Volumes for 1972- include also scientists from the East European countries. The International Science Congress Association (ISCA) organized the 1st International Science Congress (ISC-2011) at Indore, M.P. India with Science and Technology for Sustainable Development as its focal theme. The congress was hosted by Maharaja Ranjit Singh College of Professional Sciences on 24th and 25th December 2011. It was distributed in 20 sections. A total 900 Research Papers and 1300 registrations all over the world were received. Delegates from Malaysia, Egypt, Bangladesh, Nigeria, Indonesia, Iran, South Africa, Iraq, Mexico, Japan, Uganda, Pakistan, Kingdom of Saudi Arabia, Russia, Latvia, Nepal, Lithuanian and from length and breadth of our nation participated in the ISC-2011. Includes revised issues of each edition. "Mansoor Ahmed's Pakistan's Pathway to the Bomb reveals a new history of Pakistan's nuclear weapons program and the bureaucratic competition that shaped it from its inception in 1956 until the 1998 nuclear tests and beyond. While the enduring security dilemma from India was the chief driver for the country's quest for the bomb, heated domestic rivalries within the country's technocratic community influenced the direction and growth of the nuclear program in equal measure. Ahmed offers a revisionist assessment of the role of Dr. A. Q. Khan, the giant of Pakistan's nuclear program. He reveals the competition between Khan Research Laboratories and the Pakistan Atomic Energy Commission, how A. Q. Khan was able to build a cult of personality that inflated his role in the public mind, and how Khan was able to build a fiefdom largely outside of state control that proliferated nuclear technology abroad. Drawing on elite interviews and previously untapped primary-source documents, this book sheds light on the process by which Pakistan became a nuclear power"--
