This is the only revision guide  
you will need to pass the  
FRCEM Intermediate  
examination. A new edition of  
the popular and successful  
Revision Notes for the MCEM  
Part B, this guide is mapped  
directly to the new FRCEM  
Intermediate syllabus. The  
book is tailored to match all  
areas on which you may be  
tested, allowing candidates to  
revise accurately and  
efficiently for this challenging  
exam. To ensure effective  
revision, information is  
presented in concise notes and  
bullet points with visually

memorable tools, such as  
tables and diagrams. Each  
chapter contains high-quality  
example SAQs so candidates  
can practice their exam  
technique, and 'key points' and  
'exam tips' boxes to highlight  
the most important  
information. Drawing on the  
authors' experience and  
expertise, Revision Notes for  
the FRCEM Intermediate SAQ  
paper is a trustworthy revision  
guide for this difficult and  
clinically focused examination,  
as well as a useful reference  
guide for practicing emergency  
medical doctors. This detailed  
guide is a must for medical  
students preparing for clinical  
attachment and final exams. Its  
wide-ranging approach is also  
ideal for those sitting GP  
entrance exams. Presenting  
short answer questions  
encompassing the entire  
current curriculum, this  
informative revision aid covers  
all bases. This easy to use  
workbook covers all the basic  
sciences in clinical context, and  
includes the full range of  
question types used in medical  
school. It offers comprehensive

advice on how to tackle tricky examinations, how to deal with question types from SAQs to essays, and will stimulate abstract skills like critical thinking and the ability to deliver the key facts. Ideal for the pre-clinical years and USMLE candidates, *Medical Sciences at a Glance: Practice Workbook* features:

- An introductory section featuring step-by-step guidance on exam technique and papers
- Over 390 questions of varying formats - and full explanations to the answers
- A topic-based structure reflecting vital foundation concepts, including anatomy, physiology, pathology and pharmacology

*Medical Sciences at a Glance: Practice Workbook* meets the needs of medical students with a spectrum of educational approaches in mind. Whatever your course type, working through this book will give you the advantage when it comes to basic science exams.

This is the only revision guide you will need to pass the FRCEM Intermediate examination. A new edition of the popular and successful *Revision Notes for the MCEM Part B*, this guide is mapped directly to the new FRCEM Intermediate syllabus. The book is tailored to match all areas on which you may be tested, allowing candidates to revise accurately and efficiently for this challenging exam. To ensure effective revision, information is presented in concise notes and bullet points with visually memorable tools, such as tables and diagrams. Each chapter contains high-quality example SAQs so candidates can practice their exam technique, and 'key points' and 'exam tips' boxes to highlight the most important

information. Drawing on the authors' experience and expertise, Revision Notes for the FRCEM Intermediate SAQ paper is a trustworthy revision guide for this difficult and clinically focused examination, as well as a useful reference guide for practicing emergency medical doctors. This volume contains practice questions for the Short-answer question section of the Clinical Surgery-in-General examination of the new FRCS exam. Full answers are given, as well as short tips on preparing for the examination. Provides a range of short clinical cases with questions and detailed structured answers to test students' problem-solving and decision-making skills in a structured and objective fashion. A concise, exam-orientated revision text that helps candidates prepare for the notoriously difficult SAQ paper for the Fellowship of the Royal College of Anaesthetists (FRCA) Final examination. Contains over 300 short answer questions covering the undergraduate syllabuses

taught in the UK's dental schools. This book contains questions which are grouped by subject, enabling students to focus their revision on their weaker areas. Acute Medicine is the central part of foundation and specialist general medical training and is one of the most rapidly expanding UK hospital specialties. Acute Medicine: Clinical Cases Uncovered combines patient cases and outcomes, drawn from real-life experiences, with reference to the curriculum for Training in General (Acute) Medicine. It provides self-assessment MCQs, EMQs and SAQs to give medical students, junior doctors, nurses and allied healthcare professionals the perfect preparation for life on the wards. Clinical SAQs for the Final FRCEM includes over 200 SAQs which present the reader with clinical cases and diagnostic test results followed by questions. Mapped to the Royal College of Emergency Medicine curriculum, with detailed explanatory answers throughout, this guide ensures

comprehensive exam preparation. Filling a gap for a pre-clinical phase revision guide, this book will help medics pass their intermediate exams in order to proceed to the clinical years. It is based on the SAQs, EMQs and MCQ school curriculum as set out by the GMC. By covering each module individually but also integrating other disciplines of medicine into the questions, it helps students to think laterally as well as thoroughly revising each module. With a minimum of 4 SAQs, 7 MCQs and 3 EMQs in each chapter, this book offers comprehensive revision practice as well as providing all the answers with clear explanations. 'SBAs, EMQs & SAQs in PRACTICE PAPERS provides a broad range and style of questions, not only for medical students preparing for their final exams, but also for clinicians preparing for their postgraduate exams. This book includes over 40 single best answer questions (SBAs), 140 extended matching questions (EMQs) and 25 short answer

questions (SAQs), giving the reader a wide variety of topics to test their exam knowledge and technique. The book also includes a variety of radiological images (abdominal and chest X-rays), ABGs and ECGs for interpretation. It is an invaluable educational resource for exam preparation and to help you succeed. Key features:

- Over 200 questions on the core medical subjects.
- Compiled by a team of junior doctors with recent final exam and postgraduate specialty exam experience.
- Overseen by experienced doctors to ensure relevance and accuracy.
- The broad medical curriculum is covered in a succinct and consistent style.
- Pharmacology and pathology are integrated throughout the text.
- Clear and concise answers are provided.
- Easy accessible information to facilitate revision on the move.
- Enables the reader to assess their knowledge and help identify gaps in their knowledge to target revision.

The following main specialties are covered: Breast surgery;

Cardiology; Dermatology;  
Endocrinology; ENT surgery;  
Fluids & electrolytes;  
Gastroenterology;  
Haematology; Infectious  
diseases; Lower  
gastrointestinal surgery;  
Neurology; Neurosurgery;  
Obstetrics & gynaecology;  
Oncology; Ophthalmology;  
Paediatrics; Psychiatry; Renal  
medicine; Respiratory  
medicine; Rheumatology;  
Statistics; Trauma &  
orthopaedics; Upper  
gastrointestinal surgery;  
Urology; Vascular surgery. •  
Watch out for our other titles  
in the MedQ4exams series:  
Medicine. Surgery. The  
Specialties The One Stop Doc  
books have been designed by  
medical students for medical  
students to consolidate their  
knowledge, subject by subject  
and system by system. For  
each area studied there are  
only so many questions an  
examiner can ask; they are  
presented here with clear  
explanations that allow  
students to revise thoroughly  
one topic at a time. While  
doing so students can also

practise their exam technique.  
Each book includes MCQs,  
EMQs, SAQs and Problem-  
based Questions - exactly the  
kind of questions students will  
get in their exams. Illustrated  
with simple, easy-to-reproduce  
line drawings, medical students  
have in this one volume all that  
they need for exam success.  
This detailed guide is a must  
for medical students preparing  
for clinical attachment and  
final exams. Its wide-ranging  
approach is also ideal for those  
sitting GP entrance exams.  
Presenting short answer  
questions encompassing the  
entire current curriculum, this  
informative revision aid covers  
all bases. Each of the twenty  
separate subject areas  
thoroughly tests you with ten  
or more questions and the  
detailed, comprehensive  
answers reinforce  
understanding. Topic  
summaries are provided to  
strengthen recall and a  
practice paper section is ideal  
for testing yourself under exam  
conditions. This book presents  
medical students and those  
preparing for postgraduate

examinations with an ideal opportunity to assess their levels of knowledge and understanding in obstetrics and gynaecology, and to practice their exam technique across a range of question formats. It can be used as a standalone revision guide, but is also designed to complement the latest editions of the best-selling volumes *Gynaecology by Ten Teachers* and *Obstetrics by Ten Teachers*. Key features:

- Includes an extensive range of question types—EMQs, MCQs, SBAs, SAQs, and OSCEs—providing comprehensive coverage compatible with all relevant examinations
- Fully up-to-date—ensuring prospective candidates practice across all areas on which they will be tested
- Clear and accessible—with concise explanations of answers and directions to the *Ten Teachers* textbooks for those seeking further advice and guidance
- With coverage across the obstetrics and gynaecology curriculum, medical students and those studying for for DRCOG and

MRCOG examinations will find *Self Assessment in Obstetrics and Gynaecology by Ten Teachers* provides invaluable practice and guidelines during the critical revision period. 'SBAs, EMQs & SAQs in MEDICINE' provides a broad range and style of questions, not only for medical students preparing for their final exams, but also for clinicians preparing for their postgraduate exams. This book includes over 200 single best answer questions (SBAs), 400 extended matching questions (EMQs) and 100 short answer questions (SAQs), giving the reader a wide variety of topics to test their exam knowledge and technique. It is an invaluable educational resource for exam preparation and to help you succeed. Key features

- Over 700 questions on the core medical subjects.
- Compiled by a team of junior doctors with recent final exam and postgraduate specialty exam experience.
- Overseen by experienced doctors to ensure relevance and accuracy.
- The broad medical

curriculum is covered in a succinct and consistent style. • Clear and concise answers are provided. • Easy accessible information to facilitate revision on the move. • Enables the reader to assess their knowledge and help identify gaps in their knowledge to target revision. • The following main specialties are covered: - Cardiology; - Respiratory medicine; - Gastroenterology; - Renal medicine; - Endocrinology; - Neurology; - Haematology; - Rheumatology; - Infectious diseases. Watch out for our other titles in the MedQ4exams series: - Surgery - The Specialties - Practice papers This book is an indispensable yet simple reference for the daily use of a medical teacher. It addresses the needs of medical teachers interested in providing instruction and assessment in writing and written language, offering detailed guidance in simple and straightforward language. The book goes beyond mere description; it provides many practical examples, valuable materials

that can be utilized in training workshops and medical educator professional development courses. The book will be of interest to novice and experienced teachers in medical schools, in addition to university teachers in other health professions, such as dentistry, pharmacy, nursing, medical laboratory, physiotherapy, biomedical engineering and veterinary medicine. Final FRCA exam preparation book containing 9 complete 12-question SAQ papers with full model answers, plus practical exam preparation advice. 'SBAs, EMQs & SAQs in SURGERY' provides a broad range and style of questions, not only for medical students preparing for their final exams, but also for those clinicians preparing for their postgraduate exams. technique. It is an invaluable educational resource for exam preparation and to help you succeed. Over 700 questions on the core medical subjects. • Compiled by a team of junior doctors with recent final exam and postgraduate specialty exam experience. • Overseen by experienced doctors to ensure relevance and accuracy. • The broad medical curriculum is covered in a succinct and consistent style. • Clear and concise answers are provided. • Easy accessible information to facilitate revision on the move. • Enables the reader to assess their knowledge and help identify gaps in their knowledge to target revision. • The following main specialties are covered: - Upper gastrointestinal surgery; - Lower gastrointestinal surgery; - Vascular surgery; - Breast surgery; - Urology; - Neurosurgery; - Ear, nose and throat surgery; - Trauma & orthopaedics; - Fluids & electrolytes. Watch out for our other titles in the MedQ4exams series: - Medicine - The Specialties - Practice papers

"MCQs, SAQs, EMQs and OSCEs for Oral Pathology and Oral Medicine-An exam-focused Approach" is designed to serve as a companion to the available textbooks in oral pathology and oral medicine and is meant to serve as a revision tool for dental students and graduates preparing for examinations. The book is structured to complement student lecture notes, recommended textbooks and past exam papers. Globally, the current trend is to use a combination of multiple-choice questions (MCQs), short answer questions (SAQs), extended matching questions (EMQs) and objective structured clinical examination (OSCE) stations in the examination process. Available textbooks in oral pathology and oral medicine are not of much value to students preparing for exams using these assessment formats. The aim of this book therefore is to offer students with a single source that would assist them to prepare for exams. Target audience for this book includes dental students,

oral health therapy and dental hygiene students, overseas-trained dental graduates preparing for board or licensing examinations and those preparing for membership or fellowship examinations of the Royal Surgical Colleges. MRCOG PART 2: 550 MCQs, EMQs and SAQs offers the most up-to-date and comprehensive coverage of practice questions for trainees preparing for the MRCOG Part 2 written exam. Presented in a clear layout, chapters are mapped to the syllabus to deliver structured revision in all the key topics. Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision tool to maximise chances of exam success. 550 questions, comprising 250 MCQs, 250 EMQs and 50 SAQs, reflecting the breadth of topics encountered in the actual exam. Answers feature concise rationales to consolidate knowledge and understanding. Extensive evidence-based referencing to relate theory to

clinical practice SBAs, EMQs & SAQs in the SPECIALTIES provides a broad range and style of questions, not only for medical students preparing for their final exams, but also for clinicians preparing for their postgraduate exams. This book includes over 130 single best answer questions (SBAs), 270 extended matching questions (EMQs) and 78 short answer questions (SAQs), giving the reader a wide variety of topics to test their exam knowledge and technique. It is an invaluable educational resource for exam preparation and to help you succeed. Key features \* Over 470 questions on specialty subjects. \* Compiled by a team of junior doctors with recent final exam and postgraduate specialty exam experience. \* Overseen by experienced doctors to ensure relevance and accuracy. \* The broad medical curriculum is covered in a succinct and consistent style. \* Pharmacology and pathology are integrated throughout the text. \* Clear and concise answers are provided. \* Easy

accessible information to facilitate revision on the move. \* Enables the reader to assess their knowledge and help identify gaps in their knowledge to target revision. \* The following main specialties are covered: - Dermatology - Oncology - Ophthalmology - Obstetrics & Gynecology - Pediatrics; - Psychiatry. Watch out for our other titles in the MedQ4exams series: - Medicine - Surgery - Practice papers Preparing to Pass the FRCA: Strategies for Exam Success equips you with the skills of effective revision and time management to maximise your success. The book takes each element of the FRCA exam and provides tips and techniques on how to approach the different types of questions, and includes worked examples with answers, so that you can undertake your revision accordingly. It will help you to target your revision so you can cover the breadth of topics in the FRCA syllabus and ensure that you structure your revision in an efficient way, as well as helping you to approach

the exam and convey your knowledge through writing or speech correctly. Taking many common problems candidates face when preparing for this exam, the book covers motivation, effective studying, managing nerves, and scheduling time to study amongst other commitments. This important book offers an introduction to the theory and the varying types of assessment for health care professionals. The book includes information on such topics as Where have work based assessments come from?; Why do we have different parts to the same exam like MCQs and OSCEs?; How do colleges decide who has passed or not?; Why can people pick their own assessors for their MSF?; The role of formative assessment Portfolios and their value. The book avoids jargon, is clear and succinct, and gives the pros and cons of the different assessment processes. Get Through MRCOG Part 2: Short Answer Questions is an essential revision guide for

candidates preparing for the MRCOG Part 2 exam. This comprehensive collection of practice Short Answer Questions (SAQs) is designed to help candidates test and assess their own knowledge, aiding thorough preparation for the exam. The book opens with an introduction to the exam and includes advice on how to prepare for it, information on what to expect, and guidance on how to write excellent answers. This is followed by two sections: the first provides a wide range of SAQs divided into obstetric and gynaecological topics, and the second presents six practice exams set out in the format of the actual exam. For each question, the authors highlight the key words in the question, followed by a brief essay plan and then give a worked example answer. The specimen answers indicate how many marks the candidate would obtain for each point made, and are supplemented with valuable extra information and further reading, to enhance understanding and aid further

revision. 'SBAs, EMQs & SAQs in the SPECIALTIES provides a broad range and style of questions, not only for medical students preparing for their final exams, but also for clinicians preparing for their postgraduate exams. This book includes over 130 single best answer questions (SBAs), 270 extended matching questions (EMQs) and 78 short answer questions (SAQs), giving the reader a wide variety of topics to test their exam knowledge and technique and making it an invaluable educational resource for exam preparation and to help you succeed. Key features:

- Over 470 questions on specialty subjects.
- Compiled by a team of junior doctors with recent final exam and postgraduate specialty exam experience.
- Overseen by experienced doctors to ensure relevance and accuracy.
- The broad medical curriculum is covered in a succinct and consistent style.
- Pharmacology and pathology are integrated throughout the text.
- Clear and concise answers are provided.
- Easy

accessible information to facilitate revision on the move.

- Enables the reader to assess their knowledge and help identify gaps in their knowledge to target revision.

- The following main specialties are covered: Dermatology; Oncology; Ophthalmology; Obstetrics & Gynaecology; Paediatrics; Psychiatry.

Watch out for our other titles in the MedQ4exams series: Medicine. Surgery. Practice papers. Get ahead! is a brand new essential revision series for medical and surgical finals. Each title contains practice questions similar to those you can expect in the real exam. The series stands out in its use of subject summaries that include all the detail you would need from a larger textbook—but we've waived the waffle! If you are looking for a comprehensive, reliable, effective revision aid, then look no further than Get ahead! A must-have for Finals success! Revise and prepare for Finals with question papers and comprehensive answers that test your knowledge and help

you learn This question book covers all medical specialties, as well as surgical specialties, paediatrics, orthopaedics, and obstetrics and gynaecology, to provide a fully comprehensive revision and study tool for Finals. Complete SAQs for Medical Finals comprises at least ten questions in each section, in the style seen and used in SAQ Finals papers. Short case scenarios set the scene, from which questions are then taken, and each question is fully explained to help understanding and learning. Featuring two complete practice papers, and written by recently graduated Foundation doctors, this is essential for any medical student preparing for Finals to test understanding, identify weak areas, consolidate knowledge, and hone decision-making skills. SBAs, EMQs & SAQs in PRACTICE PAPERS provides a broad range and style of questions, not only for medical students preparing for their final exams, but also for clinicians preparing for their postgraduate exams. This book

includes over 40 single best answer questions (SBAs), 140 extended matching questions (EMQs) and 25 short answer questions (SAQs), giving the reader a wide variety of topics to test their exam knowledge and technique. The book also includes a variety of radiological images (abdominal and chest X-rays), ABGs and ECGs for interpretation. It is an invaluable educational resource for exam preparation and to help you succeed. Key features: \* Over 200 questions on the core medical subjects. \* Compiled by a team of junior doctors with recent final exam and postgraduate specialty exam experience. \* Overseen by experienced doctors to ensure relevance and accuracy. \* The broad medical curriculum is covered in a succinct and consistent style. \* Pharmacology and pathology are integrated throughout the text. \* Clear and concise answers are provided. \* Easy accessible information to facilitate revision on the move. \* Enables the reader to assess their knowledge and help
