*Evaluating Student Learning Outcomes in Counselor Education* Jan 02 2022 This timely text describes the role of program evaluation in counselor education and provides step-by-step guidance for faculty seeking to develop comprehensive Student Learning Outcome (SLO) evaluation plans to meet accountability expectations. It serves as a blueprint for demystifying the SLO process and making the switch from an input-based measure of productivity that focuses on what counseling programs do, to an outcome-based approach that concentrates on the quality of learning through evidence-based assessment of students' knowledge and skills. The first and second parts of the book lay the foundation for the SLO process and provide practical guidance for identifying and developing direct and indirect measures of student learning. Part III offers strategies for creating measures; collecting, managing, and reporting student data; and using data to ensure competence. In Part IV, counselor educators across the country offer hands-on application through a wide variety of SLO activities and rubrics linked to each of the curricular and specialty areas of the 2016 CACREP Standards. \*Requests for digital versions from the ACA can be found on wiley.com. \*To request print copies, please visit the ACA website here. \*Reproduction requests for material from books published by ACA should be directed to permissions@counseling.org

**Banking's Final Exam** Mar 04 2022 Spurred by the success of the first stress test of US banks toward the end of the global economic crisis in 2009, stress testing of large financial institutions has become the cornerstone of banking supervision worldwide. The aim of the tests is to determine which banks are adequately capitalized under severe economic shocks and to order corrective measures for those that are vulnerable. In Banking's Final Exam, one of the world's leading experts on banking regulation concludes that the tests administered on both sides of the Atlantic suffer from fundamental weaknesses, leading to a false sense of reassurance about the safety and soundness of the banking system. Some weaknesses can be corrected within the existing bank-capital regime, but others will require bold reforms—including higher minimum capital requirements for the largest and most systemically-important banks. The banking industry is likely to resist these reforms, but this book explains why their objections do not hold water.

**The Counselor and the Law** Aug 09 2022 Each chapter in The Counselor and the Law has been updated to reflect changes in the 2014 ACA Code of Ethics, findings of recent court cases, and new federal and state legislation. **Traversing the Doctorate** Jul 28 2021 This book explores the multiple ways in which doctoral programs are traversed by students, supervisors and administrators. Rather than proposing a single, homogeneous approach as the most effective form of doctoral education, the editors and contributors focus on the diversity of global approaches to the doctorate, including doctoral experiences from Australia, Finland, Chile, New Zealand and Spain. The doctorate emerges from this analysis as a highly complex, heterogeneous and situated phenomenon that resists easy solutions. Strategies that are successful in traversing the doctorate are found to be grounded in contexts that cannot necessarily be generalised to other situations: in doing so, the authors emphasise the importance of presenting a diverse array of experiences and stories. The separate and shared perspectives of doctoral students, supervisors and administrations are mapped and analysed in ways that bring their voices compellingly to life: this book will be of interest and value to students and scholars of the doctoral journey, as well as of international and comparative education.
