Now something feels different in Stonebridge—something he doesn’t understand—and he’s not going to put up with radicals in his town...not some biker, and not some smart mouth like Summer Moore. The Hollow Places Jul 15 2020 A young woman discovers a strange portal in her uncle’s house, leading to madness and terror in this gripping new novel from the author of the “innovative, unexpected, and absolutely chilling” (Mira Grant, Nebula Award–winning author) The Twisted Ones. Pray they are hungry. Kara finds the words in the mysterious bunker that she’s discovered behind a hole in the wall of her uncle’s house. Freshly divorced and living back at home, Kara now becomes obsessed with these cryptic words and starts exploring this peculiar area—only to discover that it holds portals to countless alternate realities. But these places are haunted by creatures that seem to hear thoughts...and the more one fears them, the stronger they become. With her distinctive “delightfully fresh and subversive” (SF Bluestocking) prose and the strange, sinister wonder found in Guillermo del Toro’s Pan’s Labyrinth, The Hollow Places is another compelling and white-knuckled horror novel that you won’t be able to put down.

A Box Story Sep 09 2022 A Box Story is an illustrated picture book that invites the reader to look at things in a different way. With the use of hand drawn images, you are taken through simple thought provoking ideas about a box and how it is not just a box. Pinnacle Book Awards Winner 2012 for Children's Interest (March 2012) - From the National Association of Book Entrepreneurs Literary Classics Seal of Approval (March 2012):Young audiences will surely find enjoyment within the pages of this clever little book. Kenneth Lamug’s, A Box Story, comes highly recommended, and earns the Literary Classics Seal of Approval. Winner of 2012 CLC Best First Picture Book, PreSchool 2011 Moonbeam Children's Book Awards - Silver Medalist Creating books that inspire our children to read, to learn, and to dream is an extremely important task, and these awards were conceived to reward those efforts. ForeWord Reviews (June 2012):With a nod to the fact that containers often interest kids as much as what's inside, a web designer meditates on the many uses of this most practical (and abstract) of packages: "A box can keep your secrets . . . or reveal an unexpected surprise." Lovely and inspiring. This Literary Life (March 2012):Something that I found incredibly remarkable about the illustrations is that the box stays in the same place on every single page, but becomes something new and exciting every time you flip to a new page. This gives the reader the impression that it is in fact, the same box being used for a myriad of adventures.The words are simple but thought-provoking. They help build the imagination while simultaneously challenging the reader to find a purpose for their box. A purpose all of their own. Every child will want to build a life inside a box after reading this story. Visit www.aboxstory.com for more information and bonus materials. Book Video Trailer: http://vimeo.com/34422903

And the Trees Crept In Feb 02 2022 A stunning, terrifying novel about a house the color of blood and the two sisters who are trapped there, by The Dead House author Dawn Kurtagich When Silla and Nori arrive at their aunt's home, it's immediately clear that the "blood manor" is cursed. The creaking of the house and the stillness of the woods surrounding them would be enough of a sign, but there are secrets too--the questions that Silla can't ignore: Who is the beautiful boy that's appeared from the woods? Who is the man that her little sister sees, but no one else? And why does it seem that, ever since they arrived, the trees have been creeping closer? Filled with just as many twists and turns as The Dead House, and with achingly beautiful, chilling language that delivers haunting scenes, AND THE TREES CREPT IN is the perfect follow-up novel for master horror writer Dawn Kurtagich.

Here, There and Everywhere May 05 2022 An all-access, firsthand account of the life and music of one of history's most beloved bands--from an original mastering engineer at Abbey Road Geoff Emerick became an assistant engineer at the legendary Abbey Road Studios in 1962 at age fifteen, and was present as a new band called the Beatles recorded their first songs. He later worked with the Beatles as they recorded their singles “She Loves You” and “I Want to Hold Your Hand,” the songs that would propel them to international superstardom. In 1964 he would witness the transformation of this young and playful group from Liverpool into professional, polished musicians as they put to tape classic songs such as “Eight Days A Week” and “I Feel Fine.” Then, in 1966, at age nineteen, Geoff Emerick became the Beatles’ chief engineer, the man responsible for their distinctive sound as they recorded the classic album Revolver, in which they pioneered innovative recording techniques that changed the course of rock history. Emerick would also engineer the monumental Sgt. Pepper and Abbey Road albums, considered by many the greatest rock recordings of all time. In Here, There and Everywhere he reveals the creative process of the band in the studio, and describes how he achieved the sounds on their most famous songs. Emerick also brings to light the personal dynamics of the band, from the relentless (and increasingly mean-spirited) competition between Lennon and McCartney to the infighting and frustration that eventually brought a bitter end to the greatest rock band the world has ever known.

Tigerman Jul 27 2021 A KIRKUS REVIEWS and NPR BEST BOOK OF THE YEAR A WASHINGTON POST AND ALA NOTABLE BOOK From the award-winning author of Angelmaker, Tigerman is a novel at once heartfelt and thrilling—about parenthood, friendship and secret identities, about heroes of both the super and the everyday kind. Sergeant Lester Ferris is a good man in need of a rest. After a long career of being shot at, he's about to retire. The mildly larcenous, backwater island of Mancreu, a former British colony in legal limbo, belching toxic clouds of waste and facing imminent destruction by an international community afraid for their own safety, is the ideal place to serve out his time. There is an illicit Black Fleet lurking in the bay: spy stations, arms dealers, offshore hospitals, drug factories and torture centers. Lester's brief, however, is to sit tight and turn a blind eye, so he drinks tea and befriends a brilliant, Internet-added street kid with a comic-book fixation. When Mancreu’s fragile society erupts in violence, Lester must be more than just an observer: he has no choice but to rediscover the man of action he once was, and find out what kind of hero the island—and the boy—will need.

Alphabet Juice Dec 20 2020 Ali G: How many words does you know? Noam Chomsky: Normally, humans, by maturity, have tens of thousands of them. Ali G: What is some of 'em? —Da Ali G Show Did you know that both mammal and matter derive from baby talk? Have you noticed how wince makes you wince? Ever wonder why so many h-words have to do with breath? Roy Blount Jr. certainly has, and after forty years of making a living using words in every medium, print or electronic, except greeting cards, he still can't get over his ABCs. In Alphabet Juice, he celebrates the electricity, the juju, the sonic and kinetic energies, of letters and their combinations. Blount does not prescribe proper English. The franchise he claims is "over the counter." Three and a half centuries ago, Thomas Blount produced Blount's Glossographia, the first dictionary to explore derivations of English words. This Blount's Glossographia takes that pursuit to other levels, from Proto-Indo-European roots to your epiglottis. It rejects the standard linguistic notion that the connection between words and their meanings is "arbitrary." Even the word arbitrary is shown to be no more arbitrary, at its root, than go-to guy or crackerjack. From sources as venerable as the OED (in which Blount finds an inconsistency, at whisk) and as fresh as

Urbanictionary.com (to which Blount has contributed the number-one definition of "alligator arm"), and especially from the author's own wide-ranging experience, Alphabet Juice derives an organic take on language that is unlike, and more fun than, any other. **Born to Run** Jan 01 2022 A New York Times bestseller 'A sensation ... a rollicking tale well told' - The Times At the heart of Born to Run lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged 57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what the secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to down a beer at the 20 mile mark. **Coloring Book and Poster Collection** Jun 06 2022 COLORING BOOK COMBINE WITH POSTER COLLECTION (FULL COLOR PHOTO BOOK): 20 pages for coloring + 20 removable postersContent included:1/ The Sagas Four Elements Of Avatar V1 Anime & Manga2/ The Sagas 1 2 And 3 Cartoons3/ The Sagas Legendary Birds Of Pokemon Anime & Manga4/ The Sagas Gengar Evolutions Of Pokemon Comics5/ The Sagas Videogame Saga 3parts Anime & Manga6/ The Sagas 1 5 And 7 Of Legend Of Zelda Anime & Manga7/ The Sagas God Of Ward Saga Game Anime & Manga8/ The Sagas Chicorita Evolutions Pokemon Anime & Manga9/ The Sagas

The Pyrotechnic Insanitarium Sep 28 2021 A wide-ranging collection of essays on millennial American culture that “marshals a vast pop vocabulary with easy wit” (The New York Times Book Review). From the far left to the far right, on talk radio and the op-ed page, more and more Americans believe that the social fabric is unraveling. Celebrity worship and media frenzy, suicidal cultists and heavily armed secessionists: modern life seems to have become a “pyrotechnic insanitarium,” Mark Dery says, borrowing a turn-of-the-century name for Coney Island. Dery elucidates the meaning to our madness, deconstructing American culture from mainstream forces like Disney and Nike to fringe phenomena like the Unabomber and alien invaders. Our millennial angst, he argues, is a product of a pervasive cultural anxiety—a combination of the social and economic upheaval wrought by global capitalism and the paranoia fanned by media sensationalism. The Pyrotechnic Insanitarium is a theme-park ride through the extremes of American culture of which The Atlantic has written, “Mark Dery confirms once again what writers and thinkers as disparate as Nathanael West, Fyodor Dostoyevsky, Sigmund Freud, and Oliver Sacks have already shown us: the best place to explore the human condition is at its outer margins, its pathological extremes.” “Dery is the kind of critic who just might give conspiracy theory a good name.” —Wired

Haunted House Murder Feb 19 2021 Falling leaves, chill winds, shorter days . . . and spooky houses. Halloween in Maine transports part-time reporter Lucy Stone into cozy heaven. Until someone goes missing . . . A woman with many hats, Lucy Stone is rarely on time, but she’s never too late to catch the important news in the Maine coastal town of Tinker’s Cove. Sometimes it might even make the front page of the Pennysaver, the town’s weekly paper. For example, the latest out of the basement town hall meeting is that the dilapidated house across the street from the elementary school will not be condemned. In fact, a local inspection has proved it’s structurally sound. Even more surprising, newcomers to Tinker’s Cove are about to close on their soon-to-be new home. Despite rumors that the house is a haven for ghosts, Ty and Heather Moon soon take residence. But strangely, they’re not exactly receptive to the town’s welcoming committee. Odder still are the noises and flickering lights erupting from the house at all hours. And when a local boy goes missing near the house, it’s up to Lucy Stone to unravel the mystery of the eccentric couple and their increasingly frightful behavior.

The Unfortunate Decisions of Dahlia Moss Feb 14 2023 Veronica Mars meets the World of Warcraft in The Unfortunate Decisions of Dahlia Moss, a mystery romp with a most unexpected heroine. If it were up to me this book would be called Hilarious Things That Happened That Were Not At All Dahlia's Fault -- or HTTHTWNAADF, for short. OK, I probably shouldn't have taken money from a mysterious eccentric to solve a theft, given that I'm not a detective, and that I am sometimes outwitted by puzzles in children's video games. I probably shouldn't have stolen bags of trash from a potential murder suspect. Arguably-- just arguably, mind you-- it may have been unwise to cos-play at an event where I was likely to be shot at. But sometimes you just have to take some chances, right? And maybe things do get a little unfortunate. What of it? If you ask me, an unfortunate decision here or there can change your life. In a positive way, just so long you don't killed in the process. Admittedly, that's the tricky bit. The Mutations Oct 30 2021 "Jorge Comensal's The Mutations oscillates masterfully between comedy and tragedy, gathering up in its pages a stupendous panoply of characters before whom the reader is never sure whether to smile in sympathy or pity."—Fernando Aramburu, author of Homeland Ramón Martínez is a militant atheist, successful lawyer, and conventional family man. But all of that changes when cancer of the tongue deprives him of the source of his power and livelihood: speech. The Mutations, by Jorge Comensal, is a comedy tracing the metastasis of Ramón’s cancer through his body and in the lives of his family members, colleagues, and doctors, dissecting the experience of illness and mapping the relationships both strengthened and frayed by its wake. Mateo and Paulina, his teenage children, struggle with the temptations of masturbation and binge eating, respectively. Ramón’s melancholic oncologist is haunted by the memory of a young patient whom he was unable to save. His selfish pathologist believes Ramón’s tumor holds the key to a major scientific breakthrough. And then there’s Elodia, Ramón’s pious maid, who brings him a foulmouthed parrot as a birthday gift. This lewd bird becomes Ramón’s companion, confidant, and unlikely double. Paying homage to the works of forebears such as Sontag, Didion, Flaubert, and Tolstoy, and filled with a rough-hewn poetry of regret, rage, and finally resignation, The Mutations offers a profound but funny cross section of modern Mexican life, as well as a bold treatment of an unspeakable yet universal reality

Cardiff, by the Sea Apr 11 2020 Four brand-new novellas by the #1 New York Times–bestselling, National Book Award–winning “grand mistress of ghouliness” (Publishers Weekly). An academic in Pennsylvania discovers a terrifying trauma from her past after inheriting a house in Cardiff, Maine from someone she has never heard of. A pubescent girl, overcome with loneliness, befriends a feral cat that becomes her protector from the increasingly aggressive males that surround her. A brilliant but shy college sophomore is distraught to discover that she’s pregnant, and the professor who takes her under his wing may not have innocent intentions. And a woman who marries into a family shattered by tragedy finds herself haunted by her predecessor’s voice, an inexplicably befouled well, and a compulsive attraction to a garage that took two lives. In these psychologically daring, chillingly suspenseful pieces, the author of *We Were the Mulvaney*s and *Blonde* writes about women facing threats past and present, once again cementing her reputation for “great intelligence and dead-on imaginative powers” (Los Angeles Times Book Review).

Scripts from the Crypt No. 12 - Tod Browning’s The Revolt of the Dead Aug 08 2022 “THE GRAVE WILL GIVE UP ITS OWN, UNTIL THE WORLD WILL BE FILLED WITH THE WALKING DEAD.” London throbs with terror when the dead rise from their graves and walk its streets. The city will soon be overrun. The horror of it all is driving residents to madness and suicide. One victim suffers possession, stigmata and crucifixion. With occult forces at work, civilization may be doomed! Decades before *Night of the Living Dead* (1968), *The Exorcist* (1973) and other industrial-strength shockers, Tod Browning’s 1932 screen treatment and script *The Revolt of the Dead* anticipated their horrors – and at the same time echoed Browning’s *Dracula* (1931) by featuring duplicates of several of that film’s major characters. Enter an unexplored corner of Browning’s universe as the *Scripts from the Crypt* series world-premieres this ultra-rare work, along with background information unearthed by the redoubtable Prof. Gary D. Rhodes. To delve deeper into Browning’s storytelling process, Professors Rhodes, Nathaniel Bell, Will Dodson and Robert Guffey examine multiple script drafts of Browning’s *Freaks* (1932), *Mark of the Vampire* (1935) and *The Devil-Doll* (1936) and document the step-by-step evolution of those macabre tales. The cinematic universe of *Classic Horror*’s “darkest” director is about to get weirder, wilder and more shocking! “A trove of fascinating materials that sheds light on Browning projects made and unmade.” — Murray Leeder, *Horror Film: A Critical Introduction* "We justifiably gnash our teeth over what might-have-been had George Romero's sadly unfilmed 1980s *Day of the Dead* screenplay been made as Romero intended—anticipating as it did so much of what followed, including *The Walking Dead* TV series—but far, far more mind-blowing is this rediscovery of this lost screenplay to Tod Browning’s unfilmed horror epic *Revolt of the Dead*. Expanding upon Abel Gance's hallucinatory march-of-the-WWI-dead climax to the 1919 *J'Accuse*, transforming William Seabrook's localized Haitian zombie scourge of his 1929 bestseller *The Magic Island* into an apocalyptic pandemic, what Browning intended to bring to the screen in 1932 would have scandalized & devastated audiences, rocketing the horror genre decades beyond what was considered even remotely possible at the time. Revelatory, relentless, essential reading!" - Stephen R. Bissette (*Swamp Thing*, *Taboo*, *Studio of Screams*, *Midnight Movie Monograph: David Cronenberg's The Brood*)

Ghost Road: Beyond the Driverless Car Apr 16 2023 A penetrating look at near-future disruption as truly autonomous vehicles arrive. For decades we have dreamed of building an automobile that can drive itself. But as that dream of autonomy draws close, we are discovering that the driverless car is a red herring. When self-driving technology infects buses, bikes, delivery vans, and even buildings...a wild, woollier, future awaits. Technology will transform life behind the wheel into a high-def video game that makes our ride safer, smoother, and more efficient. Meanwhile, autonomous vehicles will turbocharge our appetite for the instant delivery of goods, making the future as much about moving things as it is about moving people. Giant corporations will link the automated machines that move us to the cloud, raising concerns about mobility monopolies and privatization of streets and sidewalks. The pace of our daily lives and the fabric of our cities and towns will change dramatically as automated vehicles reprogram the way we work, shop, and play. *Ghost Road* is both a beacon and a warning; it explains where we might be headed together in driverless vehicles, and the choices we must make as societies and individuals to shape that future.

Albion’s Seed Mar 03 2022 This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are "Albion's Seed," no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

On Desperate Ground Nov 11 2022 "Superb...A masterpiece of thorough research, deft pacing and arresting detail...This war story — the fight to break out of a frozen hell near the Chosin Reservoir — has been told many times before. But Sides tells it exceedingly well, with fresh research, gritty scenes and cinematic sweep."—Washington Post From the New York Times bestselling author of *Ghost Soldiers* and *In the Kingdom of Ice*, a chronicle of the extraordinary feats of heroism by Marines called on to do the impossible during the greatest battle of the Korean War On October 15, 1950, General Douglas MacArthur, Supreme Commander of UN troops in Korea, convinced President Harry Truman that the Communist forces of Kim Il-sung would be utterly defeated by Thanksgiving. The Chinese, he said with near certainty, would not intervene in the war. As he was speaking, 300,000 Red Chinese soldiers began secretly crossing the Manchurian border. Led by some 20,000 men of the First Marine Division, the Americans moved deep into the snowy mountains of North Korea, toward the trap Mao had set for the vainglorious MacArthur along the frozen shores of the Chosin Reservoir. What followed was one of the most heroic--and harrowing--operations in American military history, and one of the classic battles of all time. Faced with probable annihilation, and temperatures plunging to 20 degrees below zero, the surrounded, and hugely outnumbered, Marines fought through the enemy forces with ferocity, ingenuity, and nearly unimaginable courage as they marched their way to the sea. Hampton Sides' superb account of this epic clash relies on years of archival research, unpublished letters, declassified documents, and interviews with scores of Marines and Koreans who survived the siege. While expertly detailing the follies of the American leaders, *On Desperate Ground* is an immediate, grunt's-eye view of history, enthralling in its narrative pace and powerful in its portrayal of what ordinary men are capable of in the most extreme circumstances. Hampton Sides has been hailed by critics as one of the best nonfiction writers of his generation. As the *Miami Herald* wrote, "Sides has a novelist's eye for the propulsive elements that lend momentum and dramatic pace to the best nonfiction narratives."

The Shirley Letters from California Mines in 1851-52 Mar 23 2021 Educated in Amherst, Massachusetts, Louise Amelia Knapp Smith Clappe (1819-1906) accompanied her physician-husband to California in 1849. The couple first lived in mining camps where Dr. Clappe practiced medicine and then moved to San Francisco, where

Mrs. Clappe taught in the public schools for more than twenty years. The Shirley letters (1922) is the book edition of a series of letters written by Mrs. Clappe to her sister in 1851 and 1852. They were first published under the pseudonym of "Dame Shirley" in the Pioneer magazine, 1854-55. In these letters Louise Clappe writes of life in San Francisco and the Feather River mining communities of Rich Bar and Indian Bar.
