**Tree Song Jul 20 2023 Listen to the music of the trees. This joyful book follows the life cycle of a tree as it**

**grows from seedling to mature tree, and finally gives way to a new sapling. At every stage of the tree's life, children are seen playing under its branches. Each season brings with it new sounds, whether it's the chirping of birds in the spring or the flutter flutter of leaves in the fall. As well as a home for animals, the tree provides a canopy for a summer picnic, and a perfect place to hang a swing. Most important of all, when old age fells the tree, it provides an acorn from which a new tree will grow. Colorful illustrations with lots of small details will capture the attention of young readers, while the lyrical text makes this an ideal read-aloud book. It can also serve as the perfect introduction to nature's life cycles.**

***The Tree in Me* May 26 2021 A stunning and sensitive portrait of the strength within each of us and the nourishment we receive from the natural world, by the New York Times bestselling creator of the acclaimed *My Heart* and *The Book of Mistakes Through* poetic text and exquisite illustrations of children reveling in nature, this picture book explores the various ways we as human beings are strong, creative, and connected to others. Each of us is like a tree, with roots and fruit, and an enduring link to everything else in nature. "The tree in me is strong. It bends in the wind, and has roots that go deep . . . to where other roots reach up toward their own trunk-branch-crown and sky." As Corinna Luyken did in her award-winning *My Heart*, she again provides an invigorating conversation-starter that contains a world of truths--about self-**

The Tree Book Jul 16 2020 Identifies and discusses the more than thirty different kinds of trees found in North America.

*Why Monkeys Live in Trees and Other Stories from*

**Benin Feb 03 2022** This is a book for both young and old lovers of folklore. **Why Monkeys Live in Trees and Other Stories from Benin** is a rich tapestry of oral tales that come from a wide range of Beninese ethnic groups. They include trickster tales and sacred tales involving the greatest and meanest of mankind, as well as nature and the world of spirits. These ageless tales remind us of the power of love, the perils of greed and pride, and the redemptive virtues of courage, humility, and kindness. The Western African Republic of Benin (formerly Dahomey) is gifted with a great folktale tradition, one of the richest in the world. As pieces of oral literature and cultural history, these tales shed light on some of the values and beliefs as well as the customs and traditions of the people of Benin

**A Tree Place and Other Poems Dec 13 2022** A collection of forty poems about nature and the outdoor world.

**How I Became a Tree Sep 29 2021** An exquisite, lovingly crafted meditation on plants, trees, and our place in the natural world, in the tradition of Robin Wall Kimmerer's *Braiding Sweetgrass* and Annie Dillard's *Pilgrim at Tinker Creek* "I was tired of speed. I wanted to live tree time." So writes Sumana Roy at the start of *How I Became a Tree*, her captivating, adventurous, and self-reflective vision of what it means to be human in the natural world. Drawn to trees' wisdom, their nonviolent way of being, their ability to cope with loneliness and pain, Roy movingly

**explores the lessons that writers, painters, photographers, scientists, and spiritual figures have gleaned through their engagement with trees—from Rabindranath Tagore to Tomas Tranströmer, Ovid to Octavio Paz, William Shakespeare to Margaret Atwood. Her stunning meditations on forests, plant life, time, self, and the exhaustion of being human evoke the spacious, relaxed rhythms of the trees themselves. Hailed upon its original publication in India as “a love song to plants and trees” and “an ode to all that is unnoticed, ill, neglected, and yet resilient,” *How I Became a Tree* blends literary history, theology, philosophy, botany, and more, and ultimately prompts readers to slow down and to imagine a reenchanting world in which humans live more like trees.**

***Another Way to Climb a Tree* Nov 12 2022 When Lulu's feeling well, she climbs every tree in sight, especially the tallest ones, the ones with the widest branches, the ones with the stickiest sap. But when Lulu's sick, she's not allowed outside. She wonders if the trees are lonely without her. Maybe the birds are too. Without Lulu, nobody climbs the trees but the sun. . . which casts a shadow on Lulu's wall. . . for her to climb. A Neal Porter Book**

**Can You Hear the Trees Talking? Oct 19 2020 Based on the New York Times bestseller *The Hidden Life of Trees*, this interactive, illustrated book for ages 8-10 introduces kids to the forest through outdoor activities, quizzes, fun facts, photographs, and more!**

**Discover the secret life of trees with this nature and science book for kids: *Can You Hear the Trees Talking?* shares the mysteries and magic of the forest with young readers, revealing what trees feel, how they communicate, and the ways trees take care of their families. The author of *The Hidden Life of Trees*, Peter Wohlleben, tells kids about the forest internet, aphids who keep ants as pets, nature's water filters, and more fascinating things that happen under the canopy. Featuring simple activities kids can try on their own or with parents, along with quizzes, photographs, and more, *Can You Hear the Trees Talking?* covers a range of amazing topics including: : How trees talk to each other (hint: through the wood wide web!) Why trees are important in the city How trees make us healthy and strong How trees get sick, and how we can help them get better This engaging and visually stunning book encourages at-home learning and fun as kids discover the wonder of the natural world outside their windows. "Lush full-color photos and pictures create an immersive experience and the layout facilitates engaged, delighted learning. ...this book may prompt frequent family visits to, and a new appreciation for, neighborhood trees and local forests." —Washington Parent**

***I'm Glad There Are Trees and Other Plants* Apr 24 2021 Come on a walk in the forest and find out about the trees and other plants that live in our wonderful world. You'll discover a walking palm, why woodpeckers peck trees and meet the tallest tree in**

**the world! I'm Glad There Are is series of brightly illustrated non-fiction titles exploring the things we are grateful for in the natural world around us. The books encourage children aged 6 plus to observe the natural world, and to appreciate and learn about ways to protect it. Each book includes simple activities to try. Titles in the series: Bees and Other Bugs Trees and Other Plants Clouds and Rain Stars and the Moon Oceans and Seas Humans and Other Animals**

**A Family Tree, and Other Stories Aug 17 2020**

***The Giving Tree* Mar 16 2023 As The Giving Tree turns fifty, this timeless classic is available for the first time ever in ebook format. This digital edition allows young readers and lifelong fans to continue the legacy and love of a classic that will now reach an even wider audience. "Once there was a tree...and she loved a little boy." So begins a story of unforgettable perception, beautifully written and illustrated by the gifted and versatile Shel Silverstein. This moving parable for all ages offers a touching interpretation of the gift of giving and a serene acceptance of another's capacity to love in return. Every day the boy would come to the tree to eat her apples, swing from her branches, or slide down her trunk...and the tree was happy. But as the boy grew older he began to want more from the tree, and the tree gave and gave and gave. This is a tender story, touched with sadness, aglow with consolation. Shel Silverstein's incomparable career as a bestselling children's book author and illustrator began with *Lafcadio*, the *Lion***

**Who Shot Back.** He is also the creator of picture books including **A Giraffe and a Half, Who Wants a Cheap Rhinoceros?, The Missing Piece, The Missing Piece Meets the Big O,** and the perennial favorite **The Giving Tree,** and of classic poetry collections such as **Where the Sidewalk Ends, A Light in the Attic, Falling Up, Every Thing On It, Don't Bump the Glump!, and Runny Babbit.** And don't miss the other Shel Silverstein ebooks, **Where the Sidewalk Ends and A Light in the Attic!**

**The Hidden Life of Trees: What They Feel, How They Communicate** Apr 17 2023 Sunday Times Bestseller 'A paradigm-smashing chronicle of joyous entanglement' Charles Foster Waterstones Non-Fiction Book of the Month (September) Are trees social beings? How do trees live? Do they feel pain or have awareness of their surroundings?

**Illustrated Book of Trees** Jul 08 2022 Completely revised and updated. More than 30 new species described and illustrated.

***The Tangled Tree*** Dec 21 2020 In this New York Times bestseller and longlist nominee for the National Book Award, "our greatest living chronicler of the natural world" (The New York Times), David Quammen explains how recent discoveries in molecular biology affect our understanding of evolution and life's history. In the mid-1970s, scientists began using DNA sequences to reexamine the history of all life. Perhaps the most startling discovery to come out of this new field—the study of life's diversity and relatedness at

**the molecular level—is horizontal gene transfer (HGT), or the movement of genes across species lines. It turns out that HGT has been widespread and important; we now know that roughly eight percent of the human genome arrived sideways by viral infection—a type of HGT. In *The Tangled Tree*, “the grandest tale in biology....David Quammen presents the science—and the scientists involved—with patience, candor, and flair” (Nature). We learn about the major players, such as Carl Woese, the most important little-known biologist of the twentieth century; Lynn Margulis, the notorious maverick whose wild ideas about “mosaic” creatures proved to be true; and Tsutomu Wantanabe, who discovered that the scourge of antibiotic-resistant bacteria is a direct result of horizontal gene transfer, bringing the deep study of genome histories to bear on a global crisis in public health. “David Quammen proves to be an immensely well-informed guide to a complex story” (The Wall Street Journal). In *The Tangled Tree*, he explains how molecular studies of evolution have brought startling recognitions about the tangled tree of life—including where we humans fit upon it. Thanks to new technologies, we now have the ability to alter even our genetic composition—through sideways insertions, as nature has long been doing. “The Tangled Tree is a source of wonder....Quammen has written a deep and daring intellectual adventure” (The Boston Globe).**

**The Persimmon Tree and Other Stories Nov 19 2020 In**

**this collection of symbolic short stories, the author delves into the experience of women, the bonds which exist between them and the nature of their relationships with men.**

**Tree Rings and Natural Hazards Sep 17 2020**

**Dendrogeomorphology Beginnings and Futures: A Personal Reminiscence** My early forays into dendrogeomorphology occurred long before I even knew what that word meant. I was working as a young geoscientist in the 1960s and early 1970s on a problem with slope movements and deformed vegetation. At the same time, unknown to me, Jouko Alestalo in Finland was doing something similar. Both of us had seen that trees which produced annual growth rings were reacting to geomorphic processes resulting in changes in their internal and external growth patterns. Dendroclimatology was an already well established field, but the reactions of trees to other environmental processes were far less well understood in the 1960s. It was Alestalo (1971) who first used the term, dendrogeomorphology. In the early 1970s, I could see that active slope-movement processes were affecting the growth of trees in diverse ways at certain localities. I wanted to learn more about those processes and try to extract a long-term chronology of movement from the highly diverse ring patterns.

**The Catalpa Tree Fairy and Other Stories Dec 01 2021**

**The Catalpa Tree Fairy and Other Stories** is a collection of short stories inspired by the author's own

life, with a healthy dose of fantasy. Paul enjoys the company of a beautiful songbird, and Zoe has a favorite professor who turns out to be even more unusual than she first thought. Maria meets an interesting old woman and her cat living in the forest. Over the course of the summer Maria learns all about the different birds that come to eat at her table. Joey always wanted a pet and is delighted when a special cat chooses to live with him. Astrid is a young mermaid whose love of dolphins helps her learn to sing. Naida and her little group of young tree fairies learn how to take care of their newly assigned trees, and each other.

*Fish in a Tree* Jan 02 2022 "Fans of R.J. Palacio's *Wonder* will appreciate this feel-good story of friendship and unconventional smarts." —Kirkus Reviews Ally has been smart enough to fool a lot of smart people. Every time she lands in a new school, she is able to hide her inability to read by creating clever yet disruptive distractions. She is afraid to ask for help; after all, how can you cure dumb? However, her newest teacher Mr. Daniels sees the bright, creative kid underneath the trouble maker. With his help, Ally learns not to be so hard on herself and that dyslexia is nothing to be ashamed of. As her confidence grows, Ally feels free to be herself and the world starts opening up with possibilities. She discovers that there's a lot more to her—and to everyone—than a label, and that great minds don't always think alike. The author of the beloved *One for*

**Finding the Mother Tree May 06 2022 INSTANT NATIONAL BESTSELLER NEW YORK TIMES BESTSELLER \*WINNER of the 2021 Banff Mountain Book Prize in Mountain Environment and Natural History\* \*WINNER of the National Outdoor Book Award for Natural History Literature\* \*SHORTLISTED for the 2022 BC and Yukon Hubert Evans Non-Fiction Book Prize\* \*SHORTLISTED for the 2022 BC and Yukon Bill Duthie Booksellers' Choice Award\* \*SHORTLISTED for the 2021 Science Writers and Communicators of Canada Book Award\* A world-leading expert shares her amazing story of discovering the communication that exists between trees, and shares her own story of family and grief. Suzanne Simard is a pioneer on the**

frontier of plant communication and intelligence; she's been compared to Rachel Carson, hailed as a scientist who conveys complex, technical ideas in a way that is dazzling and profound. Her work has influenced filmmakers (the Tree of Souls in James Cameron's Avatar), and her TED talks have been viewed by more than 10 million people worldwide. Now, in her first book, Simard brings us into her world, the intimate world of the trees, in which she brilliantly illuminates the fascinating and vital truths—that trees are not simply the source of timber or pulp but are a complicated, interdependent circle of life; that forests are social, cooperative creatures connected through underground networks by which trees communicate their vitality and vulnerabilities with communal lives not that different from our own. Simard describes up close—in revealing and accessible ways—how trees, living side by side for hundreds of years, have evolved; how they perceive one another, learn and adapt their behaviors, recognize neighbors, and remember the past; how they have agency about their future; how they elicit warnings and mount defenses, compete and cooperate with one another with sophistication: characteristics previously ascribed to human intelligence, traits that are the essence of civil societies. And, at the center of it all, the Mother Trees: the mysterious, powerful forces that connect and sustain the others that surround them. Simard, born and raised in the rain forests of British Columbia, spent her days as a child cataloging the trees from the

**forest; she came to love and respect them and embarked on a journey of discovery and struggle. Her powerful story is one of love and loss, of observation and change, of risk and reward. And it is a testament to how deeply human scientific inquiry exists beyond data and technology: it's about understanding who we are and our place in the world. In her book, as in her groundbreaking research, Simard proves the true connectedness of the Mother Tree to the forest, nurturing it in the profound ways that families and humansocieties nurture one another, and how these inseparable bonds enable all our survival.**

**Hug a Tree Apr 05 2022 Ideas and activities involving the natural environment.**

***Picture a Tree Oct 11 2022* Picture a tree - what do YOU see? Picture a tree, from every season, and from every angle. These wondrous beings give shade and shelter. They protect, and bring beauty to, any landscape. Now look again. Look closer. A tree's colours both soothe and excite. Its shape can ignite the imagination and conjure a pirate ship, a bear cave, a clubhouse, a friend; an ocean, a tunnel, and a home sweet home. Its majestic presence evokes family, growth, changes, endings and new beginnings. Picture a tree - what do you see? The possibilities are endless. In this gorgeous new picture book, Barbara Reid brings her vision, her craft, and her signature Plasticine artwork to the subject of trees. Each page is a celebration, and you will never look at trees in quite the same way again.**

**The Tree Book Jun 19 2023 Discover the amazing world of trees in this incredible inventive board book with see-through acetate pages.**

**Trees of Power Mar 24 2021 Trees are our allies in maintaining a healthy planet. Partnering with trees allows us to build soil, enhance biodiversity, increase wildlife populations, grow food and medicine, and pull carbon out of the atmosphere. Trees of Power by Akiva Silver shares a step-by-step path toward working with these arboreal allies, from planting to propagation to understanding the multiple benefits that ten of our most essential tree species - the chestnut, apple, hickory, and more - provide for humans, animals, and nature alike. In this book you'll learn how to work successfully with perennial woody plants. It includes in-depth information on individual species and different ways to propagate trees - whether by seed, grafting, layering, or with cuttings. These time-honored techniques make it easy for anyone to increase their stock of trees simply and inexpensively. Silver's combination of hands-on experience and sincere exuberance for the natural world will inspire a new generation of tree stewards while appealing to anyone who feels a deep appreciation for these magnificent plants.--COVER.**

**Edible Trees Jun 14 2020 When we think of edible trees we tend to focus on a few common varieties that give us fruit. However, many excellent less well-known trees can produce edible flowers, oil, seed, nuts, leaves, sap and bark as well as fruit. Many also have**

**important medicinal applications. We also identify other uses of products derived from these trees, including fibres for clothes, rope and paper, oils for lubricants, fuels, water proofing and wood preservatives, dyes, construction materials, and more. In this book we describe 50 of our favourite edible trees, each one illustrated and arranged alphabetically by common name. Complementing the images is a physical description of each species, and information on their origin, growth-habit, preferred hardiness zone, edible and medicinal ratings, known hazards, weed potential, propagation, care and cultivation. This book describes and provides advice on growing Plants For A Future's favourite edible trees.**

**The Island of Missing Trees May 14 2020 A REESE'S BOOK CLUB PICK Winner of the 2022 BookTube Silver Medal in Fiction \* Shortlisted for the Women's Prize for Fiction "A wise novel of love and grief, roots and branches, displacement and home, faith and belief. Balm for our bruised times." -David Mitchell, author of Utopia Avenue A rich, magical new novel on belonging and identity, love and trauma, nature and renewal, from the Booker-shortlisted author of 10 Minutes 38 Seconds in This Strange World. Two teenagers, a Greek Cypriot and a Turkish Cypriot, meet at a taverna on the island they both call home. In the taverna, hidden beneath garlands of garlic, chili peppers and creeping honeysuckle, Kostas and Defne grow in their forbidden love for each other. A fig tree stretches through a cavity in the roof, and this tree bears**

witness to their hushed, happy meetings and eventually, to their silent, surreptitious departures. The tree is there when war breaks out, when the capital is reduced to ashes and rubble, and when the teenagers vanish. Decades later, Kostas returns. He is a botanist looking for native species, but really, he's searching for lost love. Years later a *Ficus carica* grows in the back garden of a house in London where Ada Kazantzakis lives. This tree is her only connection to an island she has never visited--- her only connection to her family's troubled history and her complex identity as she seeks to untangle years of secrets to find her place in the world. A moving, beautifully written, and delicately constructed story of love, division, transcendence, history, and eco-consciousness, *The Island of Missing Trees* is Elif Shafak's best work yet.

**Environmental Economics for Tree Huggers and Other Skeptics** Jan 14 2023 Though many students and environmentalists shudder at even the thought of economics, a working knowledge of the basics can be a powerful ally. Economic arguments carry a great deal of weight, and putting them to work for environmental causes can be a deciding factor, especially in policy debates. The reverse is true as well, and an understanding of the possibly flawed, misleading, or overstated economics behind an opponent's case can be crucially important. **Environmental Economics for Tree Huggers and Other Skeptics** carefully explains the tools of economic

**analysis and shows how they can be used to help reveal the root causes of and potential solutions for environmental and natural resource problems. Jaeger's proven techniques and wonderfully conversational tone assume no economics training, and his presentation of the material is designed to facilitate clarity. His step-by-step approach unearths surprisingly simple, easy-to-remember principles and shows how to apply them to real-world environmental problems. Those with exposure to introductory microeconomics will find *Environmental Economics for Tree Huggers and Other Skeptics* to be a welcome refresher. Undergraduate and graduate students of environmental studies, resource management, law, policy, and related fields, as well as novices who are skeptical of how the field could possibly help them in their own efforts, will be pleasantly surprised.**

**20 Ways to Draw a Tree and 44 Other Nifty Things from Nature Oct 31 2021** DIVThis inspiring sketchbook is part of the new 20 Ways series from Quarry Books, designed to offer artists, designers, and doodlers a fun and sophisticated collection of illustration fun. Each spread features 20 inspiring illustrated examples of a single item, such as a tree, tulip, shell, owl, peacock feather, mushroom, cloud, or berry.-with blank space for you to draw your take on “20 Ways to Draw a Tree.” /divDIVThis is not a step-by-step technique book--rather, the stylized flowers, trees, leaves, and clouds are simplified, modernized, and reduced to the most basic elements, showing you how simple abstract shapes and forms meld to create the building blocks of any item that you want to draw. Each of the 20 interpretations provides a different, interesting approach to drawing a single item, providing loads of inspiration for your own drawing. Presented in the author’s uniquely creative style, this engaging and motivational practice book provides a new take on the world of sketching, doodling, and designing. /divDIVGet out your favorite drawing tool, and remember, there are not just 20 Ways to Draw a Tree!/div

**Who Will Plant a Tree? Jan 22 2021** A squirrel buries an acorn. A dolphin pushes a coconut into an ocean current. A camel chewing a date spits out the seed. What do they all have in common? Each one, in its own way, has helped to plant a tree. In myriad ways and diverse environments, Mother Nature is given a hand

**in dispersing seeds that eventually grow into trees. From the apple seeds falling off the sticky fur of a black bear to the pine seed carried by an army of ants marching to their anthill, creatures great and creatures small participate in nature's cyclical dance in the planting of a tree. Jerry Pallotta, author of more than 50 children's books, visits at least 150 schools each year. His book, *The Icky Bug Alphabet Book*, has sold more than one million copies. He is a contributor in Jon Scieszka's book, *Guys Write for Guys Read*. He lives in Needham, Massachusetts. Tom Leonard's children's book art combines a folk-art sophistication with a scientifically realistic interpretation. He was the illustrator for a collection of Margaret Wise Brown's previously unpublished poetry, *Under the Sun and the Moon*, winning praise in *School Library Journal* and *Publisher's Weekly*. He lives in Philadelphia, Pennsylvania.**

***The Tree Book* Sep 10 2022 The secret world of trees is revealed in this beautiful and absorbing guide to the giants of the plant world. Trees occur naturally throughout the world and have been a part of human history almost as long as humans have existed. Used for shelter, tools, fuel, and food, they also help supply the atmosphere with oxygen and form astonishingly diverse ecosystems, as well as some of the world's most beautiful landscapes. Now the intricate world of leafy woodlands and abundant rainforests is revealed in this extensive visual guide to trees, exploring their key scientific traits and their ecological importance, as**

**well as their enduring significance in human history and culture. From ancient oaks and great redwoods to lush banyans and imposing kapoks, The Tree Book reveals the anatomy, behaviors, and beauty of these incredible plants and habitats in detail. Combining natural history and a scientific overview with a wider look at the history, uses, symbolism, and mythology of trees, this ebook is a new kind of guide to these fascinating organisms.**

***The Bear Tree and Other Stories from Cazenovia's History* Jun 07 2022** The historic lakeside village of Cazenovia in the scenic Finger Lakes region is one of the jewels of Central New York, and yet very few books have told its story. Cazenovia is a town founded by wealthy men, and much of what has been written about it has focused on the elite and the grand lakeshore mansions in which they lived. In contrast, Barnes and Emerson's new book chronicles the story of everyday Cazenovia: the fascinating people, places, and history of this 225-year-old community. ***The Bear Tree and Other Stories from Cazenovia's History*** explores the unheralded, inaccurately told, and long-forgotten tales of the town. Readers will encounter historical characters such as elephant and lion tamer Lucia Zora Card, "The Bravest Woman in the World"; educator Susan Blow, "The Mother of American Kindergarten"; and World War I soldier Cecil Donovan, whose letters home vividly depicted the experience of war for those awaiting his return in Cazenovia.

**Little Tree Aug 29 2021** For graduates, for their

parents, for anyone facing change, here is a gorgeously illustrated and stunningly heartfelt ode to the challenges of growing up and letting go. A story of the seasons and stepping stones as poignant for parents as for their kids, from the creator of *Otis the tractor* and illustrator of *Love* by Matt de la Pena.

"Long's gentle but powerful story about a young tree who holds tight to his leaves, even as everyone else lets theirs drop, takes on nothing less than the pain and sorrow of growing up. . . . As in Long's unaccountably profound books about *Otis the tractor*, a pure white background somehow adds to the depth."—The New York Times Book Review

In the middle of a little forest, there lives a Little Tree who loves his life and the splendid leaves that keep him cool in the heat of long summer days. Life is perfect just the way it is. Autumn arrives, and with it the cool winds that ruffle Little Tree's leaves. One by one the other trees drop their leaves, facing the cold of winter head on. But not Little Tree—he hugs his leaves as tightly as he can. Year after year Little Tree remains unchanged, despite words of encouragement from a squirrel, a fawn, and a fox, his leaves having long since turned brown and withered. As Little Tree sits in the shadow of the other trees, now grown sturdy and tall as though to touch the sun, he remembers when they were all the same size. And he knows he has an important decision to make. From #1 New York Times bestselling Loren Long comes a gorgeously-illustrated story that challenges each of us to have the courage

**to let go and to reach for the sun. Praise for Little Tree \* "The illustrations are beautifully rendered . . . Understated and inviting, young readers will be entranced by Little Tree's difficult but ultimately rewarding journey."—Booklist, starred review "Long's gentle but powerful story about a young tree who holds tight to his leaves, even as everyone else lets theirs drop, takes on nothing less than the pain and sorrow of growing up. Season after season, Little Tree clings to his brown-leaved self until he can take a leap and shed his protection. He feels 'the harsh cold of winter,' but soon grows tall and green, and it's not bad at all. As in Long's unaccountably profound books about Otis the tractor, a pure white background somehow adds to the depth."—The New York Times Book Review \* "[Long's] willingness to take his time and even test the audience's patience with his arboreal hero's intransigence results in an ending that's both a big relief and an authentic triumph. Long's earnest-eloquent narrative voice and distilled, single-plane drawings, both reminiscent of an allegorical pageant, acknowledge the reality of the struggle while offering the promise of brighter days ahead."—Publishers Weekly, starred review "Long is sparing with the text, keeping it simple and beautifully descriptive. Brilliantly colored illustrations done in acrylic, ink, and pencil stand out on bright white pages, with Little Tree taking the center position in each double-page spread. Tender and gentle and altogether lovely."—Kirkus Reviews**

**"Children will see the tree facing the scariness of change; adult readers may well feel wistful as the story underscores the need to let their babies grow toward independence. Beautiful. Grade: A"—Cleveland Plain Dealer**

**Thank You, Trees! Feb 15 2023 Rhyming story giving thanks for the gifts trees provide on the occasion of Tu B'Shevat, Jewish Arbor Day.**

**Who's in the Tree? Aug 21 2023 Invites young readers to lift interactive flaps to discover animals that are out of place in different habitats, including the desert, forest, and sea.**
