundreds of women whose names are unknown to you: actresses, directors, stuntwomen, screenwriters, composers, animators, editors, producers, cinematographers and on and on. Stunning photographs capture and document the women who worked their magic in the movie business. Perfect for anyone who enjoys the movies, this photo-treasury of women and film is not to be missed. Cinema is not only an intellectual or cerebral experience, especially when we are talking about popular movies. This is a book about one aspect of how cinema makes us feel as well as think. Although all these aspects are intertwined, Men's Cinema is about identification as well as analysis, about mise-en-scene alongside representation and narrative . It reflects on how we as spectators are invited to understand, desire or identify with Hollywood's vision of men and masculinity via mise-en-scene, from the classical era to the present day. It shows how Hollywood has built up and refined the 'language' of 'men's cinema' via a series of recurrent, refined tropes that evoke masculinity, from a posse of men walking towards the camera to the ecstatically fast editing of the classic action sequence. The Calling Blighty series of films produced by the Combined Kinematograph Service produced towards the end of the Second World War were one-reel films in which soldiers gave short spoken messages to the camera as a means of connecting the front line and the home front. These are the first ever films where men speak openly in their regional accents, and they have profound meaning for remembrance, documentary representation and the ecology of film in wartime. Of the 400 films (or 'issues') made, 64 survive. Each of those contained around 25 individual messages. Men – and a very few women - from a particular city, town or region were grouped together for the films to make regional screenings back in UK cinemas and town halls possible. Personnel from all three services are featured, but the men are predominantly from the army units. Screenings took place at a cinema in the subjects' local area and were usually organised by the regional Army Welfare Committee. The names and addresses of those to be invited to the screenings were sent to the UK along with the films. Until now, these films have barely been researched, and yet are a valuable source of social history as well as representing a different mode from the mainstream of British wartime documentary. This book expands the history of Calling Blighty and places it in a broader context, both past and present. New research reveals the origins of the film series and draws comparisons with written and oral contemporary sources. Steve Hawley is an artist/filmmaker whose work has been screened worldwide, and has collaborated closely with the North West Film Archive UK. He is emeritus professor at the Manchester Metropolitan University UK. Using memoirs and diaries, Steve Hawley has researched the roles in the Burma campaign of participants in the surviving films, and traced over 160 of the families of the men – and two men still alive – and recreated these wartime screenings. Hawley's book is part description of the films, part reclamation of a largely unknown genre of wartime filmmaking, partly an account of the Burma campaign, and partly a discussion of war

and memory. Engagingly and warmly written. It will be of interest to scholars and researchers in the areas of war studies, especially those specializing in the social rather than military history of warfare, and historians of British wartime cinema and documentary. Also useful for an undergraduate audience, in history, media/film studies. Potential for readers with an interest in the Second World War, particularly the war in Burma, and those with an interest in family history of the period. Cinema has long played a major role in the formation of community among marginalised groups, and this book details that process for gay men in Sydney, Australia from the 1950s to the present. Scott McKinnon builds the book from a variety of sources, including film reviews, media reports, personal memoirs, oral histories and a striking range of films, all deployed to answer the question of understanding cinema-going as a moment of connection to community and identity – how the experience of seeing these films and being part of an audience helped to build a community among the gay men of Sydney in the period. The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race. Women and men in cinema are imaginary constructs created by filmmakers and their audiences. The film-psychoanalytic approach reveals how movies subliminally influence unconscious reception. On the other hand, the movie is embedded in a cultural tradition: Jean Cocteau's film *La Belle et la Bete* (1946) takes up the classic motif of the animal groom from the story of Cupid and Psyche in Apuleius' *The Golden Ass* (originally a tale about the stunning momentum of genuine female desire), liberates it from its baroque educational moral (a girl's virtue and prudence will help her to overcome her sexual fears), and turns it into a boyhood story: inside the ugly rascal there is a good, but relatively boring prince - at least in comparison to the monsters of film history. In the seventy years since it was made, *La Belle et la Bete* has inspired numerous interpretations and has been employed by theorists of all genres and interests.
