A classic adventure book in the spirit of The Treasure of the Sierra Madre and Heart of Darkness. Declared "the best survival book in a decade" by Outside Magazine, 438 Days is the true story of the man who survived fourteen months in a small boat drifting seven thousand miles across the Pacific Ocean. On November 17, 2012, two men left the coast of Mexico for a weekend fishing trip in the open Pacific. That night, a violent storm ambushed them as they were fishing eighty miles offshore. As gale force winds and ten-foot waves pummeled their small, open boat from all sides and nearly capsized them, captain Salvador Alvarenga and his crewmate cut away a two-mile-long fishing line and began a desperate dash through crashing waves as they sought the safety of port. Fourteen months later, on January 30, 2014, Alvarenga, now a hairy, wild-bearded and half-mad castaway, washed ashore on a nearly deserted island on the far side of the Pacific. He could barely speak and was unable to walk. He claimed to have drifted from Mexico, a journey of some seven thousand miles. A "gripping saga," (Daily Mail), 438 Days is the first-ever account of one of the most amazing survival stories in modern

times. Based on dozens of hours of exclusive interviews with Alvarenga, his colleagues, search-and-rescue officials, the remote islanders who found him, and the medical team that saved his life, 438 Days is not only "an intense, immensely absorbing read" (Booklist) but an unforgettable study of the resilience, will, ingenuity and determination required for one man to survive more than a year lost and adrift at sea. An anthology of Thomas Wolfe's short stories, novel excerpts, and plays illuminating the Civil War This collection of Thomas Wolfe's writings demonstrates the centrality of the Civil War to Wolfe's literary concerns and identity. From Look Homeward, Angel to The Hill Beyond and The Web and the Rock, Wolfe perpetually returned to the themes of loss, dissolution, sorrow, and romance engendered in the minds of many southerners by the Civil War and its lingering aftermath. His characters reflect time and again on Civil War heroes and dwell on ghostlike memories handed down by their mothers, fathers, and grandfathers. Wolfe and his protagonists compare their contemporary southern landscape to visions they have conjured of its appearance before and during the war, thereby merging the past with the present in an intense way. Ultimately, Wolfe's prose style--incantatory and rhapsodic--is designed to evoke the national tragedy on an emotional level. Selections of Wolfe's writings in this collection include short stories ("Chickamauga," "Four Lost Men," "The Plumed Knight"), excerpts from his novels (O Lost, the restored version of Look Homeward, Angel, The Hills Beyond, and Of Time and the River) and a play, Mannerhouse, edited and introduced by David Madden. Madden, who makes the provocative claim that everything a southern writer writes derives from the Civil War experience, also highlights many issues essential to understanding Wolfe's absorption with the Civil War. Many know the story of Jackie Robinson integrating major league baseball in 1947. But few know that the NFL integrated a year earlier, when Kenny Washington stepped on the field for the Los Angeles Rams. He wasn't the only one. Four men broke pro football's color line in 1946, Kenny Washington and Woody Strode with the Los Angeles Rams and Bill Willis and Marion Motley with the Cleveland Browns. Lost Champions traces this history from the early 1930s--when NFL owners first instituted a ban on black players--through pro football's re-integration, to the 1950 NFL Championship Game, which pitted the Rams and Browns against each other in a showdown of the most

prolific and advanced offenses pro football had ever seen. But the battle wasn't just waged on the gridiron. Lost Champions shows how efforts to integrate sports sits within the often-ignored history of the civil rights movement in the 1940s. The four players faced animosity and death threats for their role in integration while they and all black Americans were threatened in 1946 by a spike in lynchings, threat of legal expulsion from their own homes, and segregation all the way down to the simple act of going to an amusement park for a bit of relaxation. Finally, Lost Champions explains why these men and their stories have for so long languished in the shadow of Jackie Robinson, and why they too deserve widespread acclaim for integrating what is arguably the most popular sport in America. Named a Best Book of the Year by NPR and Science Friday A quest to explore some of the most spectacular ancient cities in human history—and figure out why people abandoned them. In Four Lost Cities, acclaimed science journalist Annalee Newitz takes readers on an entertaining and mind-bending adventure into the deep history of urban life. Investigating across the centuries and around the world, Newitz explores the rise and fall of four ancient cities, each the center of a sophisticated civilization: the Neolithic site of Çatalhöyük in Central Turkey, the Roman vacation town of Pompeii on Italy's southern coast, the medieval megacity of Angkor in Cambodia, and the indigenous metropolis Cahokia, which stood beside the Mississippi River where East St. Louis is today. Newitz travels to all four sites and investigates the cutting-edge research in archaeology, revealing the mix of environmental changes and political turmoil that doomed these ancient settlements. Tracing the early development of urban planning, Newitz also introduces us to the often anonymous workers—slaves, women, immigrants, and manual laborers—who built these cities and created monuments that lasted millennia. Four Lost Cities is a journey into the forgotten past, but, foreseeing a future in which the majority of people on Earth will be living in cities, it may also reveal something of our own fate. "[A] riveting account of a fishing boat and its four young crewman lost at sea in 1984 off the coast of Montauk in eastern Long Island--a "fishing town with a drinking problem," as the locals have it--and the stunning repercussions of that loss for the families and friends of the four missing men and, indeed, the entire storied summer community of the Hamptons"-- A brilliant narrative history tracing today's troubles back

to the grandiose imperial overreach of Great Britain and the United States. *Kingmakers* is the gripping story of how the modern Middle East came to be, as told through the lives of the Britons and Americans who shaped it. Some are famous (Lawrence of Arabia and Gertrude Bell); others infamous (Harry St. John Philby, father of Kim); some forgotten (Sir Mark Sykes, Israel's godfather, and A. T. Wilson, the territorial creator of Iraq). All helped enthrone rulers in a region whose very name is an Anglo-American invention. The aim of this engrossing character-driven narrative is to restore to life the colorful figures who gave us the Middle East in which Americans are enmeshed today. A woman is murdered in her hotel room—and she is only the first to die. With a seven-hundred-dollar inheritance in her pocket, small town librarian Harriet Bascom went to the track. By the time she left she had thousands—enough to live life the way she had always wanted: with champagne, music, and love. The champagne and music flow freely once she arrives in New York City, but it's love that brings trouble. When she discovers her beloved has a terrible secret, she makes the mistake of being alone when she confronts him about it—and doesn't even scream when she dies. Harriet is one of the three thousand women who disappear in New York each year—the women Hildegard Withers wants to know more about. Unhappily retired, this former elementary school teacher is hungry for action. Investigating Harriet's case—and the three other ladies who follow her into death—will provide all the action Miss Withers could ever want. *Four Lost Ladies* is part of the Hildegard Withers Mysteries series, which also includes *The Penguin Pool Murder* and *Murder on the Blackboard*. *The American President* is an enthralling account of American presidential actions from the assassination of William McKinley in 1901 to Bill Clinton's last night in office in January 2001. William Leuchtenburg, one of the great presidential historians of the century, portrays each of the presidents in a chronicle sparkling with anecdote and wit. Leuchtenburg offers a nuanced assessment of their conduct in office, preoccupations, and temperament. His book presents countless moments of high drama: FDR hurling defiance at the "economic royalists" who exploited the poor; ratcheting tension for JFK as Soviet vessels approach an American naval blockade; a grievously wounded Reagan joking with nurses while fighting for his life. This book charts the enormous growth of presidential power from its lowly state in the late nineteenth century to the imperial

presidency of the twentieth. That striking change was manifested both at home in periods of progressive reform and abroad, notably in two world wars, Vietnam, and the war on terror. Leuchtenburg sheds light on presidents battling with contradictory forces. Caught between maintaining their reputation and executing their goals, many practiced deceits that shape their image today. But he also reveals how the country's leaders pulled off magnificent achievements worthy of the nation's pride. **INSTANT NEW YORK TIMES BESTSELLER** Two brothers meet in the remote Australian outback when the third brother is found dead, in this stunning new standalone novel from Jane Harper *Brothers* Nathan and Bub Bright meet for the first time in months at the remote fence line separating their cattle ranches in the lonely outback. Their third brother, Cameron, lies dead at their feet. In an isolated belt of Australia, their homes a three-hour drive apart, the brothers were one another's nearest neighbors. Cameron was the middle child, the one who ran the family homestead. But something made him head out alone under the unrelenting sun. Nathan, Bub and Nathan's son return to Cameron's ranch and to those left behind by his passing: his wife, his daughters, and his mother, as well as their long-time employee and two recently hired seasonal workers. While they grieve Cameron's loss, suspicion starts to take hold, and Nathan is forced to examine secrets the family would rather leave in the past. Because if someone forced Cameron to his death, the isolation of the outback leaves few suspects. A powerful and brutal story of suspense set against a formidable landscape, *The Lost Man* confirms Jane Harper, author of *The Dry* and *Force of Nature*, is one of the best new voices in writing today. The story of men who are hurting—and hurting America by their absence *Man Out* describes the millions of men on the sidelines of life in the United States. Many of them have been pushed out of the mainstream because of an economy and society where the odds are stacked against them; others have chosen to be on the outskirts of twenty-first-century America. These men are disconnected from work, personal relationships, family and children, and civic and community life. They may be angry at government, employers, women, and "the system" in general—and millions of them have done time in prison and have cast aside many social norms. Sadly, too many of these men are unsure what it means to be a man in contemporary society. Wives or partners reject them; children are estranged from them; and family, friends, and neighbors are

embarrassed by them. Many have disappeared into a netherworld of drugs, alcohol, poor health, loneliness, misogyny, economic insecurity, online gaming, pornography, other off-the-grid corners of the internet, and a fantasy world of starting their own business or even writing the Great American novel. Most of the men described in this book are poorly educated, with low incomes and often with very few prospects for rewarding employment. They are also disproportionately found among millennials, those over 50, and African American men. Increasingly, however, these lost men are discovered even in tony suburbs and throughout the nation. It is a myth that men on the outer corners of society are only lower-middle-class white men dislocated by technology and globalization. Unlike those who primarily blame an unjust economy, government policies, or a culture sanctioning "laziness," Man Out explores the complex interplay between economics and culture. It rejects the politically charged dichotomy of seeing such men as either victims or culprits. These men are hurting, and in turn they are hurting families and hurting America. It is essential to address their problems. Man Out draws on a wide range of data and existing research as well as interviews with several hundred men, women, and a wide variety of economists and other social scientists, social service providers and physicians, and with employers, through a national online survey and in-depth fieldwork in several communities. Uncover the larger-than-life story of World War I's "Lost Battalion" and the men who survived the ordeal, triumphed in battle, and fought the demons that lingered. In the first week of October, 1918, six hundred men attacked into Europe's forbidding Argonne Forest. Against all odds, they surged through enemy lines—alone. They were soon surrounded and besieged. As they ran out of ammunition, water, and food, the doughboys withstood constant bombardment and relentless enemy assaults. Seven days later, only 194 soldiers from the original unit walked out of the forest. The stand of the US Army's "Lost Battalion" remains an unprecedented display of heroism under fire. Never in Finer Company tells the stories of four men whose lives were forever changed by the ordeal: Major Charles Whittlesey, a lawyer dedicated to serving his men at any cost; Captain George McMurtry, a New York stockbroker who becomes a tower of strength under fire; Corporal Alvin York, a country farmer whose famous exploits help rescue his beleaguered comrades; and Damon Runyon, an intrepid newspaper

man who interviews the survivors and weaves their experiences into the American epic. Emerging from the patriotic frenzy that sent young men "over there," each of these four men trod a unique path to the October days that engulfed them—and continued to haunt them as they struggled to find peace. Uplifting and compelling, *Never in Finer Company* is a deeply moving and dramatic story on an epic scale. A collection of three stories in which teenagers face life-altering situations. The untold story of the last odyssey of the heroic age of Antarctic exploration Sir Ernest Shackleton's 1914 Antarctic endeavor is legend, but for sheer heroism and tragic nobility, nothing compares to the saga of the Ross Sea party. This crew of explorers landed on the opposite side of Antarctica from the *Endurance* with a mission to build supply depots for Shackleton's planned crossing of the continent. But their ship disappeared in a gale, leaving ten inexperienced, ill-equipped men to trek 1,356 miles in the harshest environment on earth. Drawing on the men's own journals and photographs, *The Lost Men* is a masterpiece of historical adventure, a book destined to be a classic in the vein of *Into Thin Air*. "The Four Lost Men is the first publication of the long version of Thomas Wolfe's story of familial and national reflection set during World War I. Here Wolfe supplies a moving portrait of his dying father, as well as a rich meditation on American history and ambitions. Discussion of the title characters - Presidents James A. Garfield, Chester A. Arthur, Benjamin Harrison, and Rutherford B. Hayes - provides Wolfe an opportunity to assess the mood and promise of the nation as well as to reflect on the obstacles that had blocked paths toward untapped American potential." "Originally published as a short story of seven thousand words in *Scribner's Magazine* in 1934 - and later abridged by one thousand words for republication in the 1935 anthology *From Death to Morning* - Wolfe's expanded tale is published here for the first time in its full length of some twenty-one thousand words."--BOOK JACKET. The crew of the *Rose-Noelle* consisted of four men, barely acquainted before the start of their voyage. By the time the wrecked yacht ran aground on Great Barrier Island they had overcome fears and suspicions, developed unsuspected strengths and resources and learnt that co-operation was essential for survival. When Great Britain won gold at the Sydney 2000 Olympics coxless four, seven million people watched and voted it the greatest sporting moment of the year. This moment, and Steve Redgrave's fifth Olympic gold medal,

has eclipsed the long and troubled journey four men made to peak at exactly the right time. Tim Foster brings vividly to life what it's like to be one of four headstrong, and at times conflicting, personalities and reveals how close they all came to implosion as the Sydney Olympics approached. *FOUR MEN IN A BOAT* is structured around the 2000m final itself, with Tim Foster analysing the story of the crew as they progress towards the gold medal. He also gives a compelling insight into the hardships of sport at the highest level, and what it takes for four men to come together and win Olympic gold. *The Man Who Lost His Shadow* tells the story of Yusif Abdul Hamid, an ambitious Cairo journalist, through the eyes of four people: Mabruka, the young peasant girl who marries Yusif's aging father while being attracted to Yusif; Samia, a minor actress, who Yusif lives with and almost marries but latter rejects; Muhammad Nagi, who Yusif pushes out of his job as newspaper editor after Muhammad marries Samia; and finally Yusif himself, editor-in-chief of the newspaper *al-Ayyam*, a stranger to himself. A provocative re-reading of Stanley Kubrick's work and its focus on masculine desire The work of Stanley Kubrick amounts to a sustained reflection on the male condition: past, present, and future. The persistent theme of his filmmaking is less violence or sex than it is the pressurized exertion of masculinity in unusual or extreme circumstances, where it may be taxed or exaggerated to various effects, tragic and comic—or metamorphosed, distorted, and even undone. The stories that Kubrick's movies tell range from global nuclear politics to the unpredictable sexual dynamics of a marriage; from a day in the life of a New York City prizefighter preparing for a nighttime bout to the evolution of humankind. These male melodramas center on sociality and asociality. They feature male doubles, pairs, and rivals. They explore the romance of men and their machines, and men as machines. They figure intensely conflicted forms of male sexual desire. And they are also very much about male manners, style, taste, and art. Examining the formal, thematic, and theoretical affiliations between Kubrick's three bodies of work—his photographs, his documentaries, and his feature films—*Kubrick's Men* offers new vantages on to the question of gender and sexuality, including the first extended treatment of homosexuality in Kubrick's male-oriented work. In 2002, the world changes forever. Every man, every boy, every mammal with a Y chromosome everywhere on Earth suddenly collapses and dies. With the loss of nearly half the planet's

population, the gears of society grind to a halt, and a world of women are left to pick up the pieces and try to keep civilization from collapsing entirely. The “gendercide,” however, is not absolutely complete. For some unknown reason, one young man named Yorick Brown and his pet male monkey, Ampersand, are spared. Overnight, this anonymous twentysomething becomes the most important person on the planet—the key, it is hoped, to unlocking the secret of the mysterious sex-specific plague. For Yorick himself, the most important person on the planet has been agonizingly out of reach. But now, after three long years and 10,000 arduous miles, the last man is closing in on the truth about his lost fiancée—and the shocking facts behind his own survival. Collects issues #37-48. Santiago, an old Cuban fisherman, has gone 84 days without catching a fish. Confident that his bad luck is at an end, he sets off alone, far into the Gulf Stream, to fish. Santiago’s faith is rewarded, and he quickly hooks a marlin...a marlin so big he is unable to pull it in and finds himself being pulled by the giant fish for two days and two nights.

Somewhere along the way, our culture lost its definition of manhood, leaving generations of men and men-to-be confused about their roles, responsibilities, relationships, and the reason God made them men. It's into this "no man's land" that New York Times bestselling author Mark Batterson declares his mantra for manhood: play the man. In this inspiring call to something greater, he helps men understand what it means to be a man of God by unveiling seven virtues of manhood. Mark shares inspiring stories of manhood, including the true story of the hero and martyr Polycarp, who first heard the voice from heaven say, "Play the man." Mark couples those stories with practical ideas about how to disciple the next generation of men. This is more than a book; it's a movement of men who will settle for nothing less than fulfilling their highest calling to be the man and the father God has destined them to be. Play the man. Make the man. No door.--Death the proud brother.--The face of the war.--Only the dead know Brooklyn.--Dark in the forest, strange as time.--The four lost men.--Gulliver.--The bums at sunset.--One of the girls in our party.--The far and the near.--In the park.--The men of Old

Catawba.--Circus at dawn.--The web of earth. Author, Judy Crowell, a sixty-three-year old widow is shaken out of her topsy-turvy malaise by an old acquaintance, cajoling and wooing her back to the dating world of the twenty-first century, a world she last experienced when Eisenhower was president. Tackling a pile of disregarded old photos, she reminisces over the men in her life: a hormones-raging teenage Lothario in a lime green '50s Chevy; an eighty-year-old Benedictine monk; a Johnny Walker-swilling uncle, and a husband taken too soon by cancer. After forty-two years of marriage, can she share another man's popcorn at the movies? Feel another man's beard against her cheek? Another man's touch? Another man's bed? In *Widow: A Four Letter Word*, humor and tragedy intermingle as a widow looks back at the men in her life and grapples with a persistent suitor wooing her to date and, perhaps, to love again. Explores how the rumors of an alien spacecraft landing in Roswell, New Mexico, in 1947 led to American society's obsession with extraterrestrials and the rise in popularity of science fiction movies, television shows, and books. Examining the female archetypes--the Andro Woman, the Cougar, the Good Doer and others--this fascinating book explores how modern-day women have overdeveloped their masculine attributes, resulting in complications and consequences, and reveals what it truly means to be feminine.
