Note Investing Nov 24 2020 Real estate investing is a risk, no matter what you are considering to purchase or how experienced you are. Real estate note investing is no small purchase and not devoid of risk either, but if you talk to an investor that has "been there, done that," you are bound to hear the same thing you will hear in this book: It is worth it! Real estate note investing means you purchase the loan from a lender, essentially making you the bank. You are not a landlord and do not own the property (yet....), so you do not need to do any maintenance or physical labor to flip it for profit, like a hard real estate investment requires. Instead, you collect the mortgage payments and enjoy the monthly passive income for the duration of the note. But what happens when the note is not performing? You can still make money there, and in some cases, more than you would if you bought the loan that has a faithful borrower. There are several considerations you need to review before you dive into an investment this size. Once you have done your due diligence and developed a strategy for success, you can expect to see returns on your investment up to 20% in as little as a few months. When you are playing with the

big numbers, this can mean some serious income for you! It is not easy finding these notes to buy or working with borrowers sometimes, so make sure to commit to memory the phrases and tips outlined in this book to make the interactions and processes smooth and effective. In the chapters of this book, enjoy learning the "secrets" note investors live by to create a wealth that boosts their bank accounts immediately and over time, you can achieve this with less effort than a "traditional" real estate investment requires. Highlights of the book include: A brief overview of exactly what a mortgage note is and how it is sold Strategize how to invest in notes for the largest return options How to make money from non-performing liens by making sound investments and clever strategies Discover how to buy notes and who sells them A unique return calculator you can use to determine the profit potential of a note quickly, and also help determine the action you would take to exit the investment Confront the challenges of investing in notes by understanding the concerns and how you can mitigate your risk for the best and highest yield Determine if investing in commercial real estate notes is for you by learning about the different nuances and similarities with residential notes Reference if a state you are considering investing in is a judicial or non-judicial state to help you identify the time it would take for you to see a return on your investment during the foreclosure process Recognize the difference between investing in a rental property and in a mortgage note. You will be surprised at how attractive the note is compared to a hard asset! Learn the difference between buying a junior lien and a senior lien and how to make either work for you. And much, much more!

Profit First May 23 2023 Author of cult classics **The Pumpkin Plan** and **The Toilet Paper Entrepreneur** offers a simple,

counterintuitive cash management solution that will help small businesses break out of the doom spiral and achieve instant profitability. Conventional accounting uses the logical (albeit, flawed) formula: Sales - Expenses = Profit. The problem is, businesses are run by humans, and humans aren't always logical. Serial entrepreneur Mike Michalowicz has developed a behavioral approach to accounting to flip the formula: Sales - Profit = Expenses. Just as the most effective weight loss strategy is to limit portions by using smaller plates, Michalowicz shows that by taking profit first and apportioning only what remains for expenses, entrepreneurs will transform their businesses from cash-eating monsters to profitable cash cows. Using Michalowicz's Profit First system, readers will learn that:

- Following 4 simple principles can simplify accounting and make it easier to manage a profitable business by looking at bank account balances.**
- A small, profitable business can be worth much more than a large business surviving on its top line.**
- Businesses that attain early and sustained profitability have a better shot at achieving long-term growth.**

With dozens of case studies, practical, step-by-step advice, and his signature sense of humor, Michalowicz has the game-changing roadmap for any entrepreneur to make money they always dreamed of.

High-Profit Selling Jan 27 2021 In the high-pressure quest to make a sale, acquire a contract, and beat out other bidders, sales professionals frequently resort to cutting prices, offering discounts, or making other concessions that cut into their operating margins—short-term strategies that are destructive to the long-term sustainability of their business. High-Profit Selling helps readers understand that their sales goal shouldn't simply be to sell more, but to sell more at a higher price—and that success comes only to those focused on profitable sales. This eye-opening book shows readers how to:

- ò Avoid negotiating**
- ò Actively listen to customers**
- ò Match the benefits of their product or service with the customer's needs and pains**
- ò Confidently communicate value**
- ò Successfully execute a price increase with existing customers**
- ò Ensure prospects are serious and not shopping for price**

Too many salespeople believe that a sale at any price is better than no sale at all. This powerful guide helps move readers toward a profit-centered approach that will strengthen their relationships and increase their bottom line.

All Real Estate Is Local Apr 17 2020 Whatever the national trends are with regard to real estate - whether they are booming or busting-what really matters is what the market conditions are in your region, town, or neighborhood. For as David Lereah points out, in the end, all real estate is local. What does that mean? Even during the real estate boom of 2001-2005, a great many cities and regions did not participate in the boom-they lagged behind, or even decreased in value. Similarly, when prices began to fall nationally, there were plenty of regions and locales where prices rose, and sales boomed. As Lereah makes clear, the most important factor in buying or selling a home isn't what is going on nationally-it is what is going on in your local market. Evaluating present and future trends and influences in your region or neighborhood is essential to creating long term wealth, whether you are in a buyer's or a seller's market. And David Lereah, as the Chief Economist for the National Association of Realtors, shows you how to determine the conditions in your neighborhood. Lereah reveals how to: Evaluate the DNA of homes in the town or county or region you are considering (every town has its own real estate DNA-the characteristics that make a region or city more or less desirable to live in). Determine whether property values in your targeted neighborhood are on the rise. Research future real estate influences and trends, from migration into or out of the region, to plans to attract or develop new businesses in the area. Understand the local factors that can affect your investment in the future. Countless books offer advice on how to buy and sell a home. But ALL REAL ESTATE IS LOCAL is the first book to explain how knowing the ins and outs of the local market you are targeting is essential to deciding when, where, and what to buy.

How to Make Money by Selling Land May 31 2021 I can help you learn how to have a better chance of finding property, buying it, and doing the things necessary to sell it for profit. Just do what we do. Here's how it started. I was driving to look at a new property a client called me to list in north Louisiana. I was thinking that this 38-acre listing was right in the sweet spot for the size tracts that many people want for rural home

sites in our region. I wondered if this tract could be bought at a price where we could improve it and make some money on it just like the.....well, just like the last several tracts I had bought over the last year! I had bought, personally and occasionally with a couple of partners, 12 different deals just like this. Well, not identical deals in size and use, but similar in that they were smaller tracts ranging from 12 to 80 acres. I'd never really considered looking at my buying and selling in a context of time and lumping all the deals together into information that I could pass along to others. But this was the idea I just had. Why not talk about how I do it? Why not break down some of the steps I take? Why not explain the things I do to buy and sell a tract for profit? The bite-sized pieces of information could be useful to others who wanted to do the same. I consider myself somewhat of an expert in the rural land brokerage business. I mean, heck...I do own and manage a large regional land brokerage dealing with millions of dollars in listings each year. I do know my way around most types of land tracts. I haven't, however, thought of myself as an expert land investor. Yes, I've been involved in the purchase and sale of thousands of acres - and all made money! - but that's just me doing what I do. An expert? No. Something to teach? Maybe. So, here it is. My steps, thoughts, and actions on how I managed to buy and sell 12 different small tracts in about 18 months...all at a profit. There were two large deals - one over 1000 acres and another at almost 5000 acres - that I was also involved in at the same time. Those deals are different than the 12 I'll use for discussion here. Those deals require a different level of funding and knowledge that may be more than you want to tackle. So, for here, we'll focus on the 12 smaller tracts and see what we can learn. The following chapters are written in a way that they can be plucked out and used as separate pieces of information that can provide a needed piece of guidance along your way. Absorb it all as a whole or pick and choose what you want.
