Throughout his career, Michael Reisman emphasized law's function in shaping the future. In this wide-ranging collection of essays, major thinkers in the international legal field address the goals of the twenty-first century and how international law can address the needs of the world community. It is increasingly clear that children and the youth today play a significant role in the labour process in Africa. But, to what extent is this role benign? And when and why does this role become exploitative rather than beneficial? This book on children and the youth in Africa sets out to address these questions. The book observes that in Africa today, children are under pressure to work, often engaged in the worst forms of child labour and therefore not living out their role as children. It argues that the social and economic environment of the African child is markedly different from what occurs elsewhere, and goes further to challenge all factors that have combined in stripping children of their childhood and turning them into instruments and commodities in the labour process. It also explains the sources, dynamics,

magnitude and likely consequences of the exploitation of children and the youth in contemporary Africa. The book is an invaluable contribution to the discourse on children, while the case studies are aimed at creating more awareness about the development problems of children and the youth in Africa, with a view to evolving more effective national and global responses. A compelling, radical, "richly explored" (*The New York Times Book Review*), and "insightful" (*Vanity Fair*) collection of essays on art, feminism, neuroscience, psychology, and philosophy from prize-winning novelist Siri Hustvedt, the acclaimed author of *The Blazing World* and *What I Loved*. In a trilogy of works brought together in a single volume, Siri Hustvedt demonstrates the striking range and depth of her knowledge in both the humanities and the sciences. Armed with passionate curiosity, a sense of humor, and insights from many disciplines she repeatedly upends received ideas and cultural truisms. "A Woman Looking at Men Looking at Women" (which provided the title of this book) examines particular artworks but also human perception itself, including the biases that influence how we judge art, literature, and the world. Picasso, de Kooning, Louise Bourgeois, Anselm Kiefer, Susan Sontag, Robert Mapplethorpe, and Karl Ove Knausgaard all come under Hustvedt's intense scrutiny. "The Delusions of Certainty" exposes how the age-old, unresolved mind-body problem has shaped and often distorted and confused contemporary thought in neuroscience, psychiatry, genetics, artificial intelligence, and evolutionary psychology. "What Are We? Lectures on the Human Condition" includes a powerful reading of Kierkegaard, a trenchant analysis of suicide, and penetrating reflections on the mysteries of hysteria, synesthesia, memory and space, and the philosophical dilemmas of fiction. *A Woman Looking at Men Looking at Women* is an "erudite" (*Booklist*), "wide-ranging, irreverent, and absorbing meditation on thinking, knowing, and being" (*Kirkus Reviews*, starred review). Beginning in 1800, *Looking at Men* explores how the modern male body was forged through the intimately linked professions of art and medicine, which deployed muscular models and martial arts to renew the beau idéal. This ideal of the virile body derived from the athletic perfection found in the classical male nude. The study of human anatomy and dissection in both art and medicine underpinned a modern gladiatorial ideal, its representations setting the parameters not just of 'normal' virile masculinity but also its abject 'other'. Through the shared violence of human dissection and martial arts, male artists and medics secured their professional privilege and authority on the bodies of 'roughs'. First and foremost visual, this process has literary parallels in *Frankenstein* and *Jekyll and Hyde*. While embodying signs of dominant power and signalling differences of race, class, gender and sexuality, the virile masculine ideal contained its shadow, the threat of loss, of a Darwinian 'degeneration' that required vigilant intervention to ensure the health of nations. Anthea Callen's lively and intelligent study casts a new eye on contributions by many lesser-known artists, as well as more familiar works by Géricault, Courbet, Dalou and Bazille through to Eakins, Thornycroft, Leighton and Tonks, and includes images that draw on photography and the popular visual cultures of boxing, wrestling and bodybuilding. Callen reassesses ideas of the modern male body and virile manhood in this exploration of the heteronormative, the homosocial and the homoerotic in art, anatomy and nascent anthropology. An accurate picture of ancient religious studies: all papers stress historiography, anthropological history, and philology. Topics range from Mesopotamia to Christianity and rabbinic Judaism. The result is to offer an ambitious and comparatist status quaestionis for today. If Ireland's relations with the Western world have been the object of numerous scientific publications, its links with the East have been neglected by research. The aim of this book is to redress that imbalance by proposing studies of various aspects of

Ireland's interactions with the East. It is a multidisciplinary publication, dealing with some of the historical, political, religious, cultural, demographic and sociological connections between Ireland - both North and South - and the East. The chapters, which offer novel perspectives for the field of Irish studies, are organised in a chronological sequence, from the mid-19th century to the present. They focus on three main areas: the links between Ireland and the Asian continent, notably India, China and Turkey; its interactions with the Jewish people and the state of Israel; and its relations with Eastern European countries, in particular Poland and Lithuania. is a great resource anywhere you go; it is an easy tool that has just the words completed description you want and need! La signification des mots que vous apprendrez vous aidera dans toutes les situations dans la paume de votre main La démocratisation de l'informatique, puis des usages de l'internet, de la téléphonie mobile, ou plus récemment d'autres objets communicants génèrent une profusion de traces numériques gardant en mémoire les actions des usagers. Approuvé par certains qui y voient l'opportunité d'améliorer la sécurité publique, la relation marchande ou encore leur propre confort quotidien, ce constat fait craindre à d'autres l'avènement d'une société de la surveillance érodant le respect de la vie privée. Cet ouvrage étudie la notion d'espace privé à l'ère du numérique. Il montre comment les changements technologiques, de services et d'usages redéfinissent l'acceptation traditionnelle de la vie privée fondée sur des normes, et comment, en complément du dispositif normatif existant, des modalités de régulation appropriables par les individus sont envisagées.

This book explores the nature, significance and consequences of the religious activism surrounding AIDS in Africa. While African religion was relatively marginal in inspiring or contributing to AIDS activism during the early days of the epidemic, this situation has changed dramatically. In order to account for these changes, contributors provide answers to pressing questions. How does the entrance of religion into public debates about AIDS affect policymaking and implementation, church-state relations, and religion itself? How do religious actors draw on and reconfigure forms of transnational connectivity? How do resource flows from development and humanitarian aid that religious actors may access then affect relationships of power and authority in African societies? How does religious mobilization on AIDS reflect contestation over identity, cultural membership, theology, political participation, and citizenship? Addressing these questions, the authors draw on social movement theories to explore the role of religious identities, action frames, political opportunity structures, and resource mobilization in African religions' reaction to the AIDS epidemic. The book's findings are rooted in fieldwork conducted in Tanzania, Uganda, Zambia, Zimbabwe, Ghana, and

Mozambique, among a variety of religious organizations. This book was originally published as a special issue of the *Canadian Journal of African Studies*. Immersing students in the world of French language and culture, *MOTIFS: AN INTRODUCTION TO FRENCH*, Enhanced Sixth Edition, continues to set the standard for first-year French courses. Students learn through lively, culturally authentic contexts that enable them to communicate on larger, real-life themes, such as housing, school, food, work, and relationships. Offering a systematic study of French, the *MOTIFS* program provides the structures, vocabulary, communication strategies, and cultural background that enable students to think critically about different points of view, to share about themselves, and to learn about others. The sixth edition maintains its most popular readings while updating others and adding new readings to foster cross-cultural comparisons. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. *ENCORE* is an intermediate-level proficiency- and communicative-oriented program. Paired with an engaging mystery and suspense film of the same name, *ENCORE* is guided by principles of communicative language teaching and research in second language acquisition. Topics and activities are designed to engage students in higher-level thinking while at the same time providing focused work on aspects of language that instructors in a second-year college-level French course expect to find. All over Africa, an explosion in cultural productions of various genres is in evidence. Whether in relation to music, song and dance, drama, poetry, film, documentaries, photography, cartoons, fine arts, novels and short stories, essays, and (auto)biography; the continent is experiencing a robust outpouring of creative power that is as remarkable for its originality as its all-round diversity. Beginning from the late 1970s and early 1980s, the African continent has experienced the longest and deepest economic crises than at any other time since the period after the Second World War. Interestingly however, while practically every indicator of economic development was declining in nominal and/ or real terms for most aspects of the continent, cultural productions were on the increase. Out of adversity, the creative genius of the African produced cultural forms that at once spoke to crises and sought to transcend them. The current climate of cultural pluralism that has been produced in no small part by globalization has not been accompanied by an adequate pluralism of ideas on what culture is, and/or should be; nor informed by an equal claim to the production of the cultural packaged or not. Globalization has seen to movement and mixture, contact and linkage, interaction and exchange where cultural flows of capital, people, commodities, images and ideologies have meant that the globe has become a space, with new asymmetries, for an increasing intertwinement of the lives of people and, consequently, of a greater blurring of normative definitions as well as a place for re-definition, imagined and real. As this book *Contemporary African Cultural Productions* has done, researching into African culture and cultural productions that derive from it allows us, among other things, to enquire into definitions, explore historical dimensions, and interrogate the political dimensions to presentation and representation. The book therefore offers us an intervention that goes beyond the normative literary and cultural studies main foci of race, difference and identity; notions which, while important in themselves might, without the necessary historicizing and interrogating, result in a discourse that rather re-inscribes the very patterns that necessitate writing against. This book is an invaluable compendium to scholars, researchers, teachers, students and others who specialize on different aspects of African culture and cultural productions, as well as cultural centers and general readers. This book, the first full critical

overview of the film avant-garde, ushers in a new approach—and in the process creates its own subject. While many books have studied particular aspects of the European film avant-garde of the 1920s and 1930s, *Moving Forward, Looking Back* provides a much-needed summary of the theory and practice of the movement, while also emphasizing aspects of the period that have been overlooked. Arguing that a European perspective is the only way to understand the transnational movement, the book also pioneers a new approach to the alternative cinema network that sustained the avant-garde, paying particular attention to the emergence of film culture as visible in screening clubs, film festivals, and archives. It will be essential to anyone interested in the influential movement and the film culture it created. *Dignified Retreat* is a panoramic study of the vibrant literary and intellectual culture that emerged in early seventeenth-century France following the devastating Wars of Religion. This was a period that not only witnessed the recovery of the country following these wars, and the emergence of a strong, 'absolutist' monarchy under the Bourbons, but also the rise and refinement of the French language and the development of a literary culture that would soon be known as French classicism. Casting his net over a wide range of writers and intellectuals, Robert A. Schneider has assembled a roster of more than 100 men and women of letters, those constituting what he calls the 'generation of 1630'. While diverse, and indeed divided between those who hewed to traditional humanism and others more attuned to 'modern' linguistic and literary developments, this cohort largely shared a commitment to a cultural renewal of France, its rise to prominence in the geopolitical arena of Europe, and the emergence of a strong centralized monarchy. They depended on both the traditional aristocracy and the king's powerful minister, Cardinal Richelieu. But despite this dependency, these writers and intellectuals maintained a degree of independence and, more significantly, were the prime movers in crucial cultural developments that are too often identified with royal initiatives. For example, the author demonstrates that the Académie française, founded in 1635 by Richelieu, often considered formative in French cultural history, was actually more the result of the creative initiatives of these men of letters, which the savvy Cardinal only managed to co-opt and turn to the purposes of the crown.

Menschenrechtsdiskussionen, globale (Sozial-) Politik und die Bemühungen der UN für Menschliche Entwicklung ("Human Development") und Menschliche Sicherheit ("Human Security") geraten in zwei grundsätzliche "Sackgassen" Zum einen wird ein bestimmtes Modell von existierenden "entwickelten Staaten", d.h. mit hoch entwickeltem Kapitalismus, als einziges Ideal vorgestellt, ohne dass andere fortschrittliche Modelle ernsthaft berücksichtigt werden. Eine mögliche denkbare Alternative ist höchstens die romantisierende Vorstellung einer "guten" Gesellschaft, welche sich in vielen Fällen auf eine Art naive "Güte" einer indigenen Lebensweise bezieht. Zum anderen wird - nicht fern der erwähnten Alternativen - auf abstrakte Konzepte von Gerechtigkeit und Freiheit etc. hingewiesen, auf moralische Aussagen, die jedoch zur Trennung von systematischem sozioökonomischem ebenso wie politisch-rechtlichem Denken führen. Der vorliegende Band versucht, aus sozial-philosophischer Perspektive die politische Ökonomie und das Sozialrecht zusammenzuführen, um ein Verständnis von allgemeiner Verantwortung für soziale Qualität weltweit zu entwickeln. Besondere Beiträge sind eine Einführung in den theoretischen Ansatz der sozialen Qualität, ein Exkurs über islamische Gesellschaften und ein Exkurs hinsichtlich asiatischer Sichtweisen. Das Buch "Social Quality - Looking for a Global Social Policy" mit dem Untertitel "Attempting an Approximation to the Analysis of Distances of Social Systems" ist der zweite Band der Serie "Studien zu vergleichender Sozialpädagogik und internationaler Sozialarbeit und Sozialpolitik", welche eine Fortsetzung der fast gleichnamigen

Serie ist, die von Franz Ham-burger beim Schäuble Verlag, Rheinfelden herausgegeben wurde. Die Serie thematisiert problemorientiert sozialpädagogischen Theorien und die Arbeit sozialer Strukturen im internatio-nalen Rahmen und Vergleich. Dabei wird die Serie als ein Forum für Diskussionen und Ver-öffentlichungen begriffen, "Art cinema" has for over fifty years defined how audiences and critics imagine film outside Hollywood, but surprisingly little scholarly attention has been paid to the concept since the 1970s. And yet in the last thirty years art cinema has flourished worldwide. The emergence of East Asian and Latin American new waves, the reinvigoration of European film, the success of Iranian directors, and the rise of the film festival have transformed the landscape of world cinema. This book brings into focus art cinema's core internationalism, demonstrating its centrality to understanding film as a global phenomenon. The book reassesses the field of art cinema in light of recent scholarship on world film cultures. In addition to analysis of key regions and films, the essays cover topics including theories of the film image; industrial, aesthetic, and political histories; and art film's intersections with debates on genre, sexuality, new media forms, and postcolonial cultures. Global Art Cinema brings together a diverse group of scholars in a timely conversation that reaffirms the category of art cinema as relevant, provocative, and, in fact, fundamental to contemporary film studies. Looking for the Proletariat is the first English-language history of the French revolutionary group Socialisme ou Barbarie from 1949 to 1957. It explores the group, its contexts and the collapse of the Marxist Imaginary captured in texts by Daniel Mothé. Although gender and non-gender scholars have studied men, such an academic exercise requires a critical and focused study of masculine subjects in particular social contexts, which is what this book attempts to do. This empirically rich collection of essays, the seventh of the CODESRIA Gender Series, deals with critical examinations of various shades and ramifications of Africa's masculinities and what these portend for the peoples of Africa and for gender relations in the continent. So much has changed in terms of notions and expressions of masculinities in Africa since ancient times, but many aspects of contemporary masculinities were fashioned during and since the colonial period. The papers in this volume were initially discussed at the 2005 month-long CODESRIA Gender Institute in Dakar. The contributors are gender scholars drawn from various disciplines in the wide fields of the humanities and the social sciences with research interests in the critical study of men and masculinities in Africa. The CODESRIA Gender Series aims at keeping alive and nourishing the African social science knowledge base with insightful research and debates that challenge conventional wisdom, structures and ideologies that are narrowly informed by caricatures of gender realities. The series strives to showcase the best in African gender research and provide a platform for emerging new talents to flower. Thinking in Search of a Language explores American literary and philosophical traditions, and their intimate connections, by focusing on two defining strands in the intellectual history of the United States. The first half of the book offers a multifaceted interpretation of Emerson's constantly shifting early-modernist thought-"I liked everything by turns and nothing long," he said memorably-and its legacy in American writing. The second half turns to the modernists themselves and the pluralistic and radical-empiricist ways in which they engaged the world philosophically. Herwig Friedl's broad and deep examination of American thought, which also incorporates the international context and response, illuminates the global significance of the American intellectual tradition. Tying together all of these essays is the persistent question and problem of an adequate language or terminological framework as one kind of interpretive leitmotif. This reflects the fact that Friedl's sensibility is steeped in a cross-pollination of continental and American thought, a combination

that recalls-and is as revelatory as-the work of Stanley Cavell. Mediation, monarchy, and Louis XIV's attempts to legitimize his reign In order to assert his divine right, Louis XIV missed no opportunity to identify himself as God's representative on earth. However, in Sunspots and the Sun King Ellen McClure explores the contradictions inherent in attempting to reconcile the logical and mystical aspects of divine right monarchy. McClure analyzes texts devoted to definitions of sovereignty, presents a meticulous reading of Louis XIV's memoirs to the crown prince, and offers a novel analysis of diplomats and ambassadors as the mediators who preserved and transmitted the king's authority. McClure asserts that these discussions, ranging from treatises to theater, expose incommensurable models of authority and representation permeating almost every aspect of seventeenth-century French culture. For British playwright, John Osborne, there are no brave causes; only people who muddle through life, who hurt, and are often hurt in return. This study deals with Osborne's complete oeuvre and critically examines its form and technique; the function of the gaze; its construction of gender; and the relationship between Osborne's life and work. Gilman has also traced the evolution of Osborne's reception by turning to critical reviews at the beginning of each chapter. This volume draws together highly detailed studies of how dictionaries are used by different types of users, from school students to senior professors, working with a foreign language with the help of different types of dictionaries, from monolingual dictionaries for native speakers of the foreign language, through bilingual dictionaries, to monolingual dictionaries in the language of the user. The tasks being carried out include L2-L1 translation, L1-L2 translation, L2 comprehension, self-expression in L2, and various project-specific linguistic exercises. The authors have tried to include enough detail to allow readers to replicate the tests, and adapt them to serve their own interests. Après avoir cofondé la première revue homosexuelle canadienne, la poète Elsa Gidlow, 21 ans, décide de quitter Montréal en 1920, déçue par le manque de possibilités amoureuses que lui offre alors la ville. Le réseau d'amis masculins homosexuels qu'elle a intégré au cours des années précédentes ne manque toutefois pas d'occasions de trouver des partenaires. En effet, même si l'homosexualité est considérée comme un crime depuis l'époque coloniale, une culture gaie masculine, qui était pratiquement inexistante avant 1880, s'est largement épanouie depuis le début du siècle. Grossières indécences retrace les origines de cette culture clandestine complexe et fascinante. Dominic Dagenais a consulté à rebours des archives produites en grande partie par la surveillance et la persécution, soit des dossiers judiciaires, des articles de journaux, de la correspondance, des archives personnelles, des publications médicales et des dossiers d'enquêtes publiques pour

mettre au jour le contexte répressif dans lequel les identités homosexuelles contemporaines se sont construites et pour découvrir les espaces publics investis par le monde homosexuel montréalais au tournant du XXe siècle. Dans une ville marquée par le fleurissement des loisirs commerciaux et les trépidations de son quartier chaud, des hommes, mais aussi quelques femmes, ont déployé diverses stratégies pour se rencontrer et pour nouer des relations. Des rencontres risquées surviennent ainsi dans les rues, ruelles, magasins, parcs, théâtres et toilettes publiques de la ville. Un monde homosexuel riche et diversifié prend forme à Montréal au tournant du XXe siècle, en dépit d'une surveillance policière de plus en plus élaborée et des lourdes sanctions pénales auxquelles s'exposent les individus se livrant à des rapports homosexuels, considérés alors comme une grossière indécence et comme le pire des vices. Ce livre documente son histoire inédite. A Finalist for the Los Angeles Times Book Prize in History

Explores the meaning of fat and anti-fat in modern Western society The modern struggle against fat cuts deeply and pervasively into American culture, as evidenced by the compulsion to stay thin, or at least to profess a desire to become thin. Dieting, weight consciousness and widespread hostility to obesity form one of the fundamental themes of modern life in countries around the world. Yet, for example, while the French are renowned for their delight in all things gustatory, they are significantly trimmer and less diet-obsessed than Americans. Fat History explores the meaning of fat and anti-fat in modern Western society, focusing on the uniquely moral component of dieting in America. Tracing how standards of beauty and physical morality have been radically transformed over the past century in the United States and France, Peter N. Stearns illustrates how the contemporary obsession with fat arose in tandem with the dramatic growth in consumer culture, women's increasing equality, and changes in women's sexual and maternal roles. Contrary to popular belief, fashion and nutrition have played only a secondary role in spurring the American aversion to fat, while the French distaste for obesity can be traced to different origins altogether. Filled with narrative anecdotes and rooted in Stearns' trademark use of engaging original sources—from Ebony and Gourmet to The Journal of the American Medical Association and popularized accounts of French doctors—Fat History explores fat's transformation from a symbol of health and well-being to a sign of moral, psychological, and physical disorder.
