"Riveting...A great read, full of colorful characters and outrageous confrontations back when the west was still wild." —George R.R. Martin A propulsive and panoramic history of one of the most dramatic stories never told—the greatest railroad war of all time, fought by the daring leaders of the Santa Fe and the Rio Grande to seize, control, and create the American West. It is difficult to imagine now, but for all its gorgeous scenery, the American West might have been barren tundra as far as most Americans knew well into the 19th century. While the West was advertised as a paradise on earth to citizens in the East and Midwest, many believed the journey too hazardous to be worthwhile—until 1869, when the first transcontinental railroad changed the face of transportation. Railroad companies soon became the rulers of western expansion, choosing routes, creating brand-new railroad towns, and building up remote settlements like Santa Fe, Albuquerque, San Diego, and El Paso into proper cities. But thinning federal grants left the routes incomplete, an opportunity that two brash new railroad men, armed with private investments and determination to build an empire across the Southwest clear to the Pacific, soon seized, leading to the greatest railroad war in American history. In *From the River to the Sea*, bestselling author John Sedgwick recounts, in vivid and thrilling detail, the decade-long fight between General William J. Palmer, the Civil War hero leading the "little family" of his Rio Grande, and William Barstow Strong, the hard-nosed manager of the corporate-minded Santa Fe. What begins as an accidental rivalry when the two lines cross in Colorado soon evolves into an all-out battle as each man tries to outdo the other—claiming exclusive routes through mountains, narrow passes, and the richest silver mines in the world; enlisting private armies to protect their land and lawyers to find loopholes; dispatching spies to gain information; and even using the power of the press and incurring the wrath of the God-like Robber Baron Jay Gould—to emerge victorious. By the end of the century, one man will fade into anonymity and disgrace. The other will achieve unparalleled success—and in the process, transform a sleepy backwater of thirty thousand called "Los Angeles" into a booming metropolis that will forever change the United States. Filled with colorful characters and

high drama, told at the speed of a locomotive, *From the River to the Sea* is an unforgettable piece of American history "that seems to demand a big-screen treatment" (The New Yorker). Among the vast cast of characters who people this drama of the Amazon are Francisco de Orellana, the first European to traverse the river from the Andes to the sea; the fiery priest Bartolomé de las Casas, defender of the indigenous peoples; the great scientist explorers Alexander von Humboldt and Alfred Russel Wallace; the madman and psychopath Lope de Aguirre; and the Peruvian Evangeline, Isabel Godin, who in 1769 crossed the continent, braving the terrors of the jungles to reunite with her husband, whom she had not seen in twenty years. *The River Sea* is a compelling account of five centuries of the history, the myths, and the legends of Río Amazonas, the most exotic and fascinating locale on earth. From the River to the Sea: Palestine and Israel in the Shadow of 'Peace' provides original analyses of how different coping strategies were developed as well as new forms of political expression, interaction, and mobilization since the 1993 peace deal between the Palestine Liberation Organization and Israel. Its premise is that an historical realism is essential in order to develop a route out of the post-Oslo impasse that extended and solidified the power imbalance under the auspices of 'peace'. The book includes chapters from experts across the disciplines of anthropology, economics, law, political science and sociology to map out and critically assess the impacts and responses to this 'peace' in different geographical and political settings. These innovative analyses also investigate processes that might enable a future to be built based on greater equality and an end to the oppression and violence that currently exists between the Jordan River and the Mediterranean Sea (and beyond). Follow a little fish on her epic journey downriver as she travels out into the unknown. At first Tally doesn't want to go to the boarding school called Delderton. But she soon discovers that it is a wonderful place where freedom and self-expression are valued. Tally organizes a ragtag dance troupe so the school can participate in an international folk dancing festival in Bergania in the summer of 1939. This fascinating journey along the River Don invites readers to explore the history and folklore of the one of Britain's most beautiful and enchanting rivers. For centuries travelers have been drawn to the stunning and mysterious Dead Sea and Jordan River, a region which is unlike any other on earth in its religious and historical significance. In this exceptionally engaging and readable book, Barbara Kreiger chronicles the natural and human history of these storied bodies of water, drawing on accounts by travelers, pilgrims, and explorers from ancient times to the present. She conveys the blend of spiritual, touristic, and scientific motivations that have driven exploration and describes the modern exploitation of the lake and the surrounding area through mineral extraction and agriculture. Today, both lake and river are in crisis, and stewardship of these water resources is bound up with political conflicts in the region. The Dead Sea and the Jordan River combines history, literature, travelogue, and natural history in a way that makes it hard to put down. Eva Ibbotson's hugely entertaining *The Star of Kazan* is a timeless classic for readers young and old. In 1896, in a pilgrim church in the Alps, an abandoned baby girl is found by a cook and a housemaid. They take her home, and Annika grows up in the servants' quarters of a house belonging to three eccentric Viennese professors. She is happy there, but dreams of the day when her real mother will come to find her. And sure enough, one day a glamorous stranger arrives at the door. After years of guilt and searching, Annika's mother has come to claim her daughter, who is in fact a Prussian aristocrat whose true home is a great castle. But at crumbling, spooky Spittal, Annika discovers that all is not as it seems in the lives of her new-found family . . . These seventeen essays are written in honour of Lorraine Copeland which reflect her interest in the prehistory of the Near East and her belief that river sediments were the key to providing `a preliminary chronological framework for lithic industries' during the Palaeolithic and Neolithic. The majority of the papers, which all begin with French and English abstracts, focus on archaeological investigations, lithic assemblages and environmental remains from specific sites and areas, including the north Levantine rift valley, El Meirah and El Kowm in Syria, neanderthal burials in the Dederiyeh cave in Syria, Mureybet, the Kahabur basin and Tell Sabi

Abyad. Other contributors discuss more general themes such as the idea of frontiers and territories, the transition from the Epipalaeolithic to the Neolithic and the Palaeolithic of the Euphrates Valley in Syria. The papers are supported by numerous illustrations and tables of data. Ten papers in French, seven in English. In the fall of 1948, Ernest Hemingway made his first extended visit to Italy in thirty years. His acquaintance with Venice, a city he loved, provided the inspiration for *Across the River and into the Trees*, the story of Richard Cantwell, a war-ravaged American colonel stationed in Italy at the close of the Second World War, and his love for a young Italian countess. A poignant, bittersweet homage to love that overpowers reason, to the resilience of the human spirit, and to the worldweary beauty and majesty of Venice, *Across the River and into the Trees* stands as Hemingway's statement of defiance in response to the great dehumanizing atrocities of the Second World War. Hemingway's last full-length novel published in his lifetime, it moved John O'Hara in *The New York Times Book Review* to call him "the most important author since Shakespeare."
