cover. Harold Pinter said of the graphic artist Andrzej Klimowski,
"He leads the field by a very long furlong, out on his own, making
his own weather. He is Klimowski, unafraid." In the mid-1970s,

Klimowski's fearlessly original artwork caught the eye of leading Polish theatre and film companies, for whom he designed some of the period's most influential and iconic posters. The London-born artist, who moved to Poland at a time when many East Europeans dreamed of going West, went on to create posters for works by filmmakers and playwrights from Scorsese to Altman, Beckett to Brecht. Drawing on folk art, Polish Surrealism and the work of his mentor at the Warsaw Academy, Henryk Tomaszewski, Klimowski uses techniques including photomontage and linocut to create posters that are filled with metaphor, drama and originality. The Klimowski Poster Book compiles the best of his Polish work, while also tracing his career after his return to London, where he remains Emeritus Professor of Illustration at the Royal College of Art -- Publikacja towarzysząca wystawie - "Sign of the times": Manchester Metropolitan University, 17.11.1999 - 31.01.2000. From the author of the hugely successful titles *How Your Horse Moves* and *Horse Anatomy for Performance*, comes a completely different training manual, also based on the *Horses Inside Out* philosophy: 'Understanding Anatomy Improves Performance and Reduces the Risk of Injury'. Divided into three main parts: Principles of Anatomical Riding and Training; Exercises for Horse and Rider; Troubleshooting, the book contains a wealth of practical tips and exercises broken down into easy to follow, well-illustrated steps showing how riders can improve their riding skills and potential. The author suggests ways to improve horses' physique, posture, flexibility, stability, core strength, performance and movement and how to reduce muscular and movement problems, and reduce the risk of injury. Anyone who has ever walked through the gates at a Disney Park knows that there is a magical experience waiting to

be had on the other side. All of the telltale signs are there: the sound of joyful music pipes across the promenade; the smells of popcorn and cookies waft through the air; and the colorful attraction posters depict all the wonderful rides and shows created for Guests by the Imagineers. Poster Art of the Disney Parks is a tribute to those posters, which begin telling the story of each attraction even before Guests have entered the queue area. Disney attraction posters have been an important means of communication since Disneyland began displaying them in 1956. Not only are they eye-catching pieces of artwork that adorn the Parks with flair and style, they are also displayed to build excitement and disseminate information about the newest additions to the Disney landscape. When the first attraction posters made their debut at Disneyland, one such piece of art proclaimed that Guests could have a “true-life adventure” on the Jungle Cruise. And in 2012 at Disney California Adventure, a poster announced the grand opening of Cars Land—the newest thrill-filled destination at the Disneyland Resort. Both of those posters are reproduced within this book, along with posters from every decade in between. As evidenced by the evolution of the attraction posters, art styles and design techniques have certainly changed over the years. These characteristics also differ from continent to continent. Posters from Tokyo Disneyland, Disneyland Paris, and Hong Kong Disneyland exhibit the nuances in presentation that give each Park’s pantheon of posters its signature look. But while artistic interpretations and color palettes may vary from Park to Park and from year to year, the spirit of Disney storytelling is a constant that ties them all together. Decorate your home, office, or dorm room with this set of twelve hilarious posters -- plus a thirteenth bonus poster -- celebrating The Office and your favorite group of Dunder Mifflin employees. I want people to be afraid of how much they love me." -- Michael Scott "Whenever I'm about to do something, I think, 'Would an idiot do that?' And if they would, I do not do that thing." -- Dwight Schrute "Mini cupcakes? As in the mini version of regular cupcakes? Which is already a mini version of cake? Honestly, where does it end with you people?" -- Kevin Malone "Close your mouth, sweetie. You look like a trout." -- Phyllis Lapin-Vance "If you pray enough, you can change yourself into a cat person." -- Angela Martin "Did I stutter?" -- Stanley Hudson And more!

Though international in scope, the book focuses especially on France and England. Ruth E. Iskin argues that the avant-garde poster and the original art print played an important role in the development of a modernist language of art in the 1890s, as well as in the adaptation of art to an era of mass media. She moreover contends that this new form of visual communication fundamentally redefined relations between word and image: poster designers embedded words within the graphic, rather than using images to illustrate a text. Posters had to function as effective advertising in the hectic environment of the urban street. Even though initially commissioned as advertisements, they were soon coveted by collectors. Iskin introduces readers to the late nineteenth-century *òiconophile*—a new type of collector/curator/archivist who discovered in poster collecting an ephemeral archaeology of

modernity. Bridging the separation between the fields of art, design, advertising, and collecting, Iskin's insightful study proposes that the poster played a constitutive role in the modern culture of spectacle. This stunningly illustrated book will appeal to art historians and students of visual culture, as well as social and cultural history, media, design, and advertising. The mighty Ikaris! Better posters mean better research. Distilling over a decade of experience from the popular Better Posters blog, Zen Faulkes will help you create a clear and informative conference poster that delivers maximum impact. Academics have used posters to share research for more than five decades, and tens of thousands of posters are presented at conferences every year. Despite the popularity of the format, no in-depth guide has been available on how to create and deliver compelling conference posters. From over-long titles, tiny text and swarms of logos, to bad font choices, chaotic colour schemes and blurry images - it's easy to leave viewers confused about your poster's message. The solution is Better Posters: a comprehensive guide to everything you need to know - from writing a title and submitting an abstract, to designing the poster and finally presenting it in the poster session. Your conference poster will be one of your first research outputs, and the poster session is your first introduction to a professional community. Making a great poster develops the skills to create publications, reports, outreach and teaching

materials throughout your career. This book also has material for conference organizers on how to make a better poster session for their attendees. The best way to learn history is to visualize it! Since 1998, Josh MacPhee has commissioned and produced over one hundred posters by over eighty artists that pay tribute to revolution, racial justice, women's rights, queer liberation, labor struggles, and creative activism and organizing. Celebrate People's History includes artwork by Cristy Road, Swoon, Nicole Schulman, Christopher Cardinale, Sabrina Jones, Eric Drooker, Klutch, Carrie Moyer, Laura Whitehorn, Dan Berger, Ricardo Levins Morales, Chris Stain, and more. Long-time poster aficionado William Crouse has selected over 300 of the most soughtafter examples of poster art created between the wars for this definitive volume. Organized thematically into subject categories (aviation, communication, fashion and more), this book includes over 300 highly rare and even unique examples by masters of the art form, including Nizzoli, Cassandre and Beall. economic and/or political context of the image. Upgrade your office or home with posters of the adorable, lovable, naughty Pusheen the cat! This collection of over 140 curated posters by the revolutionary graphic artist Seymour Chwast provides context and insight into not only his five-decade career, but the poster genre itself. Since founding Push Pin Studios alongside Milton Glaser and Edward Sorel in the 1950s, Chwast's posters have been widely celebrated for their combination of subversive style and strong political satire. His caustic humor, graphic hand, and visual commentary cleverly synthesize in a way that is both wry and immediately understandable. Posters are arranged by type--Causes, Commerce, Information, Exhibits, and Lectures--rather than chronology, which, along with the large format, invites readers to engage thematically with the designs. Commentary on each poster makes this a valuable resource for students, educators, historians, and all who appreciate the unique ability of posters to subvert notions of popular culture, politics, and design at once. Essays by Shepard Fairey and Steven Heller contextualize Chwast's impact on 20th-century design. For over two hundred years, posters have been displayed in public places all over the world. Visually striking, they have been designed to attract the attention of passers-by, making us aware of a political viewpoint, enticing us to attend specific events, or encouraging us to purchase a particular product or service. Posters have become

highly sought after by collectors, with some of the most popular fetching many thousands of dollars at auction. This remarkable volume is an illustrated overview of posters throughout history. As well, it is a representative survey of mass culture from the time of the French Revolution to the turn of the twenty-first century. Over 480 posters are reproduced here, 280 in full color, selected for both their historical significance and their striking beauty. Author Max Gallo's wonderfully written and informative text, updated by Charles Flowers, recapitulates the social and political currents of the day, establishing the context in which the posters were created. Book jacket. Unencumbered by having actually seen the films they were promoting, these artists were free to improvise, resulting in dramatically different renderings for the same film. Slide, Powell and Berthelsen present the first comprehensive and original research on this art form, and illustrate it with posters that have been lost to the public eye until now.
