They dared to risk it all in a skiff of reeds or leather, on a ship of wood or steel, knowing the only thing between them and certain death was their ship. To explore, to seek out what lay beyond the close and comfortable, every explorer had to embrace danger. And as they did so, what arose was a mystical bond, a passion for the ships that carried them. From the very first time humans dared to warp the fabric of space, escaping from the ashes of the third World War, they also created ships. These

vessels have become the icons of mankind's desire to rise above the everyday, to seek out and make the unknown known. And these ships that travel the stellar seas have stirred the same passions as the ones that floated in the oceans. While every captain has wished that their starship could be outfitted in the same manner as the sailing ship H.M.S. Beagle—without weapons—that proved untenable. From the start, Starfleet realized that each vessel, due to the limited range of the early warp engines, must be able to stand alone against any attack. Thus arose the idea, taken from the days of wooden sailing ships, that every Starfleet vessel must stand as a ship of the line. Through the actions of their captains and crews, countless starships have taken on that role. Here we remember some of those ships and their heroic crews. In celebration of one of science fiction's most beloved franchises, this updated edition of the acclaimed Ships of the Line hardcover collection now includes dozens of additional images

brought together for the first time in book format—spectacular renderings featured in the highly successful Star Trek: Ships of the Line calendar series. With text by Star Trek's own Michael Okuda, the story of each of these valiant starships now comes to life. ™, ®, & © 2014 CBS Studios, Inc. "Wonderful essays on everything steampunk, written by well-known names in the movement who are living steampunk every day" (Wired.com). Steampunk—a grafting of Victorian aesthetic and punk rock attitude onto various forms of science-fiction culture—is a phenomenon that has come to influence film, literature, art, music, fashion, and more. The Steampunk Bible is the first compendium about the movement, tracing its roots in the works of Jules Verne and H. G. Wells through its most recent expression in movies such as Sherlock Holmes. Its adherents celebrate the inventor as an artist and hero, re-envisioning and crafting retro technologies including antiquated airships and robots. A burgeoning DIY community has brought a

distinctive Victorian-fantasy style to their crafts and art. Steampunk evokes a sense of adventure and discovery, and embraces extinct technologies as a way of talking about the future. This ultimate manual will appeal to aficionados and novices alike as author Jeff VanderMeer takes the reader on a wild ride through the clockwork corridors of Steampunk history. Praise for *The Steampunk Bible* “An informed, informative and beautifully illustrated survey of the subject.” —The Financial Times “The Steampunk Bible is far and away the most intriguing catalog of all things steam yet written.” —The Austin Chronicle Based on the runaway web phenomenon (dogshamingdotcom), *Dog Shaming* features the most hilarious, most shameful, and never-before-seen doggie misdeeds. Our dogs are our best friends. They are always happy to see us. They comfort us in our times of need. They also eat our shoes, stain our carpets, and embarrass us in front of our guests. Dog owners everywhere have found their

outlet in *Dog Shaming*, where they can confess their dogs' biggest (and often grossest!) sins, which turn out to be recognizably universal—complete with snapshots of ridiculously cute but shamed pups who don't seem capable of humping humans, pooping on pillows, or snagging steak straight from a grill. So share in the shaming and laugh through your frustration as *Dog Shaming* reminds us that unconditional love goes both ways. The 2014 Stephen King Library Desk Calendar is coming! Featuring the theme of Stephen King's small towns that feature big and unexpected happenings. With *Joyland*, *Doctor Sleep*, and *The Ghost Brothers from Darkland County* Stephen King is celebrating a memorable if not a milestone this year and more.
