INSTANT NATIONAL BESTSELLER WINNER OF THE WRITERS' TRUST SHAUGHNESSY COHEN PRIZE WINNER OF THE OTTAWA BOOK AWARD FOR NONFICTION ?Former Chief Justice of the Supreme Court of Canada Beverley McLachlin offers an intimate and revealing look at her life, from her childhood in the Alberta foothills to her career on the Supreme Court, where she helped to shape the social and moral fabric of the country. As a young girl, Beverley McLachlin's world was often full of wonder—at the expansive prairie vistas around her, at the stories she discovered in the books at her local library, and at the diverse people who passed through her parents' door. While her family was poor, their lives were rich in the ways that mattered most. Even at a young age, she had an innate sense of justice, which was reinforced by the lessons her parents taught her: Everyone deserves dignity. All people are equal. Those who work hard reap the rewards. Willful, spirited, and unusually intelligent, she discovered in Pincher Creek an extraordinary tapestry of people and perspectives that informed her worldview going forward. Still, life in the rural Prairies was lonely, and gaining access to education—especially for girls—wasn't always easy. As a young woman, McLachlin moved to Edmonton to pursue a degree in philosophy. There, she discovered her passion lay not in academia, but in the real world, solving problems directly related to the lives of the people around her. And in the law, she found the tools to do exactly that. She soon realized, though, that the world was not always willing to accept her. In her early years as an articling student and lawyer, she encountered sexism, exclusion, and old boys' clubs at every turn. And outside the courtroom, personal loss and tragedies struck close to home. Nonetheless, McLachlin was determined to prove her worth, and her love of the law and the pursuit of justice pulled her through the darkest moments. McLachlin's meteoric rise through the courts soon found her serving on the highest court in the country, becoming the first woman to be named Chief Justice of the Supreme Court of Canada. She rapidly distinguished herself as a judge of renown, one who was never afraid to take on morally complex or charged debates. Over the next eighteen years, McLachlin presided over

the most prominent cases in the country—involving Charter challenges, same-sex marriage, and euthanasia. One judgment at a time, she laid down a legal legacy that proved that fairness and justice were not luxuries of the powerful but rather obligations owed to each and every one of us. With warmth, honesty, and deep wisdom, McLachlin invites us into her legal and personal life—into the hopes and doubts, the triumphs and losses on and off the bench. Through it all, her constant faith in justice remained her true north. In an age of division and uncertainty, McLachlin's memoir is a reminder that justice and the rule of law remain our best hope for a progressive and bright future. This book constitutes the refereed proceedings of the 12th IFIP WG 5.5 Working Conference on Virtual Enterprises, PRO-VE 2011, held in Sao Paulo, Brazil, in October 2011. The 61 revised papers presented were carefully selected from numerous submissions. They provide a comprehensive overview of recent advances in various collaborative network (CN) domains and their applications with a particular focus on adaptation of the networks and their value creation, specifically emphasizing topics related to evolution from social networking to collaborative networks; social capital; value chains; co-creation of complex products; performance management; behavioral aspects in collaborative networks; collaborative networks planning and modeling; benefit analysis and sustainability issues, as well as including important technical and scientific challenges in applying CNs to areas such as advanced logistics networks, business process modeling, service orientation, and other emerging application domains such as ageing, tourism, crisis, and emergency scenarios. Bush pilots haul cargo to remote reserves along the West Coast of Canada. They ferry big-game hunters to base camps and fly-in fishermen to remote lodges. They take nature photographers to scenic vistas and archaeological explorers to their latest dig. Bush pilots and the planes they have flown are an exciting part of Canada's aviation history. In his latest book Bill Zuk brings their exploits and adventures alive. With detailed descriptions of their planes, and stories of their daring and their bravery, he evokes our admiration for these enterprising men who have contributed so colourfully to the fabric of Canadian life. This is the Final Report of Canada's Truth and Reconciliation Commission and its six-year investigation of the residential school system for Aboriginal youth and the legacy of these schools. This report, the summary volume, includes the history of residential schools, the legacy of that school system, and the full text of the Commission's 94 recommendations for action to address that legacy. This report lays bare a part of Canada's history that until recently was little-known to most non-Aboriginal Canadians. The Commission discusses the logic of the colonization of Canada's territories, and why and how policy and practice developed to end the existence of distinct societies of Aboriginal peoples. Using brief excerpts from the powerful testimony heard from Survivors, this report documents the residential school system which forced children into institutions where they were forbidden to speak their language, required to discard their clothing in favour of institutional wear, given inadequate food, housed in inferior and fire-prone buildings, required to work when they should have been studying, and subjected to emotional, psychological and often physical abuse. In this setting, cruel punishments were all too common, as was sexual abuse. More than 30,000 Survivors have been compensated financially by the Government of Canada for their experiences in residential schools, but the legacy of this experience is ongoing today. This report explains the links to high rates of Aboriginal children being taken from their families, abuse of drugs and alcohol, and high rates of suicide. The report documents the drastic decline in the presence of Aboriginal languages, even as Survivors and others work to maintain their distinctive cultures, traditions, and governance. The report offers 94 calls to action on the part of governments, churches, public institutions and non-Aboriginal Canadians as a path to meaningful reconciliation of Canada today with Aboriginal citizens. Even though the historical experience of residential schools constituted an act of cultural genocide by Canadian government authorities, the United Nation's declaration of the rights of aboriginal peoples and the specific recommendations of the

Commission offer a path to move from apology for these events to true reconciliation that can be embraced by all Canadians. Based on never-before published material from the Richler archives as well as interviews with family members, friends, and acquaintances, *Mordecai Richler: Leaving St Urbain* shows how Richler consistently mined his remarkable life for material for his novels. Beginning with the early clashes with his grandfather over Orthodox Judaism, and exposing the reasons behind his life-long quarrel with his mother, Kramer follows Richler as he flees to Ibiza and Paris, where he counted himself as one of the avant-garde who ushered in the 1960s. His successes abroad gave him the opportunity to remain in England and leave novel-writing behind — but he did neither. More than a biography, *Mordecai Richler: Leaving St Urbain* is the story of a Jewish culture finding its place within a larger stream, a literary culture moving into the colloquial, and a Canada torn between nationalism and cosmopolitanism.

The focus has traditionally been on punishment-consequence interventions and demanding compliance, but experience and research shows they can be better served through relationship-based practice incorporating harm reduction principles, resiliency and strength-based approaches, community collaboration, and an understanding that these youth typically come from experiences of early trauma impacting their brain development and their ability to form attachments.

An exploration of the spooky side of Edmonton. Full of ghosts and strange sights, Edmonton is a place rich in the paranormal. Or is it? Are there really spirits that lurk around Fort Edmonton and the provincial legislature? Do ghosts really haunt the halls of the University of Alberta, rushing off to classes that have long finished? Can paranormal echoes of the dark history of Charles Camsell Hospital still be felt within its walls today? What about the stories of the phantoms that loiter around the graveyards, bars, schools, and pools of the city? In this collection of more than forty stories, *Eerie Edmonton* reveals the truth in the tales people tell and shines a spotlight on the city's dark shadows and colourful past. Join Rhonda Parrish and Rona Anderson as they compare personal accounts of hauntings and paranormal activity with documented history and their own on-the-ground investigations. When the Rogers Place arena opened in downtown Edmonton in September 2016, no amount of buzz could drown out the rumours of manipulation, secret deals, and corporate greed undergirding the project. Working with documentary evidence and original interviews, the authors present an absorbing account of the machinations that got the arena and the adjacent Ice District built, with a price tag of more than \$600

million. The arena deal, they argue, established a costly public financing precedent that people across North America should watch closely, as many cities consider building sports facilities for professional teams or international competitions. Their analysis brings clarity and nuance to a case shrouded in secrecy and understood by few besides political and business insiders. *Power Play* tells a dramatic story about clashing priorities where sports, money, and municipal power meet. Over the past two decades, the oil sands region of northeastern Alberta has been the site of unprecedented levels of development. Alberta's Lower Athabasca Basin tells a fascinating story of how a catastrophic ice age flood left behind a unique landscape in the Lower Athabasca Basin, one that made deposits of bitumen available for surface mining. Less well known is the discovery that this flood also produced an environment that supported perhaps the most intensive use of boreal forest resources by prehistoric Native people yet recognized in Canada. Studies undertaken to meet the conservation requirements of the Alberta Historical Resources Act have yielded a rich and varied record of prehistoric habitation and activity in the oil sands area. Evidence from between 9,500 and 5,000 years ago—the result of several major excavations—has confirmed extensive human use of the region's resources, while important contextual information provided by key geological and palaeoenvironmental studies has deepened our understanding of how the region's early inhabitants interacted with the landscape. Touching on various elements of this rich environmental and archaeological record, the contributors to this volume use the evidence gained through research and compliance studies to offer new insights into human and natural history. They also examine the challenges of managing this irreplaceable heritage resource in the face of ongoing development. Contributors: Alwynne Beaudoin, Angela Younie, Brian O.K. (Practical Life) This book provides a comprehensive analysis of the Chinese-Russian bilateral relationship, grounded in a historical perspective, and

discusses the implications of the burgeoning 'strategic partnership' between these two major powers for world order and global geopolitics. The volume compares the national worldviews, priorities, and strategic visions for the Chinese and Russian leadership, examining several aspects of the relationship in detail. The energy trade is the most important component of economic ties, although both sides desire to broaden trade and investments. In the military realm, Russia sells advanced arms to China, and the two countries engage in regular joint exercises. Diplomatically, these two Eurasian powers take similar approaches to conflicts in Ukraine and Syria, and also cooperate on non-traditional security issues including preventing coloured revolutions, cyber management, and terrorism. These issue areas illustrate four themes. Russia and China have common interests that cement their partnership, including security, protecting authoritarian institutions, and re-shaping aspects of the global order. They are key players not only influencing regional issues, but also international norms and institutions. The Sino-Russian partnership presents a potential counterbalance to the United States and democratic nations in shaping the contemporary and emerging geopolitical landscape. Nevertheless, the West is still an important partner for China and Russia. Both seek better relations with the West, but on the basis of 'mutual respect' and 'equality'. Lastly, Russia and China have frictions in their relationship, and not all of their interests overlap. The Sino-Russian relationship has gained considerable momentum, particularly since 2014 as Moscow turned to Beijing attempting to offset tensions with the West in the aftermath of Russia's annexation of Crimea and intervention in Ukraine. However, so far, China and Russia describe their relationship as a comprehensive 'strategic partnership', but they are not 'allies'. A Drag Dynasty is about to be divined from the high life decade of decadence. It is destined, pre-ordained — and perfectly coiffed. Darrin Hagen, under the mentorship of his drag mother, Lulu LaRude, rose to the height of glamour as Gloria Hole, performer extraordinaire at the legendary Flashback nightclub.
