Crusaders of Dorn Jul 28 2023 The Space Marines of the Black Templars are valiant warrior-knights who fall upon their foes in a storm of bolts and blades. They are the pious champions of the Emperor and the fanatical devotion of their battle-brothers has driven them to deliver righteous retribution against every traitor, alien and daemonic abomination to have been foolish enough to face them. This book gathers together seven stories about this most zealous of Space Marine Chapters, telling the tales of many mighty heroes of the Black Templars and their famous victories against a multitude of enemies.

Crusader! Jun 27 2023 Once known as the "Last of the Gunfighters", the Vought F-8 Crusader has since become a legend in the histories of the U.S. and French navies, as well as a scourge in the skies over North Vietnam in the late 1960s! CRUSADER! is a vital oral history of one of the most controversial fighter planes in carrier aviation. A key to the authenticity of this story are the author's personal interviews with sixteen of the seventeen living Crusader pilots who became MiG killers in the Vietnam air war. His analysis of their aerial engagements over North Vietnam from 1965 to 1973 contains some startling surprises, as well as a validation of many of the tactical lessons learned from World War II and Korea. CRUSADER! also contains personal accounts by F-8 speed record holders such as U.S. Marine Corps Major (now Senator) John Glenn and Captains Bob Dose and "Duke" Windsor. Other aviation records held by the Crusader, (not so enviable) are told, in anecdotal form, for the first time by the author, an F-8 driver and participant in some of them! Colorful, and sometimes humorous, accounts of events involving the F-8 and "Crusader Drivers" abound in this chronicle of carrier aviation covering the three decades when this remarkable airplane was an important element of the U.S. Navy's carrier strike forces. Rear Admiral Paul T. Gillcrist commanded a fleet Crusader squadron, then a carrier air wing and

finally, as a flag officer, became wing commander for all Pacific Fleet fighter squadrons. During his fleet squadron command he completed three carrier deployments to the Tonkin Gulf and flew 167 combat missions in the Crusader for which he was awarded seventeen combat decorations. The author of FEET WET, Reflections of a Carrier Pilot (1990) and TOMCAT, The Grumman F-14 Story (1994), Admiral Gillcrist is well qualified to write the story of the Crusader!

The Smell of Kerosene Oct 19 2022 This book puts the reader in the pilot's seat for a "day at the office" unlike any other. The Smell of Kerosene tells the dramatic story of a NASA research pilot who logged over 11,000 flight hours in more than 125 types of aircraft. Donald Mallick gives the reader fascinating first-hand description of his early naval flight training, carrier operations, and his research flying career with NASA. After transferring to the NASA Flight Research Center, Mallick became involved with projects that further pushed the boundaries of aerospace technology. These included the giant delta-winged XB-70 supersonic airplane, the wingless M2-F1 lifting body vehicle, and triple-sonic YF-12 Blackbird. Mallick also test flew the Lunar Landing Research Vehicle and helped develop techniques used in training astronauts to land on the Moon.
